

LATEST NEWS BY MAIL.

WASHINGTON, May 6.

A joint conference of Republicans of both Houses of Congress was held last night in the hall of the House of Representatives...

MEMPHIS, May 6.

Advised by the steamer Hallday, which arrived here last night, are to the effect that several hundred negroes have armed themselves near Carolina and Leoti landings, Mississippi.

CHICAGO, May 6.

Gray, who attempted to shoot the actor Booth, pleaded guilty this morning of assault with intent to kill, and was remanded for sentence.

TERRA HAUTE, May 6.

The miners strike is serious here. The Union men yesterday forced the stoppage of work in two mines. Trouble is expected.

NEW YORK, May 6.

The Brooklyn Presbytery began voting to-day on the charges against Dr. Talmage. The vote stands at present twelve to acquit, three to find a verdict of guilty, and three undecided.

The Commercial Bulletin says the West and Northwest are exhibiting very decided symptoms of uneasiness at a colossal railroad combination, understood to be now in progress, to control the trade and commerce of the whole continent, between the Atlantic and Pacific.

The Herald rejoices that the Supreme Court affirms the Constitutionality of the Thurman Railroad Act, its only surprise being the dissenting opinion of Field and others. It is asserted, in the dissenting opinion, that the Act is in violation of the contract. It really violates no contract, and is a simple measure of equity for the protection of the Government as the principal creditor of the roads.

In taking up the old sidewalk around Earley's corner last Friday, Jim Shaw, who owns the property and is having the work done, prospected a pan of the dirt underneath the old planking and found it rich in old time placer gold.

Advices from Southeastern Kansas say that about two thousand men have gone into the Indian Territory within a few days, and also that rich silver mines have been discovered south of the Kansas line, and claims in large numbers are being registered daily in a squatter registry office, two miles from Baxter Springs, Kansas.

Now that the new constitution has been adopted in California the stock-brokers are compelled to become partly honest and the railroad companies in that State will have to pay taxes on their vast property. This thing of railroad companies paying taxes and honest stock-brokers is enough to ruin any country.

We are under obligations to Senator Jones for a bound volume of the Congressional Record of the special session of the Senate and first session of the 45th Congress; also for a copy of the Statutes of the United States, passed by the first session of the 45th Congress, 1877.

The name of the State Controller is printed on the poll-tax receipts issued this year. The Lyon County Times says this is in direct contravention of Section 3167 of the Revised Statutes, and the receipts are therefore illegal.

The Republican Congressional Campaign Committee at Washington elected W. E. Chandler, of New Hampshire, Secretary. This is the individual who at one time pronounced Hayes a fraud.

As the new constitution of California has been adopted we presume the S. F. Stock Report will "secede."

Times-Review: It is enough to make a person's mouth water to look at those chunks of ore on the counter at the express office. There are three pieces, the largest of which is nearly three feet in length and about a foot through. They are all nearly covered with blotches of native silver, and the average yield of the lot would probably approximate the rate of ten thousand dollars to the ton. We have never before seen such massive chunks of native truck. They were taken from the Argenta mine.

STATE ITEMS.

The "Tiger" infests Sutro.

Sam Davis is again localizing on the Chronicle.

Empire boasts of a flourishing temperance club.

The Gila Company has levied an assessment of 25 cents per share.

Elko Post: In town: Cherries and cucumbers—colic and contrition.

They will not need any trial jurors at the next term of the U. S. Court in Carson.

An assessment of 50 cents per share is levied on the North Bonanza Mining Company.

The Belmont Courier says there was some rich rock struck in the Seventy-Seven last week.

The Times-Review says the Infidel mill will commence crushing ore from the Infidel mine.

About 50 men are now employed in taking the first wood-drive of the season out of the river at Dayton.

The Reveille says the Indian boys sell bouquets in Austin for a bit. So Austin has got to be a "bit town" at last.

There is not as much bullion passing through Carson, via the stage from the south, as there used to be.

The Esmeralda Herald says Dick McAlpin, of Bodie, is converting his once handsome saloon into a theater.

Reno is infested with a bad crowd, it seems, and the tar and feather brigade will have to be called into service.

Ward Reflex: During the month of April the Martin White Company shipped bullion valued at \$67,225.44.

The Enterprise says the Mexican mill is now being run on tailings. There is plenty of water and the river still rising.

Austin Reveille: During the six days ending yesterday the mill reduced 137 1/2 tons of ore of the assay value of \$20,622.98.

A Digger Indian is employed in the Sutro tunnel as chief engineer of a mule team. He is said to be the best mule driver in the tunnel.

Walter Cox who killed Joseph Kerr at Cherry Creek in November, says the Reflex, was convicted of manslaughter after a six-days trial.

Belmont Courier: Thomas Mitchell, a well known mill man from Tybo and Belmont, has taken charge of the Alexander mill as foreman.

The Enterprise says the Sierra Nevada Company has commenced shipping ore to the Mariposa mill for reduction. This begins to look like business.

Reno Gazette: Forty-two tons of base bullion from the Baconfield mine were shipped from Winnemucca yesterday. It contained over \$500 per ton in silver.

The Highbridge Mining Company, says the Belmont Courier, resumed work on their mine on Tuesday. The company shipped, April 27th, bullion valued at \$7,578.19.

It is feared that St. Mary's Hospital, under the immediate management of the Sisters of Charity, Virginia City. Will have to be closed, for want of means to carry it on.

Carson Tribune: The insuring of the Capitol building was to-day awarded to the companies represented by the Carson City Savings bank, they being the lowest bidders.

Austin Reveille: There is some little prospecting going on in this county, a little more than we were aware of; still, comparatively speaking, the force at work is very small.

Tybo Sun: The Tybo Consolidated have again changed furnaces and are running at the usual rate, the bullion product keeping up to the standard of the past few weeks.

Carson Appeal: A frame house forty feet long, situated on Treadway's ranch was yesterday morning moved a distance of three feet from its place, by the strong wind which prevailed.

The report having gained currency, says the Tuscarora Times-Review, that Pollard and Marancy had bridged over their conjugal split, the former desires us to deny the allegation in toto.

The heavy machinery of the Overman Mining Company will probably be transferred to the Forman shaft next month. It will be sufficiently powerful to sink the shaft to the depth of 3,500 feet.

The Reflex, of Ward, says Judge Rives sentenced Frank Clifford to the State Prison for a term of eleven years. His original sentence was twelve years, and the Judge allowed him the year he had already served.

Silver State: The Paradise Valley Mining Company shipped from Rye Patch last Thursday, three bars of bullion, valued at \$5,737.18. The company have sufficient ore on hand to supply the mill for eight or ten days yet.

Eureka Sentinel: Many persons are building in streets, or where the streets naturally ought to be. The Trustees should declare all of the streets and alleys as marked on the town map in the Assessor's office—public highways.

It is the general opinion of the people at Unionville, says the Silver State, that W. J. Walker, whose neck was broken by falling off a horse last Sunday, died of heart disease and was lifeless ere his body touched the ground.

Ward Reflex: From John Vivian, one of those who has made mining pay in Oceola, we learn that a body of ore had been encountered in the Deadwood mine just before he left that was calculated to cheer the heart of the prospector.

Eureka Leader: Sheriff Baum, of White Pine, came in last night with Clifford, the bullion thief, and Walter Cox, the murderer, the first going over to Carson to spend eleven years, the second to the same place for two and a half years for manslaughter.

Lyon County Times: A lady of this city who recently visited some friends in Dayton says that the women of that town are remarkably prolific, at least fifteen babies having been born there since the first of January. The population of the town does not exceed 1,000 souls.

The Lyon County Times says two negroes are employed in the Sutro Tunnel. As they cannot work there without becoming members of the Silver City Miners' Union, and no colored men have ever been initiated, that body is wrestling with the complex question whether to admit them to full membership, or to simply allow them to work on a permit.

During a variety performance at Paradise village, May 4th, Chas. Hymer shot, and, the physician says, fatally wounded T. K. West. A witness to the affray says that the shooting was unprovoked, and that Hymer would have been lynched by the infuriated audience had not the Deputy Sheriff quickly driven him to his place and locked him in the County Jail.

Carson Appeal: The "Old Timer" who has been anxiously waiting for the establishment of an "Old Stiff's Resort," feels very much chagrined at the decision of the Supreme Court, declaring the Legislative bill providing for such an institution, unconstitutional. Talk about the colored exodus from the South! Why, the emigration of old bums from Nevada, as soon as walking becomes good, will even overshadow the flight of the Jews from Egypt.

Died.

At Pioche, May 5th, Jason P. Curtis, a native of Massachusetts, aged 53 years.

ATTENTION LADIES OF Pioche and Vicinity.
