

OUR GOLD MINES.

The following information comes from what we consider a reliable source.

The Lincoln County gold mines, about which so many wild rumors have at various times been current in Pioche, are not like the mythical "Bryfogles" but have an actual existence, and their location is known.

The Boss Mine owned by Mackay Bros. shows a ledge 500 feet in length, an average of 10 ft. in width.

The Bell mine owned by Towner has a shaft sunk upon the ledge to a depth of 40 feet. The last five tons of ore, worked in 1889, produced by the rastra process \$100 in gold bullion.

The Gray Eagle owned by the Mackay Bros. and Towner, has exposed a ledge two and one half feet wide for a distance of 50 feet.

The Bay Dick claim owned by the Mackay Bros. is laid off in a north-easterly and south-westerly direction almost at right angles with the claim above mentioned.

Several proposed railway routes run within a few miles of these mines, and any road that passes through Ash Meadows will have to go very close to them.

At the regular monthly meeting of the Board of County Commissioners held last Monday the following business was transacted:

Monthly statements of county officials read and approved.

It was ordered that the sum of \$150 be transferred from the General County Fund to the Indigent Sick Fund, and \$250 from the General County Fund to the Salary Fund.

Claims against the county as appears elsewhere were then allowed.

No further business presenting itself the Board adjourned.

Facts About the Census.

The taking of the census begins on June 2. In cities or towns of 10,000 or more inhabitants the work must be finished within two weeks from the beginning of the work.

In the city the enumerator will be paid per capita, in the country by the day. The man in the country might ride ten miles to get one head.

People everywhere may as well understand at the start that every question asked by the census man must be answered. It is the United States government that asks the question.

You will give your name, age, sex, birthplace nationality, color, business, married or unmarried.

Lincoln county is divided into five districts. The enumerators for the respective districts as far as appointed are as follows:

District No. 20, comprising Pioche and the northern part of the county.—Alex. Harrison.

District No. 29, Pahrangat and Quinn Canyon.—G. W. Richards.

District No. 30, Panaca, Meadow Valley Wash, Spring, Eagle and Clover Valleys.—J. Wadsworth.

For district No. 27, Muddy Valley and Mesquit, and district No. 28, El Dorado Canyon, Pah-rump and Ash Meadows, no census enumerators have been appointed as it is a hard matter to get some one to take it.

Two Abused Gentlemen Fully Acquitted.

The United States grand jury, which has been session at Helena for some days, yesterday presented a partial report.

Among the acts of the jury there was one that is of special importance to the residents of Butte, in that it fully exonerated Louis Wertheimer, formerly deputy postmaster of Butte, who had been accused of irregularities and who was held under bonds to await the action of the federal jury.

In its report the jury says that the evidence was not sufficient to justify an indictment, and it therefore recommended that the case be dropped and sureties released.

This is only what the friends of Mr. Wertheimer expected. Yet he and they would have been glad to have appeared in a court of justice, where the testimony could have been made public in order that a jury of his peers could have vindicated him.

The other case was that of Wm. B. Webb, ex secretary of the territory. This was no doubt a political prosecution, for it was instituted after Mr. Webb had vacated the office and while he was acting as secretary of the Democrat state committee.

The federal jury which exonerated him was drawn by a Republican United States marshal under the direction of a Republican circuit and district judge, and while the exoneration is complete, Mr. Webb would also have preferred to meet his accusers in open court and justify himself.

To each of the gentlemen we extend congratulations that neither personal spite or partizan malice has affected their reputations even before so inquisitive and ex parte a body as a grand jury.

A bottle of Trib should be in every household.

What a Newspaper Writer Has to Endure.

An exchange says: The man who writeth for a newspaper is of a few days and lots of griefs. He riseth in the morning and knoweth not what the day may bring forth.

If he tolleth all the news he runneth a great risk of having a tin cap put on him, and if he tolleth not the news the people say he is n. g., and there is no joy in it.

The crafty man cajoleth him into giving him a 50-cent puff for a 5 cent cigar, and fond mothers frown on him if he failleth to flatter their freckled-faced broods.

And all his ways are ways of woe, and his days are full of sorrow. The life of the editor is full of cares and on the whole he hath a duce of a time.

The Directors of the Provincial Bank of Ireland have issued a decree that no clerk in their employ receiving less than \$750 a year shall be allowed to marry.

A similar rule is in force in some of the principal London banks. How would it do to advance salaries in such cases to an amount a little in excess of \$750 per annum?
