

POSTOFFICE HOURS.

8 A. M. to 7 P. M. SUNDAYS. 6 P. M. to 7 P. M. No money orders issued or letters registered after 6:30 P. M. and none on Sundays.

LOCAL INTELLIGENCE.

Mrs. Wes. Williams was in town this week from Royal City, visiting friends. Frosted fancy drinks at the Palace. Summer has come at last. Yesterday the thermometer went up to 90°.

For the fine family liquors, call at the Palace. J. Eisenmann, our hardware merchant and capitalist, departed for Chicago on Sunday's stage.

Sam E. Wertheimer made a flying visit to Panaca, Tuesday. Children's clothing, it is said, may be made fireproof by adding an ounce of alum to the last wringing water.

For a fine cigar call on Sam E. Wertheimer. Ed. F. Freudenthal sent out a load of supplies Sunday to his mines in Comet district.

Fancy ice cold drinks at the Palace. Com. Conaway was in town Monday in attendance upon the Board of County Commissioners.

The only cold air refrigerator in town is at Wertheimer's sample rooms and all liquors are correspondingly cold.

A Bourbon pretender—one who pretends he doesn't like Sam Wertheimer's whisky of that brand when he does.

Salt Lake Beer at Thompson's, at the low price of \$2.50 for a dozen bottles. Football is all the rage with the youth of Pioche. Arrangements are being made for a match game on the Fourth of July.

Alex. Thompson has just received a carload of Salt Lake Bottled Beer, Soda and Sarsaparilla, which he is rapidly disposing of.

Step in and keep cool at the Palace. Henry Rice was in town last Saturday from Spring Valley. He reports everything as suffering from drought in that section and unless there is rain soon, the loss to cattlemen will be severe.

If you want a dozen bottles of assorted Soda or Sarsaparilla at \$2.50, call at Thompson's. John R. Cook has charge of the affairs of the P. C. Co. during the absence of the manager, T. J. Osborne.

The celebrated McBryer whisky is the finest in the world. Families supplied. S. E. Wertheimer has the sole handling of this famous whisky.

According to the White Pine News there is quite a number of mining men in that county examining properties. It is to be hoped that the inspection will be satisfactory to all concerned.

Judge Thorne was in town Wednesday from Delmo's ranch, where he is rustating for the good of his health. He is well pleased with life in the country, away from the bustle, noise and dust of the metropolis.

Mining Location Notices for sale at this office. The Palace is the coolest and pleasantest resort in town.

A young lady of Panaca is said to have heated her curling-irons extra hot and then by mischance dropped them down her back. The antics of a high kicker were "not in it" as compared to the gyrations of the unlucky Panacan.

Alex. Thompson is providing for the wants of the people of Pioche during the warm weather, having just received a carload of Salt Lake Beer, Soda and Sarsaparilla, which he is disposing of at \$2.50 for a dozen bottles.

The Elko Free Press says Judge Talbot has departed for a trip East. He goes to Norwich, Conn., to visit relatives, and will take in the World's Fair.

The house of S. E. Wertheimer has secured the exclusive handling for this section, of the celebrated McBryer whisky.

A special edition of the San Francisco Call was issued Sunday before last and it was as handsome and complete a newspaper as one would wish to see. It contains a fac simile of the first Call issued in December, 1856. The Call is indeed a model newspaper.

People of Nevada who are going to the World's Fair should register as coming from Kansas if they want to have enough money left to get home on. When a landlady finds "Nevada" opposite the guest's name, he immediately takes him for a bonanza king and charges him accordingly.

The County Commissioners have directed that the ordinance relating to throwing rubbish in the streets, be strictly enforced. Last month Main street was cleared of the winter's accumulation of trash, giving the street a neat and tidy appearance. The ordinance requires that all rubbish be placed in barrels or boxes, ready for removal, but some persons are in the habit of throwing all kinds of trash in the street, for the winds to spread broadcast, to the disgust and annoyance of the public. The ordinance is a good one, and it is hoped all will

comply with it without putting the authorities to unnecessary trouble.

The finest bar liquors in the country are dispensed over the Palace bar. Seventeen tons of ore were shipped from the Yuba mine yesterday and twenty-five tons to-day, with lots more left in the ore bins.

H. J. and H. Goodrich have shipped two carloads of slag from the old smelter dump on Meadow Valley street. They expect handsome returns.

John E. Ferguson returned on this morning's stage, after a visit of several weeks in California. At Panaca he took conveyance to his home in Hiko.

The Poorman mine is looking better as work progresses, shipments of ore being made right along. The Poorman will eventually prove to be one of the great producers of the camp.

The auction sale of household furniture belonging to W. L. Cook, last Saturday, was fairly attended, and the articles brought fair prices, better in fact than the owner anticipated.

It is said there will be a picnic held at Highland next Sunday. No organization will have it in charge, and there will be no formality in the gathering. It will be a kind of a come-and-go-as-you-please picnic.

The Clerk was directed to send to the Secretary of State a certified copy of the appointments of Justices of the Peace of Lincoln county, and also secure copies of the Statutes and Compiled Laws of 1893.

It was ordered that the Clerk post two notices that bids will be received until the first Monday in July for the construction of a bridge in Cave Valley on the public road.

Justice A. Denton tendered his resignation as Justice of the Peace of Helene township, which was accepted.

A petition was presented from citizens of Bullionville asking that T. Morgan be appointed Justice of the Peace for Bullionville. The prayer of the petitioners was granted, and Mr. Morgan's bonds were fixed at \$1000.

The bonds of Samuel Reed as Justice of the Peace of Helene were accepted.

A communication from Panaca, in relation to the care of Miss Armstrong, was presented to the Board. It was signed by Mrs. W. T. Rich, Mrs. W. R. McFadden, Mrs. J. A. Higgins and Mrs. J. B. Atkinson. The matter was laid over for future consideration.

Mrs. Jose was allowed \$15.00 for the month of June, in advance.

It was ordered that the lumber, amounting to 900 feet, now in Panaca belonging to the county, be transferred to Meadow Valley Wash and left in charge of J. Conaway.

The Board directed that the ordinance in regard to throwing rubbish in the streets of Pioche, be strictly enforced.

Death of a Noted Pioneer Lawyer. Ex-Judge Richard S. Mesick died at San Francisco on the 26th ult. The Virginia Chronicle says he was a native of New York, aged 69 years, and came to California in 1849. He was admitted to practice at Sacramento; from there he went to Marysville, where he was associated with Stephen J. Field. In 1863 he came to Nevada and located in Virginia City. He was once elected Supreme Justice. The Constitution was not adopted and he did not receive the office. He served a term as District Judge, however, and in bonanza days was attorney for Flood, Mackay and others. He was of counsel in the case of Sarah Althea Hill against Senator Sharon, and was employed in the defense of Nagle for killing David S. Terry. Mr. Mesick was never married. He had considerable property and bequeathed one-half of it to George H. Maxwell, his former partner, and one-half to his servant, John Rivers. He requested that his body be cremated, and his request was complied with at Los Angeles last week.

Trouble at Tintic, Utah. Two shanties adjoining the Bullion-Beck mine at Eureka, Utah, were blown up, or down, by dynamite last Sunday night. They were unoccupied at the time, their owners, "scab" miners, being at work in the Beck mine, which employs none but "scab" labor at reduced wages, although it is the richest and greatest producing mine in the district. Public opinion being against the outfit, the shanties were probably destroyed for the purpose of conveying the idea that they are "persecuted" by the union men. Whatever the object was, it has succeeded in bringing to the camp a swarm of marauders, "detectives," et al., with lawyers and judges, all doubtless anxious to distinguish themselves and make a "stake."

The Mormon Temple Hardware. "Hardware," a journal published in the interest of that trade, says that "all the hardware used in the great Mormon Temple at Salt Lake City, dedicated on April 6th, was made to order, and bears either the device of the Beehive—the Mormon name of their country being 'Deseret,' or 'the land of the honey bee'—or clasped hands, which is also one of the symbols of their church. In the basement all the door-knobs and hinges are of solid brass, polished. Those upon the first floor are plated with gold, on the second floor with bright silver, and on the third floor with oxidized silver, and those on the top floor are of antique bronze."

Fourth of July Meeting. There will be a meeting of citizens at No. 2 Hose House, Tuesday evening, June 13th, to take steps toward the celebration in Pioche of the greatest of America's anniversaries, the Fourth of July. Let every citizen of our town be present!

Grand Ball by the Brass Band. A grand ball will be given by the Pioche Brass Band at Thompson's Opera House to-morrow (Friday) evening. Dancing will commence promptly at 9 o'clock and conclude at 1 o'clock. A cordial invitation is extended to the public. Admission \$1.

It is perhaps not generally known that water carries has a distinct value as a blood purifier.

Doctors, Attention! A physician can secure a good average practice in Pioche. Communicate with JOHN SHIER, Druggist, Pioche, Nevada.

COMMISSIONERS' PROCEEDINGS.

The Board met in regular session last Monday, all the members present.

The minutes of the previous meeting were read and approved. A number of claims were presented and allowed. The list will be found in another column of THE RECORD.

At the last meeting of the Board a petition was presented by residents of Muddy Valley asking that Robert Logan be required to open a road to travel which he had fenced up. The Clerk was directed to communicate with Mr. Logan in regard to the matter, and received a reply stating that the road was private property and that the signers of the petition were not residents there.

The Board ordered that Mr. Logan be notified to present affidavits of actual settlers that the wagon road running through his land is not a public highway and that the same be presented to the Board at its meeting in July.

The Clerk was directed to send to the Secretary of State a certified copy of the appointments of Justices of the Peace of Lincoln county, and also secure copies of the Statutes and Compiled Laws of 1893.

It was ordered that the Clerk post two notices that bids will be received until the first Monday in July for the construction of a bridge in Cave Valley on the public road.

Justice A. Denton tendered his resignation as Justice of the Peace of Helene township, which was accepted.

A petition was presented from citizens of Bullionville asking that T. Morgan be appointed Justice of the Peace for Bullionville. The prayer of the petitioners was granted, and Mr. Morgan's bonds were fixed at \$1000.

The bonds of Samuel Reed as Justice of the Peace of Helene were accepted.

A communication from Panaca, in relation to the care of Miss Armstrong, was presented to the Board. It was signed by Mrs. W. T. Rich, Mrs. W. R. McFadden, Mrs. J. A. Higgins and Mrs. J. B. Atkinson. The matter was laid over for future consideration.

Mrs. Jose was allowed \$15.00 for the month of June, in advance.

It was ordered that the lumber, amounting to 900 feet, now in Panaca belonging to the county, be transferred to Meadow Valley Wash and left in charge of J. Conaway.

The Board directed that the ordinance in regard to throwing rubbish in the streets of Pioche, be strictly enforced.

Death of a Noted Pioneer Lawyer. Ex-Judge Richard S. Mesick died at San Francisco on the 26th ult. The Virginia Chronicle says he was a native of New York, aged 69 years, and came to California in 1849. He was admitted to practice at Sacramento; from there he went to Marysville, where he was associated with Stephen J. Field. In 1863 he came to Nevada and located in Virginia City. It is perhaps not generally known that water carries has a distinct value as a blood purifier.

HELENE NOTES.

Four teams loaded ore from the April Fool Saturday.

The Snowflake, owned by C. E. Goodrich and others, is looking well under development work.

Joseph Conaway left for Pioche Friday, where he goes to meet with the County Commissioners.

Mosier, Reed, Schaefer and Maynard were passengers on Saturday's stage for Pioche, on business bent.

Cap. Matthews made a flying trip to this place Saturday on business and returned to Panaca the following day.

The Short mine, owned by Nesbitt Bros., is looking better as development progresses. Two men are working in it.

James Douglass, who was injured in the sawmill ten days ago, is rapidly improving. He will be all sound again in a few days.

Work on the Magnolia still goes on. They are sinking and drifting on the No. 1 shaft. It looks better now than it did six months ago.

George Liston, from Meadow Valley Wash, stopped here on his way to the new camp of Good Springs, where he has mining interests.

The Little Emma is looking better than it has for some time. The ledge is reported to be five feet wide. About 20 tons of high grade ore is on the dump that will pay to ship.

The ledge in the Monitor is twenty-four feet wide and is said to carry clear across the face over averaging fifty dollars to the ton in gold. Teams are wanted to haul the ore to Milford.

Herman Keische, who has been working in Cedar for the past eight months, left last week for Morey, Nye county, where he has some good mining property which he is going to work this summer.

C. R. Crandall came in from Vanderbilt Sunday. He reports that place pretty lively. There are about 75 men working in New York and 25 in Vanderbilt districts. Potatoes are selling for five cents a pound and water for three cents per gallon.

The bins at the April Fool are full of ore and the boys are now piling the ore upon the dump. They would like to employ some teams, as they desire to make more shipments to Salt Lake. There are two carloads of ore now in the bins and plenty more in sight.

MINING NOTES.

Lovelock is all excitement over the discovery of tin ore in that place. It is said that the ore carries over fifty per cent tin.

The tunnel on the Contact claim at Silver City has been jumped by the owners of the Red Jacket mine and everybody in the vicinity carries a gun.

There is war in the Buckeye Mining District, formerly called Pine Nut, the Black Horse claim being jumped by a party of twenty, who ordered off the owners at the point of Winchester.

Gold ore has been discovered two miles from Olympia, Wash., by an old prospector. This ledge, which is of burnt quartz, extends a distance of half a mile, and throughout the distance are indications of thread gold.

Engineer W. R. Eckart who is making a report of the Comstock mines, is said to have made the remark, that the mines of Virginia City would all be working in a couple of months, and that it was a good camp to stick to.

Don't be gulled, prospectors, into going to the Henry Mountains. We have inquired about that country from people who were in there last summer and fall and they say the natural disadvantages are too great in comparison to the advantages to make it a desirable country for the seeker of mineral.—Mojave Miner.

A Mexican came into Phenix last night and reported the greatest strike ever made in this country. One and a half miles north of the north end of Granite range and about two miles south of the Desert Wells in Yuma county, an immense vein of gold ore, he says, has been discovered by Mexican wood-choppers. The vein is in iron and quartz, over three hundred feet wide and averages from assays made at the Bonanza mine at Harqua Hals, \$4,870 a ton in gold. Great excitement prevails in the vicinity of the Harcouer range.—Phenix Gazette.

Southern Oregon is experiencing a mining boom that promises to be about like the days of '49. Each exchange every week announces rich strikes. In the early fifties most of the miners were looking for coarse gold in the creeks and rivers, but now the quartz mines are being found.

The Ashland Tidings says: "The latest strike of the gold flieger quartz which goes thousands of dollars to the ton is reported from Willow Spring. The lucky prospector is Jacob Hersberger. He has found a twenty-inch ledge of white and blue quartz literally full of wire gold, and in one day took out rock estimated to be worth \$1000.

FROM BULLIONVILLE.

The weather is very warm.

There is some talk of celebrating the 4th.

The Indians come over from Panaca regularly to demolish Charlie Pook's bandouts.

There are several good base ball players in Bullionville. A nine could be easily organized if the boys only had time to play.

Mace Dixon has resigned his position here and gone to seek more congenial employment. Mace held down a twelve hour job a long while, and, as he says, he's "not as young as he used to be," sometimes.

Earnest Godbe has taken charge of the mill and everything is running smoothly. Dan Williams is in the assay office. The new tanks are now being loaded with ore and heavy shipments of sulphides will soon begin.

Seven salt and four lumber teams arrived this week, besides numerous small loads of supplies for the mill and for the company's store. Large quantities of cordwood are coming in and two teams are kept busy hauling tailings up to the mill.

Miss Clara Barber, Miss Hattie Wadsworth and Miss Wedge, all of Panaca, called at Bullionville Sunday evening. In the absence of Mrs. Godbe they were entertained by the members of the Bullionville string band. One of the young ladies sang very nicely.

Pat Shehan left for Denver last Sunday. Everyone is sorry to see Pat go, but as he has not lost a day in six months and the position of overseer of the Bullionville works, which he has occupied, is an arduous one, he needs and is deserving of a rest. We hope to see him return again shortly. Pat has made a good reputation for himself at Bullionville aside from mill work, which we hope he will not lose as he goes abroad.

I see by the "Load" that Francis McMahon whose leg was injured at the Bullionville works recently, "is rapidly recovering from his injury" or words to that effect. Permit me to state that Francis McMahon never was injured in any way while at the Bullionville works.

NEVADA NOTES.

There are ten gin mills and one quartz mill in Austin.

Jack rabbits are doing much damage in Mason Valley.

The tax rate is \$2.55 this year, five cents less than last year.—Lyon County Times.

The use of carbon bi-sulphide is doing great work in exterminating squirrels in Mason Valley.

C. H. Colburn, coiner of the mint at Carson, received a dispatch from Secretary Carlisle, notifying him to discharge his force and hand in his resignation by the 10th of June.

After ten months absence from business the editor and proprietor of the Reno Gazette again assumes charge of that excellent paper, having fully recovered his health.

The Chronicle says that word has been received in Virginia that John H. Collins, a miner who formerly lived on the Comstock, died at Johannesburg, South Africa, on the 22d of March last.

The Appeal says as U. S. Marshall Humphreys was taking a batch of prisoners to the United States district courtroom one of their hats blew off. One who was not hand-cuffed was requested to get the hat and when last seen he was chasing it over the hills and far away.

The Tidings says that in Mason Valley there are a number of women farmers, who are successfully managing the places left to them by their late husbands. They succeed better in many respects than most of the men, because they are more methodical and generally less inclined to run about the neighborhood to borrow a chew of tobacco or talk politics or stud horse.

Dick Bender, the Washoe Indian, has succeeded in getting Sheriff Caughlin to issue an order compelling all Indians to leave town for their campgrounds at sundown. The order went into effect to-day and a well-known Indian by the name of Bob Loomin has been appointed deputy sheriff. It is presumed that there will be less drunkenness among the Indians in the future.—Reno Gazette.

ADVERTISED LIST.

The following letters remain uncalled for at the Pioche postoffice, June 5, 1923. Dawson C. V. Hobbs Fred Johnson C. M. Longmaid Jno. Riley Joseph Thompson Jane L.

FOREIGN. Anton Bionda Parties calling for any of the above will please say "advertised."

JOHN SHIER, P. M. The Mohave Miner says "water is what we need, and lots of it, but we don't want to pay a whisky price for it."

ALL SORTS.

A Scotch newspaper publishes births, marriages and deaths under the title of "Yells, Bells and Knells."

"That air is very familiar," said the musician as a gust of wind took his hat away.—Harvard Lampoon.

The birth of two children within two months to Mrs. Bertha Carson of West Union, Ohio, puzzles the doctors.

It was a Boston girl of very uncertain age who is reported to have said, "Where singleness is bliss, 'tis folly to be wives."

The St. Johns (Ariz.) Herald is credibly informed that the Little Colorado river, for eight or ten miles south of that town, is literally lined with dead and decomposing cattle.

Insects may be destroyed with hot alum. Put it in hot water and let it boil until the alum is dissolved. Apply hot with a brush, and all creeping things are instantly destroyed without danger to human life or injury to property.

Here is the latest from an exchange: Thomas went to his barn last night to milk in the dark, got into the wrong stall and undertook to milk a mule. He arrived from above about ten minutes later, and expects the bucket down in a few days. The barn will need a new roof.

The Nephi (Utah) Courier says an extraordinary specimen of nature has been viewed by many in that place the last few days. A double-headed lamb was born out on the range and brought to town. The two heads are separate and distinct, being connected back of the eyes. It has four eyes and three ears, the third being in the middle at the separation for the two heads.

NEW TO-DAY.

BILLS ALLOWED

—BY THE—

COUNTY COMMISSIONERS

—OF—

LINCOLN COUNTY

—AT—

MEETING HELD JUNE 5, 1923.

Table with 2 columns: Name and Amount. J. Conaway 16.66, T. E. Edwards 16.66, M. Schaefer 16.66, J. A. Clark 41.66, W. J. Dooley 66.66, H. W. Turner 116.66, Wm. Culverwell 83.33, E. D. Turner 75.00, H. E. Freudenthal 116.66, J. A. Clark 50.00, Dr. J. D. Campbell 70.00, John Shier 4.25, E. D. Turner 2.50, Cook Bros 12.80, John Bowler 5.00, Mrs. C. McMahon 15.00, Ed Lytle 9.25, J. A. Clark 2.00, M. Gillan 2.00, H. Welland 1.50, H. Welland 4.25, A. Harrison 48.75, J. Nesbitt & Bro 2.65, Silas Woolrich 20.00, Chas. Sam 10.00, Ong Chong 15.00, Samuel Kershaw 10.00, Jos. Frenchy 10.00, A. A. Young 9.75, Ute Perkins 7.00.

STATE OF NEVADA

County of Lincoln, ss. I, J. A. Clark, Clerk of the Board of County Commissioners of Lincoln County, State of Nevada, hereby certify the foregoing to be a full, true and complete list of all claims against said county, allowed by a full Board on the date above given.

J. A. CLARK, Clerk.

NOTICE.

To whom it may concern: NOTICE is hereby given that on and after TUESDAY, June 5th, 1923, the laws relating to Hogs, Cattle and other animals running at large within the Town of Pioche, will be ENFORCED strictly. All persons owning such will do well to look after them in season and save expense and trouble.

E. D. TURNER, Sheriff. Pioche, Nevada, June 1, 1923.

E. L. GODBE,

ASSAYER,

Bullionville, Nevada.

Samples can be left with S. E. Wertheimer, Pioche, who will receive all returns promptly the following day. Analytical work a specialty. Charges moderate, and absolutely correct work guaranteed.
