

Pioche Weekly Record

THURSDAY, JUNE 15, 1923.

POSTOFFICE HOURS.

8 A. M. TO 7 P. M.

SUNDAYS.

6 P. M. TO 7 P. M.

No money orders issued or letters registered after 6:30 P. M. and none on Sundays.

JOHN SHIRK, P. M.

LOCAL INTELLIGENCE.

Subscribe for the RECORD. No appearance of rain, though badly needed.

Frosted fancy drinks at the Palace. The Pioche Con. Co. paid off yesterday for the month of May.

For fine family liquors, call at the Palace.

The dance given by the Pioche Brass Band Friday evening was a pleasing success socially, if not financially.

For a fine cigar call on Sam E. Wertheimer.

Don't forget the Fourth of July meeting at No. 2 Hose House to-morrow evening.

The house of S. E. Wertheimer has secured the exclusive handling for this section, of the celebrated McBryer whisky.

A. W. Ellis, one of the owners of the April Fool mine, came up from Helene yesterday.

Mrs. James Pierson left Sunday morning for Salt Lake on a visit to her daughter, Mrs. Frank Godbe.

Fancy ice cold drinks at the Palace.

Saturday next is the anniversary of the battle of Bunker Hill, a day that should be observed far more than it is.

The only old air refrigerator in town is at Wertheimer's sample rooms and all liquors are correspondingly cold.

The Beaver Utonian has changed management. R. Messer, the former proprietor, again assuming charge.

Salt Lake Beer at Thompson's, at the low price of \$2.50 for a dozen bottles.

County Clerk Clark issued a marriage license Tuesday to Wm. Matthews, Sr., of Pansco, and Dorothy Paulsen of Salt Lake, Utah.

Alex. Thompson has just received a carload of Salt Lake Bottled Beer, Soda and Sarsaparilla, which he is rapidly disposing of.

THE RECORD acknowledges the receipt of an invitation to attend the commencement exercises of the University of Nevada, at Reno.

Among the new diseases which physicians are called upon to prescribe remedies for are telephone ear-ache, gum-chewers' lockjaw, type-writers' backache and cigarette smokers' insanity.

Step in and keep cool at the Palace.

Several parties visited Highland last Sunday, interviewed John Joachimson at the brewery, inhaled health-giving draughts of mountain air, and feasted their eyes on the beautiful scenery.

T. J. Osborne, manager of THE RECORD, writes from Salt Lake, where he has been enjoying the sights for a few days, that he will depart for the World's Fair this morning.

Mining Location Notices for sale at this office.

Johnny Roeder, who has been suffering from a rheumatic attack, has recovered and is again attending to business.

The Palace is the coolest and pleasantest resort in town.

The Sheriff is enforcing the law relating to hogs running at large in the town limits. Yesterday about a dozen "Minors razor-backs" were impounded, to the sorrow of the owners, who look upon the public streets as the proper feeding place for their porcine property.

Alex. Thompson is providing for the wants of the people of Pioche during the warm weather, having just received a carload of Salt Lake Beer, Soda and Sarsaparilla, which he is disposing of at \$2.50 for a dozen bottles.

Walter Cooper, one of Pioche's tonorial artists, has closed out his shop and on Tuesday morning departed for the present Mecca of America—Chicago. Should this section ever "pick up," Mr. Cooper will be one of the first to return, as he likes the country and climate; but a person cannot live altogether on climate.

Happy days and restful nights result from using Ayer's Sarsaparilla. It so regulates all the bodily functions and strengthens the nervous system that worry and fatigue are comparatively unknown and life is truly enjoyed. It is certainly a most wonderful medicine.

Monday afternoon parties who were gazing the house occupied by Snyder the Tailor, on lower Main street, discovered that the place was on fire. On entering, Snyder was found asleep in his bunk, oblivious to the storm that was raging outside or the fire that was preparing to engulf his domicile. The application of a bucket of water extinguished the fire and at the same time disturbed the slumbers of Snyder.

The Pioche Consolidated Mining Company held its annual meeting on the 5th inst. at Salt Lake City and elected the following directors for the ensuing year: W. S. Godbe, H. J. Olds, F. J. Jackson, O. P. Niles, Henry Dinwoodey, J. H. Lacey and Frank Godbe. At the directors' meeting the following officers were elected: President, W. S. Godbe;

vice-president, Frank Godbe; secretary and treasurer, J. H. Lacey.

Foster predicts a heavy windstorm accompanied by rain on the 19th or 20th.

The finest bar liquors in the country are dispensed over the Palace bar.

Let everybody attend the meeting to-morrow evening, when final arrangements will be made for celebrating the Fourth of July.

If you want a dozen bottles of assorted Sodas or Sarsaparilla at \$2.50, call at Thompson's.

The latest postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it.

A railroad from Milford, Utah, to Pioche, Nev., would make the latter an exceedingly lively mining camp.—Tehachapi Tribune.

The celebrated McBryer whisky is the finest in the world. Families supplied. S. E. Wertheimer has the sole handling of this famous whisky.

Dandruff is due to an enfeebled state of the skin. Hall's Hair Renewer quickens the nutritive functions of the skin, healing and preventing the formation of dandruff.

The Bingham (Utah) Bulletin has entered upon its third volume. The Bulletin is a live paper and has helped wonderfully to bring that camp into notice.

W. B. Stanley of Lake Valley was in town Friday. He recently returned from Vanderbilt, where he spent about two months examining mining property.

The Grand Lodge A. O. U. W. will meet in Reno August 19th. This will be the first meeting of the Grand Lodge since Nevada was made a separate jurisdiction.

JOB PRINTING in all its branches, equal in style to any done at this office.

Dr. Meeks having taken charge of the Postoffice Drug Store, announces that next week he will be prepared to serve the public with milk shakes and other palatable summer drinks.

Whole cloves are now used to exterminate the merciless and industrious moth. It is said they are more effectual as a destroying agent than either tobacco, camphor or cedar shavings.

Geo. B. Van Emou departed to-day for Silver Park. Working the assessment on some claims which he owns there, is the main object of his journey, but he will do some prospecting before his return.

County Treasurer Dooley writes from San Francisco that he expects to be in Salt Lake to-day, where he will stop over a day or two and then proceed to Chicago, where he will take in the wonders of the World's Fair.

Ayer's Hair Vigor is a universal beautifier. Harmless, effective and agreeable, it has taken high rank among toilet articles. This preparation causes thin and weak hair to become abundant, strong and healthy, and restores to gray hair its original color.

Dr. Meeks came in from Helene Saturday. Doc's many friends will be pleased to learn that he has taken charge of the Postoffice drug store here, during the absence of Mr. Shier, who intends making an extended visit to Salt Lake and other cities.

The round-up of marketable cattle near Pony Springs is about finished, as the delivery must take place by the 22d. Ex-Gov. Adams and A. C. Cleveland are the principal purchasers. The prices paid range as follows: For yearlings, \$10; for 2-years, \$18; for 3-years and up, \$11.

The Tascorara Times-Review has suspended its daily issue until such time as business may warrant its resumption. It gives as a cause, a stagnation of the mining industry in consequence of the low price of silver, with its paralyzing effect upon all other branches of business. The paper will be issued weekly.

George O. Sawyer, son of Judge G. S. Sawyer, departed on this morning's stage for Salt Lake City, where he will enter the machine shops of the Rio Grande railway company, as an apprentice. George has been raised in Pioche and the best wishes of all go with him in his new undertaking.

Monday was a genuine Kansas zephyr day in this section. From early morning till sundown the wind fairly howled, filling the air with clouds of dust, but doing little damage. Several sheds were unroofed, and one of the large trees in front of Alex. Thompson's residence had a limb wrenched off. Altogether it was about the most disagreeable day experienced in town for over a year.

District Attorney Culverwell is in receipt of an invitation to the wedding of Miss Carmelita Cornelia, daughter of Mr. and Mrs. R. D. McLane, to Mr. Samuel Bowly. The ceremony took place on the 7th inst. at Marysville, Mont. The bride and her parents are well-known to all old timers of Pioche. The family resided here for many years, and this is the young lady's birthplace. Mr. McLane was for a long time employed as engineer at the Raymond & Ely mine.

Salt Lake Races. The spring meeting at Salt Lake City, June 19th to 24th, will be the greatest racing event in the West. The large amount of premiums will bring out a great field of horses. Five times as many runners will start in the race as started last year. If you want a week's pleasure, visit Salt Lake during the races. As the railroads have made their rates, a great gathering is expected.

GOOD NEWS FOR FERGUSON.

The Hiko Mill leased by the Owners of the Magnolia Mine.

Messrs. Cohan, Ferguson Bros., and Manning of the Magnolia Mining Co., on last Monday leased the Hiko quartz mill for the period of two months, with the privilege of two years. The consideration is \$300 a month.

The mill will immediately undergo a thorough repairing, and it is expected that by the first of July everything will be ready for the mill to start up.

A. H. Cohan arrived in Hiko last Saturday from Morey, and is enthusiastic over the outlook.

This is indeed encouraging news not only to the owners of claims in Ferguson district, but to all the people of that section of our county. If the mill proves a success it will revive the mining business as well as give new life to the farmers of that rich section, who will have a market for their products.

HELENE NOTES.

Eight men are working in the Monitor. The boys are going to make a good showing.

Mrs. Myers is doing a good business. She is running the Magnolia boarding house.

Mr. Ellis left this morning for Salt Lake City on a business trip and will be gone about two months.

William Barrin has brought suit against Conaway and Roeder for \$148 due him for work on their claims.

Twelve teams loaded ore from the April Fool mine the last week and there is about fifty tons more ore on the dump ready to ship.

James Gibson has taken the contract to log and saw one hundred thousand feet of lumber. He has already commenced work.

The Flagstaff is looking better now than it ever has before. The ledge is five feet wide and the ore is all fine milling, but it won't pay to ship.

Found, between Grassy Springs and Helene, a horse ball. The owner can have the same by asking the Pioche stage driver and proving property.

It has been reported that the little mill in Hiko will start up in a few days. Cohan is over there making preparations for a good run on Magnolia ore.

A. A. Carion has begun to dispense the snow that he packed last winter, and now the boys can have a good cold drink of water on top of Shaefer's beer. Uro.

Robert Martin came in on Monday's stage. Bob is going to stay with us awhile. He is going to work his claim, which looks well with what little work has been done.

The Magnolia has shut down for the present, but will start up again in a few days. All the boys are going to Hiko if they start up that mill that Cohan is talking about. We hope that it is true.

Our town is a little livelier. There has been for the first six months only two saloons and two stores, and they are doing a good business, if it is hard times; but this will be shortly the boss camp of the county.

Max Schaefer arrived last week with a load of beer. Mr. Schaefer had had luck; he forgot to grease his wagon and when within a few miles of town had to leave his wagon and get an additional team to haul his load in. As a teamster, Max is a poor success.

FOURTH OF JULY MEETING.

A mass meeting of citizens was held Tuesday evening at Hose House No. 2, to take the necessary steps toward a celebration in Pioche of the nation's holiday, the Fourth of July.

The Brass Band was present and rendered some stirring airs.

The meeting was organized by appointing T. M. Flynn chairman, and H. Francis secretary. After some patriotic remarks by J. O. Gelbert, on motion of John Shier a committee on finance was appointed, and Messrs. Shier, Yeardsley, Thompson, Cook and Dooley were selected.

After a discussion as to the manner in which the day should be celebrated, the matter was referred to the Finance Committee for consideration.

The band received a vote of thanks for their attentions.

The meeting then adjourned until Friday evening at 8 o'clock, when the Finance Committee will make a report and the manner of celebrating will be decided upon.

Claim Jumping at Beaver.

The Beaver Utonian says that claim jumping has commenced in Newton district, in which is situated the Rob Roy mine. A claim adjoining the Rob Roy was jumped last week, and a prospect owned by Charley Price, who is well known here, was also pounced upon. A gang of "jumpers" in a mining camp is generally a gang of scoundrels, who loaf around, waiting until some industrious prospectors find and locate something of value, when they flock to the ground, and if the locators make some technical mistake in the location notices, they step in and by bulldozing or threats of a lawsuit they sometimes manage to get an interest in the property or blackmail the owners. As a class they are like the coyote, and should be treated as such.

Died at Taylor.

Henry Conway, for many years in the employ of the Nevada Stage & Transportation Co., died last Sunday evening at Taylor, after a short illness. He had been troubled with a rupture for some time, and it is supposed that this was the cause of death.

Deceased was about thirty years of age, and was the sole support of his widowed mother, who is an invalid.

BAD NEWS FROM ELY.

Letters have been received here from Ely stating that Supt. Jackson, who was making an examination of the Chairman group of mines at Ely in the interest of Montana parties, last Monday paid off and discharged all the men working on the property. The reason given for this action is not stated. As the bond was to run only thirty days, and as half the time had not expired, the supposition is that the examination as far as made did not come up to the expectations of the Montana men. This is indeed a black eye for Ely and that section, as on the result of the investigation of the Montana parties great hopes had been centered.

BEAUTIFUL PAHRANAGAT LAKE.

Correspondence of THE RECORD.

ON THE WIND, June 2, 1923. Entering the third year of travel and labor with the hope of unveiling some of the hidden treasures of the mountain regions of Southern Nevada, quite frequently wearied in body and mind by the long sandy or rocky trails, recently we took our departure from Moapa in the early morning, meandering up the winding road, headed for Hiko, in Pahranaagat Valley. However, after passing the head waters of the Muddy River we passed through some rolling hills, thence into a valley or wash which resembles an ancient river bed, with an occasional desert willow or a bunch of grass to break the monotonous sight. All day we trudged along, listening to the unappreciated musical sounds of the grind of the wheels as we pass along over the sandy road, still at last we round a rocky point, and behold a small elevated plateau made by the wash from a canyon coming from the right. Here we are but a few feet from as pretty and as inviting a sight as we could ask for—little Pahranaagat Lake. For the first time we stand and stare at it for some moments, hardly able to comprehend the difference from it and a mirage. The gentle zephyr is rippling over the placid waters; we can see the reflections of the setting sun; the grassy borders on the east, the high, precipitous walls to the right and left, the wavelets gently tapping against the rocks of ages its weal. A green grassy incline approach, perhaps 60 feet wide by 300 feet long, extends all along the eastern edge of the lake, similar in appearance yet different from the sandy beach of Golden Gate (and indeed a very appropriate name would be Golden Gate Lake of Pahranaagat Valley).

The first thought on seeing the waters of "Golden Gate Lake" was a mirage. However, such thoughts were soon replaced by a more substantial one—reality in all its grandeur. Your correspondent was extremely tired, hungry, thirsty and sleepy, but in ten minutes after was as calm and gay as an oyster at high tide. All you sight-seeing lovers should not fail to see this newly-named lake, "Golden Gate of Pahranaagat Valley."

Many a great author and poet has warbled sweet verses of a far less beautiful object.

This lake is small yet beautiful. Perhaps it is one-half a mile in length and about 300 yards wide, in a canyon with perpendicular walls many hundred feet high on both sides. To the east the sandy approach so nicely carpeted with grass furnished us with a very comfortable camping ground for the night. Under the starry-lit canopy of heaven that night sweet strains of music were heard to echo and rebound back forth, the cloudless skies above us until a late hour.

CHARLES LITTLE.

A GREAT GOLD FIELD.

N. G. Hock, a mining expert from Denver just returned from the Altar district in Sonora, Mexico, stopped over in Tombstone, Arizona, on his way home. He gave the Prospector some information concerning what he says is the richest district under the sun. There is but one company operating there at present, a New York syndicate. They have sixty dry washers operated by 120 Indians, whom they pay 75 cents per day. Their returns average \$1800 per week. The diggings are sixty miles wide by eighty miles long, and as dry, hot and barren as the Colorado desert. The nearest water is twenty miles distant and is packed on burros for domestic use. Nuggets worth from \$5 to \$20 each are found, also many chunks mixed with quartz that are as large as hen's eggs. Mr. Hock saw one piece which weighed ninety-six ounces after the quartz was cleaned from it which was purchased for a trifle from an Indian.

When old Shylock Rothschild learns about this great field and the discovery of the Pegleg mine, he will undoubtedly have his man Friday Sherman endeavor to smuggle a bill through the American Congress demonstrating gold, as it may get so plentiful that it will be used only as an "article of commerce."

The Virginia Chronicle says that community was startled Friday morning to learn of the death of John W. Brooks, a resident of the Comstock for the past thirty years. Deceased came to the Comstock in 1863, and was chief engineer at the Con. Virginia many years.

YELLOW PINE AND VANDERBILT.

THE RECORD is in receipt of a letter from Yellow Pine under date of May 30th, which states that matters there are very quiet. The Keystone, the main mine of the district, is only employing a few men, but with better facilities for handling the ore, a large force will be employed.

The wagon road from Vanderbilt to the Keystone will be completed about the 15th of June, and then the cost of hauling ore from the mine to the railroad will not exceed \$15 per ton.

The Clementina, another noted mine of the district, is looking better every day. Two shifts are now working on this most promising claim. The Clementina is a true fissure, and the assay returns are pleasing to the owners.

County Assessor Freudenenthal was in camp the day before the letter was written. He made an examination of the Clementina and was astonished at the showing. If this mine was located in Colorado or Utah a fortune would be offered for it.

The Mohave Miner has the following notes from Vanderbilt:

Paddy Dwyer owns the townsite of Vanderbilt by reason of mining locations. The Gold Bronco Co. is shipping 1,000 tons of second-grade ore to the Needles Reduction Works.

The end of the Nevada Southern R.R. is ten miles from Vanderbilt and four miles from New York camp.

A. F. Seymonds has his two claims bonded for a good stake and the company is doing development work on them.

The Gold Bar, John Mackey & Co.'s mine, is working about fifty men. They are doing only development work. The vein averages from two to four feet in width.

The company who own the New York mines, the railroad and the Needles Reduction Works are getting ahead of their reduction works in ore. In fact the mill is only in its experimental stage and the ore is piling in at a rate sufficient to run forty stamps. The producers are anxious to see the mill get down to a business basis and get on its working clothes, as on it depends greatly the future of Vanderbilt, New York and the camps to the north of them.

Destroyed by Fire and Again at Work.

The Price Baking Powder Company of Chicago, which is known throughout the country for the superior excellence of its Baking Powder, met with a serious loss on the morning of May 18th, in the nearly total destruction by fire of its factory and offices. No sooner had the flames been subdued than the work of restoration commenced, and the Company by prudent foresight, having had stored in outside warehouses duplicate machinery, labels and supplies of raw materials in preparation for any emergency, was enabled by energetic management to resume manufacturing within a very few days after the fire, thereby causing its customers but a trifling delay in the filling of their orders. Had the Company not been so prepared the delay would have been very serious, since it would have required months of time to get new machinery.

It is now forty years since the goods manufactured by this company were first placed on the market, to Dr. Price being the distinction of having prepared the first can of Cream of Tartar Baking Powder ever manufactured in this country. It was a great discovery, superior as it did the old method of using cream of tartar and soda separately, to say nothing of saleratus, with which the biscuit of early days was embittered.

The Price Company has no connection whatever with any other baking powder company or manufacturer, notwithstanding representations to the contrary made by other manufacturers whose sole aim is to deceive the public and borrow the good name and fame acquired by the Price Cream Baking Powder, which is known all over the world as the purest and "most perfect made."

DREAMS OF RICH MINES.

An Arizona paper says: A. B. Elliott and wife left this morning for their home at Goff, Kansas. Mr. Elliott is the gentleman who came into considerable prominence throughout Arizona last winter on account of a dream he experienced prior to coming here. In this vision he saw wonderfully rich treasures in a mining claim in the Bradshaw Mountains, and on his arrival here he visited the section named and located a claim, as soon in his dream. He has men at work now developing it, and silver, copper and lead have been found in it as far as developed. Mr. Elliott leaves with unbounded faith in the richness of the claim, and he says that nothing can shake his belief in the ultimate realization of his dream. He will return in the fall.

The year thus far has been an exceptionally cold and dry one, but Dr. Falb, who has made a special study of earthquakes and the weather, says that of all the rainy months of this year September will stand out as the month that has beaten the record; it will prove exceptionally, abnormally, thoroughly wet.

FOUND AT LAST.

The famous Pegleg mine, the search for which has caused the loss of many lives, is said to have been at last discovered, and by a woman at that. Many have regarded Pegleg Smith as an old prevaricator, and the story of the mine as mythical, while others had implicit faith in his statements. Among the latter was Mrs. Joseph Ingram of San Diego, a woman 53 years of age, who secured many points regarding the lost mine from a doctor that attended Pegleg Smith, and who fitted him out when he last left for the mine. She has been in the desert for the past three years with her husband, who, though 61 years old, is hale and hearty.

Several months ago when coming from the desert they encountered an Indian from Sonora, who directed them to a mountain, telling them there was much gold in it. Prospecting, they found the great ledges told of by Pegleg, and getting out samples of the rock they were overjoyed to find it immensely rich in gold.

NEVADA NOTES.

James Brown, a former Comstock miner who delved in the depths many years, died in San Francisco last week.

David J. Walsh, a miner, was killed at the Union mine at Austin on the 29th ult., by the caving of earth in the mine. He was one of the oldest residents of Austin.

Articles of agreement have been signed between George McKenzie, the Australian, and Sam Barber of Portland, for a fight to a finish on the night of July 3rd at Reno.

The Reno Gazette says boys of 9 and 14 years are working on the chain-gang with tough hobos, and states that Nevada is the only State in the union where such conditions exist.

Rev. Chas. L. Fitchette and Wm. Pinniger, agents of Whitaker Hall, Reno, notify all persons having claims against the institution to present the same, with vouchers, immediately.

Eleven persons were convicted in the U. S. Court at Carson last week of selling liquor to Indians. They were sentenced from three to nine months each, and fined \$25 apiece.

The Reveille says that John Tate, a resident of Austin since the early days, died there last week. Deceased had no relatives that he knew of, was 66 years of age and a native of Canada.

Reno has collected \$5000 for the celebration on the Fourth. General A. G. Weisert of Wisconsin, commander-in-chief of the G. A. R., has accepted an invitation to attend the celebration there.

The Board of Commissioners of Lyon county have awarded the county printing to the Times at \$1 per month, and the job printing to the Tidings at Virginia City rates. The Carson Appeal was awarded the printing of Ormsby county at \$50 per month for six months.

The Eureka Sentinel says Joseph Dejon, a native of France, aged about 67 years, committed suicide last week by shooting himself in the abdomen. He had rich relatives in Paris, his daughter being the wife of a rich banker. He resided in Eureka over twenty years.

There are 128 patients in the asylum, 44 of whom are females and 144 males. About sixty of the patients are imbeciles, not lunatics, who were doubtless committed to the asylum to relieve the several counties of the expense of caring for them. A large majority of the patients are from thirty to forty-five years of age and there are only two under twenty-one years of age. Over 140 of the patients are of foreign birth, seven of whom are Chinese. There are two Indians and two negro patients.—Reno Journal.

We have received a copy of the Saturday Globe, published at Utica, N. Y. It is an anniversary number, containing a history of the paper since its first issue. The paper is ably edited and neatly printed, and is profusely illustrated, the leading illustration being 7x10 inches, a caricature on closing the World's Fair on Sunday. The buildings are represented in the background, with a high fence around them; in front on an elevated platform is a typical "tough" saloon-keeper, a sanctimonious, lantern-jawed minister and the pious attorney-general Olney telling the multitude of people surrounding them that the gates are closed. It is a good illustration of the unholy combination that was made to thwart the wishes of the people. It was a Christian Endeavor backed by the whisky-venders and pigs of Chicago.

NOTICE. To whom it may concern: NOTICE is hereby given that on and after TUESDAY, June 19th, 1923, the laws relating to Hogs, Cattle and other animals running at large within the Town of Pioche, will be POSITIVELY strictly enforced. All persons owning such will do well to look after them in season and save expense and trouble. E. D. TURNER, Sheriff. Pioche, Nevada, June 1, 1923.

J. D. CAMPBELL, Physician & Surgeon. Also Microscopic and Chemical Analysis of Urine and other abnormal substances. Calls Promptly Attended Day or Night.

NOTICE. ALL persons indebted to the Pioche Brewery and to the undertaker, will please call and settle immediately, as no further notice will be given. ANY and all accounts unpaid January 30th will be collected by law. CHAS. STEIN, Pioche Brewery Saloon. Pioche, Nevada, January 3, 1923.

SOCIETIES.

I. O. O. F. PIOCHE LODGE NO. 33. MEETS EVERY TUESDAY 7:30 o'clock in their hall on Main street. Visiting Brothers cordially invited to attend. A. ABELMAN, W. G. JOHN SHIRK, V. G. JAMES GILES, Secretary.

A. O. U. W. PIOCHE LODGE NO. 33. THE REGULAR MEETINGS OF Pioche Lodge No. 33, A. O. U. W., are held in Odd Fellows' Hall every Wednesday evening, commencing at 7:30 o'clock sharp. Visiting brothers cordially invited to attend. PERCY FORWELL, Recorder.

F. & A. M. ST. JOHN'S LODGE NO. 18. MEETS THE FOURTH SATURDAY in each month at Masonic Hall, on LaCour street. All visiting Brothers in good standing are invited to attend. T. J. OSBORNE, W. M. S. D. EDWARDS, Secretary.

THE PALACE CIGAR AND STATIONERY House. Has just been REFITTED, with the addition of a Large Billiard Hall AND THE Finest Sample Rooms IN THE STATE. The very choicest Brands of LIQUORS supplied for family and general use, with a fine line of Imported and Domestic CIGARS.

Sam. E. Wertheimer, Proprietor.

BATHS BATHS FIFTY CENTS EACH. Hot and Cold at all Hours, Saturdays and Sundays.

Equipment not surpassed in the Inter-Mountain country.

JOS. PHILLIPS, TOMBSTONE PARLOR, MAIN ST., PIOCHE.

E. L. GODBE, ASSAYER, Bullionville, Nevada.

Samplers can be left with S. E. Wertheimer, Pioche, who will receive all returns promptly the following day. Analytical work especially. Charges moderate, and absolutely correct work guaranteed.

FOR SALE The Panaca Saloon, with Furniture and Fixtures. Five BILLIARD TABLES, two Fire and Burglar Proof SAFES.

The Pioche Brewery, with Materials and Implements. 100 Gallons OLD LAGER BEER.

Dwelling Houses and Furniture. Everything will be sold CHEAP.

For particulars apply to CHAS. STEIN, Pioche, Nevada.

UNION RESTAURANT. Main St., just below Meadow Valley.

Meals 25 Cents. Table appointments equal to anything in town.
