

Pioche Weekly Record

THURSDAY, OCT. 19, 1893.

Arrival and Departure of Mails.

PIOCHE AND MILFORD. Arrives Sundays, Wednesdays and Fridays at 6:30 a. m. Departs Sundays, Wednesdays and Fridays at 8 a. m.

PIOCHE AND ELY. Arrives Tuesday and Saturday, at 6:45 p. m. Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HELENE. Arrives Tuesday and Saturday, at 6:00 p. m. Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HIKO. Arrives Tuesday and Friday at 6:00 p. m. Departs Saturday and Wednesday, at 10:00 a. m.

POSTOFFICE HOURS.

8 A. M. TO 7 P. M.

SUNDAYS, 6 P. M. TO 7 P. M.

No money orders issued or letters registered after 6:30 p. m. and none on Sundays.

JOHN SHIER, P. M.

LOCAL INTELLIGENCE.

The Polaris Ore paid off Tuesday for last month.

The Pioche Cou. Co. will pay one of its outstanding months to-morrow.

Salt Lake Beer at Thompson's, at the low price of \$2.50 for a dozen bottles.

This is as good a time as any to lay in a supply of cordwood for winter use. Prices range from \$4.25 to \$5.00 a cord.

If you want a dozen bottles of assorted Soda or Saraparilla at \$2.50, call at Thompson's.

Hon. Geo. S. Sawyer is visiting Ferguson District, interested with others in the mining outlook there.

Alex. Thompson has just received a carload of Salt Lake Bottled Beer, Soda and Saraparilla, which he is rapidly disposing of.

Oats sold in quantity during the week at \$1.25 per cwt., which is about the lowest price ever realized here.

The Pioche Cop. Co. completed the shipment of two cars of ore from the Yuba mine, Saturday, which sell the ore the Co. has on hand at present.

Chas. Culverwell is reported as dangerously ill at his home in Meadow Valley Wash. Dr. Campbell was called to attend him this morning.

The Polaris Co. has increased the working force at the Poorman mine and is making steady shipments of ore. Two hundred tons will be shipped this month if possible.

Mining Location Notices for sale at this office.

Teams looking for back leading to Milford have been quite plentiful this week. All have been accommodated and there is plenty of ore yet in the vicinity to be shipped.

When catarrh attacks a person of scrofulous diathesis, the disease is almost sure to become chronic. The only efficacious cure, therefore, is Ayer's Sarsaparilla, which expels scrofula from the system and the catarrh soon follows suit. Local treatment is only a waste of time.

"What is there more sound than a big silver dollar with the stamp of Uncle Sam on it?" asks the New York Recorder. "Try it with the baker, the grocer, the drygoods merchant or the landlord."

Alex. Thompson is providing for the wants of the people of Pioche during the warm weather, having just received a carload of Salt Lake Beer, Soda and Saraparilla, which he is disposing of at \$2.50 for a dozen bottles.

Four tons of high grade silver-lead ore was shipped from the Old Timer claim west of town, Saturday. This is one of the encouraging prospects in Ely District and would be one of the first claims developed if the outlook for transportation by rail, and for silver, justified it.

Early Monday morning the six months old infant son of Halstead and Mary Goodrich, died of cholera complaint after an illness of some five or six days, though it had been ailing for two weeks past. The funeral took place on Tuesday afternoon. The sorrowing parents have the sympathy of many friends in their bereavement.

Yesterday morning a fire at the back of the Lode office building on Main street caused the burning of an alarm. When first noticed the flames reached far above the roof and it looked as though a serious fire would result. It had originated in a pile of boxes and rubbish, which were pretty well charred, and was found easy to subdue. A spark from the stove used in the building is supposed to have been the cause.

Mark Church, who has a lease on the Mendha mine, shipped a car of ore from there last Saturday. He has re-leased the mine for a year and is now at work preparing for extensive development work in new ground. The Mendha, from the time of its location 25 years ago, has always responded liberally to intelligent prospect work, and has produced large quantities of high grade silver-lead ore.

Geo. B. Warren has about finished rebuilding the stables and office at his corral on lower Main St., which were destroyed by fire three weeks ago. The office is on the site of the one destroyed, not quite so large as the old one, while the stables are placed at the east side of the yard, where they will be more convenient and less in danger of any future

fires which may occur. The conveniences will fully equal the old ones.

What the rising American youth needs is some old-time home rule.—Galveston News.

John Roth, a 77-year-old farmer, hanged himself because his wife followed him to a saloon and compelled him to go home.

Hall's Hair Renewer contains the natural food and color-matter for the hair, and medicinal herbs for the scalp, curing grayness, baldness, dandruff and scalp sores.

A fine head of hair is an indispensable element of beauty. Ayer's Hair Vigor maintains youthful freshness and luxuriance, restores to faded and gray hair its original color, prevents baldness, removes dandruff, and cures scalp diseases. It gives perfect satisfaction.

Teacher—"For men must work and women must weep." What is the meaning of that line, Tommy Figg? Tommy—"It means that men has to work to get money, and then the women has to cry before the men will divvy with 'em.—Ex.

JOB PRINTING in all its branches, equal in style to any, done at this office.

A young printer in a country newspaper office fell in love with a clergyman's daughter who did not seem to reciprocate his affections. The next time he went to church he was rather taken back when the minister announced the text: "My daughter is grievously tormented with a devil."

A graveyard is not a very cheerful place for courtship; yet there seems to be a deal of billing and cooing going on in the North Ward Cemetery at Germantown, Penn. The directors have found it necessary to erect at the entrance these words: "Flirting is prohibited."

A European dentist is said to have had great success in curing toothache within five or six minutes and often in less time, by applying one pole of an electrostatic machine to the troublesome tooth and the other pole to the body of the patient. In 76 cases thus treated by him only three are said to have been unsatisfactory.

Will Deek was brought in from Highland Monday suffering from a severe wound on the forehead inflicted by a windlass handle. He was assisting in the work of sinking a well, and in hoisting, the bucket caught in the ladders coming up, and, jerking from his grasp, the handle "floored him," so to speak. He is about town and expects to be able to resume work next week.

A fire at Bristol on Monday evening destroyed the barn and yard known as the Ore House building. It was used by Tom Gillan, who is just now engaged in moving his family from there to Bennett Springs. He went through to Bristol yesterday. It is not known how the fire originated, but Gillan's boys are thought to have used a camp fire in the place that evening. Gillan loses two sets of harness, two tons of hay and a quantity of grain. The building contained about 30,000 feet of lumber, and was the property of Wes. Williams.

The Examiner says the executive committee of the Midwinter Fair at San Francisco has granted a concession to San Davis, of the Carson Appeal, to erect an old shanty and run a frontier newspaper of the '60 period. It will be a regular "Arizona Kicker" style of journal, and reprint also the old Bret Harte and Mark Twain stories. The editor will be in his red shirt, pants in his boots and six-shooters visible, editing copy on top of a flour barrel, while the compositors are resting, outside in the sun.

In a circular letter of the 4th. inst. Governor Colcord asks the people of Nevada to co-operate and make an exhibit of our products at the coming Midwinter Fair at San Francisco. There is no provision of law for such an exhibit and the expense will have to be met by personal subscriptions. It is thought that \$4000 will suffice to make a very creditable showing. Our State's exhibit at Chicago will be moved there. A little work in each county will insure a fine exhibit at San Francisco and though times are dull it will pay to do it.

Justice's Court. On Monday the case of Susan O'Connor vs. John Doyle was settled between the parties without coming to trial.

Tuesday the case of Mike Williams vs. A. J. Jacobson and John Doyle, an action to obtain possession of twenty-five sacks of ore, was tried by jury and a verdict rendered for the plaintiff, for the return of the ore or \$250, its value.

The case of the State vs. Wm. Dwyer, on a charge of assault and battery, Wm. DeFries complainant, was tried before the court and defendant discharged.

A Safe Cracking. At Pahransat Valley last Monday evening about eight o'clock, the fire-proof safe belonging to A. W. Geer was blown open and rifled of its contents by some person or persons who as yet are unknown. The safe was used for the safe keeping of papers, but was perhaps thought to contain money in considerable amount, since Mr. Geer made a good ostentatious sale some months ago. The safe stood out doors at the south end of the house. All the members of the family were absent, Mrs. Geer being at a neighbor's about two miles away. Powder was used and the door was blown a considerable distance away, while the explosion was heard at Eisenmann's ranch, a mile off. Seventeen dollars were taken, six dollars being overlooked, while most of the documents were destroyed.

The Campaign Opens

The Continuous Session of the Senate Commenced Last Evening.

A Compromise Probable, with the Issuance of One Hundred Million Gold Bonds.

Salt Lake City Happenings

Mayor Baskin Says the City is Bankrupt Owing to the Disgraceful Waste of Means.

Special Dispatches to THE RECORD.

NEW YORK, Oct. 12.—Silver, 78 1/2; Copper, \$9.75; Lead, \$3.65.

SALT LAKE, Oct. 10.—Registrar Walden, who recently assaulted Judge Powers, was found guilty of assault yesterday and will be sentenced to-day.

Judge Zane yesterday sentenced Charles Arupp, the 18 year old boy who recently was found guilty of killing a Chinaman, to two years in the penitentiary. A dispatch from Washington last evening states that Governor West's annual report to the Secretary of the Interior has been received there. The Governor recommends the restoration of the Cherokee property, both real and personal, and says "polygamy has been abandoned." He also urges Statehood.

SALT LAKE, Oct. 11.—The registration of the city has been badly butchered this year, making an exceedingly unfavorable showing for Salt Lake.

Mayor Baskin in a special communication to the city council last night, called attention to the serious condition of the city's finances. The message directed attention to the disgraceful waste of means and stated that the city was now bankrupt.

The Mayor last night sent to the council the removal of Mr. Showell as Sanitary Inspector and named S. C. Ewing as his successor.

Yesterday, Registrar Walden, who was recently convicted of assaulting Judge Powers, was fined \$75. On request of Powers, through his attorney, the money was refunded.

F. J. Stark, who has been a guard at the penitentiary for the past three years, was yesterday installed as Acting Warden by Marshal Nat. Brigham, vice Alfalfa Young, removed. As to the reason for Young's sudden removal, nothing tangible has been made public.

SALT LAKE, Oct. 12.—The Liberals hold their primaries to-night for the nomination of city officers.

Ore and bullion receipts yesterday in this city were \$20,840.

The trial of John Benson for the murder of Dr. Elliot at Tooele for assaulting his wife was concluded last evening and given to the jury, who were locked up all night, not having arrived at a verdict.

New York, Oct. 10.—The second cup race resulted in an easy victory for the Vigilant, which outsailed the Valkyrie under all conditions and crossed the line yesterday three miles ahead. It is generally admitted that the Valkyrie is the best boat England has ever sent over to win the American cup. She met, however, a yacht that is so much superior that her strongest admirers all say there can be no doubt that the Vigilant will win three races, and therefore the match. There will remain, however, a question as to which boat is more worthy in a half gale and a very rough sea.

CHICAGO, October 9.—Nearly three quarters of a million people took in Chicago day at the World's Fair. The celebration was one of such magnificence as to surpass all previous World's Fair days.

The World's Fair indebtedness was wiped out yesterday with a check calling for a million and a half.

WASHINGTON, Oct. 9.—Senator Wolcott Saturday criticised the President for his interference with the legislative branch of the Government.

President Cleveland is getting ready for an issue of gold bonds of about one hundred million dollars either under a compromise silver bill, or under the authority the Treasury Department already has. J. P. Morgan, of Morgan, Drexel & Co., who helped to float a former issue of bonds, just had a conference with Carlisle and Gresham. He goes back to New York with the information that the best compromise that can be made with the silver men is to continue the purchase of two million ounces of silver per month for two years and authorize bonds for the purpose of increasing the gold reserve to two hundred millions. The silver men may insist on the purchase of two and a half million ounces per month. If they do they will consent to a provision permitting the National banks to issue circulation to the par value of their bonds.

WASHINGTON, Oct. 10.—A canvass of the Democratic Senators shows twenty-one for, and twenty-three against repeal of the Sherman silver purchase law. The indications grow stronger that there will be no compromise, and no action on the repeal bill.

WASHINGTON, Oct. 11.—A poll of the Senate last night shows forty-eight for and thirty-seven against repeal.

The physical endurance struggle will commence in the Senate at six p. m. to-day. The silver Senators have arranged their plan of battle and there are few Senators who think that the continuous session will result in anything but defeat for the repealers. There are also stronger indications of a compromise.

something will be fairly satisfactory to the friends of silver. The hopeless feeling of yesterday and the day before has given place to a sentiment that compromise is inevitable and that by Saturday some action will be taken by the Senate which will permit the transfer of the present condition to the House and to reach an agreement through conference. The plan of the minority is the very simple one of merely holding the Senate in session if possible until a vote is had. The silver men expect to make but one attempt to adjourn and after that they will themselves take the aggressive and there will be no adjournment until a quorum is broken. The plan of battle will be as follows: After 1 o'clock but few of the silver men will remain in the Senate chamber and those on guard will hold the floor, refusing to yield to any motion to adjourn or take a recess until the majority confess that they cannot hold a quorum and that the continuous session is a failure. Meanwhile they will insist on the presence of a quorum every minute of the time their speakers are occupying the floor. By this means they expect to enforce the inexorable decree of the United States Senate that nothing shall be done which does not please the majority. Their answer to the objections of the majority is, "What are you going to do about it?"

Yesterday Senator Squire introduced an amendment to the repeal bill providing for the coinage of two million silver dollars per month, the government to retain the seigniorage.

NEW YORK, Oct. 12.—A message from Berlin states that Prince Bismarck continues to improve.

WASHINGTON, Oct. 12.—The government gold reserve yesterday stood at \$86,899,900.00, which is lower than it has ever been before.

CHICAGO, Oct. 12.—It is expected that the attendance at the World's Fair this week will aggregate two millions.

LOS ANGELES, Oct. 12.—At the Irrigation Congress here yesterday a number of resolutions were introduced, among them being one recommending the admission of the Territories, Utah included.

NEW YORK, Oct. 12.—The third count in the trial of the Valkyrie and the Vigilant was declared no race yesterday on account of the absence of wind. The Vigilant was in the lead.

WASHINGTON, Oct. 12.—The Senate settled down to a final struggle on the question of repeal yesterday and will remain in session as long as the repealers can maintain a quorum or until a vote is reached.

The bill amending the Geary act by extending the time for the registration of the Chinese was taken up by the House. Outwaite and Geary opened the debate for and against.

THE LABOR WORLD.

The switchmen in all the yards at Memphis, except the Tennessee Midland, have struck.

Nine people committed suicide in New York inside of twenty-four hours, the direct cause being hunger and privation.

Reports from St. Louis show that over 12,000 men, for some time idle, have been put at work.

The scarcity of work in San Francisco has been the cause of some of the recent suicides which have occurred in that city.

A police census just taken in Chicago shows a deplorable state of affairs among the laboring classes, over 70 per cent being reported idle. Every grade of employment is affected by the depression, but particularly skilled artisans and mechanics and factory hands.

France was very much disturbed by strikes last year. Official returns show that in twelve months there were close upon 300 trade disputes, affecting 108,000 workmen.

Never in the history of the Pacific coast has the printing industry been in a more deplorable condition. While it is true that all lines of business are suffering to a great extent on the coast, the printing trade is more affected than any other.—Printer's Guide.

The San Francisco Call says there is now an apprehension that more mechanics will come to California to aid in constructing the Midwinter Fair building than there will be work for.

England has at the present time one of the greatest strikes on record, and the suffering therefrom is appalling. A London dispatch says that so colossal has the calamity grown that figures lose their ordinary meaning to the mind. There must be at the lowest guess 250,000 men, women and children connected with the mines who are in a state of semi-starvation.

The following, credited to Robert Ingersoll, is going the rounds: "A wonderful word is clover. Drop the 'v' and you have the happiest of mankind. Take away the 'o' and 'r' and you have the only thing that makes a heaven of this dull and barren earth. Cut off the 'r' alone and there remains a warm, delectable bud that sweetens breath and keeps the peace in countless homes whose masters frequent clubs."

THE NEVADA SOUTHERN.

Steps Taken to Complete the Road to Los Angeles.

A dispatch from Los Angeles to the San Francisco Examiner says that Col. T. W. Brooks of Pomona, who is now at the Keystone mine in Nevada, on the proposed railroad between Los Angeles and Salt Lake, writes that the completion of the Nevada Southern Railway between the two cities has been decided upon. He says: "As an item of information supporting the above statement, and a pleasing reception of news by the struggling miners and farmers of North San Bernardino county, California, Southeast Nevada, and Southern Utah, who have so long toiled under the heretofore insurmountable difficulties of wagon transportation at the cost of \$60 to \$100 per ton freightage, the following facts may be of interest: "At the present time Mr. Derworth, chief engineer of the Nevada Southern Railroad company, accompanied by Mr. Pitcairney, an English gentleman who, in the interest of an immense capital, is reviewing the survey of the road from Vandenberg and Milford, the terminus or connection with the Utah Southern Railroad company. Mr. Pitcairney's examination is carefully made, that his company may intelligently bid on the bonds of the road when offered; and those who are familiar with the enormous coal fields and iron deposits and the large extent of mineral and agricultural territories, have no question in regard to Mr. Pitcairney's favorable report to his company. The party will go on over the whole route to Salt Lake City.

"Another indication of work on the road is seen in the movement of Messrs. Bright & Crandle, the well-known railroad contractors. They, in company with their banker, have just passed over the road's survey, and are making figures preparatory to extending their contract of grading.

"F. W. Gove, cashier of the Needles bank, was in the party and visited the mines of the Yellow Pine district, where he was most favorably impressed with the rich free gold and silver ores of the camp and its prospects of future greatness. The preliminary work is approaching a finish, and the time of important and active work is at hand.

"President Blake, Vice-President A. G. Scofield of San Francisco, and other officials of the road, are expected to arrive daily. They come with an earnest purpose of prosecuting the work to the completion of the road, the closing of the gap, when upon midground Los Angeles and Salt Lake may meet, shake hands and give the counterstrain and grip of a happy people, blessed with railroad communication."

A dispatch from Denver to the Salt Lake Tribune says it was reported that negotiations for the completion of the construction of the Nevada Southern Railway to connect Salt Lake and Los Angeles are drawing to a close.

MINING NOTES.

Mohave county to-day shows the effect of the depreciation in silver values in its idle mines and decaying mills. The Republican party blessed (!) all America by a protective tariff system, but turned its back on the western country.—Miner.

Authorities on the subject state that in the eighty-eight years from 1800 to 1888 the world has mined 7,942 tons of gold, 95,559 of silver, 84,900,000 of copper, 34,600,000 of lead, 31,500,000 of zinc, 1,430,000 of tin, 1,273,000,000 of iron and 10,601,000,000 of coal.

We learn that the Maryland mine, at Grass Valley, is now in a fabulously rich chute of ore, which pays at times as high as \$400 a carload. The mine will prove as good as the Idaho, of which it is an extension, and the company have a bonanza.—Nevada City (Cal.) Herald.

It is a mistake to suppose that the gold product of Arizona will show an increase this year. There are few silver properties in the country that do not carry gold and the shutting down of these silver mines has certainly cut off the gold product.—Mohave Miner.

There is great excitement throughout the western part of the State of Sonora and the northern part of Chihuahua, Mexico, over the discovery by Frank Hoskins, an American prospector, of an abandoned Spanish gold mine, which has a fabulous amount of very rich ore on the dump and in sight. It is located in the Sierra Madre mountains, near the United States boundary.

John S. Reed, a veteran miner, came into San Bernardino, Cal., from the Goler mining district, on the Mojave desert, with a gold nugget weighing fifty-six and a half ounces, valued at \$1,000. He found it in a dry wash about four feet under the surface in the gulch on the San Turtle mining claim. This is said to be the largest nugget found in California in the last twenty years.

Parties just arrived from Greaterville are telling a story that seems almost incredible.

They say that little half clad Mexican archers when a watermelon vender comes in their direction run to the hillsides, gather handfuls of sand and wash out gold enough to buy sandals to do them for a week. There may be rich panning at Greaterville, but some of the yarns from that section are considerably overgrown and hard to swallow.—Tucson Star.

SENATOR JONES ALL RIGHT.

The Denver News publishes the following special from Washington:

It is no longer a secret that Senator John P. Jones of Nevada has determined to abandon the Republican party and affiliate with the People's party. About a month ago, in conversing with a gentleman from one of the silver States, in the presence of Senator Stewart, he was told that he thought it his duty to abandon his old party and openly unite with the People's party. Senator Jones said, "You do right."

"Will you also unite with the People's party?" was asked in reply. The Senator said: "I will."

The gentleman he was addressing then asked him: "If I have occasion to write upon this subject, have I your authority to publicly say that you are a Populist and no longer a Republican?"

To this, without any hesitation, Senator Jones replied: "You may."

The reason for the abandonment of the Republican party by Senator Jones is that he finds the party unchangeably allied with the single gold standard conspiracy of Wall and Lombard streets, and he is convinced that the only hope for bimetallicism is in the third party. This party he finds organized in the field and winning victories, and he believes it to be the duty of all true silver men to support it, both at home and abroad.

Born.

At Pioche, Nev., Oct. 8, 1893, to the wife of William Perry, a son.

Died.

At Pioche, Nev., Oct. 9, 1893, James H., infant son of Mr. and Mrs. J. H. Goodrich, aged six months.

NEW TO-DAY.

NOTICE.

Johnnie Anter left the State Orphan's Home at Carson about the 13th of last month. He is of light complexion, blue eyes and is about fourteen years old. He is believed to be working at some ranch near Reno. Any one knowing the boy's whereabouts will confer a favor by writing his mother, Mrs. Lizzie Foster, at Pioche, Nevada.

Notice of Intention to Apply for a Permit to Cut Timber on Public Land.

NOTICE IS HEREBY GIVEN THAT THE undersigned are about to make application to the Hon. Secretary of the Interior, for permission to cut timber on unappropriated Government land of the United States, situated in the County of Lincoln, State of Nevada, which land is described as follows, to-wit: One hundred and sixty acres of land situated about eight miles south of Clover Valley, said county, beginning at and running southerly from sheep Springs, in the Mormon range of mountains, and which land, if surveyed would be on the south line of Township No. 8 South, Range 56 East, Mount Diablo Base and Meridian, and is about twenty miles distant from any Government surveyed land. Said land contains about one hundred thousand feet of pine timber suitable for manufacture into lumber.

L. L. WOODS, G. L. EDWARDS.

Dated Pioche, Nev., Oct. 12, 1893.

FOR SALE

The Panaca Saloon, with Furniture and Fixtures.

Five BILLIARD TABLES, two Fire and Burglar Proof SAFES.
