

Arrival and Departure of Mails.

PIOCHE AND MILFORD. Arrives Sundays, Wednesdays and Fridays at 6:30 a. m. Departs Sundays, Wednesdays and Fridays at 8 a. m.

PIOCHE AND ELY. Arrives Tuesday and Saturday, at 6:45 p. m. Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HELENE. Arrives Tuesday and Saturday, at 6:00 p. m. Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HIKO. Arrives Tuesday and Friday at 6:00 p. m. Departs Saturday and Wednesday, at 10:00 a. m.

POSTOFFICE HOURS. 8 a. m. to 7 p. m. SUNDAYS. 6 p. m. to 7 p. m.

No money orders issued or letters registered after 6:30 p. m. and none on Sundays.

LOCAL INTELLIGENCE.

Don't let your taxes go delinquent. Wes. Williams was in town this week from Royal City.

Anthony Godbe went down to Ferguson Friday and returned Saturday.

W. S. Godbe returned Monday evening to Bullionville from New York.

The gold fever is quite prevalent and very contagious in Pioche just at present.

S. T. Godbe is said to have started the Muddy gold excitement in this vicinity.

Subscribe for the RECORD and get the latest telegraphic as well as local news.

Mrs. Pierson, after a five months visit at Salt Lake, returned home Tuesday evening.

N. P. Dooley and mother are expected to arrive from California on Sunday morning.

The weather is simply magnificent and such as can be found only in Nevada at this season of the year.

Mrs. M. Cohn of Pioche arrived here a few days ago. She came to visit her sister, Mrs. Marcus Morris.—Eureka Sentinel.

Ladies should read the new advertisement of the Cohn Dry Goods Co. of Salt Lake. The goods are the best and prices the lowest.

Ed. Freudenthal, T. E. Edwards, John R. Cook and T. J. Osborne returned last night from Helena, all well pleased with the outlook there.

To retain an abundant head of hair of a natural color to a good old age, the hygiene of the scalp must be observed. Apply Hall's Hair Renewer.

It is stated that a pair of water containing a handful of hay, if placed in a room where there has been smoking, will absorb all the odor of the tobacco.

The Republican landslide in the recent election was received in town by everybody with feelings of delight, as it was taken as a rebuff to the occupant of the White House.

Attention is called to the new advertisement of the Pioche meat market, in another column. Mr. DeFriez, the proprietor, thoroughly understands the business, and gives satisfaction to all his customers.

Mercury will be "evening star" during the greater part of November. Venus will also be evening star, but not at such a high altitude. Jupiter is the object of objects for amateur astronomers during November.

Mining Location Notices for sale at this office.

A female witness in a breach of promise case promptly defined courtship to be: "Looking at each other, taking hold of each other's hands and all that sort of thing."

The experiences at Ferguson district a year ago last spring, when a number of lucky finds were dropped on, have sent our prospectors out in a hurry to the Muddy, ever mindful that it's the early bird that catches the worm.

The fall of the year is a trying season for elderly people. The many cherries, dark, dismal days act depressingly, not to say injuriously, on both old and young. Now is the time to re-enforce the vital energies with Ayer's Sarsaparilla—the best of all blood medicines.

Travelers should consult the new time card of the Union Pacific railroad, on the fourth page of THE RECORD. A daily service between Milford and Salt Lake has again been inaugurated, a convenience that the public will appreciate.

The people of Pioche, Nev., are jubilant over the near prospects of a railroad. The Nevada Southern is nearing their doors, and the good people are passing resolutions to help it along. Come this way on your travels—northward and see what we can do.—Beaver Usonian.

Elsewhere in this issue we publish an appeal from the managers of Nevada's exhibit at the Midwinter Fair, addressed to the citizens of Lincoln county. It should meet with generous response. Let the farmers, fruit-growers and mining men of Lincoln county begin to make preparations for it. Lincoln county has been awarded premiums at the World's Fair at Chicago, and should be duly represented at the coming Fair, as it will be largely attended, and the exhibits viewed by thousands of Americans and foreigners. The sooner action is

taken the better if we propose making a display.

Hon. Geo. S. Sawyer went down to Ferguson district yesterday.

"Dick" Tunc, formerly a well-known resident of Silver Reef, was elected Justice of the Peace at Eureka, Utah.

There are now 40,000 more or less experienced cooks, landresses and second girls in Chicago who are out of work.

The order removing the land office at Eureka, and consolidating with Carson, has been suspended.

D. Meikle, one of the owners of the Jim Crow mine, departed for Helene this morning. He may extend his trip to the new excitement on the Muddy.

J. Eisenmann left to-day for Pahrangat Valley, going by way of Ferguson district, where he has interests in mining property, and thinks of securing more.

JOB PRINTING in all its branches, equal in style to any, done at this office.

Columbus was considered a great Italian because he made an egg stand on end, but nowadays Italians think nothing of having a peanut stand on the corner.—Buffalo Times.

The Union Pacific has resumed daily service between Salt Lake and Milford. It is expected that by the first of next month a daily mail stage will again be running between Milford and Pioche.

According to General Orders, No. 7, issued by order of Adjutant General Foujade, the annual record shoot of the State militia must take place between the 20th and 30th of November, with officers and men in full uniform.

A man wrote to his friend who keeps a country store: Send me ten pounds of sugar and five of pork I cannot come for them to-day as my wife had a child also a monkey wrench and a coil of barbed wire.

Velvet promises to resume its sway in the winter, even to the extent of making whole wools of it, while in combination with wool and silk it will be the favorite decoration for both gowns and mantles. So says a fashion journal.

Judge Powers thinks that as Statehood is inevitable for Utah, and as the Liberal party has accomplished its object, he will soon issue a call for the Liberals of the Territory to meet and consider the advisability of disbanding the organization.

Of interest to ladies.—The scalp may be kept white and clean, and the hair soft, pliant and glossy, by the use of Ayer's Hair Vigor. This preparation never fails to restore to faded and gray hair its original color. Sold by druggists and perfumers.

There are many persons who cannot read a newspaper intelligently and can comprehend nothing more intellectually absorbing than a dog fight, yet they are always loaded with suggestions and advice to the editor, who never gets a cent out of them.—Homer Index.

Yesterday morning, while splitting stove wood, Wilkes Campbell cut his left foot with a hatchet, inflicting a wound three inches in length. Dr. Campbell, the boy's father, took the matter in hand and took it up with five stitches. Wilkes is getting along nicely, but won't indulge in base ball or any kindred game for a while.

Thursday evening last E. W. Rawdin was brought in from Bullionville suffering from a broken and dislocated collar, bone. Dr. Bjornson took charge of the case and Rawdin is doing nicely. The injury was the result of a fall from some scaffolding at the Bullionville Works, where Rawdin was employed, he falling something like fifteen feet.

Henry Welland is not discouraged at the outlook for silver. He has a prospecting force on his Last Chance mine at Highland, generally known as the "Anderson mine," and proposes to find the main ore chute if possible. Several cars of good ore have been taken from this claim, all, however, appearing to be from small pockets and not from the main ledge. The steam hoist will not be put up for the present.

Yesterday a squaw was brought in from the Indian camp immediately east of town to have a gunshot wound in her left side attended to. Dr. Bjornson took charge of the case and found a wound about seven inches long in the left side, caused by a .44-calibre bullet. Probing failed to reveal the ball, but the patient was fixed up and returned to camp. The injury is said to be the result of an accident, an Indian out hunting, shooting without seeing the squaw, who was partly hidden by the brush.

Samuel T. Godbe passed through here last Friday on his way from Keystone to Salt Lake. He reports everything there as forging ahead in good shape. The gold mill recently erected is doing good work and regular shipments are made from the Keystone mine, the leading gold property of the district. A dozen houses and tents at the mill form the nucleus of a live town, and promises to rapidly increase. On his way here Mr. Godbe passed nearly a week at Ferguson district, where he examined all the leading properties. Though a man of much mining experience he expressed the greatest astonishment at the Monitor and Jim Crow ore chimney and predicts a boom future for that section. It is reported that the Monitor owners opened negotiations with Mr. Godbe looking to a sale of all their claims, and should it take place Ferguson will at once take on new life. Mr. Godbe went on to Salt Lake and is expected back this way during the coming week.

ANOTHER EL DORADO.

Pioche is on the eve of another stampede equal to that which occurred when news of gold discoveries at Ferguson district were first reported. This time the scene of difficulty is laid four miles west of the ranch of Robert Logan, in the Muddy, and about 130 miles from here. Reports of almost fabulously rich finds reached town last Friday and quite a number of our townsmen have left for the new diggings. It is called the Riley district, from the fact that a prospector by that name has been working there for some time. The surface there is a hard gravelly cement, gold quartz being found below the cement, which differs in places in thickness. High assays are reported, and a rush from Southern Utah and Northern Arizona has already set in. Early Sunday morning H. W. Turner and Wm. Culverwell set out from here. On Monday morning Duncan McDonald, Morgan Williams and others followed, also John Reese and Joe Bryant. Tuesday, Flannery and Leroy took the trail, while a number are waiting a favorable report, when they, too, will immediately set out.

We hope the reports are true, and if so, the camp will be a good one, as it will be easily and cheaply supplied with provisions, the famous and fertile Muddy Valley being distant only three or four miles. Before our next issue reports should reach us by mail from the new find.

FERGUSON DISTRICT.

Samuel Reed has been running open house for a week past.

Business at Helene is quiet, but prospects for the future are bright.

Dave Wertheimer has completed his assay outfit and is ready for business.

Sheriff E. D. Turner came over from the Wash Sunday and remained two days.

W. D. Maynard of the Gem lodging house is best prepared to care for transients.

Johnny Horton is pushing work on the Exchequer claim and is sanguine of coming out with a big deposit of pay ore.

The Timber Trail claim of T. E. Edwards, being worked by Doc Gibson and S. D. Edwards, shows up a promising ledge of quartz.

The tunnel on the Sunbeam claim is in over twenty-five feet, showing up an immense ledge. No particular showing of ore is yet encountered, though.

Teams have been busy hauling lumber from the Helene mill for a week past. Ten thousand feet was delivered at the Monitor mine during the last five days.

Half a dozen Pioche claim owners came in Friday and remained over till Wednesday morning, looking over the district. They all see that we are "strictly in it," and that we are soon to have a boom.

W. D. Maynard is building a corral at the lower end of town to care for teams hauling to and from the April Fool and Jim Crow properties. It will be a great convenience and will save considerable time.

The Magnolia claim is at a stand still for the present. Rumors are rife that the owners have gone to Salt Lake to order materials necessary to work the Hiko mill, a lease on which is said to have been finally arranged.

A number of teams loaded ore at the Jim Crow mine for the Condon mill this week. Monday morning Messrs Reeves, Ellis and Wilson, the Monitor owners, notified the Jim Crow lessees not to ship any more ore, as they claimed all Jim Crow ore at present developed as belonging to the Monitor chute.

At the Jim Crow mine last Friday a serious accident nearly occurred. Nesbitt's six horse team was loading at the ore bin, the first wagon was full and on moving forward to load the second wagon the brakes gave way and the loaded wagon pushed the team into a confused heap down the hill several hundred feet, and finally stopped through the front wheels burying themselves in some recently loosened soil. But for this general smashup would have resulted.

The Assessment Law.

Congress has passed the law relieving mine owners from assessment work for the year 1893. It provides that the claimant of any mining location, in order to secure the benefit of this act, shall file a notice on or before Dec. 31st, in the office where location notice of the property is filed, that he intends to hold and work said claim. Any resident of the United States may benefit by this act, except holders of property in South Dakota, which was excluded on petition of its representatives in the Senate.

Scarlet fever is said to be prevalent at Milford.

The A. O. U. W. Order here will give a ball at Thompson's Opera House on the evening of the 30th inst. Every effort will be made to make the event a success. Tickets will be on sale in a few days at \$1.50 each.

In two railroad wrecks in New Jersey recently only tramps were killed. The authorities did not consider it necessary to hold inquests, and yet is not the commonwealth as much bound to safeguard the life of the very humblest as the most conspicuous?

Loren Cushman of Chenango county, N. Y., believes the coming winter will be the most severe experienced since 1833. One of his reasons for thinking so is that the corn husks are unusually thick, and another is "the hog's melt runs jagged instead of smooth." Cushman is known as a weather wise man.

Cleveland Startled

Because His Hawaiian Policy Meets with Disapproval.

Progress of the War in Brazil.

European Powers Making Final Preparations for the Great Struggle.

Mitchell Refuses to Fight.

BALANCE IN U. S. TREASURY LOWEST EVER KNOWN.

Breaking Out of Another Revolution in Old Mexico.

Special Dispatches to THE RECORD.

NEW YORK, Nov. 16.—Silver, 69; Copper, 93.65; Lead, 33.30.

WASHINGTON, Nov. 15.—President Cleveland never goes out now without a body guard.

It is said that the Hawaiian affair has caused a split in the Cabinet and that Secretaries Morton and Smith resigned, but were persuaded to withhold their resignations for the present.

It is said also that the President has been startled by the general expressions of disapproval of his Hawaiian policy from the Democratic leaders. In the opinion of able members of Congress he has committed an unpardonable offense.

Secretary Carlisle has decided that the silver seigniorage can only be coined by virtue of an act of Congress.

Government counsel hold that foreclosure proceedings may be brought against the Union Pacific without legislation by Congress.

The Ways and Means Committee has decided not to submit the new tariff bill to a Democratic caucus. Bland and Culbertson will lead the Democratic opposition to free wool.

The new triple-screw cruiser Columbia in the trial trip developed a speed of over twenty-two knots under forced draught, the highest ever attained by an American war vessel. The makers are Cramp Bros. of Philadelphia.

NEW YORK, Nov. 15.—A special dispatch states that France is waging a financial campaign against the powers of Continental Europe, and is pursuing the campaign systematically. It has been openly declared that a relentless financial war will precede the inevitable military struggle.

Austria is already in a bad way and the serious difficulties of the past few weeks threaten to become worse. Paris is the only impregnable financial capital of the Continent. Her safety lies in the fact that she owes nothing. Every other city is heavily involved. France therefore stands unrivaled to-day among the Continental powers in army, in navy and in financial resources.

The news from the Continent every day becomes worse than the last.

Both Italy and Spain are completely bankrupt and both are in imminent danger of overthrow of the present form of Government and the establishment of dictators.

The plot to overthrow the Hawaiian Government is said to have been hatched at Washington last winter. The New York Sun has published a scathing denunciation of Cleveland's Hawaiian policy, which it calls "The Policy of Infamy."

A private special conveys the information that the Russian Government will take possession of the principal railroads of the empire and pay the private companies five millions. It is a strategic movement to secure the entire control of the three principal railroads in Russia. In the event of a mobilization of troops the Government would not be left in the lurch.

The bombardment of Rio Janeiro continues night and day, without serious injury to either side. The insurgents, it is said, have decided to hoist the Imperial flag. Word comes from Rio that of the torpedo boats President Piexoto has just purchased, five were bought in Germany and are of a double-rammed class.

It is reported that Mello is going south soon and will leave the fleet in command of one of his admirals.

The report that the United States will permit Piexoto's newly purchased vessels from the United States to leave New York harbor flying the stars and stripes, is not favorably regarded by the friends of Mello.

NEW YORK, Nov. 15.—Mitchell, the English pugilist, refuses to sign articles for a fight with Corbett.

COLUMBUS, Nov. 15.—McKinley received 432,901 votes, the highest number ever cast for an Ohio candidate.

WASHINGTON, Nov. 16.—Congressman Springer has prepared a banking bill

which provides for a bank circulation based on State and municipal bonds.

A special from Silver City, New Mexico, says: The Tamoochi Indians are in possession of Palomos, Mexico. They have taken the custom post and driven everybody off. A messenger was sent to the Mexican Consul at Deming, N. M., asking for assistance. The Consul telegraphed the authorities for troops. Gov. Thornton of New Mexico is requested to ask the War Department for troops to aid in the protection of Americans. Serious trouble is anticipated, and the special says:

The Mexican revolutionists instead of attacking Juarez as had been daily expected, have evaded the Federal troops from Chihuahua and Casa Grande and taken Acapulco and Comelia. Americans who were ordered out of Acapulco by the revolutionists, are seeking safety at Deming, N. M. At Diaz, the Mormon colonists have been forced to abandon their homes.

SALT LAKE, Nov. 15.—The copper refinery is getting along actively. By February it will be in operation and the supply of ore is considered ample for the expected output of forty tons of pure copper daily.

SALT LAKE, Nov. 16.—The Union Pacific and Rio Grande Western roads are having a lively spot over a switch crossing near Mammoth Hollow, Tintic. The Western's switch grade is five feet higher than the Union Pacific main track and the latter company would like to tear up the Western's work, but the latter has a force of men sufficient to stand off the Union Pacific for the present. The two roads have been at loggerheads ever since the Western extended into Tintic.

Chairman Powers and Secretary Armstrong have issued a call to the delegates of the late Liberal Convention to reassemble at the Theater on Saturday evening, December 16th, for the purpose of determining the question whether the Liberal party of this city shall continue as a political organization or whether it shall suspend all political functions.

A special dispatch from Washington states that the excess of the expenditures over the receipts has reduced the available balance in the Treasury to a point lower than it has ever been in the recollection of Treasury officials. The available balance last night was a trifle over ninety-eight millions, of which eighty-four millions is gold reserve. The officials of the Department declare the Government will meet its obligations without resort to any extraordinary steps for raising the revenue. In view of the anticipated gold importations, the Treasury Department is contemplating changing the coinage of gold, from smaller to larger denominations.

The following awards in the Liberal Art School Department were awarded at Chicago to Utah—so says a special telegram last evening: Kate Warren, Salt Lake City; Agricultural College, Logan; for Collection of Educational Exhibits, Salt Lake City Public Schools; Provo Primary Schools, photos and charts.

The Midwinter Fair. RENO, Nevada, Oct. 23, 1893. To the Citizens of Lincoln County:

The State Board of Agriculture has decided that the State of Nevada must have an exhibit at the California Midwinter International Exposition and have appointed the undersigned managers of the proposed exhibit. In order to make the State of Nevada exhibit a grand success the managers must have the co-operation and support of the citizens of Lincoln county. Therefore this invitation is extended to every farmer, miner, mechanic, manufacturer, mining corporation and individual to make an exhibit that will redound to the benefit of the whole State, and will be ready at all times to give any information desired to the public.

Respectfully, P. H. MULCAHY, C. H. STODDARD, Reno, Nevada, Managers Nevada Exhibit at California Midwinter Fair.

There will be a meeting of the Board of Directors of the State Agricultural Society at Reno on the 18th inst., the object being to devise ways and means of carrying out the project of aiding the Midwinter Fair at San Francisco. All citizens of the State are invited to attend the meeting.

A Question of Superiority Settled. A dispatch from Chicago says: "On the analysis and recommendation of Dr. Wiley, Chief United States Government Chemist at Washington, and the greatest living authority on food products, the World's Fair jury last week gave the highest award to Dr. Fric's Cream Baking Powder for strength, purity and excellence. This conclusively settles the question of superiority. Dr. Wiley rejected the alum powders, stating to the World's Fair jury that he considered them unwholesome."

Somebody reports a thousand men at the Muddy gold excitement already.

Mrs. George Riding of Panaca is reported to be suffering from diphtheria.

THE DAY'S DEMAND.

By Dr. J. G. HOLLAND.

God give us men. A time like this demands strong minds, great hearts, true faith and ready hands:

Men whom the last of office does not kill; Men whom the spoils of office cannot buy; Men who possess opinions and a will; Men who have honor; men who will not lie; Men who can stand before a demagogue And damn his treacherous flatteries without winking;

Tall men, sun crowned, who live above the fog, In public duty and in private thinking. For while the rabble, with their thumbworn axes, Their large professions and their little deeds, Mingle in selfish strife, lo! Freedom justice, Wrong rules the land, and waiting Justice sleeps.

THE American Engineering Journal says it is not often that the engineering world is called upon to witness the completion of a work nearly 2500 years after it was first projected, but such is the case with the canal through the Isthmus of Corinth. Projected 600 years before Christ, agitated again 300 years later, actually begun by the Emperor Nero, it is completed in 1893.

THE San Francisco Examiner says that C. H. Sinclair of the United States Coast and Geodetic Survey has just returned from the vicinity of Lake Tahoe, where, since July last, he has had charge of the survey work to determine the correct boundary line between California and Nevada. The new line will take a strip about 500 yards wide of the State of Nevada, and the maps being prepared by the present survey give complete topographical and astronomical details of the country.

NEW TO-DAY. THE PIOCHE Meat Market

Main Street, Pioche.

WM. J. V. DE FRIEZ, PROPRIETOR.

Keeps constantly on hand THE BEST MEATS obtainable.

Beef, Mutton, VEAL, PORK, Etc.

DEAFNESS.

We handle the only Electric Invention that is successful in curing Deafness when caused by Catarrh, Fevers, Paralysis, etc.

Send 10 Cents for our 77 page Catalogue, which describes treatment. Please mention this paper.

B. B. BLISS, - Iowa Falls, Iowa.

Notice of Intention to Apply for a Permit to Cut Timber on Public Land.

NOTICE IS HEREBY GIVEN THAT THE undersigned are about to make application to the Hon. Secretary of the Interior, for permission to cut timber on unsurveyed Government land of the United States, situated in the County of Lincoln, State of Nevada, which land is described as follows, to-wit: One hundred and sixty acres of land situated about eight miles south of Clover Valley, said county, beginning at and running southerly from the south line of Township No. 4 South, Range 60 East, Mount Diablo Base and Meridian, and is about twenty miles distant from any Government surveyed land. Said land contains about one hundred thousand feet of pine timber suitable for manufacture into lumber.

L. L. WOODS, G. L. EDWARDS.

Dated Pioche, Nev., Oct. 12, 1893.

SILVER IS LOW!

AND TIMES ARE HARD,

But we have cut our prices to suit the times. Read and reflect. Our entire line of Low Shoes must go, as we do not intend to carry them over.

Infant's slippers, 50 cts, worth 75 cts. Child's slippers, 5 to 9, any pair in the house \$1.00, worth \$1.50.

Children's Oxford, 8 to 11, \$1.30, worth \$1.75. Any Misses' Oxford in the house, 11 to 12, \$1.25, these goods are worth from \$1.75 to \$2.50.

Ladies' Oxford \$1.25, in tan or black with patent tips, worth \$1.75. A big assortment of Ladies' Oxford in pointed or square toe with patent tip in leather or cloth tape, \$1.75, worth \$2.25.

Any Ladies' Oxford tie in the house, \$2.85, worth \$3.50 to \$5.00. Our \$4.00 Men's tan shoes go at \$2.25. These prices prevail for two weeks only and we warrant every pair to give satisfaction. Send us your order. Yours Sincerely,

HIRSCHMAN'S

(The Shoe People)
