

Pioche Weekly Record

THURSDAY, NOV. 23, 1893.

Arrival and departure of Mails

Arrives Sunday, Wednesday and Fridays at 6:30 a. m. Departs Sunday, Wednesday and Fridays at 8 a. m.

PIOCHE AND MILFORD.

Arrives Tuesday and Saturday, at 6:45 p. m. Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HELENE.

Arrives Tuesday and Saturday, at 6:00 p. m. Departs Monday and Friday at 8:00 a. m.

PIOCHE AND HIKO.

Arrives Tuesday and Friday at 6:00 p. m. Departs Saturday and Wednesday, at 10:00 a. m.

POSTOFFICE HOURS

8 A. M. to 7 P. M.

SUNDAYS

6 P. M. to 7 P. M.

No money orders issued or letters registered after 6:30 P. M. and none on Sundays.

JOHN SHIER, P. M.

LOCAL INTELLIGENCE.

W. R. Bradley has gone to Ely to look over the mining situation there and may return in about three weeks.

For bargains in boots, shoes, hats, caps, clothing, etc., go to the Mercantile Co.'s store before it becomes too late.

Have you paid your taxes? If not, you had better hustle, for you only have until the 4th of next month to pay them in.

Mrs. Dooley after a lengthy visit with relatives in San Francisco and vicinity, returned home last Sunday, much improved in health.

The Godbe Mercantile Co. is selling out at cost, and below cost in some instances, for cash. Now is your time to secure bargains.

Mining Location Notices for sale at this office.

To make the hair grow a natural color, prevent baldness, and keep the scalp healthy, Hall's Hair Renewer was invented, and has proved itself successful.

U. S. Marshal Humphreys for Nevada came yesterday to serve papers in the case of the United States vs. the Pioche Con. Mfg. Co., and set out on his return this morning.

Sam Godbe was in town yesterday on his return to Yellow Pine district, after a hasty visit to Salt Lake. General business in the new camp makes his speedy return desirable.

The ore of the Half Moon group of mines of the Pioche Con. Co. is to be tested for gold working. The ore generally carries enough gold, it is thought, to pay for mining and working.

C. J. Bosko, on one of his quarterly trips, accompanied by Johnny Cupid of Ely, came in Tuesday night. Bosko left on this morning's Milford stage and Cupid returned by private conveyance to Ely.

Ben McDonough is up from Ferguson to remain till "After the Ball is over," that of the A. O. U. W. ball next Thursday night at Thompson's Opera House. The string band is in nightly practice, and the members having the affair in hand are sparing no pains to make the event a success, and it promises to prove so.

PRESIDENT WARNER of the Bimetallic League has issued a call throughout the country to members of the league, saying the exigencies created by the unconditional repeal of the Silver Purchase law renders it important that a conference of active bimetallicists be held at an early date to consider the changed situation and determine upon a future course of action. Therefore a conference is called to meet at the headquarters of the league in Washington on December 15th.

The printers all over the country have been protesting for years against the injustice of the government printing returns on envelopes for about the price of the two cent stamps which were on them, claiming that the government should no more enter into a competition with the printing trade than with retail merchandising. The practice has, it is said, at last been abolished, and the printers of the country will receive the two or three million dollars which has heretofore been annually paid the government for this work.

A minister in a small town of Kansas was a boarder at the only restaurant of the place. The fare as is quite common, was exceedingly monotonous, consisting chiefly of hash three times a day. The preacher became wearied of it and one day when the waitress set the dish by his plate, he looked at the hash and then at her and said, "Hebrews, 138." She asked him what he meant. He replied that he did not like to say, but wished her to look up the reference. She procured a bible, turned to the place mentioned and read: "Jesus Christ, the same yesterday and to-day and forever."

To Renew their Judgments. The Luning Co., Chas. Sutor and C. D. Vincent have entered suit in the U. S. Circuit Court at Carson to renew their respective judgments against Lincoln county on our bonded indebtedness. Their present judgment will shortly outlaw. The allowance of their claim on the General County Fund two months ago was not satisfactory—they prefer something more tangible. The papers in the case will be served in a few days. Marshal Humphreys left them with his deputy, E. D. Turner, here.

The Polaris Mining Co. has leased from the Pioche Con. Co. and Claffin and Godbe, the Yuba, Meadow Valley No. 3, old Maseppa and the Currency claims, and this winter may see more life in the camp than for a time has been expected. For a time at least a re-adjustment of things must take place to reduce working expenses. Present prices and the immediate outlook for silver will not justify wages at more than \$2.50 a day to miners, others in proportion, and while this may be objected to by some, it is far better than holding at all. Several \$2.50 camps are nothing their own throughout the

State, and have done so for some time, old reliable Austin being among the number.

The gold fever, which was quite prevalent in Pioche last week, has abated.

A fine line of underwear at cash prices which will surprise you, at the Mercantile Co.'s store.

The "Old Timer" group of mines has been leased to Jacob Spillman for a period of six months.

A horse was raffled last Friday night for the benefit of Mrs. Dupont and was won by Wm. Lloyd.

The cold wave of the past week has been general. It was frosty as far south as St. George, Utah.

Taxes so far are not much slower than usual in coming in, but the delinquent list is expected to be larger than usual.

Treasurer Dooley has made one or two appointments of funds, which were paid out almost immediately by the County Auditor, on previously allowed claims.

A seven year old pupil drew a pistol on his teacher at the Truckee public school a few days ago and should have received a good sound flogging before being expelled.

JOB PRINTING in all its branches, equal in style to any, done at this office.

Saturday afternoon last, the three year old child, Laura, of Mr. and Mrs. Wm. Perry, fell from the rear porch of their dwelling on Locust street, some fifteen feet, and narrowly escaped serious injury.

Frisco, outside of the business furnished by the Horn Silver company, is dull. The business men there report nothing doing. But so many being now employed by the Horn Silver creates some business.—Beaver Usonian.

Foster's latest forecast is that more severe weather than usual will occur from November 22d to December 7th, and immediately following this period a severe cold wave may be expected. Winter storm waves will crack the country from November 23d to 29th and December 5th.

Scrofula is one of the most fatal among the scourges which afflict mankind. Chronic sores, cancerous humors, emaciation and consumption, are the result of scrofula. Ayer's Sarsaparilla eradicates this poison, and restores to the blood, the elements of life and health.

On the 15th inst., at Eureka, Tintio, Utah, Fred Heaton was instantly killed by a cave in, while excavating for a cellar in the bank back of the Eureka hotel. A wagon load of rocks and dirt fell on him, crushing him almost to a pulp. Heaton resided here a year or two ago and worked for a time at the Raymond & Ely mine, during its last operations.

The Nevada Agricultural Experiment Station will send gratis, to all persons desiring to exhibit fruit and small vegetables at the Midwinter Fair, instructions by which the original shape, color and freshness of the fruit will be permanently preserved. Address, N. E. Wilson, Chemist, Experiment Station, Reno, Nevada.

"Forget your bumps, get out of your dumps," for a few hours at least, by taking in the A. O. U. W. ball next Thursday night at Thompson's Opera House. The string band is in nightly practice, and the members having the affair in hand are sparing no pains to make the event a success, and it promises to prove so.

PRESIDENT WARNER of the Bimetallic League has issued a call throughout the country to members of the league, saying the exigencies created by the unconditional repeal of the Silver Purchase law renders it important that a conference of active bimetallicists be held at an early date to consider the changed situation and determine upon a future course of action. Therefore a conference is called to meet at the headquarters of the league in Washington on December 15th.

The printers all over the country have been protesting for years against the injustice of the government printing returns on envelopes for about the price of the two cent stamps which were on them, claiming that the government should no more enter into a competition with the printing trade than with retail merchandising. The practice has, it is said, at last been abolished, and the printers of the country will receive the two or three million dollars which has heretofore been annually paid the government for this work.

A minister in a small town of Kansas was a boarder at the only restaurant of the place. The fare as is quite common, was exceedingly monotonous, consisting chiefly of hash three times a day. The preacher became wearied of it and one day when the waitress set the dish by his plate, he looked at the hash and then at her and said, "Hebrews, 138." She asked him what he meant. He replied that he did not like to say, but wished her to look up the reference. She procured a bible, turned to the place mentioned and read: "Jesus Christ, the same yesterday and to-day and forever."

HARDLY CORRECT.

A month ago the house of Claffin & Co. of New York issued a circular saying: "For the months of July, August and September our sales were over thirty per cent less than those of the corresponding months of 1892, and they are now improving but slowly."

The house of Claffin & Co. was one of the strong petitioners to have the Sherman law repealed. The house of Claffin & Co. depend in a great measure upon the West for customers. We hope the house of Claffin & Co. has found out by this time that to kill a great industry in one region of the country, especially if one of the results of that industry is to put in circulation money that, before the industry was started, did not exist, the blow cannot be delivered without having a rebound, which will hurt every one, no matter what his business may be, in all the land. One of the Claffin's has immense sums invested in silver mines in the West. He ought to be in a position by this time to say to the bankers in New York: "You made a mistake when you inaugurated your war on silver. You had better retract your steps and be content with such money as suited the fathers in the long ago."—Salt Lake Tribune.

While perhaps correct in some degree, the above is unfair in its criticism as far as the individual is concerned. Mr. Claffin is known personally to be a firm believer in silver as money, hence his large investments in that industry; but like many others he had no faith in the Sherman law as a promoter of the metal, and he favored the repeal of that law, and all the while, he was, and is now, busy, at the expenditure of considerable time and much money, scattering silver literature where it would do most good. In position to do it, broad-minded, energetic and liberal, he daily assists in laying a new foundation upon which a lasting superstructure promises to arise as soon as Congress shall meet again next month.

FERGUSON DISTRICT.

A. W. Ellis of the April Fool went to Pioche on important business Tuesday.

Four teams loaded ore at the Jim Crow for the Condon mill, Tuesday afternoon.

R. A. Martin returned from the county seat Monday and reports matters there as very quiet.

Doc Meeks is still in charge of Mrs. Weber's boarding house at Helene, and is in shape to please the public.

Ed. Reeves went to Pioche Monday to consult a physician for lung troubles. He has been complaining for some time.

The Valentine claim, owned by Geer and Lamson, improves as work progresses. Lamson is feeling good over his new strike.

It is reported that the Monitor and Jim Crow owners each object to the other shipping ore and both sides have served notices to that effect.

Samuel Reed is preparing to run a public boarding house at Helene. He says the camp demands one and that he is the man to furnish it.

George Petty and David Meikle were passengers on Tuesday morning's stage. Petty goes after supplies, while Meikle works his property here.

The Syphas Bros. and Hy. Empp of Panaca are doing some development work on claims adjoining the Flagstaff, and where the surface indications hold out exceedingly well.

J. Eisenmann stopped over here Saturday last, looking at the Sunbeam and other claims in which he is interested. Like others, he thinks our boom cannot be delayed beyond next spring.

F. P. Swindler dropped in from Pioche Monday night for a further look at the district. He is much pleased with matters, and is surprised that there is not said about the place than there is.

The lessees on the Flagstaff, after 250 feet of tunneling and crosscutting, have developed a vein of quartz from which some good assays have been returned during the past week. The main tunnel is in 206 feet. A crosscut to the south of 94 feet failed to discover any ledge, and a crosscut to the north was made, and at about 14 feet some quartz was encountered from which assays in various amounts were secured. How much of a ledge is found is not known, but the owners and lessees are hopeful that it will prove a big thing. Considerable excitement was created when the strike became known, for ore developments in that quarter of the district means that Ferguson is far larger than generally supposed, as the Flagstaff is nearly a mile from the April Fool, Monitor, Jim Crow and other developed mines. Assays of material average about \$12 a ton in gold, with some little silver. A return of \$105 was secured on Thursday, while one selected piece went to \$300.

NO GOLD.

Duncan McDonald, Morgan Williams and others who left last week for the gold excitement on the Muddy, returned last night and report the whole thing to be a fake. Instead of gold claim locations, hundreds of prospectors and great excitement, as reported, they found only one or two weary prospectors searching for something that would pay to locate, and that something is not yet found. West of the valley at about the place where rich finds are said to recently have been uncovered, is a large ledge, traceable for miles to the westward, which appears, however, to be barren, and prospecting this, is what brought on the recent excitement. Other Piochers who went down will return shortly.

A YOUNG farmer of Henry county, Mo., named Elmer Rand, was arrested the other day while on his way to Washington to see Cleveland. He is crazy and made no threats, but said he had as good a right to be President as Cleveland, and he wanted to talk to the President about the matter.

FREE COINAGE.

Bland Says There Will be a Majority in the House for the Measure.

Earthquake in Persia, with a Great Loss of Life.

Death of Jeremiah Rusk, ex-Secretary of Agriculture.

Doings in Salt Lake City.

Special Dispatches to THE RECORD.

NEW YORK, Nov. 23.—Silver, 69 1/2; Copper, \$9.65; Lead, \$3.35.

SALT LAKE, Nov. 21.—The Utah Commission will hereafter take charge of the school elections, but the Board of Education must provide the polling places.

The county court yesterday fixed the salaries of the respective county officers charged with the assessment and collection of taxes, as follows for the year 1893: County Clerk, \$4250; County Collector, \$7250; Assessor, \$8500; Treasurer, \$1800; Attorney, \$2500; Sheriff, \$3000. These salaries are inclusive of all compensation of deputies, clerks and assistants.

Will rumors came to this city last night of the express messenger on the Rio Grande Western train which left this city last night for Ogden, having been murdered between here and that city, and the express safe robbed. The facts are that, on the arrival of the train in Ogden, the messenger, Hallett Sayres, was found dead in the car and the safe open, but its contents undisturbed. Sayres was lying on his back, his leg upon the safe and his pistol partly under him, a bullet having gone through his heart and glanced up, and went through the roof of the car. It is supposed the accident occurred at about Hooper. His work was finished, his books straightened and all valuables and papers put in the safe, and it is supposed he was putting away his pistol before looking up. The death is thought to have been purely accidental.

A telegram from Washington says that the silver men propose to renew the silver fight as soon as Congress meets. Bland says that he has private assurance from a large number of those who voted for repeal, to make it evident that he can get a majority in the House for free coinage, and he has prepared a bill for early introduction which is a practical revival of the free coinage law of 1837, and makes silver coins of all denominations full legal tender to any amount. It is his purpose not to push this bill at once, but to allow first a reasonable time for the passage of the tariff bill. He thinks there should be a heavy reduction in the tariff and a large income tax imposed.

WASHINGTON, Nov. 21.—Special Commissioner Blount's report on the so-called Hawaiian investigation is published this morning and occupies four columns in the newspaper.

Ex-Minister Stevens declares it to be a shameful perversion of facts and promises to expose Blount's conduct. Blount holds Stevens and the marines responsible for the revolt.

It is said that Cleveland, in the event of failure of his Hawaiian policy, will attempt to shift the blame upon Gresham and Blount.

A special telegram from Ciudad Juarez, Mexico, says there are reports of further engagements between the revolutionists and the Federal troops. The situation is favorable to the revolutionists, as is the country in which they are operating is in sympathy with them and is difficult of access to the troops on account of its natural roughness and the snow. Palmer and Conception have been invaded and the former completely looted. President Diaz has ordered that revolutionists caught be shot like dogs.

In every town along the river secret agents are enlisting recruits for the revolutionists, and the spies of the Government are making suspects to be arrested and put to death.

NEW YORK, Nov. 21.—A cable from London says that Great Britain is working up in regard to naval matters. Lord Charles Baresford, formerly Lord of the Admiralty, says that the navy of Great Britain must be actually stronger than the combined fleets of both her possible enemies, France and Russia. He proposes an expenditure of twenty-two million pounds sterling for the construction of six ironclads of the "Royal Sovereign" class, twelve battleships of the "Barfleur" class, ten cruisers of the "Blake" class, fifty vessels of the "Havoc" class, designed especially to destroy the enemy's torpedo stations. Half a million pounds should be expended for a reserve ammunition supply, similar to that maintained by the French Government at Toulon, and 634,000 pounds should be used for strengthening the moles at Gibraltar.

WASHINGTON, Nov. 22.—The Democratic managers are afraid of the silver issue and have determined to make the tariff the overshadowing question in the Congressional campaign next year.

There is to be a lively fight against the retention of the duty on silver-lead ore. Congressman Tarsney of Missouri is leading it and expects victory in the House. Senator Dubois says he is confident that free silver-lead ore cannot pass the Senate. He states he has received strong assurances to this effect from sources which which will count.

WASHINGTON, Nov. 23.—It is claimed in administration circles that the Hawaiian Queen was restored to the throne on Tuesday.

The National Grange yesterday censured Secretary of Agriculture Morton

held here yesterday to arrange the preliminaries of a reorganization of the Union Pacific railway.

The Senate Committee on Union Pacific railway authorized its sub-committee to sit during the recess, and Senator Brice was delegated, with power to form the committee of reorganization. The system has 8000 miles of road and over three hundred millions of securities.

Directum won the great trotting race with Alex, yesterday, in three straight heats. Directum is now king of trotters. His best time yesterday was 2:08, the best run made in November.

Jeremiah Rusk, ex-Secretary of Agriculture, died at his home yesterday at Viroqua, Wisconsin.

SALT LAKE, Nov. 22.—Young Hammond, convicted of murder in the second degree, was sentenced to fifteen years in the reformatory school at Washington, D. C., yesterday by Judge Zane.

Yesterday the Utah Commission heard arguments on the contested election cases and will give their decisions to-day.

At the City Council meeting last night, the contractors on the gravity sewer were relieved from doing further work. Joseph M. Stoutt as a member of the Board of Public Works was rejected and the usual routine business transacted.

A special from Washington last evening says: "The Philadelphia Press this morning prints a special, stating that the news that the Republicans of Utah, as a result of the recent election, have, in connection with the Liberals, who are in sympathy with the Republicans in their opposition to the Democrats, secured the control of both branches of the legislature of that territory, is creating consternation in the Democratic ranks here. A bill for the admission of Utah as a State has already been favorably reported in the House and by a majority of the Senate committee on Territories. It is the intention of the Democrats to push it through Congress at an early date, but if there is a prospect of the Republicans controlling the Legislature, it may cause the Democrats to balk. If it should be admitted to the legislature at this time, the Democrats might find themselves confronted with two more Senators in favor of a protective tariff, as well as free silver coinage. Under the circumstances, the bill for the admission of Utah, may not go through as rapidly as was anticipated."

SALT LAKE, Nov. 23.—A large fire broke out in the Jennings block, on First South street, at 7 o'clock last evening, and caused damage to the amount of \$40,000. The losers are the Jennings Investment Co., Simon Bros., and Sorenson & Nelson, furniture dealers. All the loss is amply covered by insurance.

The Utah Commission yesterday decided to issue certificates of election to Seeley and Seaman in the Council contest, and dismissed the Dougall vs. Robinson contest.

LONDON, Nov. 22.—A telegram from Tehran, Persia, dated 21st, says: Mild shocks of earthquake continued to be felt. Kuchan was utterly destroyed, with great loss of life and property. The supply of food and water is exhausted and most of the inhabitants have fled to the mountains.

for misrepresentation, and will ask President Cleveland to remove him.

TELEGRAPHIC BRIEFS.

The great English coal strike, which caused much suffering, has ended.

Southern manufacturers want the Democrats to give them a protective tariff.

Minister Willis weakened in his attempt to restore the Queen of the Hawaiian Islands to the throne.

Cleveland and Gresham received the news with dismay. It is stated that force will be used if and so, trouble is anticipated.

The new cruiser Columbia on her trial trip attained a speed of over thirty miles an hour, beating any war ship or merchant vessel afloat.

The Brazilian war still continues, with no material advantage gained on either side.

Furious gales have prevailed on the English coast and hundreds of vessels have foundered. Many lives were lost.

The new tariff bill puts on the free list wool, coal, iron ore, rice, salt, and many other commodities.

Kick Him When He's Down.

Yesterday papers were served on the officers of the Pioche Con. M. & R. Co., in an action brought in the Circuit Court of the United States in and for the District of Nevada, by the United States as plaintiff, to recover from the company \$4,584.15, alleged to be due the United States for timber cut from the public lands in Utah Territory, in 1891-2, and used by the company. This suit, coming as it does when all work is suspended, after the outlay of more than a million dollars, and when hope for the future is anything but bright, makes us ask if the miner of the West is to have any show at all? In the present case the company bought lumber from dealers in Utah, not knowing it to be unlawfully cut, if it was so, paid a high price for it, used it in an earnest effort to develop the country, its work forming the principal business of this section, benefitting nearly every one in it, and now are required to defend a suit at the hands of the Government, who ask full pay again for the material used. Unless the suit is the direct result of personal feeling or of blackmail ideas on the part of some special officer, it fully becomes the Government at this time, when the mining industry—the only one on which this section relies—is about paralyzed, with vast sums of money laid out in mining enterprises which have proven unproductive, to ask redress for any such fancied grievance as forms the basis of the present action.

Born.

At Bennett Springs, Nov. 20, 1893, to the wife of Thomas Gillan, a son.
