LOCAL INTELLIGENCE.

A Merry Christmas to you all. Flour was selling at \$2.40 per cwt. on the streets on Monday.

The Post office drug store has a fine line of toys already displayed.

Wm. De Friez has closed out the business of the Pioche Meat Market here.

For dolls, and other things to please the little ones, go to the Post office drug store.

Mr. F. P. Swindler and wife returned from a short visit to Salt Lake yesterday.

The Polaris company has out about a car of first grade ore from the Yuba, ready for shipment.

Pat Sheehan and Earnest L. Godbe went to Ferguson on general mining business Monday.

Hon. Geo. S. Sawyer returned Sunday evening from Beaver, Utah, where he attended the recent sitting of the District Court.

Toilet articles, toys, books and many other kinds of holiday goods are displayed at the Post office drug store.

After snowing about two inches last Thursday night the weather settled rapidly, and Friday and Saturday were lovely days, sunshine and bright.

C. W. Watson, who has been at the Magnolia mine looking into the property somewhat for a week or two past, returned to Salt Lake temporarily, by Tuesday's stage.

Joe Phillips has gone to Ferguson district on business, to remain till the holidays. During his absence Mr. H. Hartung will have charge of the tenorial apartments here.

J. Eisenmann has sued Thomas Taylor of Cedar City, Utah, for a balance of \$32.50 due on account, and has levied upon a quantity of railroad iron lying between here and the Flat, on attachment.

Mining Location Notices for sale at this office.

Dan Roder has sued D. N. Barthel and James Hutchinson, in the Justice's Court at Helene for \$154.37 for goods supplied while running the sawmill below Helene last year.

T. M. Flynn, bonded with the Record office for the past year and a half, is taking in Ferguson district, ready to enter a mining enterprise if opportunity offers. Success to any venture you may make Major.

Vanderbilt district now has a newspaper which has come to stay. The "Shaft" is a nicely gotten up sheet, full of news of that vicinity and is published weekly. By its advertising columns a fair number of business houses are shown to exist in the place.

Everybody knows that the conditions for health are not favorable when the stomach, liver and bowels are disordered. In such cases, headache, indigestion and constipation are the result; for which all ailments the remedy is Ayer's Cathartic Pills.

Geo. B. Van Emon, after a few days stay with us, left Monday for Muncy Creek, White Pine county, to resume work on a promising prospect he has held on to there for a number of years. Salt Lake parties are interested now also in developing the claim.

The B. B. E. Order will provide a Christmas tree at Thompson's Opera House on Christmas eve. It will be open to everybody for the reception of presents, so don't forget your friends. The committee want all parcels sent in by Saturday evening the 23rd, in order to avoid a rush. An entertaining programme is being prepared in connection with the tree.

Congressman Newlands writes from Washington that he has now at his disposal the annual allotment of seeds by the Department of agriculture embracing vegetable and flower seeds extensively together with corn, grass and clover seed. Those who desire seeds are requested to communicate with Mr. Newlands, stating quantity and varieties wanted.

The new mill at Bullionville will start on roasted tailings about the middle of next week. Four pans and two settlers only will be operated for a time. The new structure is practically fire proof. The walls are of brick with pillars and roof of iron except the few necessary rafters. The Howell and reverberatory furnaces are covered with an iron roof also, likewise the boiler room.

There are at present 88 prisoners in the Nevada penitentiary.—Elko Free Press.

One or two cloudy days in the past week, but most of the time the weather was above complaint.

Twenty five thousand millionaires and twenty five million slaves and paupers in the "land of the free and the home of the brave."—Silver State.

People who have tried it, say that there is no better medicine for dyspepsia than Ayer's Sarsaparilla. It may not give one the stomach of an ostrich, but it so strengthens the alimentary organs that digestion of ordinary food becomes easy and natural.

H. E. Freudenthal came in this afternoon from Comet district for the holidays. His claim, the Lyndon, looks better than ever and regular shipments of high grade ore, will begin to the Bullionville works as soon as the company will receive them.

Hon. J. J. Manning is in town from Hiko attending to matters in general for the mill there. He has with him an exquisite specimen of gold rock from the Magnolia at Ferguson District lately taken out.

Will C. Higgins, a pioneer in the newspaper business, has begun the publication of a weekly paper at Cedar City, Utah, the "Iron County Record," the first number of which is at hand. It is a nicely gotten up sheet and is full of information about that promising section of country.

The Condor mill is ready to start up with the exception of a pump for lifting water from the creek bed, being still enroute from the factory. But for this, the character of the ore from the Jim Crow mine at Ferguson, would soon be known; as it is the mill may be able to start at any time almost as the pump is liable to be along any day. Jimmy Clark has charge of the mill and will continue to operate it.

A three foot quartz ledge at Toole isn't in it with the twenty to forty foot outcrops of Ferguson district, all as good no doubt as the Toole find. The distance from railroad and the difficulty of examination is the only thing that has kept Ferguson district so much behind, but now this is to change. Sam Godbe's option on the two main properties there, is advertised pretty well from Denver and ought to set mining men of means to thinking.

Last Thursday evening about six o'clock a cyclone or something akin to it, struck the south end of the dwelling house at Stanley's ranch in Lake Valley, tore away the shed, and partially crushed in the end of the house. It occurred without warning and before the inmates could get outside, the trouble was over, the whirlwind sweeping away to the northeast, demolishing two large stacks of hay in its course. The prevailing direction of the wind during the day was from the south.

Inquiries are made from the East as to the existence of mica beds or deposits in this county. Several mica claims are held in the southern part of the county and there is an exhibition in this office a sheet six inches square, of first class mica, which was brought from the Las Vegas ranch about a year ago. It was produced near there but the exact place is concealed by those interested. Now is a good time to make known its location; the result might be to interest outside parties in its production.

The new law suspending assessment work for 1893 requires that all persons who desire to secure its benefits shall file notice with the Recorder before December 31, 1893. A form in compliance with the law has been prepared by THE RECORD and is now on sale at this office.

A short time since the statement was made that the ore veins in Vanderbilt rested upon beds of cyanite at a depth of about 300 feet. This statement was made by one who was supposed to know, but he made one serious mistake, and that mistake was the failure on his part to furnish the proof wherewith to support his theory. Ninety-nine people out of one hundred would at first thought accept his statement without any proof being furnished; but how much would such evidence be worth before a board of experts? For the sake of argument, however, we will grant that he may be correct. What then? Simply this; that the ore in Vanderbilt above that line is sufficient to make it a live camp for two or three years. No prospect in this camp has failed, but, instead, all have shown good rock, which grows better as the shafts are sunk, down to the deepest level yet attained—that of 200 feet. And this statement depends on no one mine, or any one thing. The ore is rich and there is plenty of it above 300-foot level; and it is yet to be proved that there isn't ore below that level.—Vanderbilt Shaft.

Teacher's Examinations. The attention of those who think of applying for teachers certificates is called to the County School Superintendent's notice in another column, of the first semi-annual teachers examination for 1894 under the new law applying to that subject. Heretofore applicants for certificates have been examined at all times, and certificates granted in the discretion of the county board of examiners. Now, general examinations are held on the first Monday in January and July, in each county throughout the State. The questions used for written work are prepared by the State Board of Examination, are sent sealed to the various county superintendents, and are not to be opened until the first day of the examinations. The State Board also prescribes the standing which each applicant must reach in each study in order to secure a certificate. The examinations will no doubt be more thorough and complete than has been the practice heretofore, but the result must eventually be better teachers in general, though to retain them, better pay than has been afforded in many districts for a long time, will have to be provided.

Public Examination. Parents and guardians of the pupils are respectfully invited to attend the public examination Friday, 22nd, at the Pioche

FERGUSON DISTRICT.

J. H. Brown has leased a claim about three miles east of town and began work there yesterday.

Will Denton, our accommodating stage driver has concluded to take a lay off for the benefit of his health.

Helene will not show much observance of Christmas this year, but just wait till the next one and see if we're not strictly in it.

John Viesti came in with supplies for the Jim Crow claim yesterday. The mine is improving and more men will soon be put on.

The wagon road from the Flagstaff mine to the main roadway is finished, and the force of seven men have resumed work on the claim. Good results are expected within the next sixty days.

Maynard and Carrion have opened their corral at the lower end of Helene for transient travel. This will be a great convenience to teamsters from the April Fool side of the district.

The boys at the Richmond claim have gone home to Panaca for the holidays, expecting to return soon thereafter and resume work either on the Richmond or some of their adjoining prospects.

The Hiko mill made a permanent start on Magnolia ore Tuesday morning in charge of Johnny Ferguson. Ten days hence we look for a good cleanup. The success of his enterprise means much for the immediate future of this district, as if entirely successful, the mill will be open for custom ores from other claims in the district.

R. W. Crandall, who was brought up from Helene last week, in an advanced stage of consumption, died Tuesday afternoon at the lodging house of Mrs. Deck. Deceased had been failing for some time previous to his death. He was one of the first locators of claims at Ferguson district last year, after the gold discoveries, and located the south extension of the Magnolia mine, a good property. About a year ago he sold a half interest in the claim for \$3,000 after which he drank heavily and continuously, thus hastening his end. At the time of his death he was practically without means. He was a man of about 55 years of age.

More Railroad.

The Salt Lake Tribune of the 13th inst. quotes Captain R. Foxwell, General Manager of the California & Nevada Southern railroad as saying that the road would be completed, and through trains running between Cedar, Utah, and Los Angeles, Cal. by next July, the road to come from a point about 100 miles north of Goff, or Blake, as it is now called, on the A. & P. Road.

This agrees with the proposition to deliver next July, 16000 tons of coal at Los Angeles in payment of subscriptions to the road, referred to in Mr. Blake's late visit there, and indicates that the Nevada Southern proper will terminate at State Line Pass, on entering Lincoln County and that the new organization will then carry on the work northward. Articles of Incorporation for Utah, to secure the right of way, etc. were filed last week at Salt Lake. If a similar action is shortly taken at Carson for this state, it will mean more for immediate work than a column of talk, and lively work and good times may be looked for in southern Lincoln next Spring.
