LOCAL AND OTHERWISE.

For family liquors go to Sam E. Wertheimer.
See the Notice to Creditors under New To-Day.

Johnny Dolan is confined to the house with an attack of bilious colic.
The family of John Rorder has gone down to their ranch in Patranagat Valley.

We had a refreshing shower last night but still the gentle zephyrs continue to blow.
John Shier our late post master came up from Reeves last Monday to attend court.

Dr. J. D. Campbell received on Monday a large consignment of new drugs from eastern markets.
Judge Young still remains in very feeble health and does not show any signs of improvement.

A large body of good ore has recently been struck in the Yuba and is finding its way to market.
Frank Goibe, wife and children arrived by Sunday's stage and are guests of Mrs. James Pierson at the Pioche hotel.

Saturday last gladdened the hearts of a number of men in town, it being pay day at the P. C. Companies office. The money distributed proved very acceptable.
Ballness is either hereditary or caused by sickness, mental exhaustion, wearing tight-fitting hats, and over work and trouble. Hall's Renewer will prevent it.

Everybody who possesses a garden spot are endeavoring to coax vegetation but their labor seems lost for the heavy winds of late seem to take a delight in uprooting what they plant.
JOB PRINTING in all its branches, equal in style to any, done at this office.

A. S. Thompson has just received a carload of Salt Lake Beer, also assorted Soda and Sarsaparilla, which he is offering at reasonable figures and delivered free to any part of town.
James Pierson who lately came up from Patranagat Valley, says what little blossoms on the fruit trees has been blown off and very little if any fruit will be gathered in that section this year.

Decoration day was generally observed here and quite a number of graves were decked with flowers. The cemetery was visited during the day by numerous relatives and friends of the departed.
The Joe Cook political club seems to be losing most of its vim. The indifference in attendance lately most likely arises from the difficulty met by the Industrial army, or perhaps they are getting ready for the strife in the coming election.

The ball of Tuesday evening was a grand success and a large number were in attendance. Supper was served at China Dick's and about fifty partook of an excellent meal, after which they returned to the hall and dancing was kept up until early dawn.
Eczema causes an itching so persistent as to produce, not only sleeplessness, but, at times even delirium. Local applications will not remove the cause, which is impure blood. Ayer's Sarsaparilla cures this disease by cleansing the blood and eradicating all humors.

The hose carts were undergoing an overhauling Saturday to see if they were in good condition for any emergency, a very wise precaution, for with the prevalent winds a fire may break forth at any moment and unless the fire companies are all prepared, would devastate the town.
J. Eisenman wishes to call the attention of those desiring to build, to the fact that he has just received a carload of glazed window sash, all sizes; also panel, sash and screen doors, together with white lead, paints, oils and nails, which will be sold cheaper than ever, but only for cash.

The picnic at Conder Canyon Sunday, would have been a much more enjoyable affair had it not been for clouds of dust and violent wind. As it was the majority of our pleasure loving citizens were in attendance and every available vehicle was pressed into service. A general all around good time was had by everyone.
Saturday evening word was received in town that the Hiko mill was reduced to ashes and as near as could be ascertained the fire broke out about half past eight in the morning by sparks from the boiler communicating with a pile of wood close by. Everything was done to stop the conflagration but without avail and very soon nothing was left but a heap of smoldering ruins and as a heavy wind prevailed at the time it was impossible to stop the flames. The books and papers were fortunately saved but nothing else. The mill was owned by an eastern company and was leased by the Ferguson Brothers to work the gold ore of Ferguson district and was in operation at the time. It is said there is a \$10,000 policy of insurance upon the property.

The highest volcano in the world is Cotopaxi, in Ecuador, 14,496 feet.

Spokane's racing club will conduct Sunday racing matinees during the summer.

The Mayor of Seattle has decided that he will favor the use of vitrified brick for streets paving.

Ninety tubs of butter, (6,300 pounds) were shipped from the Douglas county creamery on the 24th of this month.

Jack O'Toole has confessed to the killing of G. B. Smith in Gross canyon, Nye country, on the 4th instant, but claims that it was done in self-defense.

J. R. Williamson who committed suicide at Austin recently, had been insane for three months before his death, but his insanity was of a mild type and it was thought to be only temporary.

Fully 350 acres of land, to the north of Lovelock will be seeded to potatoes this season. Two potato machines, capable of seeding fourteen acres a day, are in operation.—Va. Chronicle.

Report says a new mill is being put up in Montgomery district which is nearing completion. Some very rich gold rock has been found recently in that vicinity and considerable prospecting is going on.

From Death Valley it is said that some very rich gravel diggings have been struck but they are fifty miles from water, dry washing has to be resorted to and none but the coarse gold is saved. The men working average \$25 per day.

It is commonly rumored here that the Whitaker Hall at Reno will close for good at the end of the present term, and the pupils who desire to finish will do so at the Salt Lake school.—Wadsworth Dispatch.

During the nine months prior to May 1st 270,280 pounds of fresh fish, chiefly sturgeon and salmon, were shipped from Aberdeen, Wash., by express to the Eastern markets. The disbursement has been equal to a payroll of over \$1000 per month.

The closing out sale of the Godbe Mercantile Co's store still continues. The stock of staple groceries is kept full and complete and they go at regular rates with a rebate on other goods thrown in. Read their ad. on this matter on this page.

A circular letter sent out by the Exhibitors association recites that the members of the association have been and are still maintaining their exhibits at a loss, and that they do not propose doing so indefinitely. They will close their exhibits on June 30th.

Major Long had a narrow escape from tumbling down to the bottom of a 220-foot shaft at Fish Creek Wells a few days ago. A booby hook that was tied to a stull slipped. Jacob Therkauff braided himself and caught the Major eight feet from where he fell and doubtless saved his life.—Sentinel.

Although it is not claimed that Ayer's Sarsaparilla cures every ill to which flesh is heir, yet, as a matter of fact, it comes nearer doing this than any other medicine ever compounded. In purifying the blood, it removes the source of nearly all disorders of the human system.

George Batten on old time blacksmiths at this place, came up from the Wash Sunday where he has been prospecting for some time. He was around town Monday showing some specimens of gold ore that made the beholders eyes twinkle, but he would not divulge the location from which it came.

Old bones must have some particular spite against this burg. Sunday he poured out the vials of his wrath upon us in the shape of another fierce wind storm causing clouds of dust and small pebbles to beat a merry tattoo around the streets and driving pedestrians to seek the protection of their homes.

Recent news from St. Thomas, Ont., relate how on the Queen's birthday, British troops pulled down and insulted the stars and stripes which floated above the American Consulate. It would be in keeping with the tone of the administration if Cleveland were to apologize for the customary raising of the flag over the Consul's office, instead of demanding satisfaction for the outrage.

DISTRICT COURT.

The District Court convened on Monday last, Judge A. E. Cheney, presiding. A grand jury was selected from the names published last week, sworn and retired for business. The business to come before the court was then reviewed and no cases being set for jury trial, the forty trial jurors in attendance were excused until Tuesday morning, at which time they were finally excused for the entire court sitting.

Monday was occupied in the consideration of preliminary motions and some estate matters. Samuel Hollinger, James N. Hollinger and Giuseppe Bazzani were admitted to citizenship.

The grand jury made a partial report at noon, returning a true bill for burglary against Wm. Neal, the prisoner brought up from Bankerville some time ago. Neal entered a plea of guilty, waived time for sentence and after learning the facts of the case, Judge Cheney passed sentence of eighteen months upon him.

The grand jury remained in session all day and in the evening made a final report returning and indictment for robbery against John Lund for taking a watch from the person of Charles Matthews, Sr., last year during the time of the Panaca races. Lund is out of the country and a bench warrant for his arrest was ordered issued and bail fixed at \$1500. The killing of James Matthews at Panaca last year was inquired into and the charge ignored.

On Tuesday the case of Charles Crow vs. Frank Wilson was brought on for trial beginning at nine o'clock and occupying the day. Yesterday being Memorial Day, no business was transacted.

This morning the case of Crow vs. Wilson was resumed and occupied the court all day. The case will be finally submitted this evening.

This is the most important suit tried here for years, embracing as it does a one sixth interest in the April Fool and the Monitor groups of mines at Ferguson district, and the decision of the court is awaited with much interest.

Awarded Highest Honors--World's Fair.

Diphtheria.

Speaking of diphtheria it will probably be news to most physicians that they do not know a case of diphtheria when they see it. It is not stated in these exact words, but the doctrine enunciated by the New York Board of Health justifies the inference. This is open to argument. The diphtheria does not any more than tuberculosis, depend upon the presence or absence of the microbes. Here, however, is what the Medical Record says upon this subject: "Whatever else sanitation has done it has not yet succeeded in checking the prevalence of diphtheria either in its city or town. The disease is still the scourge of childhood, the dread of parents and the reproach of medical art. For the recent practical application of bacteriology to the diagnosis diphtheria has revealed in a very startling manner these two facts: First, that in over one-third of the cases the disease designated as diphtheria was not the genuine malarial at all, second, that the mortality rate of true diphtheria is between forty and sixty per cent. All the numerous contributions to diphtheria therapeutics which have been made so industriously for fifty years must be thrown aside as valueless, or nearly so. Diphtheria diagnosis and diphtheria therapeutics have got to be started over again on a new basis, viz: that of bacteriology."

With a disease the character of which it would seem at first blush so easy to determine, it is hard to believe that the medical eye could have been so easily deceived. To assist in the diagnosis of diphtheria the New York Board of Health furnishes culture tubes distributed through druggists gratuitously. These tubes being inoculated are returned to the stations from which they are obtained. Department collectors collect these tubes each evening and in the morning a report of the bacteriological examination is forwarded to the attending physician. In this way an absolute correct diagnosis can be obtained, so that the most rigid quarantine regulations with true diphtheria may be adopted, while the milder or spurious cases need not be subjected to the inconvenience attending such sanitary control.

Experiments made by Dr. Williams at the Department for Contagious diseases, of the Boston City Hospital show that only about one-half the cases designated as diphtheria are really such. His experiments show, also, that peroxide of hydrogen is the most efficient germicide for the diphtheria bacillus and what is most interesting to homopaths he demonstrates the fact that iron, which has been the main reliance of the old-school is only valuable for the small percentage of hydrochloric acid which it contains. Muriatic acid, which is the common term for this acid, is useful in low fevers, typhoid states, diphtheria and blood-poisoning, the indications for which are well known to the careful prescriber.

The year 1896 will be a leap year. The feeblest patient the least dangerous it is to take chloroform.

Mrs. Lizzie Smith of Flemingsburg, Ky., has been awarded \$10 by a jury in a suit brought against Mrs. Jennie Sausley for damages for placing the sharp end of a pin upmost in her church pew.

A meeting of the State Central Committee of the silver party, held at Reno last Wednesday, the attendance of delegates was very large and very enthusiastic, and an address was issued. The State Convention will be held at Carson City on the 4th of September next.—Eureka Sentinel.

Bishop Leonard of Utah and Nevada says that there are 5000 Indians in his jurisdiction, to whom he is anxious to minister spiritually. A chapel near them is necessary, and it will cost \$1000. The Bishop wants to erect a mission house also. Together they will cost \$3000.—Silver State.

One of the most important mining sales in the history of Humboldt county has just been consummated at Winnemucca. It was the sale of the Imperial mine, midlight and water right in Kennedy district by Messrs. Kennedy, Benton and Wilkinson to J. F. Wardner. The purchase price was \$50,000, of which \$5,000 in cash was paid down, the remainder to be paid in regular installments. According to the terms of the agreement entered into between the buyer and seller the new owner must have a mill of at least ten stamps in operation by the 22nd of next September. In case of failure to make any of the stipulated payments, the property with all improvements which may have been made, revert to the original owners. Mr. Wardner has been prominent in mining affairs on this coast for years, being very successful in the various ventures in which he has engaged. Though he bought the Kennedy mine for himself, it is well known that he represents wealthy capitalists, who will doubtless spend considerable money in putting up a proper mill for the reduction of the ore of the Imperial. In fact, it is said that the building of a twenty-stamp mill with latest improvements will be commenced immediately.—Silver State.

OUR WASHINGTON LETTER.

Correspondence of THE RECORD. WASHINGTON, May 22, 1894.

Perhaps it may be true, as has been constantly reiterated, that Mr. Stevenson is not particularly friendly towards Mr. Cleveland and his administration, but his selection of Democratic members of the Senate committee that to-day began a star-chamber investigation of numerous charges of crookedness against Senators and outsiders, beginning with the creek and bull story concerning an attempt having been made to bribe Senators Huntin, of Va., and Kyle, of South Dakota, to vote against the tariff bill, and including the charges against Democratic Senators of having speculated in sugar trust stock and of having given the sugar trust protection in exchange for its big contribution to the Cleveland campaign fund, makes him appear very friendly indeed towards the administration.

For instance, Senator Gray, chairman of the committee, is known as chief of the Senate "cuckoo" and a man who would do more for the administration than any other Senator, while Senator Lindsay, the other Democratic member of the committee, is, in addition to being a cuckoo, known as Carlisle's man. The significance of these selections will not be underrated when it is remembered that Secretary Carlisle, representing Mr. Cleveland, has been from the first to the last mixed up in all the dealings between the Democratic Senators and the sugar trust. Senator Mills of Texas, has publicly stated that Secretary Carlisle gave the president of the sugar trust a letter of introduction to him and that he refused to see him when he called to present it. The Democrats ask credit for being fair because Senator Allen, of Neb., was put upon the committee, but they do not deserve it, as Allen has voted with the Democrats on all political questions and is regarded as a Democrat, although he calls himself a populist. It is clear that if any thing is shown up by this committee it will be through the energy of its two Republican members, Lodge, of Mass., and Davis, of Minn. But nothing can be shown up, unless witnesses choose to tell what they know, the Supreme Court having some years ago decided that a Congressional committee could not compel them either to testify or to produce books dealing with a citizen's private affairs. That decision is a great consolation to more than one Democratic Senator just now. Another consoling thing to certain Democratic Senators was the decision by the committee to make the investigation secret, giving out from day to day only such information as Senator Gray may see fit. That means that the newspaper men will have to hustle to find out what is going on in that committee room as Mr. Gray is one of those non-communicative Senators who regard newspapers as a kind of nuisance. An amusing tidbit is going the rounds, recalling the old couplet: "A little nonsense now and then, is relished by the wisest men."

During an executive session the other day when a discussion was going on over the confirmation of some nominations in which the Republicans had no interest a number of them whistled away the time writing verses on the exhibition Senator Turpie, of Ind., made of himself recently by his uncalled for personal attack on Senator Aldrich. The venerable Senator Morrill, affectionately called the father of the Senate, started the amusement and soon half a dozen Senators were cudgeling their brains for rhymes. Senator Manderson's verse was unanimously voted the best. He wrote: "Aldrich is a triple liar,"

Said Turpie in a rage, "Aldrich, without show of fire, Said: 'Turpie is no sage.' And into no abase he sunk In stating Turpie sure was drunk."

The Republican Senators having concluded to hold their ammunition for big game, considerable progress has been made and will continue to be made in disposing of the unimportant items of the tariff bill, but the sugar schedule is regarded as the biggest of big game and when that is reached there is going to be fighting all along the line, and it will not be surprising if some Democrats join with the Republicans in trying to strike out the \$50,000,000 which the proposed amendment to the sugar schedule will add each year to the cost of sugar consumed in this country. A number of Republican Senators are prepared to fire some sensational facts at the Democratic friends of the sugar trusts, and it is understood that Senator Hill will also have something to say on the same subject that will not make enjoyable reading for either Mr. Cleveland or Secretary Carlisle. It is expected that the sugar schedule will be reached by the end of this week.

Mr. Benedict broke the record Saturday at the Government Printing Office by discharging more than 700 people, about half of them women, and of course, all of them Republicans. The number will probably be duplicated within ten days.

NEW TO-DAY.

Born.

At Pioche, Nevada, May 23, 1894, to the wife of John H. Lynch, a daughter.

Notice to Creditors.

Estate of Conrad Kiel--Deceased.
