

TELEGRAPH NOTES.

WASHINGTON, D. C., Aug. 13.—The tariff bill, with the Senate amendments, passed the House this evening amid a burrah of excitement on the part of the cuckoos to get under cover. The bill cuts the existing tariff on led ores down one-half. The commercial sampling clause also goes in the bill, so that existing frauds on the Mexican border may be expected to be shut off in the future.

The President has approved the bill to make Oakland, Cal., a sub-port of entry.

SHERIDAN, Wyo., Aug. 12.—A frightful accident occurred thirty-five miles from here at the McShane tie camp, in which four men lost their lives and several men are seriously injured. A blast of two hundred pounds of giant powder was put in, and after the smoke had cleared away a number of workmen were engaged in removing the rock that had been loosened by the explosion. Without a moment's notice, a pile of rock, estimated at from fifteen to twenty tons, fell from an overhanging cliff, burying four men and seriously injuring two others.

KANSAS CITY, Mo., Aug. 12.—At 3:30 this morning two express trains collided and resulted in two trainmen being killed and several passengers injured, and the engines and combination express and other cars completely demolished. The trains were to have met at Gibbs, according to orders, and it is alleged No. 4 violated orders.

HELENA, Mont., Aug. 12.—The receipts of gold bullion at the United States Assay Office at Helena the past week amounted to \$120,088.74. This is the largest week's business in the history of the office.

BERLIN, Aug. 11.—Slowly but steadily the cholera is spreading westward and the disease has obtained a strong foothold in nineteen Russian provinces, where hundreds of deaths are recorded daily.

WARSAW, Aug. 11.—The great coal mines near Dombrowa, Gradwa, have been burning for some time. The fire was started by an explosion of gas while a full force were underground. The shaft was wrecked and comparatively few miners have been rescued. According to the latest report seven hundred miners are entombed, and all hope of saving them has been given up.

OMAHA, Aug. 11.—Jimmy Lindsay defeated Fletcher Robbins in a prize fight at Plattsmouth Thursday night, and the latter is dying of injuries received. Warrants have been issued for Lindsay, and the sporting editor of the Bee, who refereed the battle.

LINCOLN, Neb., Aug. 9.—A Rock Island train consisting of an engine, combination baggage and express car and one coach, plunged over a fifty foot trestle about five miles south of the city, at ten o'clock to-night and was smashed to atoms. All the members of the crew were killed except the brakeman, H. C. Foose, whose story is that the wreck was due to the work of train-wreckers. Ten or twelve of the passengers are supposed to be buried beneath the mass of glowing coals and red-hot iron, which is all that is left of the train and trestle.

CASPER, Wyo., Aug. 9.—The State Convention of the Populists of Wyoming, met here to-day. A full ticket was nominated. The resolutions declared in favor of free coinage of silver and denounce the past legislation of both old parties. The party is strong in this state.

CHAMPAIGN, Ill., Aug. 9.—The business portion of Gifford, was almost entirely destroyed to-day by fire. Twenty-one business houses, two grain elevators, the Illinois Central depot, and grain cribs containing a large amount of grain were burned. The loss, which is partially covered by insurance, is estimated at \$200,000.

BERLIN, Aug. 10.—A dispatch from St. Petersburg says: "In addition to eight Russian war ships which sailed recently from Vladivostok, under sealed orders for Korea, the Commander-in-Chief of Eastern Siberia has been instructed to hold troops in readiness to march at any moment. Russia wishes to maintain a strictly neutral position, but to see as a constitutional change occurs in Korea she will resolutely protect her interests."

The fastest train in the world covers the run from New York to Buffalo, 440 miles in eight hours and forty minutes. It will soon be extended to Chicago; then, when the electric road to St. Louis is built, that distance will be made at the rate of 100 miles per hour. There is talk of putting on a lightning express from St. Louis to Denver.

Mrs. A. M. Hartley was arraigned at Reno Saturday, before the District Court, to plead to an indictment of murder. Her attorneys, Goodwin and Dodge, entered a motion to quash the indictment, also a demurrer to it, on account of alleged irregularities but both were overruled. Judge Cheney then asked the attorneys when they desired the case set for trial. District Attorney Carter thought September 10, was the earliest date in which he could prepare for the trial. E. R. Dodge on behalf of his client, said that while it was desirable that Mrs. Hartley should have as early a trial as possible, she would consent to have it set at that date; whereupon Judge Cheney named Monday September 10th, for trial. The defendant, Mrs. Hartley, appeared in court robed in white, with barely a trace of color in her face, and evidently laboring under suppressed excitement although she entered her plea of "not guilty" with no trace of emotion in her voice.—Reno Gazette.

When her husband became Governor of Colorado, Mrs. Waite deliberately snubbed Denver society. The wife of the retiring Executive tendered her an elaborate reception. Most of the guests afterwards called upon her, and her card basket was filled with invitations to 5 o'clock teas. She never returned the calls, nor has she ever entertained.

OUR WASHINGTON LETTER.

Correspondence of THE RECORD.

WASHINGTON, August 9, 1894.

The Democratic distraction over the tariff bill is still as great as ever. There is lots of talk every day about an agreement to-morrow, but, like to-morrow, the agreement never comes. Just when a new sugar schedule, new in words, but the same in principle as that prepared by Democratic Senators and Secretary Carlisle under the direction of the sugar trust, which was to be used to blind the ignorant followers of Mr. Cleveland and the House free traders to their surrender to the Senate and the trust, which its acceptance meant, had been patched up at the White House and the end seemed in sight, when the La. Senators, reinforced by the Populists, Allen and Kyle, hopped up with the statement that no sugar schedule would be supported by them which did not provide for the payment of the sugar bounty for this year. That sent the conference to sea again and they are still floundering around at this writing, drifting nearer and nearer to the breakers on the rocky coast all the while. How they will get out at all, is still problematical. It is certain, however, that the Republicans will not volunteer as life savers.

Boss Cleveland has succeeded in preventing the House committee on foreign affairs reporting the Hawaiian resolution for the immediate recognition of the Hawaiian Republic, although it was voted for the same resolution introduced by the present Democratic chairman of that committee, when the Hawaiian Republic was established, during the Harrison administration, and when a majority of the committee and of the House was Republican. But at least one Democrat on the committee—Geary of California—was ashamed of his party and had the manliness to speak his mind. He said: "We might as well admit that the Democratic party has blundered in its treatment of this Hawaiian question; and we cannot afford to make another blunder." The Democrats "beat the devil round the stump" by postponing the consideration of the resolution until next Thursday, hoping that it will then be too late to have it acted upon at this session. In view of this action by the committee at Mr. Cleveland's dictation it is not surprising that the members of the Hawaiian commission now in Washington, who represent the ex-queen, should say that they intended to remain until informed by Mr. Cleveland whether he intends to carry out his promise to restore the queen to her throne. They naturally think that Mr. Cleveland still wishes to restore the queen, and other people think so, too. Why else should he wish to postpone recognizing the republic?

The G. A. R. men have sent a formal protest to Mr. Cleveland, and are preparing to bring to the attention of the coming National encampment at Pittsburg the unjust treatment the old soldiers have received from the Cleveland administration. Out of 150 employees dropped from the rolls of the Record and Pension Division of the War Department 71 were Union veterans, and it is said that the records of some of the ex-soldiers show them to have been among the most efficient clerks in the division, while none of them were below the average in their efficiency records. Old soldiers have also been discriminated against in other departments, particularly in the agricultural department and in the various branches of the Interior department, including the Government Printing Office and the Pension Bureau.

There is more or less anxiety in Congress because of the war between Japan and China. This is not because of any special interest taken in the war as it now is, but because of the fear that the United States will be in some manner dragged into it by the diplomatic blundering of Secretary Gresham, who appears to have, in place of the calm judgment that should dominate a Secretary of State, an over supply of the very undesirable faculty which makes him "put his foot in it" every time he makes a move in connection with the foreign relations of the government.

Representative Stone, of Pennsylvania, is not discouraged by the opposition of the administration to his bill requiring all immigrants to be examined and certified by U. S. consuls, which recently passed the House and which the Senate committee on Immigration has tried to kill by reporting a substitute therefor which might easily have been added to the bill as an amendment. He says: "I can see no ground for objections except from steamship companies that are engaged in the unwholesome traffic of transporting to this country criminals and paupers. I had hoped that that this measure would be considered from a patriotic standpoint alone and would not be made a party measure, as the opposition from the administration gives me cause to fear it will be. The people, without regard to party, demand a further restriction upon immigration, it will come, if not now in the near future. For one, I propose to keep this standard to the front as long as I remain in Congress, and I believe all patriotic people will respond. The objection that inspection by consuls will interfere with the present laws is ridiculous. The measure will save expense to the government by utilizing these consuls instead of adding expense. This objection seems to be a mere pretext and will not weigh with men of intelligence."

The farmers of Douglas county will harvest the largest hay crop this season that they have stacked for years.

Meteorological—Matilda—Do you have reindeer in Canada? Underhill (quickly)—Yes love, but it sometimes snows.—Truth. When a man does not want to do a thing he says "I cannot," when he cannot do it he says "I don't want to."—Flegende Blotter.
