Messrs Shean, Godbe and Lloyd have all machinery in good working order at the summit and will start to-morrow leaching the tailings that are there. A test of the ore by different process showed that the ordinary hyps gave the best extraction and that will be used in the working of the same. They have every confidence of success from all the tests made and will work on an average fifteen tons a day. They have gone to considerable expense and it is hoped that their greatest expectations will be realized.

A very pleasant party of our most distinguished citizens assembled at the residence of George H. Williams on Monday evening to welcome his return to town after an absence of about two months in Utah, where he had been for the benefit of his health. A collation prepared by the well-known caterer, F. W. Dickle, was partaken of and fluids of various kinds assisted in completing the menu. About twenty gentlemen sat down and after the repast, oratory and singing were indulged in till the wee sma hours and all the guests departed wishing him a long and prosperous future.

Mining matters are picking up in and around St. Thomas. The strike recently made about thirty-five miles strike east of St. Thomas promises great things. A contract has been let to sink one of the main claims fifty feet, and a ten stamp mill is spoken of as being let up by Mr. R. Land, one of the principal owners. The mines are situated in what is known as Cedar basin. It is the intention to put the mill on the Virgin river so as to have it run by water power. Reports from there are to the effect that about three miles from Cedar Basin and over the mountain, ore of the same kind as found in Cedar Basin has been struck, the veins run the same and a few locations have been made.

It is reported that A. C. Cleveland will be the nominee on the Republican ticket for Governor.—Journal.

Statehood is now almost as important in Arizona as the free and unlimited coinage of silver. With two Senators and a Congressman we could improve our chances in the fight for supremacy wonderfully. Give us statehood and we will add three good and true silver men to fight our battle in Congress.—Kingman (Ariz.) Miner.

It is reported that A. C. Cleveland will be the nominee on the Republican ticket for Governor.—Journal.

THE ASSESSMENT SUSPENSION.

Upon Unpatented Grounds—Full Text of the Act of Congress.

This being a matter of special public importance among the miners and prospectors of this section, the following will be read with interest:

An Act to amend section numbered twenty-three hundred and twenty-four of the Revised Statutes of the United States relating to mining claims. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the provisions of section numbered 2,324 of the Revised Statutes of the United States, which require that on each claim located after the 10th day of May, 1872, and until patent has been issued thereon, not less than \$100 worth of labor shall be performed or improvements made during each year, be suspended for the year 1894, so that no mining claim that has been regularly located and recorded as required by the local laws and mining regulations shall be subject to forfeiture for non-performance of the annual assessment for the year 1894. Provided that the claimant or claimants of any mining location, in order to secure the benefits of this Act, shall cause to be recorded in the office where the location notice or certificate is filed on or before the 31st day of December, 1894, a notice that he or they in good faith intend to hold and work said claim; Provided, however, that the provisions of this act shall not apply to the state of South Dakota.

Sec. 2.—That this Act shall take effect from and after its passage.

Approved July 18, 1894.

PERSONALS.

Mrs. Tucker and son of White River, are visiting her daughter, Mrs. J. D. Campbell.

Will Denton, the professional harmonica player, arrived Sunday evening from Milford.

James Clark, and the Misses Jennie and Blanche Clark of Desert Springs, were visiting relatives in town during the week.

Ed. Banker, Jr., Wm. Abbott and J. N. Bunker were up from Bunkerville to attend the People's Party convention Tuesday.

H. Elridge, Geo. Williams, A. H. Goble and A. Carman were arrivals by private conveyance from Salt Lake on Monday.

Mrs. F. E. Edwards, J. A. Clark, S. E. Wertheimer and Geo. Rice came in on Saturday night's stage from Salt Lake City.

Mrs. Frank Cook and family paid a short visit to her sister, Mrs. J. D. Campbell during the week and left for her home in Tintic Utah, on Tuesday's stage.

Assault and Battery.

M. Casey was arrested last night charged with assault and battery on Mrs. E. Lawson and was tried by jury to-day before Justice of the Peace, H. Hartung, and found guilty as charged.

From the testimony at the trial it appears that Casey was intoxicated yesterday and during the afternoon had used vulgar and obscene language on the street. In the evening he was sitting on a box in front of H. Welland's store when Mrs. Lawson called him and took him to task for using the language that he did on the streets. This not being to Casey's liking he hit her in the right eye with his fist. Mrs. Lawson then made for the back of her butcher shop and picked up a weight when Casey again caught her around the neck and commenced to strike her. They were separated by Mr. Denton, and Casey was taken to jail.

He will receive his sentence at 6:30 this evening.

Crescent District.

H. Elridge and J. E. Longford, of Salt Lake City are on their way to Crescent District Nye county, Nev., for the purpose of putting up a ten stamp gold mill of the Gilpin type and also a saw mill in Timber mountain. They have purchased some twelve claims outright, the well-known Mackay claims being of the number. The ten stamp mill and also the saw mill together with four miles of piping for the purpose of piping the water to the mill, and some 12,000 pounds of supplies, etc. left Milford by freight teams on the 13th of this month and will go by way of Hiko and Indian Creek. The ore is of an easy character to work and goes enough in gold to make the working of it very profitable.

Negotiations looking towards the sale of the above properties have been in progress for the last four years, but on account of its remoteness from any market were unsuccessful, until Messrs Elridge and Longford last winter visited the section, and immediately were well pleased with the outlook and first took a bond and subsequently purchased them outright, the amount that was paid we are at present unable to learn.

The Candidate.

A candidate and on the slate. Illiberrate and rusticated. Prognosticate and emulate; At barbedue I'll masticate, And raminate, infurstrate; And coloninate, and vacillate; Ill fabricate, deliberate, Extenuate, investigate; Ill explicate, evacuate, My enemies I'll exterminate; Ill extricate and stimulate, Appreciate, and devaluate, And radiate and mitigate, Alleviate and speculate; Ill violate, elaborate, Adjunctuate, rejuvenate, Ejaculate, expectorate, And, by the gods, Ill supplicate, For, dura me Ill evaporate If I get beat.

Even the rich have their troubles, A New York bank president says that cutting his coupons is a wearisome job that is as hard as shoveling dirt. Those now shoveling dirt will gladly relieve him of his burdens if he will pass his bonds over. Somebody ought to invent a coupon cutting machine to relieve this weary bondholder of "that tired feeling."

Attorney General J. D. Torreyson and State Treasurer Geo. W. Richards are reported as being in the list seeking a re-nomination for their respective offices.

Hon. C. F. Bicknell, for 12 years Clerk of the Supreme Court of Nevada and Speaker of the Nevada Assembly in 1891, is a candidate for County Auditor of Los Angeles county, California.

It is a hard matter at present to tell where this county is politically. Some claims that it leans strongly towards the Silver party, while others say it is heading for the Republican camp to stay. Many seem to be of the opinion that it is a first-rate time to say nothing and saw wood.—Gema Courier.

DE LAMAR DOTS.

C. Lytle arrived this morning.

T. J. Osborne and J. A. Denton were down during the week inspecting the new strike in the Flagstaff.

Ten men are at work at Cedar Basin on Springs for the DeLamar company working for an increase of water.

Warren's new Concord Coach showed up Monday night and made the old timers think of the early stage days.

The Gold Cup is down twenty feet and the ledge has improved in character and also the assays are higher. Three men are at work on this promising claim.

The telephone office was crowded all day Tuesday waiting for the returns of the People's Party convention being held at Pioche. After the nominees were known it was the general opinion that if the Silver Party put up a good strong ticket they would carry the election by a good majority.

The Mass Convention of the Silver Party met last night and elected Al. Thorne chairman, and Wm. DeFries secretary. The following were elected as delegates to the Silver Party State Convention: Wm. Nye, Wm. DeFries, Dan Baker and Al. Thorne.

The meeting was addressed by T. J. Osborne and after the adjournment all had a jollification at Sherry's; speeches, rostrations, songs, etc., were in order.

The reported strike on the Flagstaff promises to be of some importance. They have crosscutted the ledge, for 15 feet and still not through it. The first nine feet showed successful layers of manganese, talc, distinct quartz and two feet of porphyry, quartz, talc and manganese mixed on the hanging wall. Two drifts have been started on the ledge as crosscutted.

My First Story.

I was six at the time and have a distinct recollection of the achievement. It was written, I remember, upon foolscap paper, in which might be called a fine bold hand—four words to the line, and was illustrated by marginal pen-and-ink sketches by the author. There was a man in it, and was a tiger. I forget which was the hero, but it didn't matter much, for they became blended into one about the time when the tiger met the man. I was a realist in the age of the Romantics; I described at some length, both verbally and pictorially, the untimely end of that wayfarer. But when the tiger had absorbed him, I found myself slightly embarrassed as to how my story was to go on. "It is very easy to get people into scrapes, and very hard to get them out again," I remember, and I have often had cause to repeat the prophetic aphorism of my childhood. On this occasion the situation was beyond me, and my book like my man, was engulfed in my tiger. There is an old family bureau with secret drawers, in which the little looks of hair tied up in circles and black silhouettes, and dim daguerotypes, and letters which seem to have been written in the lightest of straw-colored inks. Somewhere there lies my primitive manuscript, where my tiger, like a many-hooped barrel with a tail to it still envelops the hapless stranger whom he has taken in.—McClure's Magazine.

The State of Nevada, got the first prize at the Midwinter Fair for public school display. This is a feather in the Nevada school cap.

There are seven or eight candidates already in the field for State Printer. Some are expable and others are not. Let us hope the best man may win.
