LOCAL AND OTHERWISE.

W. J. Dooley was an incoming passenger on Saturday's Milford stage.

Dick Gordon and wife arrived from California on Saturday's Milford stage.

Henry Welland is putting up a large addition to his residence on Cedar Street.

Bets are being offered in New York at ten to four that Morton will carry the state for Governor.

Cupid is always depicted as a baby because love so frequently dies in its infancy.

Walter Reeder has purchased the old skating rink on Meadow Valley street, and is moving it to DeLamar.

A notice for the confirmation of sale of property of the estate of James McFadden, deceased, will be found in this issue.

The Keystone Mining Company are making regular shipments of bullion and the mine is said to be looking better than ever.

Past Grand Master Reed of the order of I. O. O. F. came in Saturday evening and left for DeLamar on important business.

The ranchers are taking advantage of the fine weather and are bringing in large quantities of hay which they are delivering at \$15 per ton.

The small engine that has been lying dormant at the smelter for some time past was taken out of the round house Saturday and ran in wood rails.

Al Grant, a prominent mining man of Silver Reef and well-known hereabouts, is said to be slowly dying of consumption and his end is fast approaching.

A wordy discussion took place Sunday afternoon between the rival candidates. Accusations were freely made of bespattering mind and feelings ran to a boiling point.

Russ Scott an old resident of Pioche came up the Wash last week via DeLamar from the White Hills. He reports matters in that section of the country exceedingly dull.

W. S. Godbe, at Bullionville, who has been confined to bed for ten days with an attack of lumbago grew worse on Tuesday and Dr. Campbell was summoned to attend him.

The smelter at the lower end of town is shortly to be without a watchman. The insurance having been stopped, the works are to be left to the tender of the vultures and coyotes.

C. L. Roe, of Bristol, was in town during the week and left yesterday with a load of supplies for to start up the furnace next week. He has everything in good shape and expects to make a successful run.

Lieutenant Governor J. Poyjide left early Wednesday morning for the northern part of the State. The practical result of the election for this county was known then, and urgent business requires his return to Carson.

Though asked for several times, no definite news has been received concerning our state election. A private telegram this afternoon stated that the entire State Silver Ticket was elected. Definite news will be at hand to-morrow.

The question was asked more than once on election day where the ballots used here, were printed; whether in San Francisco or elsewhere. It was some pleasure to answer that they were printed at the Record office, Pioche. As a matter of fact, the ballots were superior to those used in many other parts of the State.

NEW TO-DAY

LEGAL NOTICE.

In the District Court of the State of Nevada, in and for the County of Lincoln.

In the Matter of the Estate of James McFadden Deceased.

Pursuant to an order made and on file in the Clerk's office in the above named Court, on the 30th day of October, 1894, notice is hereby given that Julia McFadden, the Administratrix of the said deceased, returns to the said Court, on the 25th day of October, 1894, returns to said Court, and filed in said Court a written objection to the confirmation of the said sale, and for the following reasons, to-wit:

Heavy Republican Gains Shown in the Eastern States.

SALT LAKE, Nov. 8.—The following shows the trend of the eastern part of the country; New York gives Morton a majority of 126,000.

Arizona is Republican by about 400. Iowa elects a full Republican ticket.

Wisconsin: The Republicans gain six congressmen and their plurality is 55,000. Kentucky: The returns in Ashland district give Owens 118 majority.

Oklahoma: The Republican delegate to Congress will have 5000 majority. Territorial legislature will be very close with the balance of power in both houses, in the hands of the Populists.

Washington—The Republican majority will reach 15,000. Both branches of the Legislature will be Republican.

North Carolina—The State Judicial ticket is so close it will require an official count. The Legislature is in doubt, both Populists and Republicans being confident.

Massachusetts—Returns from all but two cities in the State give Republicans 196,242, Democrats 128,436, a decided Republican gain.

Arkansas Democrats have elected their six Congressmen by majorities ranging from one to six thousand.

Alabama, Ninth District, show Democrats elected by at least two thousand majority. The returns from the seventh, the only one in Alabama where the Democrats are not sure of success are slow, but indicate the election of Populists over Democrats.

Illinois—The full Republican ticket is elected. Michigan—With the exception of one member of the House, the whole Republican ticket is elected.

South Dakota—Returns show that the Populists are sure of but two out of twenty five members of the legislature. All of the returns show Republican gains.

Idaho—The entire Republican state ticket is elected by two thousand plurality. Louisiana—The returns from three sugar districts leave no doubt of the election of Democrats.

Delaware—Complete returns give a Republican majority of 1200.

New Jersey—The full Republican ticket is elected with the exception of one Congressman, which is in doubt.

Indiana—Partial returns indicate the State is Republican by at least 50,000.

North Dakota—The latest returns give a Republican majority of from six to ten thousand.

In Minnesota the Republican state ticket is elected.

Tennessee—Returns show 76 Democrats elected to the legislature which gives them control of both houses.

Utah—The Republican delegate to Congress is elected by 1500 majority. The Constitutional Convention is still in doubt and will not be decided until the full returns are in.

ELECTION DAY.

Last Tuesday is admitted to have been the quietest election day which Pioche has ever known. The comparative smallness of the vote was one cause, but the new system of voting is admitted to be the main reason. The mere system is tried the better it is liked, and it is safe to say, that even the old-time vote seller would not care to change it.

The unusual activity of the candidates for County office during the present campaign has been the cause of frequent comment. Nearly every aspirant has made a general tour of the county. Certain it is that the voter this year has seen more of the solicitors for his support than during any previous campaign and the opposition prevailed that the contest for nearly every office would be close.

The result is so different from that looked for that even the defeated ones enjoy an occasional laugh at the situation, and wonder how it came about. Of course "the sack" is referred to, but as a matter of fact, no serious charge is made that any party used money illegitimately. The people were educated to meet the issues presented and were left to exercise their own sweet will.

The estimated vote of the county is 605. Arrangements had been made for securing the vote of Bunkerville, St. Thomas, St. Joe, Keystone and Crescent by telegraph. Returns are known this evening on County candidates from all the precincts except El Dorado Canyon and Hiko, from which places about 42 votes will be reported.

The 502 votes now in give the following majorities: District Judge, Talbot, 242. Assemblyman, Denton, 201. Sheriff and Assessor, Freudenenthal, 159. County Clerk, Goodrich, 86. Treasurer, Dooley, 33. Recorder, Shier, 146. District Attorney, Osborne, 183. Public Administrator, Gelabert, 18. Commissioner, long term, Syphus, 56. Commissioner, short term, Conaway 126.

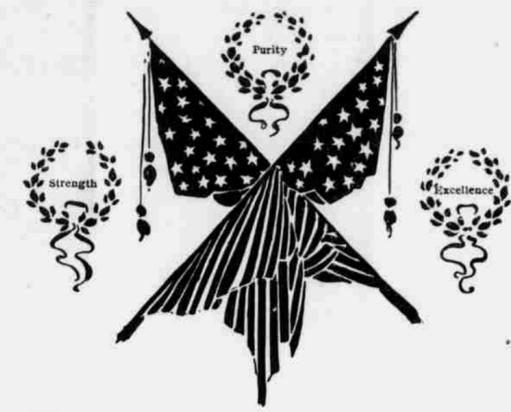

With the exception of Clerk, the Silver Party candidates are uniformly successful, and the precincts to come in are expected to increase, rather than take from, their majorities.

The majorities here given are unusually large, which fact, after the general rustling which preceded the election, renders the matter more laughable than anything else, so many well laid plans having been knocked in the head.

Dr. Price's Cream Baking Powder Most Perfect Made.

About four miles south of El Dorado Canyon at the Forloru Mountain considerable work is going on. Two San Francisco parties have bonded claims there for \$10,000 and \$20,000 and have a force of twenty-five men at work. At present it is the intention working the ores at the El Dorado Canyon, and if found satisfactory it is the intention to erect a mill on the Colorado river some seven miles from the mine.

America Leads the World

The Crowning Glory of the Age.

Man's enterprise culminated at the World's Columbian Exposition. The memory of it will be a marvel for all time. The fame there acquired will live for years. The manufacturers of

Dr. Price's Cream Baking Powder

appreciate the award to them of highest honors at the Exposition. The significance of the compliment, the splendid character of the indorsement, cannot be underrated. It stamps Dr. Price's as without a peer among the baking powders.

The jury of awards, an exceptionally intelligent body, was headed by the Chief Chemist of the United States Department of Agriculture. They found Dr. Price's Cream Baking Powder strongest in leavening power, perfect in purity, and of uniform excellence.

"Foremost Baking Powder in all the World."

DE LAMAR DOTS.

The lively times preceding election day are replaced with a quietness which makes the old hum feel tired.

The roads are lined with teams bringing in timber and supplies for the Company, and merchandise generally.

The vote here on Tuesday was something smaller than was previously looked for. It was thought that 225 votes would be cast here.

The lease on the Flagstaff has been extended to the 1st of July next and work will be resumed in a few days with a force of six men.

After the close of the polls on Tuesday evening the young folks got up a dance at the house of Mrs. Reed and enjoyed themselves hugely until about four the following morning.

The DeLamar Company has secured a good supply of water in their well near the old Zimmerman site. The well was driven about 180 feet. The water rises to within ten feet of the surface. It will be tapped with a tunnel and run into the pipe from the Baker well.

Nearly all the timber required for the new mill is on hand at the graded site. Some of the machinery has been already shipped. As fast as storerooms and other places are finished, of which there are now about a dozen, they are painted brown and the hillside is taking on the appearance of a town.

Election day passed off more quietly than was expected. While the new system of voting is strict about dispensing refreshments, we looked for something of that nature and its consequences, but happily, the best of order prevailed throughout.

The polls opened promptly at eight in the morning. It was estimated that upwards of 200 votes would be polled and voters were urged not to wait till the last hour, in order to avoid a rush. This proposition was followed, and the voting went on with considerable steadiness during the whole day. The DeLamar Company took a short shift and the day men came off at four in the afternoon.

The counting occupied the entire night, ending at eight in the morning. Six ballots were rejected by the Judges for having on them, writing, and marks other than those prescribed by law.

The result was a surprise to many. Of the 192 ballots cast, Doughty, People's Party candidate for Congress led with 74, Newlands scored 52 and Hartine 30. The Populist sentiment proved stronger than expected. Jones, for Governor led with a plurality of 20. On the County officers, personal popularity and qualifications controlled party feeling, and marred the calculations of a number. With the exception of County Clerk and Administrator, the Silver Party candidates had the best of it. They regarded this precinct as the battle ground of the campaign and were here in force to look after their individual interests and those of their party. Denton, Freudenenthal, Clark, Dooley, Shier and Osborne were in attendance and there is no doubt but that every one of them both saved and made votes.

It is arranged that the successful candidates will give a ball at Thompson's Opera House some time this month. The official canvass by the Commissioners will take place about the 15th, and Thanksgiving day will probably be selected for the candidatorial celebration.

A telegram from Elko this evening states that Judge Talbot is five votes to one ahead of his opponent in Elko county as far as heard from. White Pine is expected to give a large majority for him also. This with the vote in Lincoln will make the Judgeship victory for the Silver Party candidate, the most sweeping on the ticket.

COMMUNICATION.

Crescent, Nevada, Oct. 20, 1894.

EDITH REED: As you now have a busy little camp almost on the southern border of your county, a few words occasionally ought not to be out of place in your paper, for I doubt not that many residents of Lincoln County have never heard of Crescent Camp.

This camp is producing several thousand dollars each month and as new bodies of ore are almost daily being opened up it looks like we were going to have a season of prosperity not unlike those times before silver was criminally sequestered and the silver miner made to feel the oppression of poverty not for worse than the pauper of Europe.

The Legal Tender mine is working a force of ten men on good ore and sinking their shaft which is at present 200 feet deep. The five stamp mill is running regularly and steady on ore from this mine and chloriders ore from all parts of the district. The Legal Tender Company recently purchased a one-third interest in the Phelps group of mines and it is thought that they will soon commence development work on these claims as there is some very good milling ore in sight that can be extracted cheaply.

E. T. Loy of Los Angeles, who is connected with the Nevada Southern Land Department has bought a two-thirds interest in the Silent Friend mine and has let a contract for 100 feet of tunnel.

C. G. McNider & Company are sinking a shaft on one of their mines in Cosman Basin and expect to push development work as rapidly as possible. Mr. McNider is getting out some very rich gold ores and has one vein opened up on the surface for over 800 feet, exposing from ten inches to two feet of good ore. The Bi-metallic is expected to start up soon. This valuable piece of property is owned by Simmons & Tuttle and is capable of producing very good ore.

Pete Kemple and Bob Schram have a nice crushing of ore on their dump which they will soon ship to the mill. It is expected that the ore will run nearly \$75 per ton in free gold. Many others are prospecting and chloriding in camp. We are all praying for the time to arrive when the Nevada Southern railroad will be completed so that we can at least be within twenty-four hours travel of our county seat. We have not been favored with the presence of the festive candidate although we expect to poll over forty votes at the coming election. For county officers we will in a great part be obliged to vote by guess for we are too far away to become personally acquainted with the candidates. MINER.
