LOCAL AND OTHERWISE.

Don't let the 4th. pass unobserved this year.

Soda and beer, ice cold, at A. S. Thompson's.

District Attorney McNamee returned to DeLamar yesterday.

These are about the longest days of the year, yet the weather is like that of early spring.

Harry Nichols visited here from DeLamar for a week and returned home on Tuesday.

F. X. Murphy and wife, left for Ely on Tuesday morning, the district court term being over.

Mrs. Jno. Brown and Mrs. W. H. Perry drove in from Panaca last evening and returned this morning.

Gabe Blewett's family came up from DeLamar last Thursday to remain. They will live on McCannon St.

Wilkes Campbell reached his 21st birthday on Friday and entertained a few friends at home during the early part of the evening.

The district court sitting ended on Monday night. After spending Tuesday to rest up Judge Talbot left on Wednesday's Milford stage for home.

L. Wertheimer and Henry Kahn passed through from DeLamar on Sunday. Mr. Wertheimer goes to remain in Salt Lake for the Summer.

Dr. W. J. Nelson is expected daily at Deer Lodge and it is generally expected he will decide to resume work on the Ross mine and end the present uncertainty.

About six sets responded to the busy notice for the dance at Thompson's hall last Friday night. They danced until about three in the morning and thoroughly enjoyed themselves.

No trial jury will be called at the district court sitting proposed for August unless something important occurs in the meantime to require it. The docket was well cleared up at the sitting just ended.

John O. Gelobert, after a week spent in town will soon resume work on his claims at Comet district in conjunction with Ed. Freudenthal. A shipment of high grade ore will soon be ready for the Salt Lake market.

A London cablegram announces that "Mrs Langtry has her eye upon a number of American thoroughbreds." This Government ought to cable Chauncey M. Depew to come home at once before it is too late.—Chicago Times-Herald.

Over 500 young men have made application for membership of the crew of the "Holland" submarine boat. That's how the rising generation heeds the admonition to keep out of dives, observes the Boston Globe.

The murderer of Mrs. Mary Clute, the Russian Albert Hoff, was hanged last Friday. The crime occurred at San Francisco last fall and is still fresh in the minds of the reading public. It is good that the perpetrator has been brought to speedy justice.

J. A. Denton is arranging for stations along the new stage route to be followed after the first of next month. The first station out from here will be Eagle Valley, next Stalene, then a new station about 16 miles this side of Sulphur Springs, beyond which point the present stations will be used.

J. Eisenmann expects to return to Helene tomorrow and will be engaged there during the summer in shipping ore and developing the Magnolia mine. A good face of high grade ore has been opened up in extending the main tunnel to the north. This tunnel runs but little beyond the middle of the claim and it is being pushed along into entirely new ground. The possibilities are great in that direction and we hope soon to record that it has extended into bonanza.

DISTRICT COURT.

The case of F. R. McNamee vs. James and George Nesbitt for \$25,000.00 damages was on trial...

The case was submitted to the jury late that night and about 2 o'clock in the morning a verdict was returned for plaintiff in the sum of \$500.00. The case was brought on account of the arrest of the plaintiff together with Geo. B. Warren, in November 1895, who were charged with attempting to bribe witnesses in a water suit then pending and on trial in the district court...

In the present case evidence was submitted showing that after the settlement of the matter, defendants here had endeavored to injure plaintiff by reason of it, plaintiff arguing that these subsequent actions showed the maliciousness of the original proceedings, etc. Defendants have given notice of motion for a new trial in the case.

On Friday morning the cases of O. C. Brown vs. J. Eisenmann were called for trial whereupon the plaintiff moved that both cases be dismissed and at his costs. So ordered.

The case of J. Nesbitt & Bro. vs. A. Borth then came on trial before a jury. Plaintiffs sued for \$1164.00 claimed to have been advanced and expended by them on the Fraction mine at DeLamar for the benefit of defendant. Defendant denied part of the bill and claimed an offset for work, etc. The case occupied all of Friday and the jury held the case under deliberation all of Saturday, rendering a verdict in the evening in favor of plaintiffs for \$347.00 and costs.

Saturday was occupied with the case of Wm. DeBeque vs. James & George Nesbitt, to recover a quarter interest in the Fraction mine at DeLamar. This is the mine which has been before the courts for the past two years. Defendants pleaded the statutes of limitations against DeBeque and judgment was rendered in their favor.

Monday June 13. In the case of the State against Dan Mandich, convicted of grand larceny, a motion for a new trial was argued at some length. The court overruled the motion and proceeded to pass sentence. The previous good character of the defendant stood him in good stead and he was given two years. It is understood an appeal will at once be made in his behalf to the supreme court on the ground of insufficiency of evidence to convict.

The divorce case of Nellie Clark vs. Wm. Clark occupied the after noon and evening. A decree of divorce was granted, each parent being awarded the custody of one child, the defendant to pay \$20.00 per month alimony to plaintiff hereafter, and costs of suit.

The case of D. L. Wertheimer vs. Jake Johnson as Constable a small case appealed from the Justice's court at DeLamar, involving title to about \$35.00 worth of personal property was decided in favor of defendant.

Peter M. Smith, a native of Denmark, was admitted to citizenship. Frank R. Donohue and J. H. Edney acting as witnesses.

Timber Suits Dismissed.

Through the efforts of Senator Stewart the Department of Justice at Washington ordered the dismissal of the suit of the United States against John Roeder and Charles Lytle here, for the alleged cutting of timber on the public domain.

This suit was similar to the ones brought against citizens and mining companies of Eureka, in 1890, which were also duly dismissed on the showing made by Senator Stewart. All these harassing suits were instituted on the reports of a colored land office inspector from Mississippi, who visited here in 1890.

The timber which Roeder and Lytle used was principally in the railroad tunnels in Clover Valley Wash.

The Nevada Mining Co. disbursed something over \$5000. to its employees yesterday. It was the first disbursement under the prorate agreement. The mine is said to look well an air connection was made day before yesterday with the old Havana shaft, which will greatly help work in the east end of the mine. Yesterday's payment went prorate on all claims.

The Reno Gazette says California will soon be compelled to draw its beef supply from Nevada.

Any subscriber to the Record not receiving the paper regularly is requested to inform this office and we will look after it.

Judge Rives left for DeLamar on Sunday morning and will go from there to Salt Lake.

The last of the trial jury panel were excused and returned to their homes on Saturday evening.

Late War News.

Salt Lake June 15. A New York dispatch says the American marines entrenched on the hills of Guantanamo bay were forced to abandon their position and retreat to the ships in the bay, owing to an overwhelming Spanish force opposing them. Several American officers are reported killed besides many marines.

San Francisco 15. The second fleet of transports for Manila sailed today. The Utah batteries are on board.

The American marines and Cubans last Tuesday at Guantanamo completely routed a force of four hundred Spaniards camped five miles from the American intrenchments, breaking up their camp and destroying the well which supplied them with water. One man was slightly wounded, one Cuban killed and four wounded. The Spanish loss is believed to be forty men killed. Fifteen bodies have already been discovered.

On Monday night off Santiago, the dynamite guns of the Vesuvius were tested with great success. Three shots were fired at the Spanish fortifications and it is believed good damage was done.

On Tuesday morning the New Orleans shelled and partially destroyed the new batteries east of Morro Castle.

Salt Lake, June 16. A dispatch from Caunanea, Cuba states that three American warships shelled and completely destroyed the Spanish fortifications at that place.

A dispatch from Canagney, Cuba, says that six thousand Spanish volunteers and many regulars have deserted and joined the Cuban army.

Celebrate the 4th.

There is every reason why every community in this country should specially celebrate our natal day this year. At war with a foreign power, with the success of our arms apparent wherever a conflict has occurred, and with intense patriotism manifested to insure a brilliant termination to the present hostilities, which will reflect further glory upon our country and shine for years to come, it would seem that a single suggestion of a celebration would result in prompt and energetic action by the people of the community. Such is not the case here however and two calls for meetings to discuss the method of celebration, have failed altogether. Nobody attended. The last effort was on Tuesday evening when only three put in an appearance.

The Knight's of the Meabbes Order will give a ball on the 4th. at Thompson's Hall. Arrangements for it are already being made and it will be a pleasant affair but there should be something out of the ordinary during the daytime.

There is some talk of holding a barbecue at Highland, but as conveniences are scarce, the distance would preclude many from going and less than half the people could participate.

Arrange for some exercise here during the day so that the mothers and children can enjoy them together with others. Arouse enthusiasm in the hearts of the little ones and teach them patriotism by deeds as well as words. There is time yet to arrange for a good celebration.

At Ely.

Mining matters at Ely are not on the boom. The operations of the new company there have not progressed beyond the trial stage. The ore is low grade, \$12.00 rock being regarded as fair. The company has ceased active operations, but whether the suspension is to be permanent or is done to facilitate the acquisition of properties adjoining the company's claims, and which the company has under bond, is a question which is being generally asked. Operations continue at Cherry and other places however, and the county at large is doing well.

Everybody Says So.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleanse the entire system, dispel colds, headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

A Fire.

On Tuesday afternoon about five o'clock the blacksmith shop erected over the Last Chance shaft just east of the Yuba, burned down. It was owned by John Frank and Jack Lynch who are working the claim. Carpenters, and blacksmith tools and everything else was burned. The owners had not used a fire since the day before and it is supposed somebody used the forge and carelessly left fire burning from which the loss resulted. The shop will be rebuilt as the claim is in pay ore and looks well.

Weather Bulletin.

The weekly crop bulletin issued at Carson on the 7th. inst., says of the state generally: The past week has been too cold for satisfactory growth. Frosts were general in the northern counties, resulting in considerable damage to gardens, but as a rule the principal fruit crops suffered no damage. Alfalfa and grain made very little progress. Strawberries are on the market in Lyon, Ormsby and Washoe Counties.

From Lincoln County the following special reports are mentioned week ending May 31st.

Fair growing week. First crop alfalfa all cut in south portion and second crop coming along fast. Barley harvest commenced. Fair prospect for fruit generally except apricots. At Riverville, corn is tasseling and the third crop of alfalfa is ready. Wheat ripening and stock doing nicely. Panaca June 2nd Late potatoes and corn all planted and coming up. Alfalfa doing well, ready to cut in about ten days. Meadow grass not as high as usual at this time.

Sunk at Manila.

The San Francisco papers published for the first time the list of the Spanish vessels sunk at Manila. They got the news from men who were eye witnesses of the battle and who recently landed in San Francisco. The following is the list:

- Argos, 508 tons, 2 guns.
Oastilla, cruiser, 2,260 tons, 22 guns.
Cebu, troopship, 532 tons, 2 guns.
Don Antonio de Ulloa, cruiser, 4,160 tons, 13 guns.
Don Juan de Austria, cruiser, 1,150 tons, 13 guns.
Elcano, gunboat, 560 tons, 7 guns.
General Alava, troopship, 1,300 tons, 2 guns.
General Lezo, gunboat, 520 tons, 6 guns.
Isla de Luzon, protected cruiser, 1,048 tons, 10 guns.
Manila, troopship, 1,900 tons, 2 guns.
Marques del Duero, gunboat, 500 tons, 5 guns.
Reina Cristina, cruiser, 3,250 tons 21 guns.
Velasco, cruiser, 1,532 tons, 7 guns.
In all these ships are represented 17,179 tons and 112 guns. The property destroyed by the American fleet in forts and ships was valued at about twelve million.

How Schley is Pronounced.

A correspondent takes the Times to task for pronouncing Schley "S-l-y" and quotes the Century Encyclopedia as giving the name the pronunciation of "Schla." The son of his father, who passed through Los Angeles a few days since, declares that the family he belongs to pronounced the name "S-l-y," and while the commodore may be open to censure for differing with the Century Encyclopedia people in this barefaced manner, the country will have to stand it. However no matter what the pronunciation of the name, the man himself is all right in Greek, Choctaw, German French, Malay, Chinese, Russian, Celtic and in just plain United States.—Los Angeles Times.

Largest Flag in The World.

The Stars and Stripes, in shape of the largest flag in the world, will float over Morro castle, Havana, when Blanco surrenders. The immense flag designed for this duty is already prepared. A patriotic New York man has had the great flag made. It measures 120 feet in length and 43 feet in breadth, and it is believed it breaks the record for size. The bunting measures 42 inches across in the rough. Made up in the flag, allowing for seams, each stripe measures 40 inches. It took a full piece of forty yards for each stripe except where they run into the jack. The jack measures 40 feet in length and covers the space of seven stripes. The stars are not very large. From point to point each star measures 14 inches. They are arranged in alternating rows of seven and eight according to army regulations. The flag will cost \$200. Big as it is, it can be packed in a large travelling trunk and will not weigh more than 200 or 250 pounds.

A Sure Thing for You.

A transaction in which you cannot lose is a sure thing. Biliousness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver.
