

# THE PIOCHE WEEKLY RECORD.

VOL XLVIII.

PIOCHE, NEVADA, THURSDAY, JULY 14, 1898

NO. 28.

**A Horse Census.**  
A statistician has recently published in Paris what purports to be a horse census, and some of his figures just at this time when the government is buying horses are interesting. According to this report, Russia leads the world in the number of horses. Her total is placed at 22,000,000 head, and the United States comes second, with 12,000,000 head. The Argentine Republic is third, and Austro-Hungary and the German Empire are tied for fourth place, with 3,500,000 each. France is credited with 2,880,000 and the United Kingdom with 2,790,000. This expert says that England and France have the most valuable horses, with the United States and Canada ranking next.

All the miners working at the Star mine, Cherry Creek were discharged in a body one day last week. They complained of the cooking at the boarding house and went in a body and lodged a complaint with the Superintendent. They were instantly discharged and paid off.

Nobody was more surprised at this than the men themselves as they stated the material at the boarding house was good enough but was poorly prepared. The relations between the men and the mine bosses was most cordial also. The discharge will not cause much of a stoppage of work.

**A Sure Thing for You.**  
A transaction in which you cannot lose is a sure thing. Biliousness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascarets Candy Cathartic the wonderful new liver stimulant and intestinal tonic are by all druggists guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box to-day: 10c, 25c, 50c. Sample and booklet free.

Captain Sanders is rapidly recruiting his company and blue coats are getting very numerous on the street. The boys are a strong sturdy lot of men, far superior physically to those who have passed through here from the East. If the rest of Nevada's battalion averages up with the Elko company, it will certainly be a credit to the state. God speed you, boys.—Elko Independent.

Colorado Springs has already spent \$100,000 in trying to bore the Strickler tunnel through Pike's Peak. On Monday last the workmen encountered such a tremendous flow of water in the breast of the drift from the eastern side that they were compelled to quit operations. Indications point to an abandonment of the entire enterprise.

Subscriptions to the \$200,000 government loan have come in so fast that four times the amount is already applied for. The monied men of the county are wondering where the money comes from. It comes from the people generally and shows that the savings, and possibly the hoardings of this county, are far greater than is generally supposed.

According to the St. Louis Republic the barnacle has at last served one good purpose. When the "Texas" and "Marblehead" were cruising in Guantanamo bay they were saved from destruction by the mines being covered with barnacles. The most despised agency may at times serve a mighty purpose.

Mr. Doll informed the Independent today that he would be compelled to quit work at his horse killing plant during the hot weather on account of the stench. He will brand the horses on hand and let them run on the range until cool weather sets in when he will start up again.—Elko Independent.

State Treasurer Westerfield and Supt. of Public Instruction H. C. Cutting, the Board before which the late charges against the Orphan's Home were investigated, reported the charges as unfounded and now the Carson Weekly says the grand jury proposes to investigate the matter.

The Silver Party State Convention this year will be held at either Reno or Winnemucca. Both places are bidding for it. The meeting of the State Central Committee at which this question will be decided will be held at Reno, day after tomorrow.

At Reno last Saturday eve John Green lost his right hand through the premature discharge of a large Chinese bomb.

## IT IS DEAR INDEED.

A subscriber who on doubt understands the county publisher's situation, and sympathizes with him; sends the following clipping:  
How dear to our hearts is the old silver dollar, when some kind subscriber presents it to view the liberty head without necktie or collar, and all the strange things that to us seem so new; the wide spreading eagle the arrows below it, the stars and the words with the strange things they tell us. The coin of our fathers! we're glad that we know it, for some time or other 'twill come in right well—the spread eagle dollar, the star spangled dollar, the old silver dollar we all love so well.—Ex.

There is a good deal of reported sickness in DeLamar, but in most instances it is found to be indisposition, resulting principally from the hot weather. Some affects to believe that many cases of fever exist, but we are reliably informed that not one case of genuine fever is under treatment there at this time.

The State University at Reno opens on the 15th. of August, Frank Thompson will attend from here and will leave about the 7th. John Shier also expects to send his three children Edgar, Annie, and Laura, while one or two others may go from this section during the term.

Y-L-B-M-E-S-S-A spells nothing. Any schoolboy knows that, but just reverse the letters and you will readily see the name of that popular resort which is rapidly springing into public favor.

According to Nilson, the zoologist, the weight of the Greenland whale is 100 tons, or 224,000 pounds, or equal to that of 88 elephants or 440 bears.

R. C. Lund, who in company with Mr. Hand the mining man was looking very generally over the mineral resources of this section, was called home on Friday afternoon by the sudden death of his sister at St. George. Heart disease was the cause.

## THE NEWSPAPER LAW.

All Subscribers Should Read the Following Law and Avoid Trouble.

1. All subscribers who do not give express notice to the contrary are considered wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their periodical the publisher may continue to send it until all arrearages are paid.
3. If subscribers refuse or neglect to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.
4. Subscriber moving to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.
5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncollected for, is prima facie evidence of intended fraud.
6. If subscribers pay in advance they are bound to give notice at the end of the time they do not wish to continue taking it, and the subscriber will be responsible until an express notice with all arrearages are sent to the publisher.
7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who take a paper and refuses to pay for it.

Under the law the man who allows his subscription to run along some time unpaid, and then orders it postmaster to mark it "refused" and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

## Notice.

The undersigned has been appointed agent of A. Mandich and all persons knowing themselves indebted to said A. Mandich will arrange to pay their claims to the undersigned and save costs.  
M. Church.  
Pioche, April 12 1898.

## Two Millions a Year.

When people buy, try, and buy again it means they're satisfied. The people of the United States are now buying Cascarets Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means merit proved that Cascarets are the most delightful bowel regulator for everybody the year around. All druggists 10c, 25c, 50c a box, cure guaranteed.

## THE WAR EXPENSES.

Many Millions of Dollars Will Be Required.

Figures Which Show What It Costs to Prepare a Great Nation for Conflict with the Enemies of Its People.

A great many people stop now and then to count the cost of the war. The cost is something large. It takes quantities of money to keep squadrons at sea and armies in the field. Men do not subsist on nothing and ships do not burn wind. Of the \$20,000,000 set aside for the president to use in preparing this country for war, practically all has been already used. It is estimated by Secretary Alger that up to the first of July, the fiscal year expiring on the 30th of June, it will require nearly \$40,000,000 more, making the total war expenditures \$60,000,000. He divides the expenditures as follows:

Special service of the army	\$1,000,000
Pay, etc., of the army (4 months)	5,700,000
Pay, etc., of the army (regulars)	1,425,250
Subsistence of the army	2,785,543
Regular supplies, quartermaster	1,000,000
Departmental expenses	1,000,000
Incidental expenses	250,000
Master's department	1,500,000
Medical and hospital department	1,500,000
Army transportation	6,000,000
Clothing and camp and garrison equipment	10,000,000
Contingencies of the army	20,000
Ordnance department	2,700,000
Medical and hospital department	2,700,000
Equipment of engineer troops	20,000
Expenses for harbor defense	60,000
Expeditionary force to Cuba	150,000
Total	\$43,710,962

These expenditures fall rather within what most of us had expected in the way of war expenditures. Some of us had supposed that we were spending at least \$1,000,000 a day in extraordinary expenditures. It should also be taken into consideration that a large part of the \$43,710,962 enumerated goes toward permanent improvements. The \$1,500,000 for horses for the cavalry and artillery will not all be used up during the war, if it lasts only until July 1. For clothing and camp and garrison equipment \$10,000,000 is put down, all that clothing will not be worn out and many of the equipments will be useful in the future. There is \$3,750,000 put down for ordnance, some of which will outlast the period stated.

It is also necessary to take into consideration that of the \$50,000,000 set aside for the president to spend, and which has been so spent, or nearly all of it, most of it was used to make permanent improvements in coast defenses and for new ships added to the navy. Four-fifths of the \$50,000,000 was spent for things which will remain after the war is over. It means simply this, that all of a sudden we were called upon to spend money for forts and ships and guns which we ought to have been spending gradually. The things for which that money was paid remain the permanent property of the United States. We should carefully distinguish between the two kinds of expenditures. The ships we have bought we have needed all along, and we will need them after peace has been entered into between the United States and Spain. The expenditures are not of such a startling nature that they ought to cause the people any great alarm.—Iowa State Register.

## Teachers Examinations.

Notice is hereby given that the regular examination of applicants for teacher's certificates in and for Lincoln County Nevada, will be held at the school house at Pioche Nevada, on the 11th, 12th, and 13th of July 1898. Any person desiring to take such examination should notify the County Superintendent on or before July 11th, 1898.

F. R. McNamee,  
County School Superintendent.

## AGENTS WANTED

In Every County to Supply the Great Popular Demand for

## AMERICA'S WAR FOR HUMANITY

Told in Picture and Story

Compiled and Written by SENATOR JOHN J. INGALLS of Kansas

ORMSBY - John Wagner, Carson  
STOREY - J. H. Kinkead and Enoch Strother, Virginia  
WASHOE - J. B. McCullough, Reno  
WHITE PINE - Wm. Burke, Schellbourne

The Trans-Mississippi and International Congress is composed of delegates from every State and Territory West of the Mississippi river. The idea of this exposition originated in that Congress at its session at Omaha in 1895, and the project has become a National enterprise and the National Commission has been organized and is in active service, there being one commissioner for each of the several departments of the Government. Most of the Trans-Mississippi States are well along in the way of gathering exhibits from their respective States and many of them have made liberal appropriations, while others are preparing exhibits through private enterprise.

Vice-President H. B. Maxson of Reno, has made arrangements whereby he can get Nevada exhibits, shipped from any point in the State along the line of the C. P. R. to Omaha and return, and he requests all persons who wish the interests of the State advertised, to co-operate with the Exposition County Commissioner of his county, whose name is shown above, and prepare some product of his county and send it to the nearest point on the C. P. R. from which place it will be sent to Omaha and exhibited, and returned to the same point at the close of the exposition, free of expense to the exhibitor. Full information should accompany everything sent for exhibition. Before sending anything to the line of the railroad a full description should be given to the Exposition Commissioner of the county, who in turn will notify the Vice-President, who will notify him what action to take, otherwise there might be many duplications. Apply to your County Representative for further information, and don't let this opportunity of advertising the resources of Nevada be lost.

THE WEEKLY RECORD is the Best, Oldest and Most Reliable Paper in Southeastern Nevada, and the

QUESTION.

Do you need printing of any description you do give us a call. We do the best, cheap and most satisfactory work to be obtained.

Our Job Department is one of the most complete in the State.

Record Publishing Co., PIOCHE, NEV.
