

THE PIOCHE WEEKLY RECORD.

VOL. XLVIII.

PIOCHE, NEVADA, THURSDAY, JULY 21, 1898

NO. 29.

REVENUE REQUIREMENTS.

The following is taken from an article in the San Francisco Call on the revenue law:

Deeds, conveyances and other documents relating to the transfer of real estate are not worth the paper they are written on unless the stamps required by the war revenue act are affixed. Such is the opinion of competent lawyers who have looked into the matter, and they are advising their clients not to neglect affixing the stamps and to state in such papers the real consideration involved in the transaction.

The only thing like an official opinion that has yet been given in the matter is an informal one by United States Attorney Henry S. Foote. It was in reply to a query by C. P. Owen, recorder of Santa Clara county. Mr. Owen wired to Judge Foote the following: "Consideration in a deed \$10; known value of property \$5,000. Parties refuse to pay tax on value, claiming the law says 'consideration.' What shall I do—refuse the document?"

Judge Foote replied by letter to the effect that the amount of the stamp to be affixed on the deed must be the real "consideration of value" of the property conveyed, on the basis of the law under the head of conveyance.

Internal Revenue Collector Lynch says: "Under the War Revenue Act a man has no more right to understate the value of the property in a deed than he would have to give a wrong statement as to profit spirits. In all cases of violation of revenue the United States interprets the law in its own favor. In other words, it gives itself the benefit of the doubt."

Plans are maturing to construct an immense tunnel at New York under the East river, New York City and the Hudson river. The tunnel will commence in Brooklyn, where work will be begun by the sinking of a shaft 70 feet deep. It will cross under East river opposite the lower part of Manhattan Island. Then the tunnel will cross the lower part of New York 70 feet below the surface of the earth, so as not to disturb the foundations of the great skyscraping buildings there. Next it will go beneath the bed of the water again and cross to Jersey City. The complete tunnel will be four miles long.

Corbett and McCoy Matched. James J. Corbett and Kid McCoy were definitely matched last Saturday to fight twenty-five rounds at Buffalo, N. Y., on the afternoon of August 27th. The purse will be \$20,000 and there will probably be a side bet. They went into training last Monday the 11th. The contest, if it comes off, ought to be a good one. Corbett has had the most ring experience and has the advantage in weight, while McCoy has youth, ambition and a good hitting power on his side. If he is defeated he has not much to lose; if he wins he stands practically at the head of his class.

Ex-Lieutenant Governor Poujade has enlisted in the Nevada Battalion as a volunteer private. Good for the Governor; he is made of the right material and will make a good soldier.—Journal.

E. D. L. Cuts, who has been at DeLamar for a month or two past, spent yesterday in town and continued on this morning to his home in Carson.

Mr. and Mrs. Geo. O. Sawyer returned yesterday from a month's trip to Salt Lake.

Dr. W. J. Nelson still sojourns at Salt Lake. Deerledge people are anxiously looking for his coming.

No signs yet of resuming work at either Stateline or Deerledge.

A Sure Thing for You.

A transaction in which you cannot lose is a sure thing. Biliousness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascarets Candy Cathartic the wonderful new liver-stimulant and intestinal tonic are by all druggists guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box to-day: 10c, 25c, 50c. Sample and booklet free.

Alcohol Microbe. A microbe that lives and thrives in strong alcohol has been discovered by Velej. It is believed that this accounts for the fact that rum sometimes deteriorates on a sea voyage.

Latest Things in Gloves. A glove has lately been patented with elastic webbing in the sides of the fingers and thumb, to stretch as the glove is pulled on, thus making it fit any sized hand.

The mail route from here to Sunnyside is to be re-advertised. The Midland Mail Co. of Clinton, Mo., took it at \$814 a year, when the old carrier was losing money at \$1100. The Mail Co. could not sublet at a profit, so put on special service on the 1st inst. which they ordered discontinued yesterday and it is announced the route is re-advertised. It is hard to believe there is not crooked work about these lettings. A local bidder, figure as close as he may, never gets a route. Large syndicates get the contracts, sublet all they can make a profit on, throw up all the poor ones and have them saddled off on someone else.

Dunc. McDonald was at Pike's Diggings south of Deerledge last week and is said to have bought an interest from Leemaster, in one of the new locations for \$500. The locations look well. The people of Deerledge and Pike's will celebrate the 24th. with a picnic at Pike's.

H. A. Cohen was married at Manitou last week to a New York lady and the newly married couple have gone to British Columbia on a wedding tour and will later make their home at Salt Lake. The occurrence was a genuine surprise to many hereabouts.

Contractors are reaping a rich harvest from the present war. One of the most glaring frauds that has so far come to light is the extravagance of shipping mules from the east to this coast at a cost of \$231, each, or about three times as much as it would cost to purchase them here.

Manager Popkiss of the States Co. has not returned to Stateline yet. Last Monday the mill was attacked by one Hicks, for a claim of \$250, for labor performed and board furnished some of the mill hands.

The Masonic Chapter, Keystone No. 6, is now fairly installed at DeLamar. It is adding to its membership and has a good footing. The place of meeting was changed to DeLamar from Pioche two months ago.

Ben McDonough was a passenger on yesterday's Salt Lake stage and stopped over a day.

THE NEWSPAPER LAW.

All Subscribers Should Read the Following Law and Avoid Trouble.

1. All subscribers who do not give express notice to the contrary are considered wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their periodical the publisher may continue to send it until all arrearages are paid.
3. If subscribers refuse or neglect to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.
4. Subscriber moving to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.
5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for, is prima facie evidence of intended fraud.
6. If subscribers pay in advance they are bound to give notice at the end of the time they do not wish to continue taking it, and the subscriber will be responsible until an express notice with all arrearages are sent to the publisher.
7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who take a paper and refuses to pay for it.

Under the law the man who allows his subscription to run along some time unpaid, and then orders the postmaster to mark it "refused" and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

Notice. The undersigned has been appointed agent of A. Mandich and all persons knowing themselves indebted to said A. Mandich will arrange to pay their claims to the undersigned and save costs.
M. Church.
Pioche, April 12 1898.

Two Millions a Year.

When people buy, try, and buy again it means they're satisfied. The people of the United States are buying Cascarets Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means more proved that Cascarets are the most delicate bowel regulator for everybody the year around. All druggists 10c, 25c, 50c a box, cure guaranteed.

THE WAVE THEORY.

As It Was Elucidated by a Bilingual Scientist and Statesman.

It does not matter, so far as the true science of this chronicle is concerned, whether the statesman mentioned here is a senator or a mere representative, or whether he hails from the near east or the far west. Suffice it that he is learning much superior to his fellow statesmen, and he is much more of a scientist than he is a warrior. He is also more of a bilingualist than he is a tenor, and one particular friend of his is constantly on his trail with persuasions of all kinds against this growing habit. Not long ago the two men were at the statesman's apartments and the host was expatiating on the wave theory of light, says the Washington Star.

"Color, you know, my dear major," he was saying, "is a sensation produced by the action of very minute waves upon the nervous substance of the retina. When these waves have a length of about 1/30,000th of an inch they produce the sensation which we call red. When they have—"

The statesman stopped in the midst of his remarks to see what his friend was doing or going to do with a tape measure he had taken from his pocket. "Go on, don't mind me," expostulated the friend. "I'm just making a little side calculation to determine whether the waves aren't about that size between the end of your nose and the northeast corner of the retina of my eye. That's all. Go on with your theory; I'm calculating on practice."

HEARTLESS REPORTERS.

Roused a Woman and Told Her Brutally of the Men's Destruction.

A painful instance of the methods employed by some Washington reporters to gather information happened to the wife of Lieutenant-Commander Wainwright, the executive officer of the Maine, says the Boston Herald. The ship was destroyed early in the evening of the 15th of February in Washington harbor. Mrs. Wainwright, who was with her husband on the ship, was a witness to the destruction and was looking out of the window, asking what was the matter.

A vote called out: "Are you the wife of Lieutenant-Commander Wainwright?" "Yes, what do you want?" "The Maine has been totally destroyed. We are reporters and wish for some information about Mr. Wainwright." Only this and nothing more. The shock caused the poor lady to fall in a dead faint, from which she did not rally for several hours, and, fortunately for her, it was then known her husband was not among the lost. The suspense for other members of the household may be understood, and indignation at this heartless announcement of the disaster to one so deeply interested has been freely expressed in all circles of Washington society.

Teachers Examinations.

Notice is hereby given that the regular examination of applicants for teacher's certificates in Lincoln County Nevada, will be held at the school house at Pecos Nevada, on the 11th, 12th, and 13th of July 1898. Any persons desiring to take such examination should notify the County Superintendent on or before July 11th, 1898.

F. B. McNamee, County School Superintendent.

AGENTS WANTED

WASHOE J. B. McCullough, Reno

WHITE PINE Wm. Burke, Schellbourne

The Trans-Mississippi and International Congress is composed of delegates from every State and Territory West of the Mississippi river. The idea of this exposition originated in that Congress at its session at Omaha in 1895, and the project has become a National enterprise and the National Commission has been organized and is in active service, there being one commissioner for each of the several departments of the Government. Most of the Trans-Mississippi States are well along in the way of gathering exhibits from their respective States and many of them have made liberal appropriations, while others are preparing exhibits through private enterprise.

Vice-President H. B. Maxson of Reno, has made arrangements whereby he can get Nevada exhibits, shipped from any point in the State along the line of the C. P. R. to Omaha and return, and he requests all persons who wish the interests of the State advertised, to co-operate with the Exposition County Commissioner of his county, whose name is shown above, and prepare some product of his county and send it to the nearest point on the C. P. R. from which place it will be sent to Omaha and exhibited, and returned to the same point at the close of the exposition, free of expense to the exhibitor. Full information should accompany everything sent for exhibition. Before sending anything to the line of the railroad a full description should be given to the Exposition Commissioner of the county, who in turn will notify the Vice-President, who will notify him what action to take, otherwise there might be many duplications. Apply to your County Representative for further information, and don't let this opportunity of advertising the resources of Nevada be lost.

THE WEEKLY RECORD is the Best, Oldest and Most Reliable Paper in Southeastern Nevada, and the MONEY QUESTION.

You invest in subscribing for this paper is money judiciously spent with good returns. Let us ask you a QUESTION.

Do you need printing of any description you do give us a call. We do the best, cheapest and most satisfactory work to be obtained.
