

THE PIOCHE WEEKLY RECORD.

NO. XLVIII.

PIOCHE, NEVADA, THURSDAY, JULY 28, 1898

NO. 6.

A Paying Profession.

There is no profession that holds out such tempting allurements to the youth of today as that of the metallurgist and mining expert," said Mr. D. G. Downs of San Francisco. "Last year, of the class of about a dozen who were graduated at the school of mines in the University of California, at least ten have found excellent situations, with big salaries. Our Universities cannot turn out expert engineers fast enough for the demand. When I was in London last summer an English scientist told me that there would be a strong demand for years for competent men, and added that England kept the United States drained of its best mining talent. They are wanted in South Africa, in Australia, New Zealand; in fact all over the world, and they can get higher pay than doctors, lawyers, or any other class of professional men. Any young man who is ambitious for a career that will lead to fortune, if not to fame, and perhaps to both, if he be industrious and steady, will make no mistake by qualifying himself in the direction of mineralogy."—Denver Daily Mining Record.

What most profoundly saddens the habitue of society, in the narrow meaning of that word, is not the exhibition of any monstrous audacities in sin, but the sordid averages of petty faults, the everyday littleness and misunderstandings, the dreary mass of cowardly concessions, and of the vulgar compromises apparently inseparable from the exercise of social power. Not only do these things sadden spirits of exceptional quantity, but they provoke passionate protest, and foster also the haunting belief that there is somewhere an ample horizon and a freer air, wherein the soul can spread her wings, and individuality can assert itself.—Sentinal.

There is a world of truth in the following homely illustration by the Champion: "If you take one cat by himself and pinch his tail he will scratch and bite your hand. But take two cats and put them side by side and pinch both their tails at the same time they will bite and scratch each other. Plutoeracy has learned this trick. So it gets the people arrayed in two parties and pinches their tails and then they fight each other. Like cats they never turn to fight the hand that pinches them."

The editorial genius of the Golden Globe in the last issue says: "A new Devey suit for boys has come into the market. The distinctive merit of these clothes is that the seat of the pants is as strong as Sampson, and a boy dressed in this suit looks very Schley. A boy can slide down a shafter a plank and not suffer loss with a pair of these pants on. Miles of cloth are being made up into these garments. Watson would be without these clothes when they can be bought so cheap?"

The Tribune reports the discovery of a great chalk mine near Lovelock and truthfully exclaims that it will prove of incalculable benefit to the world. Truly, considered in connection with the marvelous discovery of a blackboard mine in western Elko this find is one of the greatest of the country. Politicians desiring to figure out the results of the coming election need not send outside of the State for material now.—Argonaut.

Here is a biography in a nut shell: Born, welcomed, caressed, cried, fed, grew, amused, reared, studied, examined, graduated, in love, engaged, married, quarreled, reconciled, suffered, deserted, taken ill, mourned, buried and forgotten.

The heat is intense on our southern border. The last issue of the Kingman Miner, shows two separate cases of parties overcome by heat and who died. The usual Summer exodus of residents to the coast to pass the hot season is larger than usual.

About 35 miners were laid off at the Lone mines last week. At Austin, also last week about half the miners employed there and a number of the topmen were laid off and it is not known when they will be put back to work.

The money value of the Spanish ships sent to the bottom by Admirals Dewey and Sampson has been figured out to have been in the neighborhood of \$30,000,000.

The people of London, England, are making contributions for the sick and wounded in the war, through the Red Cross Society.

School Money.

State Sup't of Public Instruction, H. C. Cutting has made the July apportionment of State school funds. It aggregates the sum of \$50,993.45 and is the largest amount ever distributed at the July apportionment. The increase is the result of additional investments in behalf of the State fund.

The apportionment was made on a basis of \$5.6043 per census child and the amount distributed to Lincoln County is \$4,987.82.

Dr. J. D. Campbell is in the hands of the local committee on an examination for admission to practice law. Hon. Geo. S. Sawyer and T. J. Osborne are the special members of the committee. The examination papers will be forwarded to the Supreme court in a few days.

Ten tons of ice at Bullionville, under attachment in the suit of Powers vs. Peck, was sold at Sheriff's sale last week and brought just ten dollars, Geo. Edwards of Panaca being the purchaser.

Henry Freudenthal came in from Comet district on Tuesday evening to have one of his eyes treated and a small speck of steel removed from it. Dr. Campbell successfully performed the job.

According to the Buffalo Express an Indiana organist has been dismissed by a church because he played "The Star Spangled Banner" on the church organ. This congregation should take a daily paper.

Rice Bros. at Panaca are adding to their stock of dry goods, notions and confectionery steadily. Joe Rice returned last week from Salt Lake, where he had been ordering goods.

The Fourth of July Committee of Churchill county, through Hon. Lem Allen, turned over \$93 to the State Red Cross Society.

The 25,000 Spanish soldiers who surrendered at Santiago are complaining because they will be compelled to go home without arms. They are in luck to be able to go home with their heads, says the Chicago Inter Ocean.

THE NEWSPAPER LAW.

All Subscribers Should Read the Following Law and Avoid Trouble.

1. All subscribers who do not give express notice to the contrary are considered wishing to continue their subscriptions.
2. If subscribers order the discontinuance of their periodical the publisher may continue to send it until all arrearages are paid.
3. If subscribers refuse or neglect to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.
4. Subscriber moving to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for, is prima facie evidence of intended fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time they do not wish to continue taking it, and the subscriber will be responsible until an express notice with all arrearages are sent to the publisher.

7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who take a paper and refuses to pay for it.

Under the law the man who allows his subscription to run along some time unpaid, and then orders the postmaster to mark it "refused" and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

Notice.
The undersigned has been appointed agent of A. Mandich and all persons knowing themselves indebted to said A. Mandich will arrange to pay their claims to the undersigned and save costs.
M. Church.

Pioche, April 12 1898.

Two Millions a Year.

When people buy, try, and buy again it means they're satisfied. The people of the United States are now buying Cascarets Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means merit proved that Cascarets are the most delightful bowel regulator for everybody the year around. All druggists 10c, 25c, 50c a box, cure guaranteed.

I called at the home of a friend of mine the other evening about 7:00 o'clock and found only the little boy of 8 at home.

"Where is your mother, Johnnie?" I inquired.
"Playing cards over at Mrs. —"
"Where is your aunt?"
"She's out on her wheel."
"Where's your sister?"
"Gone off to Orchard Lake."
"Then I'll see your father, please?"
"He can't come down just now. He's putting the babies to bed."
Such is life.

Here is a picking from Peck, just to the point.

First Spaniard—Another battle has been fought. The Americans lost over 500 men.

Second Spaniard—Lost over 500 men! How did it happen?

First Spaniard—Why they lost that many of our men. Some of our heroic troops made a glorious escape.

W. T. Troutman is in from Deerpole under the doctor's care for a bad stomach trouble.

A Sure Thing for You.

A transaction in which you cannot lose is a sure thing. Biliousness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascarets Candy Cathartic the wonderful new liver stimulant and intestinal tonic are by all druggists guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box to-day; 10c, 25c, 50c. Sample and booklet free.

COMPREHENSIVE EPITAPH.

It is on the Dilapidated Stone at the Head of a Patriot's Grave in a Vermont Cemetery.

"It was up in Vermont not long ago," said a New Yorker, "and, being in the vicinity of the old Guilford cemetery, I paid it a visit. This cemetery has, from neglect, grown to be somewhat of a miniature wilderness, and the inscriptions on many of the ancient grave-stones are past all deciphering. On one stone that stands in picturesque obliquity at the head of a sunken and overgrown grave I managed to decipher what had been inscribed there generations ago and copied it. This is what the inscription says:

"Sacred to the memory of Hon. Benjamin Carpenter, Esq. Born in Rehoboth, Mass., A. D. 1725. A public teacher of righteousness, an able advocate lost for democracy and the equal rights of men. Removed to this town A. D. 1770. Was a field officer in the revolutionary war. A founder of the first constitution and government of Vermont. A counselor of counselors in A. D. 1783. A member of the council and lieutenant governor of the state in A. D. 1779. A firm professor in Christianity in the Baptist church for 30 years. Left this world and 146 persons of final posterity March 29, 1804, aged 78 years, 10 months and 12 days, with a strong mind and full faith of a more glorious state hereafter. Stature about six feet, weight 200. Death had no terror."

"If there are any of those 146 persons of final posterity left, I think it would be something to their credit if they would drop along up that way some day and fix up that old patriot's and statesman's grave a little."

AGENTS WANTED

In Every County to Supply the Great Popular Demand for

AMERICA'S WAR FOR HUMANITY

Told in Picture and Story

Compiled and Written by

SENATOR JOHN J. INCALLS

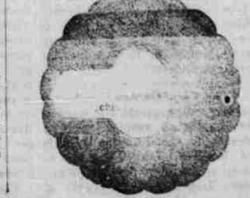

Of Kansas

The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the war with Spain. Nearly

The Trans-Mississippi and International Congress is composed of delegates from every State and Territory West of the Mississippi river. The idea of this exposition originated in that Congress at its session at Omaha in 1895, and the project has become a National enterprise and the National Commission for each of the several departments of the Government. Most for the Trans-Mississippi States are well along in the way of gathering exhibits from their respective States and many of them have made liberal appropriations, while others are preparing exhibits through private enterprise.

Vice-President H. B. Maxson of Reno, has made arrangements whereby he can get Nevada exhibits, shipped from any point in the State along the line of the C. P. R. R. to Omaha and return, and he requests all persons who wish the interests of the State advertised, to co-operate with the Exposition County Commissioner of his county, whose name is shown above, and prepare some product of his county and send it to the nearest point on the C. P. R. R. from which place it will be sent to Omaha and exhibited, and returned to the same point at the close of the exposition, free of expense to the exhibitor. Full information should accompany everything sent for exhibition. Before sending anything to the line of the railroad a full description should be given to the Exposition Commissioner of the county, who in turn will notify the Vice-President, who will notify him what action to take, otherwise there might be many duplications. Apply to your County Representative for further information, and don't let this opportunity of advertising the resources of Nevada be lost.
