SCHOOL ENTERTAINMENT.

School Closes with Pleading Exercises Given by the Pupils.

The close of the schools on the 19th. of this month was celebrated by a very pleasant entertainment consisting of Music, Essays, Declamations, Dialogues and Songs.

The house was literally packed with ladies and gentlemen of the town and the exercises were very much enjoyed.

Many of the pupils, from three to 16 and 17 years gave their pieces without hesitation and in a charming manner. Considering the short time given them by the teachers, they all acquitted themselves remarkably well.

The week had been passed in a thorough examination, and not as some teachers have done exclusively, to our knowledge, in preparing the children to make a show of themselves. None of the regular studies were neglected and consequently the pupils had but little time in which to prepare for the ordeal, but notwithstanding this they prepared to give a splendid entertainment and the parents and teachers should be proud of the success of their efforts.

After the exercises several of the attending gentlemen gave little talks congratulatory of the teachers and the evident success of their efforts for the year, for the advance of education. The Ass't Miss Henry made a few remarks on behalf of the pupils. Prof. Bathurst gave a very feeling talk of the gratification they expressed at the result of their years work, which had been a labor of love. There has been no occasion during the year for corporal punishment although the Prof. was told he had a lot of bad boys to handle. In feeling terms he spoke of the perfect confidence in and obedience of the pupils to the requirements of the teachers in all cases.

We concur in the opinion of the parents that both teachers and pupils have done their duty, and have no doubt that the successful ending of this years work will never be forgotten by either.

We are sorry to have to record that our townsman, Mr. A. S. Thompson had an attack of acute indigestion on Monday and had to go to bed. Unfortunately Dr. Campbell was out of town and he suffered considerably all day. When the Dr. returned he relieved his pain, but a bad night followed, Tuesday there was some improvement, and Wednesday he went to the store a short time, he returned soon and to bed. When we saw him late in the afternoon he was resting nicely and will undoubtedly be out in a day or so, as well as ever.

Report of J. H. Smith, weather Bureau Observer at Carson, for May 9th., gives a very unfavorable week past, growing crops made little progress through the state, fruit generally destroyed, alfalfa frozen. In Lincoln county grain is heading out and haying is in progress.

COUNTY CORRESPONDENCE.

Communications from all over the county solicited.

Communications for publication should be addressed to THE RECORD, Pioche, Nevada.

Panaca, by "Dick."

John Smith from Duck Flat sawmill, was in town a few days, paying off his employees.

C. C. Ronnow bade his many friends good bye and departed Monday for Salt Lake, where he will be directed on his mission.

C. P. Ronnow returned home last evening and brought with him a fine looking woman, to whom he was wedded during his absence. The old gentleman has been having considerable business through certain parts of Utah, and if we are any judge he has captured a very nice lady, which makes him look and appear much younger.

SEARCHLIGHT.

There are about 40 men working in camp and it has great promise of a big future.

Searchlight has two stage lines running from here to Manvel connecting with the railroad there, for California.

A good many have come in lately from Randsburg, California. Just at present we would advise those seeking employment to keep away, as the mines are working as many men as they can, due mostly to a scarcity of water, which is the great question just now.

Assessor Freudenthal and wife arrived here the evening of the 14th. and departed this morning for home going by the way of El Dorado canyon and expect to reach Pioche the 28th. While here they were the guests of Mr. and Mrs. F. W. Dunn. Last evening a party was given in their honor by Mrs. S. H. Black, assisted by the other ladies of this place, in the Black boarding-house. It was the first ball or party for Searchlight and all night work was suspended in the different mines to allow all to attend Searchlight's christening and a gala time was had. It was an old time mining camp dance and the refreshments were of the best. Mr. and Mrs. Freudenthal have many friends here and all wished them a pleasant trip home.

Denounced Divorce Laws.

Bishop Leonard Makes Reference to Utah Congressman. Cleveland, O.—Bishop Leonard, in his annual address before the Ohio Episcopal Diocese convention here today, scathingly denounced the divorce laws.

"The good people of the United States are raising a great cry," said the bishop, "against the admission of a member of congress, who is a polygamist, when practical polygamy is being practised all over this country. Things have come to such a pass that the flimsiest pretends are made the means of securing a divorce. A slight quarrel or miserable lust are alike made a means to this end." Bishop Leonard then went on to say that he wanted the church laws made so severe that a divorced person cannot be re-married at all by the Episcopal clergyman.

The Mission Sunday School is progressing finely and much interest is shown by both teachers and children. There is however plenty of room for more, particularly for the larger boys. Mrs. Sawyer is making the Bible class very interesting.

Mess. Godbe and Bybee came in from Bristol Saturday, and Sunday Ed. Freudenthal took them to Panaca. In a conversation with Mr. Godbe he said there was lots of copper in the Bristol mines and that is the product that is valuable now.

Among the arrivals at the White House Hotel, Salt Lake, on Monday were C. L. Bathurst and Miss Alice Henry, Pioche. It is reported that Prof. D. L. and Miss Henry were to be married yesterday.

Letters received today by Mr. F. Dickle from eastern parties, promise that if a Church is established here they will furnish supplies both for the church and Sunday School which is very pleasant news.

Ed. Freudenthal left on Sunday afternoon for Salt Lake to consult with owners of mining property he is working at Bristol. He was accompanied Mess. Godbe and Bybee.

We notice from the Local Messenger, that its address will be DeLamar in the future. A. Clifford, Leeseur. We hope it will meet with the success its course may merit.

The Mother's Ologies.

A girl who had been very clever at college came home the other day and said to her mother:

"Mother, I've graduated; but now I must inform myself in geology, philology, bibliography."

"Just wait a moment," said the mother. "I have arranged for you a thorough course in roasting, boiling, stitching, darnology, patchology and general domesticology. Now get on your apron and pluck that chicken."

Spain she had a little lamb, the slickest lamb around. She sold the lamb to Uncle Sam for 20 million down; then Uncle Sam he took it by the tail to lead it home you know; the mutton rare, turned-out a bear, and Sam he can't let go.—Ex
