Don't forget to pay your taxes by the first.

The price of cattle have advanced in the East.

Rain, sleet, snow, wind constituted the weather during the week.

Weather! we should say. All kinds except pleasant weather, during the week.

Next Thursday will be Thanksgiving. Turkey or no turkey, let us pray.

It look as though we would have a repetition of 1889—60 days rain, snow and sleet.

Phil Smith, Phil Mathews and Doc Dorrell were up from Panaca on Thursday.

E. F. Freudenthal has sent men to Comet to do the assessment work a number of his claims there.

Nevada football team out played the Stanford's crack Varsity eleven at California Saturday and won by 6 to nil.

Bishop F. C. Lee was in town Thursday. He probably claims to have brought the couple of hours sunshine up from Panaca with him.

The Lincoln County Record will continue publication notwithstanding the croaking and sayings of a few individuals of this community.

P. Sheahan and Wm. Wheatley are at Groom District doing assessment work on the claims held there in addition to the patented ground.

Wm. Lloyd and John Cook are finishing up the assessment work for the present year on the Old Timer group of claims west of town, owned by Rice and Farrell of Park City.

Hailey Times: G. W. S. Turner has sold to the Gold Belt Mining company the Merry Harris lode, about 2000 feet northwesterly from the Golden Star claim.

H. E. Freudenthal, County assessor, has filed with the Clerk of the Board of County Commissioners his resignation as County Assessor of Lincoln County, to take effect on December 31st, 1900.

Mr. S. T. Godbe, is preparing to make a test at the Highland mill of sixty tons of ore from the Half Moon and if the test is satisfactory, he contemplates putting up reduction works at the mine.

From numerous reports we have head from the old Camp at Bristol, where there are at present eight men at work, is destined to once more be its old time self, a recent strike there of some magnitude warrants the assertion.

Our storm this week reminds us of the wet spell of the winter of '89 and '90, when it began raining in November and continued without a days intermission until the middle of February following. If it does not turn off cold, the present storm will be of great benefit to the cattle men hereabouts.

The Highland mill has just finished a test of 20 tons of ore from the Bristol mines, which has proven entirely satisfactory. The ore was from the mines of the Oregon Short Line Mining Company, and its manager, Mr. E. F. Freudenthal, informs us that the Company intends putting up reduction works four miles from the mine.

This is about the season of the year when school time should be changed to a meridian, or sun time. Standard time, by which the school is now governed, is 38 minutes faster than sun time, which makes the school open at about 8:20, rather early on cold mornings. The meridian time could be used until about March next, when the lengthening days make it desirable again to follow Standard or fast time. This has been the custom for the past few years.

ELDORADO CANYON.

This old camp promises to be a million producer in the near future, operations by the company promises to be of some magnitude and permanency. The old mill of 15 stamps is being thoroughly overhauled and new machinery taking place of the old and an additional 10 stamps are being put in place, making 25 stamps in all. A new wagon road has been constructed which comes in above the mill and allows the ore to be dropped into ore bins and selfed from them to the stamps, doing away with the second handling of the ore. New frunnagers are to be put in place and also the cyanide department of the mill is to be re-modded and built on the best and latest plans.

The mines are located 8 miles from the mill and a traction engine of 50 horse power will be used to haul the ore, and it is estimated at the mill at a cost not to exceed .75 cents per ton. Systematic development of the mines has been going on for the past year, and enough ore is blocked out to insure a two years run of the mill.

Much credit is due to Mr. Chas. Gracy, the Superintendent for his efforts in inducing the present company to continue operations, and we can look for a bright future for Eldorado canyon.

In addition to the work by the above company, John Powers has a small gasoline engine on his mines and so far developed his mines that at the present time they have an exceptionally fine showing. Mr. Powers is one of the old timers and is deserving of the best of success.

Mr. Jas. McGregor also has some fine prospects and which he at present is negotiating a sale for.

The Wagner boys on Nob Hill have their mines under bond to some California parties, and Mr. J. R. McDonell has some parties looking after a group of his claims. All of the above claims are of more than passing notice as there is merit in all of them, and with the operations of the Southwestern company on an enlarged scale, Eldorado canyon has the promise of being one of the best camps in the county.

Is He Waiting for the Removal of the County Seat to Panaca.

A contract was let by the Board of County Commissioners at its Oct. meeting for the delivery of 20 cords of wood at the Court House at Pioche to Geo. K. Riding of Panaca. Six weeks have passed, the officers at the Court house are out of wood, and winter is upon them. It is rumored upon the streets that the Contractor is waiting for the removal of the County seat to Panaca so as to save a haul of 13 miles. If the county officers have to wait for their wood till that takes place, they will all have to wear Klondike clothing this winter.

John Scully has discovered a gold quartz lead 50 feet wide, and can trace it 900 feet in length on the strike of the vein; twelve feet of the vein average \$3.90 in gold, and the rest \$2.90 in gold per ton. The discovery is about three miles south of the famous Mendha mine, which will average \$20 in gold per ton and is opened to a depth of 675 feet, while comparatively little stoping has been done, the vein averaging six feet. Mr. Scully gives it as his opinion for the out crop of the two mines, that he has a second Delamar. He intends to open up the claim as rapid as possible.

Tacoma, Wash., Nov. 14.—At midnight last night at Gem, Ida, former Deputy Sheriff Richard Adams shot and instantly killed Dan Kildee and Wm. Kennedy. Both the killed were union miners who took part in the Coeur d'Alene miners strike two years ago. At that time Adams served warrants on them and incurred their deadly enmity. They were sworn to kill him, but until recently they have been working at Gardner. They arrived at Gem several days ago, and have been on the outlook for Adams ever since. He was put on guard by friends. Late last night Kildee and Kennedy ran across Adams in a saloon, Kennedy bowed his rifle, but before he could touch the trigger Adams had sent a bullet through his brain. Without dropping his arm, Adams turned his gun on Kildee and shot him through the head before he had time to draw his revolver. Both men were dead when bystanders reached them. Adams was treated as a hero, and to-day a Corner's jury exonerated him on the ground of self-defense.

Senator Jones has said he will not be a candidate for re-election to the United States Senate two years hence. —Carson News.

The Salt Lake Road.

The construction of Senator Clark's railroad between Los Angeles and Salt Lake City to be commenced at once. An order was placed last week with the Colorado Fuel and Iron works for 8000 tons of rails and the stock is to be shipped to Southern California within thirty days says the San Francisco Call. Senator Clark's will be president of the company and it will have a capitalization of \$24,000,000.

The reason for having the rails shipped to Southern California is explained by the announcement that it is the purpose of the promoters to first build a line between Los Angeles and San Bernardino. The 2000 tons of rails that have just been ordered will just about build a track between these two places.

Upon the completion of this section of the line work will be started at Salt Lake City, the plan being to have a force busy at both ends of the line. The total length of the road will be about 700 miles which will require about 90,000 tons of rails. The road will cut through the southern portion of Nevada.—Ex.

STATE NEWS.

Richard Perkins, a well-known Comstock miner, died at Virginia City last Friday.

It is said that J. C. Doughty has secured control of the Tuscarora Times-Review.

Seven freight cars were ditched in a wreck at Osino, Elko county, Saturday morning.

The claim so far developed at New Jerusalem, twenty miles north of Reno, are showing good ore bodies.

At Elko, Alexander Lee and John Cronin have been bound over to the U. S. grand jury for selling liquor to Indians.

Ed. Whitecomb was seriously injured while hunting in Huntington valley, Elko county, a few days ago by the explosion of a shotgun.

The V. & T. car shops at Carson are running steadily and with a larger force of men than for many months past. There is said to be work ahead for some time.

Coyotes came down in the vicinity of Howard street nightly, and the appearance of the animal in town is taken by weather sharp to mean a hard winter.—Virginia Enterprise.

Smallpox is still prevalent in the northern part of Elko county. A case has been reported at Tuckers, forty miles from Elko.

Messrs. Bell and Hatch, potato buyers, were here from California this week looking after spuds. They both secured several carloads at \$14 per ton. The Italian ranchers are not anxious to sell all their spuds at these figures, as they expect to get better prices.—Lyon County Times.

The Nevada State University football team was defeated by the California eleven at Berkeley last week by a score of 32 to 0.

A Missouri editor thinks it quite sad to see a young husband supporting a seal skin wife on a muskrat salary. For pointer pictures queness of expression the Missouri rural editor takes the corn pone.

A woman may have a poor memory, but she never forgets a compliment, says the Chicago News.

A band of fifty Indians, said to be Apaches, attacked the Mormon settlement at Pacheco in Mexico, Friday but were driven off losing seven killed and seventeen wounded. Four whites were also killed.

Mrs. Theodore Roosevelt is arranging for her husband a novel album, which, when completed, will contain fifty or more snapshots taken of the Governor during his campaign tour, a history of the trip, reports of the candidate's speeches, and other printed matter relating to his travels.

The Union Hill mine at Grass Valley has been shut down and the men employed at developing it have been discharged. Over \$80,000 has been expended in development work but the rock that promised so well at one time has not turned out so good lately.

The most remarkable municipal growth shown by the census in any single section of the country is in the three cities of Seattle, Spokane and Tacoma in the State of Washington. These three cities combined had a population of 4,681 twenty years ago. Now they have 225,233 inhabitants.

The cotton crop of this country amounted to only 5,000,000 pounds in 1793; last year it was about 5,500,000,000 pounds, representing three-fourths of the entire crop of the world, and valued at \$350,000,000. It filled 9,500,000 bales, and the loss by waste incident to the process of taking samples was not less than \$7,000,000.

NEW-TO-DAY.
