

NORTHWEST NOTES

A raid was made by the sheriff on all the gambling houses of state last week...

Andrew Heath, single and aged 28, a pressman in the employ of the Butte Miner, committed suicide by poison...

C. M. McIver was shot and killed at Silver Peak, Nevada, by Al Cook of Goldfield...

The University Girls' Glee and Mandolin club of the University of Wyoming will make a concert tour of the state...

Chief Forester Pinchot announces that about 250,000 acres of lands lying in Uintah county, Utah, and in southern Wyoming will be exempted from the order extending the Uintah forest reserve...

One of the largest sales of railroad lands in Wyoming in recent years was made last week when the Union Pacific sold to the Gibson Live Stock company of Nebraska, 19,228 acres for \$9,614.42.

Representative Dixon of Montana, has introduced bills authorizing the Chicago, Milwaukee & St. Paul railway to cross Fort Keogh reservation and to bridge the Yellowstone river in Custer county, Montana.

The city of Provo will appeal from Judge Booth's decision in the action brought by J. W. N. Whitcotton to restrain Mayor Frisby and Recorder Harding from issuing waterworks and artificial light bonds.

John Cook of Elk Mountain, who was summoned as a juror at the term of court at Rawlins, Wyo., brought his wife and babe with him. While coming through the storm the babe died in his mother's arms.

The board of trade has signed a contract with J. Ross Clark and C. O. Whittemore for a right of way through the heart of Rawlins, Nev., by August 1 to Rhoylville, Nev.

The team taken by George M. Scott when he absconded from Lander, Wyoming, several weeks ago, has returned, and many there believe the man froze to death in a blizzard, as no trace of him has been found.

Acting upon the petition of the officers of the Seventh Infantry, stationed at Fort Missoula, the board of county commissioners has passed a resolution revoking the licenses of the saloons now doing business near the fort.

Dr. J. J. Fisher, who conducts a drug store in Portland, was shot and seriously injured by a highwayman who secured admittance to the store just after it had been closed for the night on the pretense that he had a severe toothache.

The Saratoga Valley, Wyoming, Stock association has voted unanimously to disband and the money in the treasury was added to the credit of the wolf bounty fund in the Saratoga State bank. The members of the association had lost interest.

Fifty-seven cases of smallpox are reported in the farming districts of Liman, Bridge and Uintah counties, Wyoming. The source of the epidemic was an abandoned pesthouse in a mining camp at Cumberland which a ranchman appropriated.

C. S. Jarvis, the only non-union barber in Bellingham, Wash., on entering his shop one morning last week, found that the front door had been broken down, five mirrors smashed, the plumbing torn out, and chairs carried from the place and dropped into the bay.

Frederick Rodney, 40 years old, who came from Boise to Hay Creek, Ore., shot himself at a lodging house in Hay Creek. The suicide was evidently planned as he had laudanum, chloroform, carbolic acid and morphine in his room, but preferred to use the gun.

J. B. Hassett, general manager of the Charter Oak mine near Saratoga, Wyo., reports the finding of a vein of high-grade copper sulphide in a drift from the 200-foot level in the mine, the vein being two and a half feet wide and the ore running 40 to 50 per cent in copper.

The report of the state coal mine inspector of Wyoming shows that the gross output of thirteen mines for the year ending January 1, 1906, was 4,066,883 tons, with a tax value per ton ranging from 11 to 42 cents. The total tax value of the output for the year was \$1,719,612.

The ranchmen living along the Pioneer canal near Laramie, Wyo., embracing nearly four-square ranches, are organizing a telephone company to build a line from the head of the canal to connect with the telephone exchange of the Rocky Mountain company at Laramie.

K. F. W. Beskovek, a hunter and scout who is known in Montana as "Coyote Bill," has been granted a new trial. Beskovek has been confined in the Missoula county jail since last June for the shooting of William Burig. Since October, Beskovek has been under sentence of death.

Two railroad survivors from Denver are preparing to begin a survey from Casper, Wyo., to the Salt Creek country, and from there the survey will be continued to Sheridan and Buffalo. They state the road will be built from Orin Junction to Casper and then continued northward.

CYCLONE SWEEPS OVER OKLAHOMA

Three Persons Badly Injured and Great Damage Done to Property.

During Dead Hours of Night Homes Are Literally Blown to Pieces Over Their Heads and Victims Are Buried Beneath the Wreckage.

Perry, Oklahoma.—Three persons sustained injuries that may prove fatal and thousands of dollars worth of property was destroyed in a cyclone that struck the neighborhood south of Billings, Okla., at 10 o'clock Sunday night. None of the victims have died according to last reports.

Mr. and Mrs. James Russell were critically hurt as they lay in bed. The home was literally blown to pieces over their heads and they were buried in the ruins. Mrs. Sam Merrifield sustained serious injuries in a similar manner.

A cloud was seen first south of Billings. It split, part of the funnel going toward Red Rock and the other swooping down north of Ceres. The Russell home was directly in the path of the tornado. The substantial farm house was twisted and wrenched and fell in on the occupants. The outbuildings were all carried away.

Woman Accused of Murdering Man and Placing Body in a Trunk.

Stockton, Cal.—The body of a man which was found in a trunk among the baggage at the Southern Pacific depot here on Saturday night has been identified as that of Albert N. McVicar, an employe of the Rawhide mine at Jamestown, Cal. The police have arrested at Antioch Mrs. Emma LeDoux, or Mrs. McVicar as she called herself here, who is declared to have purchased the trunk in which the body was placed, and also the rope with which it was bound. Her husband is now living in Amador county. It is supposed that if she committed the crime a man must have aided her, as McVicar was powerfully built. He had \$800 in cash, and it is believed that robbery was the motive for the crime. It is believed that he was drugged, then crushed into the trunk and suffocated.

In her statement to the officers who arrested her, Mrs. LeDoux said that one Joe Miller had placed the dead body of McVicar in the trunk, and she claims that she is innocent of the crime.

WASHOUT CAUSED WRECK.

Nine Persons Killed and Thirteen Injured in Wyoming. Casper, Wyo.—Sunday night at 10:30 o'clock the accommodation train on the Chicago & Northwestern's new branch west of here ran into a washout on the prairie twenty-six miles west of here, killing nine people and injuring thirteen others. About the same time the middle span of the big railroad bridge across the Platte river, near this city, went out, and it is impossible to send trains to the scene of the accident.

Most of the killed were in a caboose which was at the rear of the train, with a ponderous steel water tank back of the caboose. The caboose sank down deep into the mud and the water car plunged into the caboose and crushed it like an eggshell, catching the people in a trap.

Foiled by Fake Proclamation.

Boise, Ida.—Governor Gooding on Monday received from New York a telegram bearing the signature of John C. Chase, former mayor of Haverhill, Mass., and stating that a committee representing a number of labor unions would leave New York at once to hear the confessions of Harry Orchard and Steve Adams as related to the detectives and prosecuting officers. The New York labor leaders are supposed to be acting on the bogus "proclamation" sent out from here last week.

Tortured Young Girl.

Moscow.—M. Teslinko, counsel for Mile. Spiridonovo, the 17-year-old girl who shot M. Luzhenoffsky, chief of the secret police at Tamboff, has returned here from Tamboff, where his client was found guilty of the charges brought against her. He declares that the tortures of the Spanish inquisition were tame when compared with the cruelty Mile. Spiridonovo has been subjected to. He gives a thrilling account of her speech to the judges who condemned her.

Railroad Traffic Demoralized.

Los Angeles, Cal.—Heavy and almost continuous rainfall throughout southern California during the past week has temporarily demoralized railroad traffic and caused much damage from washouts. On the main line of the Southern Pacific east, washouts are reported near Savannah and El Monte, just outside Los Angeles; on the coast line at several places between this city and Santa Barbara, and on the lines north through the San Joaquin valley.

Would Stop Printing Waste.

Washington.—Following the president's suggestion, the house on Monday passed resolutions to correct the useless printing of public documents and to empower the printing committees of the two legislative bodies to fix the number of documents to be printed, and should the demand arise for additional copies of a publication then to have authority to order another edition. It was claimed this action would result in saving the government upward of \$1,000,000 annually.

Perplexing. "Not a kever langviche!" exclaimed the foreigner who was trying to learn the American tongue. "You say de man is 'all in' ven you mean he is all out!"—Chicago Tribune.

A Vindication for Dr. Pierce.

Decision by the Supreme Court of the State, Against the Ladies' Home Journal.

A verdict has been rendered in favor of the plaintiff in the libel suit brought against the Ladies' Home Journal (published by the Curtis Publishing Co.) by the World's Dispensary Medical Association, of which Dr. R. V. Pierce is president. The suit was brought by Doctor Pierce against the Curtis Publishing Co. for making false statements about one of his standard family medicines known as Dr. Pierce's Favorite Prescription. In the May number of the Ladies' Home Journal (1904), Mr. Ed. Bok, the editor, stated that Dr. Pierce's Favorite Prescription contained alcohol and some other harmful ingredients, and Dr. Pierce had in the action alleged that the defendant maliciously published this article containing such false and defamatory matter. Dr. Pierce further claimed that no alcohol is or ever was contained in his "Favorite Prescription," that said medicine was a vegetable preparation and contained no deleterious ingredients whatever; that Mr. Bok's statement, pretending to give some of the ingredients of said medicine, was wholly and absolutely false. During the trial, the Vice-President of the World's Dispensary Medical Association stated, that the ingredients of Dr. Pierce's Favorite Prescription were extracted from the following native roots: Golden Seal, Blue Cohosh, Lady's Slipper, Black Cohosh and Unicorn, by means of pure glycerine. He was asked how he knew, as a physician and experienced medical man, that the "Favorite Prescription" was a cure for the diseases peculiar to women, such as amenorrhea, dysmenorrhea, anteversion retroversion, and he stated that he knew such was the fact because of his professional experience and the many thousands of women whose ills had been cured by this "Prescription." The Vice-President, being asked to give his authorities, read from the standard works, such as the United States Dispensary, The American Dispensary and many other standard medical books.

The retraction printed by the Curtis Publishing Company two months after the libelous statement appeared and nearly two months after the suit had been begun stated definitely that analyses had been made at their request and that the "Favorite Prescription" did not contain either alcohol, opium or digitalis.

His Ugliness of Value.

A case is recorded of a man in a London workhouse who was given extra food and reduced labor on condition that he never left the table while other inmates were eating. He was one of the most repulsive-looking men who ever lived, and the master of the workhouse found that the mere presence of the ugly one was a most valuable wrecker of appetites.

DISFIGURED WITH ECZEMA.

Brushed Scales From Face Like Powder—Under Physicians Grew Worse—Cuticura Works Wonders.

"I suffered with eczema six months. I had tried three doctors, but did not get any better. It was on my body and on my feet so thick that I could hardly put a pin on me without touching eczema. My face was covered, my eyebrows came out, and then it got in my eye. I then went to another doctor. He asked me what I was taking for it, and I told him Cuticura. He said that was a very good thing, but that he thought that my face would be marked for life. But Cuticura did its work, and my face is now just as clear as it ever was. I told all my friends about my remarkable cure. I feel so thankful I want everybody far and wide to know what Cuticura can do. It is a sure cure for eczema. Mr. Emma White, 641 Cherrier Place, Camden, N. J., April 25, 1905."

Few Women Faint.

It is a curious fact, of general remark, and observed not by physicians only, that fainting is less common than it used to be. It is rare that one sees a woman carried out of a church or theater, yet forty years ago it was a matter of such common occurrence as barely to excite remark. This is due in very great measure to the outdoor life young women lead in these days of tennis and golf and other sports. The heart and the circulation are strengthened by exercise in the open air and it takes a great shock to disorder the blood balance in the body of the modern woman.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical profession. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure acts directly upon the blood and cleanses the system, thereby destroying the foundation of the disease, and restoring strength by building up the constitution and assisting nature in doing such work as she is unable to do. Send for literature that tells all about it. Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

Fine Deed of School Children.

A little girl attending one of the public schools in Paris had to stay at home and nurse the baby whenever her mother went out to work. The school children took up a collection and pledged themselves to pay the mother as much as she could earn, in order to enable her to stay at home and send the child to school.

Everybody get ready for Spring Conference.

A Real Boston Definition. For instance, there is the word "skiddoo." We don't know where it originated, or the circumstances that brought it into life, but we do know we hear it everywhere used by the young folks when they wish to remind one that his presence is in demand at that minute in some other spot.—Boston Transcript.

Perplexing.

"Not a kever langviche!" exclaimed the foreigner who was trying to learn the American tongue. "You say de man is 'all in' ven you mean he is all out!"—Chicago Tribune.

GET RID OF THE GAS

Dr. Williams' Pink Pills Strengthen the Stomach and Enable It to Do Its Work.

When the stomach is feeble the food lies in it undigested, decays and throws off poisonous gases that distend the walls of the stomach and cause interference with other organs, especially with the action of the heart and lungs. These gases have other ill effects. The nerves and the brain are disturbed and discomforts such as dizziness, hot flashes, sleeplessness, irritability and despondency originate from this source. Experience shows that these troubles vanish just as soon as the stomach is made strong and the food is digested. In other words, it needs a tonic that will rouse it to do the work of changing the food into nourishment.

Miss Minerva C. Ladd, of Ipswich, Mass., says: "I had a weak stomach from times I was a little child. Whenever I took heavy food it would cause terrible faintness, and I would finally vomit what I had eaten. At times there would be the most intense pain through the upper part of my body. For days in succession, I would have to lie down most of the time. The distress was often so great that I could hardly bear it, and the frequent and violent belching spells were very disagreeable, too. I was told that 'My doctor's medicines gave me little relief and it was not until I tried Dr. Williams' Pink Pills that I found a cure. Within three weeks a decided improvement was noticeable. The belching spells were less frequent, the pains through my body were not so intense, my food was retained and after taking the pills for a few weeks longer I found that I was altogether free from the miseries I had so long suffered from.' 'What to Eat and How to Eat.' Write the Dr. Williams Medicine Co., Schenectady, N. Y., for a free copy.

WAS BOUND TO PAY PHYSICIAN.

Fee Was Small But Carried with it Child's Gratitude.

Carrying a pet spaniel in his arms, Eyesaid Alexander Wilson walked into the accident room of the Samaritan hospital and said appealingly to Dr. Raiman, says the Philadelphia Inquirer: "Won't you mend my dog's leg? He was run over by a big wagon on the street."

Dr. Raiman tried to tell the child that the institution was not a veterinary hospital, but the child pleaded so hard that the physician consented to operate on the injured animal. He found that "Jessie," so the boy called his pet, had sustained a fracture of the left hind leg. The injured limb was soon set and done up in splints.

When the operation was over, Alexander began to search his pockets and finally produced a five-cent piece, all his available earthly wealth. He gravely presented it to Dr. Raiman. The physician told him to put it back in his pocket. The boy insisted, but finally obeyed the doctor. As soon as the accident room door closed behind him Alexander took the nickel from his pocket, rolled it through the crack under the door into the room and ran away.

The physician is thinking of having a watch charm made of the nickel piece, so that in after years he can exhibit it when he tells the story of his first fee.

DUNCE WAS MAN OF LEARNING.

Nickname of Dunscootus, Learned Man 600 Years Ago.

"Dunce" is generally applied to dull, stupid, unteachable boys. The person from whose name the word is supposed to have been derived was quite a different character.

It was used as a term of reproach by the Thomists to the followers of Dunscootus, who was their antagonist in a religious controversy. This "Johannes Dunscootus" was a very learned man, who lived about the end of the thirteenth and beginning of the fourteenth century. The English say he was born in Northumberland; the Scotch allege he was born at Dun, in the Mers, the neighboring county to Northumberland, and hence he was called Dunscootus.

He died at Cologne, Nov. 8, 1308. His fame was so great that when at Oxford, 30,000 scholars attended to hear his lectures.

The Thomists were the followers of Thomas Aquinas, a Dominican friar, celebrated for his learning.—Stray Stories.

Animals in the Water.

The horse can swim for miles without being exhausted, and shows a wonderful instinct in choosing the best available landing place. Bears and moles swim well, but bats and monkeys are helpless in the water.

FOOD HELPS.

In Management of a R. R.

Speaking of food, a railroad man says: "My work puts me out in all kinds of weather, subject to irregular hours for meals and compelled to eat all kinds of food.

"For 7 years I was constantly troubled with indigestion, caused by eating heavy, fatty, starchy, greasy, poorly cooked food, such as are the most accessible to men in my business. Generally each meal or lunch was followed by distressing pains and burning sensations in my stomach, which destroyed my sleep, and almost unfitted me for work. My brain was so muddy and foggy that it was hard for me to discharge my duties properly.

"This lasted till about a year ago, when my attention was called to Grape-Nuts food by a newspaper ad, and I concluded to try it. Since then I have used Grape-Nuts at nearly every meal, and sometimes between meals. We railroad men have little chance to prepare our food in our canteens and I find Grape-Nuts mighty handy, for it is ready cooked.

"To make a long story short, Grape-Nuts has made a new man of me. I have no more burning distress in my stomach, nor any other symptom of indigestion. I can digest anything so long as I eat Grape-Nuts, and my brain works as clearly and accurately as an engineer's watch, and my old nervous troubles have disappeared entirely." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in pkg.

ENTIRE FAMILY SLAIN BY YAQUI INDIANS

Party Ambushed by Bloodthirsty Savages and Men and Women are Ruthlessly Slaughtered.

Los Angeles.—News has reached this city of the murder of five members of the family of Pedro Mesa, president of La Dura, in Sonora, Mexico, and a brother-in-law of Frederick Hartman, president of the William Hoeg company of Los Angeles, who were massacred by Indians within a few miles of their homes, and their bodies left in the roadway between Ortiz and La Dura until a sufficient number of Mexican troops could be sent to overawe the raiding outlaws and bring in their victims.

Three members of the Mesa family survive. They are the baby son of Pedro Mesa and two young daughters, Mercedes and Elvira. These children had been left at home in La Dura when the rest of the family drove in carriages to Quaymas for the purpose of consulting physicians about Secreta Eloxos, who had been ailing, and at the same time to enable other members of the family to do some shopping and visit friends.

Returning from Quaymas, the party stopped at Ortiz and it is supposed they were joined there by Mrs. Hoff and her son. Here, it is said, they learned of the presence of a band of Yaquis in the Los Otates mountains and near Otates pass, through which they would have to travel to reach La Dura and the mining camps, where F. A. Hartman owns large properties.

The worst of the gorge was passed and they had entered the wider valley when, from every ledge and mound of debris, came the crack of rifles.

The men charged desperately up the slopes, calling upon their head a rain of lead to divert the fire from those who were bound to protect. Thus they fell with their faces to the unseen foe. The last desperate stand of the survivors was made in the shelter of the overturned carriage and they fought back to the last, knowing that there was no mercy for them.

OUTRAGE OF CHINESE PIRATES.

Threw a Stinkpot on Board a Standard Oil Launch.

Hongkong.—Details of the capture and looting by Chinese pirates March 22, near Canton of a launch owned by the Standard Oil company, have been obtained. The launch or tug Comet was proceeding to Kongmun, between Wampoa and Canton, towing a lighter laden with kerosene oil. While passing what is known as the "second barrier," or second line of former obstructions at 6:30 Thursday evening, and when in sight of Wampoa fort, one of the many islands lying between Canton and the sea, a number of junks manned by pirates closed around the Comet and her tow.

A stinkpot (carbon jar containing gunpowder, resin and hand grenades) was thrown into her engine room, the pirates boarded the launch and her crew was overpowered. The pirates then beached the Comet and the lighter and removed all the valuables from the two vessels, including a number of Winchester rifles and 1,000 rounds of ammunition. The cargo of kerosene was not touched.

Girls Poisoned for Refusing to Go on Strike.

Warsaw.—The paymaster of the Vi-tula railroad was shot by robbers, who secured \$3,500 from him.

Thirty-four working girls in Kinder's mills at Pabianice, ten miles south of Lodz, on refusing to join a strike, were poisoned by powder that was strewn upon the floor of the mill. One of the girls died from the effects of the poison and the remainder are seriously ill, ten of them not being expected to recover.

Little Carpet Tack Caused Terrible Disaster.

East St. Louis.—A carpet tack, caught between cogwheels, caused a spark that resulted in the blowing up of the works of the Phoenix Powder company, eight miles east of here, Saturday afternoon, and killing John Nash, aged 58 years, and Edward Higginbotham, aged 24 years. The building was completely destroyed, parts being scattered all over the surrounding country in the vicinity.

Asphyxiated in Colorado Tunnel.

Leadville, Colo.—W. G. Fleming, aged 25, a bridge carpenter of the Colorado Midland railroad, and Nicholas Diemoz, nightwatchman and track walker, were asphyxiated Sunday morning in the Busk-Ivanhoe tunnel, fourteen miles west of Leadville. Fleming was one of a gang of six carpenters engaged in making repairs in the tunnel, and the entire party with the exception of one was overcome by gas and smoke from trains which passed through the tunnel while they were at work.

Bravely Saved Boy's Life.

Trenton.—By diving from the second story of the Trenton Fire Clay and Porcelain works into the Delaware and Raritan canal, James A. Newell saved the life of his little nephew. The boy was taking Mr. Newell's dinner to the works, and to make a short cut, walked across a trestle bridge over the canal. When in the middle he lost his balance and fell into the water. Newell was in the second story of the works and saw the boy approaching.

Body Found in Trunk.

Stockton, Cal.—The baggageman at the Southern Pacific depot here discovered the remains of a man about 38 years of age jammed into a large trunk. Officers who have been working on the case assert that the man was placed in the trunk while yet alive. The man was well dressed. Clothing found in the trunk indicates he was either an engineer or a miner. A small book in which an account by J. C. Leslie with M. Farris, from March 1 to 19, was found in a pocket.

GREAT SCOTT.

The Biggest Man of Addison County, Vt., Tells an Interesting Story.

E. C. Scott, meat dealer, Vergennes, Vt., Past Commander of Ethan Allen Post G. A. R., says: "A severe attack of typhoid left me with weak kidneys. Every night I had to get up frequently to pass the urine, which was ropy, dark and very painful to void. I had no appetite, but drank water continually without being able to quench my thirst. Terrible headaches and dizzy spells oppressed me and my back was lame, sore and stiff. A month's treatment with Doan's Kidney Pills rid me of this trouble, and now I am strong and healthy and weigh 280 pounds. I give the credit to Doan's Kidney Pills."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A Sermon in Brief.

Someone has given the following advice on longevity which is commended: Worry less, work more; ride less, walk more; drink less, breathe more; eat less, chew more; preach less, practice more.

Salt Lake Route. Low rates for Conference. Utah's most popular road.

QUEER DOINGS OF CANTONESE.

Burning of Rice-Paper Prayers Headed Off Evil Spirits.

Just at night, if you happen to be within the gates of Canton, you will witness one of the little performances that is supposed to deceive the prowling spirits of the night bent upon evil intent, the while conciliating them should they penetrate the deception, says the Chau-tau-kan. Each little and big shop possesses a miniature fireplace built into the side of the entrance. Prayers, printed on rice paper, form the fuel with which to offer up incense to the "bogymen," who is supposed to make the nocturnal visits.

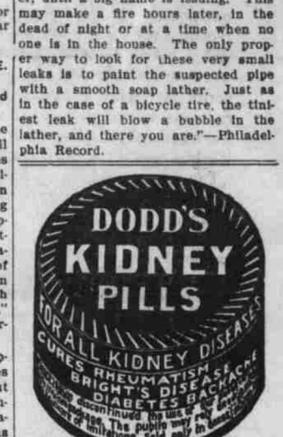

Beholding the smoke, he is supposed to assume that no one lives within and therefore passes by, but should he "catch on" and stop to investigate he finds that the prayer papers on the altar bear inscriptions attributing to him such virtues and magnanimity that his wrath is appeased and he turns from his evil intent.

TO DETECT LEAK IN GAS PIPE.

Lather of Soap Much Better Than Using a Match.

The folly of hunting for a leak in a gas pipe with a lighted match is not so much because of the danger of an explosion as of other damage, as is shown by the experience of a West Philadelphia householder last week. One or two small leaks were detected by going over all the pipes and holding a lighted match to them. The smell of gas ceased, but was replaced a few hours later by the smell of burning wood. Another visit to the cellar showed a charred floor joist a little distance above a gas pipe. There was no apparent cause for this until a very close examination discovered that a tiny jet of gas was issuing from the pipe beneath the beam. It was lighted, but was so small as to be blue in color and nearly invisible. It had been lighted by the match used in the first investigation, but had not been noticed.

"If that leak had happened to be in a lead joint instead of an iron connection," said a gas man, "there would probably have been work for the fire department. The smallest possible jet of lighted gas issuing through lead will in time heat and melt the lead and make the leak larger, until a big flame is issuing. This may make a fire hours later, in the dead of night or at a time when no one is in the house. The only proper way to look for these very small leaks is to paint the suspected pipe with a smooth soap lather. Just as in the case of a bicycle tire, the tiniest leak will blow a bubble in the lather, and there you are."—Philadelphia Record.
