Three Months, by Mail - .75

Entered at the Postoffice at Pioche, Nevada, as second-class matter.

Delivered by Carrier at fifty cents per Month.

Mail! Mail! Plenty the past two days.

Henry Lee, County Recorder returned from Salt Lake City Friday.

Miss Jennie Rice of Spring Valley was in attendance at the dance last Friday.

The dance Friday evening, owing to the bad weather, was somewhat of a failure, financially, but the social part was of the best.

John Shier, Caliente's and Delamar's most popular druggist—especially with the ladies—was a visitor in town yesterday.

The artesian well drilling machine at the smelter below town is steadily hammering away and the three inch pipe has been driven down about 75 feet.

Mr. Ed. Cutts is in from Jack-rabbit. He has been suffering with rheumatism the past six weeks, but has somewhat improved.

Several of our young folks attended the dance at Caliente last Monday given by the Brotherhood of Locomotive Fireman of Caliente. Warren's hall was filled to its utmost and the visitors were sure treated right by the Firemen.

A freighter in crossing the stream at Rose Valley lost one of his horses; the current taking the leaders off their feet, and before the traces could be cut, one of them went down. The stream ordinarily carries only about 1000 inches of water, but the late storm raised it to a small river.

Mr. J. A. Denton came up from Caliente Monday and returned Tuesday. He reports the the Railroad people doing every-thing to get the line through, working day and night with every available man, and says that by the 1st or sooner service will be resumed.

Mr. Ernest Godbe and Mr. R. Browne, the latter and Engineer and Surveyor came in by private conveyance from Modena Monday. Mr. Browne is here for the purpose of surveying the Susan Duster and Alberta claims for patent. Mr. Godbe is here on mining business.

Everybody is looking forward to the grand ball that is to be given on the 26th of this month by the Odd Fellows. A crowd from every nearby town are planning to be in attendance. Supper will be served at Mrs. Towner's, who has agreed to have one of the finest supper that can be served.

Word was brought from Deer-lodge, during the week, that F. E. Brown, the man has been peddling produce here from Fort Hamilton, Utah—committed suicide at that place last Sunday. Crazeiness caused by strong drink is responsible for this harsh act. His remains were taken back to Utah to be buried.

If the weather will only continue as it has been for the past two days, there will be some show of the roads drying up, and the possibility of freight teams getting through from Modena. There is about 200 tons of freight awaiting shipment, and we understand that Christain and Lloyd can keep all the teams busy with back hauling of ore from Bristol, being now in a position to ship within the next two months about 500 tons, if the teams can be procured. They will ship both to Caliente and Modena, suiting the convenience of the teamsters.

MAIL BLOCKADE FROM THE NORTH RAILED.

Wednesday's stage came in loaded to the guards with all kinds of mail, and nearly everyone in town received many letters, not to say anything of papers. The Recorders office received 80 letters, and the rest of the offices were well favored by Uncle Sam. The first train from the North since March 25th, just 17 days got through to Caliente on Tuesday and swamped the Caliente post-office, that being the distributing office, with mails of many days. We have received no mail from the south since the 25th except a few straggling letters that came by way of San Francisco, and there must be a box car of mail matter piled up some place. Advices from parties who have been over the line from Moapa to Caliente lately says that there will be no trains running until the first of May. It is hardly conceivable how a washout could do so much damage at one time to the railroad, and there is no doubt, but what extra measures will be taken in the rebuilding of the road to make it so, that future rains and cloudbursts will not be able to put the road out of commission as this one did.

NEW REGISTRATION LAW.

The law relating to the registration of voters for any general or special election was amended by the last Nevada legislature. Instead of opening July 1st, the registration books hereafter will be open on the 1st of June and they will close September 9th instead of on October 21st. The Board of County Commissioners at their next meeting will have to appoint the several Registry Agents for all the precincts.

SEEDS.

The RECORD is in receipts of a goodly supply of government garden seeds from Hon. C. D. Van Duzer, which will be distributed to the farmers about the County either by them calling at or send a postal card to this office.

WILL RUN THEM DOWN

A special dispatch from Carson City to the Reno Journal says:

Congressman Van Duzer returned to Carson City this morning. He is arranging to bring a number of suits against those who have been making charges against him during his absence in the east and since his return to Nevada. On this subject he said in an interview with a Journal representative:

"I am arranging details of my various suits to be brought for the purpose of vindication. I have retained the following attorneys: Curtis & White of New York City, Leckie, Fulton & Cox of Washington, D. C., James P. Gorman of Hazelton, Pa. I am concluding arrangements to secure the services of one of the ablest lawyers in California and will be assisted by three prominent attorneys in Nevada.

"I have been gathering evidence and data in the east and am now getting the necessary data in Nevada and when I strike I state with full knowledge of the situation that I will send one prominent man to the penitentiary for a long term and his arrest and conviction will be a complete vindication of me. Besides this, I shall bring one suit in the west for \$50,000 damages, and a number of suits in the east, and after I have succeeded in the conviction of the man I am after I intend to follow up his fellow-conspirators and land them in the penitentiary.

"I am the victim of one of the dirtiest and most villainous conspiracies ever hatched up against a man in the west. When the details of the story are made public it will involve perjury, grand larceny, embezzlement, false swearing, subornation of perjury and a plot the exposure of which will cause a sensation in this state.

"I have conducted my mining operations in a conservative, careful manner. Every man in public life in Nevada is more or less engaged in mining. This industry is the life of our commercial activity."

SHERIFF LOGAN OF NYE COUNTY SHOT.

Topopah Nev., April 8.—Thomas W. Logan, Sheriff of Nye county, died at Manhattan Saturday from four bullet wounds, inflicted by Walter Berieau, a faro dealer in the Monarch saloon at that place. The trouble occurred late Friday night in a disreputable house owned by a woman named Biggs. Berieau was drunk on a couch. The woman ordered him out. They quarreled and Berieau struck the woman in the face. She called to Logan for help.

Logan grappled with the man, striking him in the face and threw him into the street. Berieau stepped to a side window shot at Logan but missed. Logan ran into the streets unarmed. Berieau opened fire and shot Logan four times, once in the chin, twice in the shoulder and once in the abdomen.

The last shot was fatal. Logan, with the blood pouring from his wounds, grappled Berieau, taking his gun away from him aided by bystanders, and beat Berieau over the head until he became insensible. An officer arrived, separated the men and arrested Berieau. Logan was helped into the house, where he suffered for a few hours and died in great agony.

The murderer is heavily guarded because of wild threats of lynching. He will be brought here by automobile under guard. The news was received here by telephone message to a brother of Logan, a deputy sheriff, who, with a party, started immediately for Manhattan and intimated that he would shoot the murderer on sight. Excitement is intense here and in Manhattan. There is talk of lynching when the murderer arrives here. A strong guard will be provided. Sentiment is divided as to justifiable cause of the shooting. Claims are made that Logan was unduly officious. Logan leaves a widow and eight children in Smoky valley near Manhattan. Three children are in school at Oakland, Cal. He was a member of the Eagles and Odd Fellows and was popular all over the county and State.

Berieau is a creole absinthe fiend and a bad man. He shot Warden Considine of the Carson City prison some time ago. He has a wife in another city. The better element here and in Manhattan demands expulsion of the gambler. Sheriff Logan was famed for disarming Wyatt Earp, an all-round bad man, some time ago. Logan's brother, George, may succeed him as Sheriff. Some time ago Berieau was handcuffed to a tree for drunkenness as there is no jail in Manhattan. Berieau blamed Logan for his arrest and detention, and bore a grudge against him. The deputy sheriff of Manhattan warned Logan a few days ago of the threats against his life but Logan laughed and paid no attention. Logan drove to Manhattan a few days ago, when his team ran away. He stopped them, but lacerated his hands badly, which necessitated bandages, which he wore at the time of the shooting. He could not have used his gun at the time.

Sentiment is strong against the woman keeper of the house of ill-fame and a great reform wave is expected all over these districts in consequence of the shooting and murder. A message was sent from San Francisco upon news of the murder, deploring the killing of Logan and stating that such acts are all too common and demanding swift punishment of the murderer, and states that the killing has cast a gloom over the people of Nevada and California. It is signed by leading mining men of California and Nevada.

District Attorney Pittman left at once for the scene of the shooting and assured prompt action and prosecution. He will not rest until the murderer is hung for his crime. Leading business men held an informal meeting tonight and decided to employ additional help in the prosecution. A citizen's committee has been formed to assist in ridding Manhattan district

and other camps of lawlessness. Mr. Logan was an old resident of this County being raised on the Muddy, his father owning one of the largest ranches there, and was a brother to Mrs Phil Smith of Dutch Flat. He was very popular and the taking of his life in the manner it was is very sad. The RECORD extends its sympathy to the bereaved family.

STATE NEWS.

Items Gathered From Our Exchanges.

According to directory figures Reno has a population of 11,000 and Sparks 2,400.

Action has been brought to oust the Topopah railroad from ground it now occupies as a depot at Goldfield.

The name of the postoffice in Masonic district, Mono county, Cal., has been changed from Lorena to Masonic.

Ranchers of Humboldt county fear serious results will follow if warm weather sets in, as the snow is very deep along the Humboldt River.

A petition is being signed to have a daily mail service established between Austin and Manhattan instead of tri-weekly as at present.

By a recent act of Congress Nevada will receive \$30,000 a year for its experimental stations. Heretofore the appropriation was \$15,000.

One hundred men and twelve women teachers have been appointed to the Philippines.

A New York syndicate has wired Goldfield that \$1,000,000 has been subscribed for building a railroad from that place to Bullfrog.

Sheepmen of Humboldt and Elko counties have lost heavily by the late cold snap coming on during the shearing season.

Contracts have been let for the erection of a \$200,000 hotel in Topopah.

Clarence Mackay, son of the late Bonanza King, has contributed \$5,000 toward the Catholic cathedral to be built at Reno.

The plant erected on the Capital ground at Carson to bore for artesian water, is to be taken down. The attempt to get water was a failure.

The trials of Moyer, Haywood and Orchard, charged with the murder of former Governor Steunenberg will take place May 15, at Boise, Idaho, and promises to be sensational.

One of the most remarkable discoveries yet made in the State, prison grounds at Carson was made Wednesday afternoon, when a large piece of ivory, weighing thirty pounds, and believed to have been the tooth of a sea monster, was found. The relic is partly decomposed.

ANOTHER STRIKE.

For some months past in a quiet way the Gordon Mining Company have been developing their property six miles west of town. The work has been in charge of Mr. John Fowler and three men have worked most of the winter there. A few days ago in exploring an old cave on the property preparatory to sinking on a fissure which crosses it a streak of heavy lead ore was uncovered. Sinking was begun at once and the showing increased as depth is attained: Three assays obtained yesterday from the ground shows respectively 55 per cent lead, 36 oz silver; 43 per cent lead, 59 oz silver; 62 per cent lead 30 oz silver.

One of the claims owned by this company was an early day producer and considerable low grade ore is exposed there now, but this new strike is in entirely virgin ground and is considered very important as large deposits of ore nearly always accompany caves in this district. Development will be pushed right ahead and it is expected that the Gordon Company will be shipping soon.

Old Nevada To The Fore.

Judge Goodwin in the Salt Lake Telegram has the following to say about Nevada. "There are lively mining camps in a good many States, but nothing ever seen in mining will compare with what will be going on in Nevada by the Fourth of next July. There will be a continuous roar for hundreds of miles—from Walker's Lake via Topopah to the Colorado river; from a few miles south of Toano to Pioche, and with a little encouragement a dozen districts in eastern Nevada and western Utah will be adding their quota.

It is said, too, that old Tuscarora has been sold and will soon be in "active eruption" and with it the old Cope, Bull Run and Mountain City districts are beginning to throb with new life. Of course there will be a great many disappointments.

A good many hearts will be broken, a good many graves will be made in the desert, but these things always attend upon mining in an unsettled country. On the other hand, there will be many princely fortunes made and the wealth of the world will be much increased.

For a little while this is going to hurt some kinds of business in Salt Lake, for a glance at the day's proceedings on the stock board of this city will convince any one that a good many men who are not as a rule stock sharps are speculating in stocks now. But that fact will soon bring more men and more money here, and many who make money in Nevada will come here.

It is certain that Nevada has the call on all the other mining regions on earth just now.

1819 1906 GRAND BALL

IN HONOR OF THE 87 ANNIVERSARY

OF THE I. O. O. F.

Given Under The Auspices Of Pioche Lodge No. 23

At Thompson's Hall

ON Thursday Ev., April 26, 1906.
