

NORTHWEST NOTES

J. M. Murphy, a brakeman, was killed in a collision of a freight train with a work train at Hanna, Wyo.

The reported strike of gold in Churchill county almost depopulated Carson, Nevada, while Virginia City and other towns sent large crowds of prospectors to the new fields.

George W. Fogz, a prominent attorney of Tacoma for twelve years, formerly of Quincy, Ill., is dead, aged 63 years.

D. C. Richardson has been placed under arrest at Glendive, Mont., upon suspicion of being J. L. Richardson of Grand Rapids, Mich., who absconded with the funds of the Brotherhood of Locomotive Firemen of Grand Rapids.

To take effect May 1, the American Smelting and Refining company will extend the eight-hour day to all employees in its five Colorado plants who come in contact with furnace operations.

Walter Berteau, who killed Sheriff Thomas Logan at Manhattan, Nevada, has been lodged in jail at Tonopah. The coroner's jury at Manhattan found that Logan came by his death by pistol shots fired by Berteau with criminal intent.

Peter Johnson and Harry Hardwick were killed by the falling of a stone arch bridge in course of construction at Manitou, Colo. The accident resulted from the placing of weight upon cement abutments before the cement had sufficiently hardened.

The national board of administration of the Daughters of the American Revolution have decided that Mrs. Wallace McCracken was legally elected state regent of Montana and Mrs. Willard Harvey Weed was legally elected a state vice-regent from that state.

A special from Ilwaco, Wash., says that Colonel De Long and John Gray were drowned in the surf at Long Beach. The men in company with seven others went out in a boat through the surf to draw a seine while returning to shore the boat capsized.

The supreme court of Montana, in a decision written by Chief Justice Brantly, set aside the order of Judge Donlin of Butte, adjudging Peter Breen, former county attorney of Silver Bow county, in contempt of court and fining him \$500 for questioning the manner in which the trial jury was drawn.

The Oriental Limited, on the Great Northern, traveling at a speed of fifty miles an hour, was wrecked between Adrain and Ephrata, Wash. Five cars went off the track, including the mail car. Mail Clerks Joseph Thompson and D. E. White, both of Seattle, were injured about the head and shoulders.

The Commercial club of Portland, whose headquarters in the Chamber of Commerce building were devastated by fire recently, has decided to erect a building of its own in the heart of the business section, at a cost of \$250,000. The proposed building will be of six stories, three of which will be occupied by the club.

Virgil Wilson of Malheur, Ore., lost his life in the Snake river near Ontario while attempting to save the life of his dog. Wilson and the dog were crossing a bridge when a train came along. Whether he lost his footing and fell into the river or was struck by the train is not known, as his body has not been recovered.

Judge Henry Smith of Helena sentenced Camille Reith, the French Canadian convicted of manslaughter in killing Wasson Oliver last September, as the way were traveling overland a few miles north of Helena, to ten years in the state prison, the maximum punishment.

Substantial improvements on the main line of the Southern Pacific in Oregon, consisting of new and heavier rails, new steel bridges and new and heavy engines, will result in the time between Portland and San Francisco being materially reduced during the coming fall.

A man about 25 years old, smooth face and dark hair, but with other marks for identification, was struck by a Northern Pacific engine in the yards at Bozeman, Mont. On his person were found twenty-five pounds of dynamite, fuse, caps, etc., two revolvers and a flask mask.

At the instance of the department of the interior, the war department has taken steps to send whatever military force may be necessary to protect the Indian agent, Major C. C. Edwards, on the Umatilla agency, in Oregon, from the Indians, who have threatened to do him bodily harm.

Before Judge W. H. Hunt, in the federal district court, at Portland, a bill of exceptions was filed in the case of Congressman J. N. Williamson of Oregon, who was convicted several months ago of subordination of perjury in connection with the frauds of government lands in Oregon.

One hundred Koreans arrived in Missoula last week to work on the Northern Pacific railroad. Owing to the extensive railroad building in the west, the railway companies have been experiencing a labor famine. The employment of Koreans will be undertaken as an experiment here.

The Bankers and Lumbermen's bank, with a capitalization of \$250,000, has been organized in Portland, with D. A. Pelton, a wealthy lumberman, and F. H. Rothchild, a wholesale liquor dealer of Portland, at the head. The directorate is composed of bankers and lumbermen of western Oregon.

COUNT WITTE DOWNS DURNOVO

Additional Cause for Rejoicing in Russia During the Easter Festival.

Retirement of Minister of Interior Durnovo From Office is Announced, and Count Witte Seems to Have at Last Secured Upper Hand of His Rival.

St. Petersburg.—The Easter festival, the anniversary of the Jewish massacre at Kishinev and other places, happily was not stained this year by anti-Jewish excesses. The measures taken by the central government and the orders sent to the provincial authorities to take every precaution, with the added warning that they would be held personally responsible for outbreaks, apparently were effective, though the danger will not be over until the Easter holidays are passed.

The high church feast was celebrated in the usual fashion—with much eating and drinking and the exchange of the kiss of peace. Some slackening in the old religious fervor was noticeable, especially in St. Petersburg. This is attributed to the revolutionary propaganda, which, in striking at the roots of the state, touched also blind devotion to the church. The streets of the capital have been alive with the cabs of government officials and clerks making their congratulatory calls on their superiors.

The Minister of the Interior Durnovo, however, published a notice to his subordinates, stating that it was not necessary for them to call on him, and in the midst of general surprise his retirement from office was announced, but this declaration of congratulations is regarded as another intimation that his relinquishment of office is a matter of a few days. Count Witte for the moment seems to have downed his rival, the elections having strengthened his position greatly and enabled him to lay the blame for repression on M. Durnovo.

MIRACULOUS ESCAPE.

Two Aged Women Buried Beneath Ashes, But Escaped Alive.

Naples.—The gravity of the situation has now shifted to Ottajano and San Giuseppe, where the recovery of the dead from the debris goes on amid the misery of thousands of homeless refugees. A sensational development occurred during the work of salvage at Ottajano Sunday when the searchers unearthed two aged women, still alive, but speechless, after six days' entombment. They were among the hundreds who were crushed beneath the falling walls during the rain of stones and ashes the previous Sunday and Monday. Hope has been abandoned of finding any of these persons alive. The women were protected by the rafters of the house and had managed to exist on a few morsels of food which they had in their pockets.

LOST BOY FOUND IN SNOW.

Four-Year-Old Lad Wandered Alone in Mountains for Twenty Hours.

Salt Lake City.—Snagged in a brush patch, smothered in snow, Patsy Sullivan, the four-year-old son of John Sullivan of this city, was found about noon Sunday by a rescuing party near the summit of Hog Back mountain, about three and a half miles east of Bountiful. For twenty hours the lad had been lost. Wandering back and forth across ravines, retracing his tracks, climbing ledges of rocks and wading through snow drifts, Patsy at last broke through the crusted snow, where he got tangled in an oak brush patch. There he lay, unable to move, when the rescuing party came upon him.

EARTHQUAKE AND LANDSLIDES.

Whole Face of the Country Has Been Changed.

Tokio.—One hundred and nine persons are known to have been killed and twenty-nine injured in the earthquake in the southern part of the island of Formosa last Saturday, but further details, it is expected, will swell the death roll, as the shock was more severe than that of March 17.

The town of Kago again was the principal sufferer, the houses which escaped destruction in the former disturbance being now in ruins. Doko and several other towns and villages also were affected by landslides, which have completely changed the topography of the country. The officials are working feverishly to relieve the thousands of persons left homeless by the earthquake.

Mining Man Foully Murdered by Yaqui Indians.

El Paso, Tex.—A telegram from Hermosillo, state of Sonora, Mexico, to the family of Samuel Williams of this city says that Yaqui Indians killed William on Saturday. According to advices, his party was ambushed and the fate of the other members is unknown. Williams was assayer for the Groux Consolidated Mining company at Cerro, Sonora, the superintendent of which company recently was also killed by Yaquis.

Slew Their Prisoners.

Tiflis.—In an encounter in the outskirts of Tiflis between a band of Tartar brigands who have been committing depredations almost within the city and a squadron of dragoons the troops killed two and mortally wounded four of the Tartars, the others escaping. A squadron of Cossacks which surprised another band in the village of Javanshik, captured four of the leaders. Four Cossacks were killed in this encounter and after the bandits had been lodged in prison they were killed by the Cossacks.

A PRECARIOUS CONDITION.

Many Women Suffer Daily Miseries and Don't Know the Reason.

Women who are languid, suffer backache and dizzy spells, should read carefully the experience of Mrs. Laura Sullivan, Bluff and Third Sts., Marquette, Mich., who says: "I had backache and bearing-down pain, and at times my limbs would swell to twice natural size. I could hardly get up or down stairs, and often could not get my shoes on. Beginning to use Doan's Kidney Pills I got relief before I had used half a box, but continued taking them until cured. The blotting subsided and I was well again."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Bulwer's Philosophy.

In all weakness there is a defect of intellect as well as of heart. And even the cleverness of avarice is but the cunning of imbecility.

SKIN ERUPTIONS 35 YEARS.

Suffered Severely With Eczema All Over Body—A Thousand Thanks to Cuticura Remedies. "For over thirty-five years I was a severe sufferer from eczema. The eruption was not confined to any one place. It was all over my body, limbs, and even on my head. I am sixty years old and an old soldier, and have been examined by the Government Board over fifteen times, and they said there was no cure for me. I have taken all kinds of medicine and have spent large sums of money for doctors, without avail. A short time ago I decided to try the Cuticura Remedies, and after using two cakes of Cuticura Soap, two boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent, two treatments in all, I am now well and completely cured. A thousand thanks to Cuticura. I cannot speak too highly of the Cuticura Remedies. John T. Roach, Richmondale, Ross Co., Ohio, July 17, 1905."

French Builders Use Little Wood.

Wood in building is used much more sparingly in France than in America; hence danger from fire is less.

DON'T FORGET

A Large 5-oz. package Red Cross Ball Blue, only 5 cents. The Russ Company, South Bend, Ind.

The Finger Language.

A deaf and dumb person who is fairly expert at finger language can speak about forty-three words a minute.

To Launder White Silk Handkerchiefs.

Do not put white silk handkerchiefs in the ordinary wash as they are easily laundered at home. Make a strong lather of Ivory Soap and water, but do not rub the soap on the handkerchief or use soda. Rinse and iron while damp with a moderately hot iron.

Rats Like Sunflower Seeds.

Rats rarely can resist sunflower seeds. A trap baited with these seeds is most effective in catching them.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

Paupers Oultive Millionaires.

Many paupers have lived to be 100 years old, but there is not a single record of a millionaire attaining that age.

In a Pinch, Use ALLEN'S FOOT-EASE.

A powder, it cures painful, smarting, nervous feet and ingrowing nails. It's the greatest comfort discovery of the age. Makes new shoes easy. A certain cure for aching feet. Sold by all druggists, 25c. Trial package, FREE. Address A. S. Olmsted, Le Roy, N. Y.

FRIGHTENS HIS BROTHER RATS.

Rodents Will Not Associate With Belled Companion. One of the old school-book stories of another generation told about the ruse of a porter, who caught a rat and fastened a bell to its neck. When it was turned loose again and ran through the building all other rats left in fright at the strange member of their species that was trying to associate with them.

London's Women Workers.

Nearly one-half of the women engaged in occupations in London are domestic servants, of whom there is one to every twenty persons in the population.

BUILD BONFIRES BENEATH BODIES OF THEIR VICTIMS

Missouri Mob Hangs Negroes and Then Starts a Fire Under the Men as They Hang.

Springfield, Mo.—A mob took two negroes from the county jail Saturday night and hanged them to the electric tower in the center of the public square and built a fire under the men as they hung.

The negroes were Horace Duncan and James Copeland, both under 21 years of age. They were in jail, charged with assaulting Mabel Edmondson, a white girl.

Fully 5,000 people went to the county jail about 9 o'clock and with telephone poles and sledge hammers literally tore the jail to pieces. Finally the two negro suspects were dragged from the jail and taken to the center of the public square and hanged.

After the men were strung up, a bonfire was built beneath their bodies. Later the mob returned to the jail and took Will Allen, a negro, charged with the murder of a man named Rourke last January, and hanged him in the public square.

PANIC IN CHURCH.

Cry of Fire Causes Grim Tragedy in Chicago Place of Worship.

Chicago.—During a panic which followed a cry of fire while 400 persons were participating in the Easter service in the St. Ludlmas Roman Catholic church, Twenty-fourth and Albany avenues, three children and one woman were killed and a score of others injured, several seriously.

The majority of the worshippers in the church at the time the false alarm of fire was given were women and children, and in a few minutes all were in a tangled mass, fighting to escape from the supposed danger. Many persons jumped through the windows, but the greater portion crowded to the center aisle.

A boy's prank was responsible for the accident. Willie Rev. M. Parrish, pastor of the church, was offering the evening prayer, one of a crowd of boys who had been loitering outside the church suddenly pushed open the front door and shouted, "Fire!" Seeing the serious effect his words had on the congregation, the boy ran away, and the police have been unable to find him or learn his identity.

SIX KILLED ON BATTLESHIP.

Explosion on the Kearsarge Brings Death to Men.

Washington.—News has been received from Guantanamo, Cuba, of an explosion on board the battleship Kearsarge, as the result of which six men were killed and several wounded. It seems that shortly after target practice a powder explosion occurred, from some unknown cause. The dead are: Lieutenant Huggins, turret officer; Peter Norberg, gunner's mate; Theodore Naagel, seaman; Anton O. Thorson, seaman; Julius E. Foster, turret captain, first class; Ellis H. Athey, seaman. W. King, ordinary seaman, is dangerously injured.

SUNFLOWER IN HER EAR.

Delaware, O.—An embryonic sunflower growing in the ear of little Grace Barrett, daughter of a local preacher, was removed Saturday and the child's hearing, which has been steadily growing more defective, was completely restored. The child, it is supposed, stuffed the seed in her ear while at play last fall. Examination showed that a perfectly formed and healthy sprout had developed.

LABOR UNION BANK.

Chicago Will Have Institution With \$500,000 Capital.

Chicago.—It was announced Saturday that the Commonwealth Trust and Savings bank, an institution promoted by organized labor, will open its doors for business May 19. The capital of the bank is \$500,000 and all of the directors except one are members of labor organizations. None of the bank's officials will be taken from the ranks of organized labor, but all will be practical banking men.

Kansas Politician Following in Footsteps of Carrie Nation.

Concordia, Kan.—W. W. Caldwell, chairman of the Republican county central committee of Cloud county, broke in the door of a joint in the basement of the Colson hotel Saturday evening, driving out the people in the joint and smashing to pieces the bar, beer pumps and bottled goods. He left the saloon a complete wreck. No arrests have been made. Caldwell is the owner of the hotel building in which the joint was located.

Merely a Figurehead.

Washington.—Secretary Taft has issued an order, the effect of which is materially to limit the executive authority of the chief of staff, making him mainly an advisory officer. The order thus throws an added burden of responsibility on Assistant Secretary Oliver. In future the chief of staff is empowered only to issue orders in his own name to the general staff corps; otherwise he will issue them "by order of the secretary of war," through the military secretary.

Great Loss of Life in Formosa.

Tokio.—A violent earthquake occurred Saturday in the southern part of the island of Formosa. The casualties and damage done are reported to have been heavier than those of the earthquake in Formosa last month 1,014 persons were killed, 395 injured, and 1,200 houses were demolished. The prosperous towns of Daityo, Raishiko and Shinko were completely destroyed. The damage done was roughly estimated at \$45,000,000.

More Information Required.

An addition has been made to the list of fresh vegetation, a scientist declaring that he recently discovered in the wilds of Australia a genuine singing tree. We have heard of the upas tree, with its deadly odor; the man-eating tree, whose limbs stretched forth to grasp and draw into a fatal embrace the unwary victim, and the balloon tree, which when loosened from the restraint of all attenuated roots arose in air and soared away above the trackless wilds. But the singing tree is something new. Unfortunately, the scientist fails to give us the range of its voice or the style of music it prefers.—Cleveland Plain Dealer.

Sleep With Your Windows Open.

Every window in the bedroom, says Mr. Somerset Hastings, should be opened top and bottom to its fullest extent just before retiring, no matter what was the state of the weather, so that a refreshing current might play over the sleeper's couch. If this plan were generally adopted, coughs, colds, sore throats, and consumption would be more rare than at present, and a harder condition would be the direct consequence.

Clothes and Conduct.

Every man and every woman feels the influence of clothes and appearance upon conduct. You have heard of the lonely man in the Australian bush who always put on evening dress for dinner, so that he might remember he was a gentleman. Addison could not write his best unless he was well dressed. Put a naughty girl into her best Sunday clothes and she will behave quite nicely. Put a blackguard into khaki and he will be a hero. Put an omnibus conductor into uniform and he will live up to his clothes. Indeed, in a millennium of free clothes of the latest fashion we shall all be archangels.—London Chronicle.

Origin of "Slave."

The word "slave," which is happily used seldom unless metaphorically in this country, is a word of brilliant historical antecedents. Its original, the Russian "slava," means glorious, and is the title of that race which subsumes the Russian people. But when the Germans reduced hosts of the Slavs to servitude, their name, from malice or accident, as Gibbon says, became synonymous with "servile."

WOMAN AT HER BEST AT FORTY.

Many Reasons Why That is Selected as Golden Age.

At what age is woman at her best? If I may be allowed to offer a humble opinion, which has the advantage of being shared by so many thousands others, that it is thereby rendered more trustworthy, I should be inclined to select the despised age of forty, and say that it is the time which is most freely endowed with all the good qualities, graces and charms of womanhood. A woman has then grown out of the narrow-mindedness and one-sidedness of youth; she has left behind her the fickleness, love of excitement and generally unstable character; her mind is broadened by experience; her opinions are worth something; she has, in all probability, become far less egotistical. I know of no qualities which she need have lost except that peculiar freshness and unbounded hopefulness which is all youth's own; but she may have easily retained a young vivacity and an optimism which if it has parted with something of its attraction in audacity, has gained much by being a little more practical.—"Lady Phyllis" in The Bystander.

Rise Liars, And Salute Your Queen Ho All Ye Faithful Followers of Ananias GIVE EAR!

A Young Girl said to a Cooking School Teacher in New York: "If You make One Statement as False as That, All You have said about Foods is Absolutely Unreliable."

This burst of true American girl indignation was caused by the teacher saying that Grape-Nuts, the popular pre-digested food, was made of stale bread shipped in and sweetened. The teacher colored up and changed the subject. There is quite an assortment of traveling and stay-at-home members of the tribe of Ananias who tell their falsehoods for a variety of reasons. In the spring it is the custom on a cattleranch to have a "round up," and brand the cattle, so we are going to have a "round up," and brand these cattle and place them in their proper pastures.

THIRD PASTURE.

Now we come to a frisky lot, the "Labor Union" editors. You know down in Texas a weed called "Loco" is sometimes eaten by a steer and produces a derangement of the brain that makes the steer "batty" or crazy. Many of these editors are "Locoed" from hate of anyone who will not instantly obey the "demands" of a labor union, and it is the universal habit of such writers to go straight into a system of personal vilification, manufacturing any sort of falsehood through which to vent their spleen. We assert that the common citizen has a right to live and breathe air without asking permission of the labor trust and this has brought down on us the hate of these editors. When they go far enough with their libels, it is harsh for us to get judgment against them and have our lawyers watch for a chance to attach money due them from others? (For they are usually irresponsible.)

Keep your eye out for the "Locoed" editor.

FIRST PASTURE.

Cooking school teachers—this includes "teachers" who have applied to us for a weekly pay if they would say "something nice" about Grape-Nuts and Postum, and when we have declined to hire them to do this they get waspy and show their true colors. This also includes "demonstrators" and "lecturers" sent out by a certain Sanitarium to sell foods made there, and these people instructed by the small-be-whiskered doctor—the head of the institution—to tell these prevarications (you can speak the stronger word if you like). This same little doctor conducts a small magazine in which there is a department of "answers to correspondents," many of the questions as well as the answers being written by the aforesaid doctor.

In this column some time ago appeared the statement: "No, we cannot recommend the use of Grape-Nuts for it is nothing but bread with glucose poured over it." Right then he showed his badge as a member of the tribe of Ananias. He may have been a member for some time before, and so he has caused these "lecturers" to descend into the ways of the tribe wherever they go.

When the young lady in New York put the "iron on" to this "teacher" and branded her right we sent \$10.00 to the girl for her pluck and bravery.

We will deposit one thousand or fifty thousand dollars to be covered by a like amount from them, or any one of them, and if there was ever one ounce of old bread or any other ingredient different than our selected wheat and barley with a little salt and yeast used in the making of Grape-Nuts, we will lose the money. Our pure food factories are open at all times to visitors, and thousands pass through each month, inspecting every department and every process. Our factories are so clean that one could, with good reason, eat a meal from the floors. The work people, both men and women, are of the highest grade in the state of Michigan, and according to the state labor reports, are the highest paid in the state for similar work. Let us tell you exactly what you will see when you inspect the manufacture of Grape-Nuts. You will find tremendous elevators containing the choicest wheat and barley possible to buy. These grains are carried through long conveyers to grinding mills, and there converted into flour. Then the machines make selection of the proper quantities of this flour in the proper proportion and these parts are blended into a general flour which passes over to the big dough mixing machines, there water, salt and a little yeast are added, and there kneaded the proper length of time. Remember that previous to the barley having been ground it was passed through about one hundred hours of soaking in water, then placed on warm floors and slightly sprouted, developing the diastase in the barley, which changes the starch in the grain into a form of sugar. Now after we have passed it into dough and it has been kneaded long enough, it is moulded by machinery into loaves about 18 inches long and 5 or 6 inches in diameter. It is put into this shape for convenience in second cooking. These great loaves are sliced by machinery and the slices placed on wire trays, these trays, in turn, placed on great steel trucks, and rolled into the second ovens, each perhaps 75 or 80 feet long. There the food is subjected to a long low heat and the starch which has not been heretofore transformed is turned into a form of sugar generally known as Post Sugar. It can be seen glistening on the granules of Grape-Nuts if held toward the light, and this sugar is not poured over or put on the food as these prevaricators ignorantly assert. On the contrary the sugar exudes from the interior of each little granule during the process of manufacture, and reminds one that the little white particles of sugar that come out on the end of a hickory log after it has been sawed off and allowed to stand for a length of time. This Post Sugar is the most digestible food known for human use. It is so perfect in its adaptability that mothers with very young infants will pour a little warm milk over two or three spoonfuls of Grape-Nuts, thus washing the sugar off from the granules and carrying it with

the milk to the bottom of the dish. Then this milk charged with Post Sugar is fed to the infants producing the most satisfactory results, for the baby has food that it can digest quickly and will go off to sleep well fed and contented. When baby gets two or three months old it is the custom of some mothers to allow the Grape-Nuts to soak in the milk a little longer and become mushy, whereupon a little of the food can be fed in addition to the milk containing the washed off sugar. It is by no means manufactured for a baby food, but these facts are stated as an illustration of a perfectly digestible food. It furnishes the energy and strength for the great athlete. It is in common use by physicians in their own families and among their patients, and can be seen on the table of every first-class college in the land. We quote from the London Lancet analysis as follows: "The basis of nomenclature of this preparation is evidently an American pleasant, since 'Grape-Nuts' is derived solely from cereals. The preparatory process undoubtedly converts the food constituents into a much more digestible condition than in the raw cereal. This is evident from the remarkable solubility of the preparation, no less than one-half of it being soluble in cold water. The soluble part contains chiefly dextrin and no starch. In appearance 'Grape-Nuts' resembles fried bread-crumbs. The grains are browned, and have a pleasant taste not unlike slightly burnt malt. According to our analysis the following is the composition of 'Grape-Nuts': Moisture, 6.92 per cent; mineral matter, 2.01 per cent; fat, 1.99 per cent; proteins, 15.90 per cent; soluble carbohydrates, etc., 43.40 per cent; and unsoluble carbohydrates (insoluble), 25.97 per cent. The features worthy of note in this analysis are the excellent proportion of protein, mineral matters, and soluble carbohydrates per cent. The mineral matter was rich in phosphoric acid. 'Grape-Nuts' is described as a cereal, and a pleasant food, whatever that may be. Our analysis, at any rate, shows that it is a nutritive of a high order, since it contains the constituents of a complete food in very satisfactory and rich proportion and in an easily assimilable state. An analysis made by the Canadian Government some time ago shows that Grape-Nuts contains nearly ten times the digestible elements contained in ordinary cereals, and foods, and nearly twice the amount contained in any other food analyzed. The analysis is familiar to practically every successful physician in America and London. We print this statement in order that the public may know the exact facts upon which we stake our honor and will back it with any amount of money that any person or corporation will put up. We propose to follow some of these choice specimens of the tribe of Ananias. When you hear a cooking school teacher or any other person assert that either Postum or Grape-Nuts are made of any other ingredients than those printed on the packages and as we say they are made, send us the name and address, also name of two or three witnesses, and if the evidence is clear enough to get a judgment we will right that wrong quickly. Our business has always been conducted on as high a grade of human intelligence as we are capable of, and we propose to clear the deck of these prevaricators and liars whenever and wherever they can be found. Attention is again called to the general and broad invitation to visitors to go through our works, where they will be shown the most minute process and device in order that they may understand how pure and clean and wholesome Grape-Nuts and Postum are. There is an old saying among business men that there is some chance to gain a fool, but there is no room for a liar, for you never can tell where you are, and we hereby serve notice on all the members of this ancient tribe of Ananias that they may follow their calling in other lines, but when they put forth their lies about Grape-Nuts and Postum, we propose to give them an opportunity to answer to the proper authorities. The New York girl wisely said that if a person would lie about one item, it brands the whole discourse as absolutely unreliable. Keep your iron ready and brand these "mavericks" whenever you find them running loose.

DODD'S KIDNEY PILLS. CURES ALL KIDNEY DISEASE. RHEUMATISM, BRUISES, BURNS, SCALDS, SORE THROAT, COLIC, DIARRHOEA, BILIOUSNESS, HEADACHE, MIGRAINE, NEURALGIA, SCIATICA, LUMBAGO, SPRAINS, STRAINS, AND ALL AFFECTIONS OF THE URINARY ORGANS.

"There's a Reason" for Grape-Nuts and Postum
