The experience of Capt. John L. Ely, of Co. E, 17th Ohio, now living at 509 East Second street, Newton, Kansas...

Rich Women Have Troubles.

The idea that fashionable women are too busy and had too many interests to feel acute sorrow over their broken crockery was disproved the other day when Mrs. Stuyvesant Fish went into the principal dry goods store in Newport with a friend who stopped to watch a man who was selling cement for cut glass and called to Mrs. Fish: "Oh, here is a cement for cut glass which not only mends it but makes it ring as clearly as if it were new."

BORES ON HANDS.

Suffered for a Long Time Without Relief—Doctor Was Afraid to Touch Them—Cured by Cuticura.

"For a long time I suffered with sores on the hands which were itching, painful and disagreeable. I had three doctors, and derived no benefit from any of them. One doctor said he was afraid to touch my hands, so you must know how bad they were; another said I never could be cured; and the third said the sores were caused by the dipping of my hands in the water in the dye-house where I work. I saw in the papers about the wonderful cures of the Cuticura Remedies and procured some of the Cuticura Soap and Cuticura Ointment. In three days after the application of the Cuticura Ointment my hands began to peel and were better. The soreness disappeared, and they are now smooth and clean, and I am still working in the dye-house. Mrs. A. E. Maurer, 2345 State St., Chicago, Ill., July 1, 1905."

Chamois Skin of Commerce.

Charles C. Druedling, of Philadelphia, has written an article for the American Journal of Pharmacy on the subject of chamois skins. What is known in the market as chamois skins, he says, is really an oil-tanned sheep or lamb skin lining. The supply of skins from the chamois animal is very limited—enough could not be obtained in a year to supply the United States for more than a single day. He made special inquiry on a recent visit to Switzerland about the annual crop of the chamois skin and ascertained that from 5,000 to 6,000 skins would be a fair average yearly crop.

A WINNING START.

A Perfectly Digested Breakfast Makes Nerve Force for the Day.

Everything goes wrong if the breakfast lies in your stomach like a mud pie. What you eat does harm if you can't digest it—it turns to poison.

"Two years ago I contracted a very annoying form of indigestion. My stomach was in such a condition that a simple breakfast of fruit, toast and egg gave me great distress.

"It was slow to believe that trouble could come from such a simple diet but finally had to give it up, and found a great change upon a cup of hot Postum and Grape-Nuts with cream for my morning meal. For more than a year I have held to this course and have not suffered except when injudiciously varying my diet.

"I have been a teacher for several years and find that my easily digested breakfast means a saving of nervous force for the entire day. My gain of ten pounds in weight also causes me to want to testify to the value of Grape-Nuts.

"Grape-Nuts holds first rank at our table."

SILVER MINES WILL START UP.

Resumption of Bullion Purchase Means Much For the West.

Denver, Colo.—"The principal effect of the resumption of silver purchases by the treasury department, under the necessity of an increased demand for subsidiary coins," said General Frank Hall, the veteran mining writer, in a signed article in the Denver Post, "will be to stimulate the production of silver-bearing ores from mines already opened. Certain mines that have been closed since 1893 will be reopened, because the market will be more stable and in the ever-present hope of an advance in price. This implies early enlargement of both milling and smelting facilities."

Foreigners Advocate Interference in China.

Hong Kong.—Great uneasiness is felt here in view of the increasing evidence indicating that it is the purpose of the new board of Chinese customs commissioners at Peking to override the powers of the foreign inspector general, Sir Robert Hart. The abolition of the new board and the re-establishment of the former powers of Sir Robert are considered by the foreign mercantile community here to be necessary in order to protect the interests of the foreign bondholders and insure the fair treatment of traders.

Washington.—Chinese labor will be given a thorough test on the Panama canal. Contracts calling for 2,500 Chinese for canal work have been prepared, and advertisements will be issued by the isthmian canal commission in a few days asking for proposals from labor agents.
