

HAY FEVER

"Having used Peruna for catarrh and hay fever, I can recommend it to all who are suffering with the above diseases. I am happy to be able to say it has helped me wonderfully."
—Mayne E. Smith.

MISS MAYNE E. SMITH,
414 E. Second Street, Columbus, Ohio.

HAY FEVER is endemic catarrh. It is caused by some irritating substance in the atmosphere during the late summer months. It is generally thought that the pollen of certain weeds and flowers is the cause of it. Change of locality seems to be the only rational cure. The use of Peruna, however, stimulates the nervous system to resist the effect of the poisonous emanations and sometimes carries the victim through the hay fever season without an attack of the disease. A large number of people rely upon Peruna for this purpose. Those who do not find it convenient to change their location to avoid Hay Fever, would do well to give Peruna a trial. It has proven of priceless value to many people.

THE CORNISH TIN DEPOSITS.

Great English Industry Still Capable of Big Production.

Though the Cornish tin deposits have been worked from the dawn of history, experts hold that vast quantities are still to be found in this metalliferous soil. In the past twenty years Cornwall has been badly hit by the development of tin mining in the Straits Settlement. The fall in the price of the metal caused the closing of many of the Cornish mines, and incidentally led to the migration of "Cousin Jacky," as the Cornish miner is known, to every quarter of the globe. It seemed indeed as if mining from which it could be no possibility recover. A few mines managed to survive, notably Dolcoath, which earned a modest profit even in the lean years when tin varied between \$60 and \$70 per ton. With the metal nearly treble that price, it is not surprising that speculators and prospectors are turning avid eyes to this westernmost county.

The enhanced price of tin is likely to be permanent, for it is due to natural, not artificial, causes. Tin is the rarest of all the metals, and the world's consumption has now outgrown the supply. The world's production has averaged, in recent years, 75,000 tons, of which more than one-half has come from the Straits Settlements. About 15,000 tons per annum come from the Dutch East Indies; 5,000 tons from Cornwall; 5,000 tons from Australia, and a similar quantity from Bolivia. Tin is scarcely found at all in Europe or in the United States.

MEXICO'S VAST SODA LAKES.

The Government Will Not Dispose of Them to Anyone.

Mexico is the possessor of such vast and valuable soda lakes that the government refuses to dispose of them to anyone or at any price. President Diaz believing that they are yet to become sources of enormous income to the country, just as the nitrate of soda beds are to Chile.

At only one other place in the world is natural soda found under conditions which admit of industrial development, and even there it must be shipped hundreds of miles by rail and many tons of water must be evaporated by coal, to obtain a ton of the product. But at the Bay of Adair, only a mile from the coast of Lower California, under the blazing sun of the desert, lie vast lakes of crystals of carbonate of soda, with the appearance of masses of snow and ice, but from which will be made millions of tons of soap and other millions of tons of glass.

The world's consumption amounts to hundreds of thousands of tons annually, and nearly all of it is manufactured from common salt with the use of expensive machinery, while at Adair bay nature does all the work in producing an article worth \$75 per ton. It is estimated that there is enough soda on a top of the ground to produce 100 tons a day for 75 years.

Subject for Another Lecture.
"Oh, dear," exclaimed Mrs. Slapdash, when they were finally seated in the carriage, "I've only got one of my earrings on. I left the other on my dressing table."
"Huh!" granted her husband, "just like my lectures on your carelessness—in one ear and out the other."

Anything but Friendly.
"You anything but your engagement with Miss Welioff is broken, is it? Are the relations between you still friendly?"
"I should say not! The relations between us are her relations, and they're my bitter enemies."—Chicago Tribune.

The natives of the Malay peninsula have in use the smallest current coin in the world. It is a sort of wafer, made from the resinous juice of a tree, and is worth about one-twenty-thousandth of a cent.

HUNDREDS PERISH UNDER LANDSLIDE

Township of Lwarell, District of Telaw, in the Caucasus, is Partially Buried.

Whole Side of Great Mountain Slips Away and Engulfs Hundreds of People Beneath an Avalanche of Mire Six Feet in Depth.

Tiflis—Practically without warning the side of a mountain rising above the township of Kwarell broke away and on a sea of semi-liquid sand, stones and mud swept down on the township and overwhelmed and obliterated it. Some 250 persons have been buried alive. Fifty-five bodies already have been recovered from the mire, which is six feet deep. In addition to the lives lost countless heads of cattle perished and the crops were destroyed.

Kwarell township occupies an area of five kilometers of the district of Telaw, in the Caucasus. Similar disasters are common occurrences in Caucasian valleys.

MURDERED BY GUARD.

Tragic Fate of Russian Girl Who is Shot Down by Brutal Soldier.

St. Petersburg.—There was a revolt in the central detention prison at St. Petersburg on Monday in consequence of the death of Mile. Semenova, a girl of 22, a young and enthusiastic Social Democrat, who was shot and killed by a sentry when she showed herself at the window of her cell overlooking the court yard. The prisoners expelled the warden, barricaded the prison and laid the corpse of Mile. Semenova on an impromptu bier in the cell, refusing to deliver to the authorities and swearing they would die rather than surrender it. Troops were summoned, but the authorities, fearing bloodshed, temporized and sent for the brother of Mile. Semenova, to whom the insurgents deliver the body.

Grand Duke Nicholas, after an investigation of the affair, personally ordered the dismissal of the officer of the guard, which was drawn from the unpopular Semenovskiy regiment. Mile. Semenova was a medical student and was seeking to divide with the prisoners some sugar which she had surreptitiously obtained when she was shot.

GREAT DISPLAY OF FRUIT.

Irrigation Congress Presented Evidence of Country's Fertility.

Boise, Ida.—The exposition of the products of irrigation made at the fourteenth National Irrigation Congress, just closed, was the finest ever made in the west. The fruit exhibit was of exceptional excellence and it would be hard to surpass it anywhere in the world.

The grand sweepstakes prize in the fruit competition was won by Utah on merit. Its display was the best, the largest and most varied, and the most tastefully and artistically displayed. In Idaho each county participating had its own display, all of them being excellent, and some of them, notably Ada and Canyon, being very large and complete. There were good displays from Washington, Cassia, Fremont, Bingham, Elsinore, Nez Perce and Custer counties, and a very creditable one from Rupert, Lincoln county, raised without water.

DARING IN ROBBERY.

Russian Revolutionists Capture Fortune By Bold Act.

Vladivostok.—By means of bold audacity a party of revolutionists on Saturday obtained possession of \$167,000, which had been sent here for the Thirtieth regiment. Three men, attired as an officer and two soldiers in uniform of that regiment, appeared at the bank where the money was on deposit and withdrew the entire amount. The men disappeared immediately and later it was learned they were imposters.

ATE POISONED DRIED BEEF.

Ten Persons at the Point of Death as a Result.

Kalamazoo, Mich.—Ten persons in three different families of this city have been lying at the point of death for over twelve hours, suffering from the effects of eating dried beef delivered to their homes Saturday by a man who cannot be located. A partial investigation has revealed that the meat came originally from one of the large packing houses.

STILL THROWING BOMBS.

The Policemen of Russia Have No Soft Snaps.

Warsaw, Russian Poland.—A bomb was thrown in the market square of Rudniewska, province of Warsaw, on Monday afternoon, killing one policeman and wounding another. Later another bomb was thrown at the entrance of the Zivadow spinning works in this city, severely wounding a policeman and a janitor. The troops thereupon fired in all directions and killed or wounded forty persons.

Indian Girl Who Burned School is Leniently Treated.

Washington.—The president has commuted the life sentence of Lizzie Carrich, an Indian girl 15 years old, to confinement in some reformatory institution until she is 21 years old. On June 6 last the girl was convicted in the eastern district of Wisconsin of arson in setting fire to and destroying the Indian school building on the Menominee reservation. It is understood she fired the building to escape going to school.

Nothing Succeeds Like "EGG-O-SEE."

The man who preaches the best sermon; the man who tells the funniest stories; the man who keeps the best store; or the man who makes the best goods, soon finds that people come to him. Merit is the best advertisement in the world. People speak well of things they know are good. They pass the good word along.

The best breakfast food is "EGG-O-SEE," for it contains all the life-giving properties of nature's best food, which is Wheat.

EGG-O-SEE is deeply in debt to the thousands of wives and mothers who use it in their homes, for these good women tell their neighbors about this great food.

Children and aged persons alike are friends of EGG-O-SEE.

Merit and common sense are things that advertise EGG-O-SEE most. EGG-O-SEE is cheap. A 10-cent package contains ten liberal breakfasts. EGG-O-SEE is sold everywhere. Grocers must keep it if they want to keep their good customers, for good customers insist on buying EGG-O-SEE.

The fact that no preparation, no cooking, is required, makes EGG-O-SEE very popular. Open the package; put in as much as you like in a dish; pour on milk or cream and eat. It is delicious. It is wholesome. It makes you strong.

A lot of interesting facts about EGG-O-SEE have been published in book form entitled, "—back to nature." This book also has a course of physical culture—fully illustrated. Anyone wishing this book will receive it free by addressing EGG-O-SEE Company, 10 First St., Quincy, Ill.

Seeking Only Bare Justice.

Creditor—So you've come around at last to pay me what you owe me, have you?

Debtor—Not at all—just the contrary. You made a statement at the club last night that I owed you 600 marks. As a matter of fact the accounts show I only owe you 560. I've come around to collect that balance of 40.

LEFT THE BABY BEHIND.

The Nurse Had the Carriage, But the "Baby" Was Missing.

Mrs. Maud Miller Hipple, whose advocacy of a course in "motherhood" for young matrons has already begun to bear good fruit, was talking of the duties of young mothers.

"And no young mother," she said, "no matter how many her millions nor how high her station, should trust her little one entirely to a nurse's care. A nurse may be the most intelligent, most conscientious, but to rear a baby properly is a difficult task, and only one person is sufficiently interested in this task to perform it well. That person is the baby's mother."

Mrs. Hipple smiled. "A young mother," she said, "was walking with her husband on the Atlantic City board walk. Suddenly she gave a little cry of pleasure. "Oh, she said, 'there is nurse—nurse wheeling baby.'"

"And she ran lightly to the luxurious coach of leather, with its swan-shaped carriage and its rubber-tired wheels, and she pushed back the parasol that shaded the occupant from the sun."

"Then she gave a great start. "Why, nurse," she cried, 'where's baby?'"

"The nurse gasped. 'Goodness gracious, ma'am! I forgot to put him in!'"

Hasty Nervous Chewing of Food the Cause of Dyspepsia

If your teeth are fit, chew, chew, until the food is liquid and insists on being swallowed.

If teeth are faulty, soften Grape-Nuts with hot milk or cream, or allow to stand a minute soaking in cold cream.

"There's a reason," as follows: Grape-Nuts food is in the form of hard and brittle granules,

intended to be ground up by the teeth; that work not only preserves the teeth but brings down the saliva from the gums so necessary in the primary work of digestion.

Many people say (and it is true) that when they eat Grape-Nuts they seem able to digest not only that food but other kinds which formerly made trouble when eaten without Grape-Nuts.

Chew!!

"There's a reason" for

Grape-Nuts

NORTHWEST NOTES

Lauritz Bakken, a shoemaker about 65 years of age, was the victim last week of the first fatal automobile accident in Seattle.

Col. A. P. Bray, a prominent Butte merchant and recently colonel of the Second regiment N. G. M., died suddenly last week of kidney trouble, aged 54.

Representative Williamson of Oregon has placed on file in the clerk's office of the supreme court of the United States the necessary papers which will bring his case before that court for further hearing.

Mrs. Margaret Evans, widow of John Evans, former governor of Colorado, died in Denver on the 7th, at the age of 78 years. She had been a resident of Denver since 1882, when she came from Chicago with her husband.

R. L. Brittan, a wealthy business man of Walla Walla, Wash., has issued a circular offering a reward of \$1,000 for the return of his little son, five years of age, who disappeared from Tolt Gate, Umatilla county, Oregon, on July 15.

Charles E. Allen, formerly employed on the Montana Central railroad, with headquarters at Helena, shot and killed himself in a hotel at Danville Va. Letters found on his person lead to his identity. No cause for his action is known here.

Martin Wonderlich and William Fullerton went to Republic, Wash., for a load of lumber and started home in an intoxicated condition. Four miles from town the team ran away. Both were found dead, with necks broken. Both men lived nine miles from Republic.

Mike Kiernan, a miner, was shot and fatally wounded on the outskirts of Goldfield, Nevada, and died at the County hospital. Kiernan refused to give the name of his assailant. He declared it was his own fault. Kiernan belonged to a prominent Canadian family.

J. S. Wisner, public administrator of Deer Lodge county, and a prominent Anaconda citizen, committed suicide in a Butte lodging house by taking strychnine and morphine. Brooding over the disgrace caused by the arrest of his son for defaulting to the extent of more than \$100,000 was the cause.

Mrs. C. H. Conrad, of Portland, who a short time ago, slashed her husband's face with a razor, shot four times at Mr. Conrad one day last week with a small caliber revolver, one bullet inflicting a slight flesh wound in the arm. The woman still labors under the idea that her action was in self-defense. Conrad declares his wife is insane.

Mike (Twin) Sullivan, who defeated Jack Daugherty at Butte for the welterweight championship of the world, has posted \$1,000 for a fight with Joe Gans in Butte, at the weight at which Gans and Sullivan fought before. The Butte Athletic club has wired Gans offering a purse of \$5,000 for the fight.

The county commissioners last week passed resolutions removing the whole police force of Tonopah, Nevada, from office. It was stated that this was for the interests of the town. The duties of the police were turned over to the sheriff. The action arose from many grave complaints regarding the conduct of the police.

Theodore Roosevelt, Jr., son of the president, passed through Denver on the 7th en route east from a hunting trip in western Colorado. One of his hands was bandaged, and he said an ulceration resulting from an injury was causing him to return home earlier than he had intended. He killed three deer, but no bear, on his trip.

Mrs. Emma Daly, proprietor of a lodging house in Seattle, was shot and instantly killed by a burglar trap arranged in his trunk by one her lodgers, Gene Bastarene. Mrs. Daly remarked to her companion: "Wonder if one of my keys will open the trunk." Suiting the action to the word the woman inserted a key, turned the lock and lifted the trunk lid. There was a report, and, crying, "I'm shot," Mrs. Daly fell dead.

Three ranchmen lost their lives by being overcome by gas in an abandoned well on the flats below Butte. The dead: Frank Ely, aged 51; Matt Fогarty, aged 34; Andrew Mehar, aged 35. Fogarty and Mehar both lost their lives in attempts at rescue.

Herbert D. Stanley, a discredited minister who has been arrested in many of the cities of the northwest for fraudulent practices, was jailed at Seattle last week on the charge of having passed a worthless check on Jules Redelsheimer, a well-known clothing merchant.

Superior Judge Frazer of Seattle has set September 24 as the date on which the trial of Esther Mitchell, charged with murdering her brother, George, will begin. The date of the trial of Mrs. Maud Creffield, who is charged jointly with the Mitchell girl, has not been set as yet.

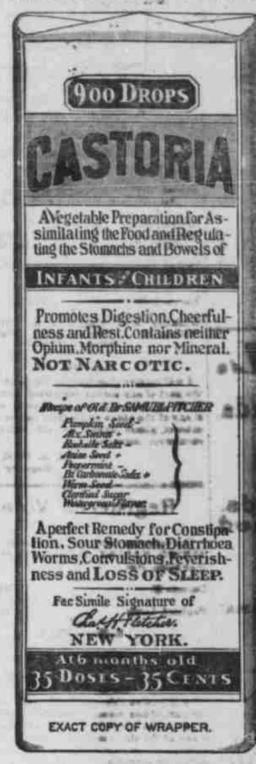

The westbound Los Angeles Limited on the Union Pacific railroad was wrecked at Red Buttes, forty miles east of Cheyenne. The entire train, including six coaches, left the track and the engine and baggage car turned over. Several passengers were injured, but none fatally.

Supervising engineer in charge of the North Platte irrigation project, Wyoming-Nebraska, reports that on August 15 the foundation was ready for stone laying and the first stone was set in the great Pathfinder dam. The entire foundation will be ready for masonry by September 15.

Forest fires are sweeping over the southern end of the island of Gamaon, in Puget Sound, and threaten the complete destruction of the little settlement of Utsalady. So far three residences and the Bay View hotel have been destroyed, as has thousands of dollars worth of timber.

Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First—The indisputable evidence that it is harmless; Second—That it not only allays stomach pains and quiets the nerves, but assimilates the food; Third—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrup, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—Not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."
Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."
Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."
Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."
Dr. Wm. J. McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."
Dr. J. R. Claman, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."
Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe your Castoria, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a simple, reliable remedy for the children's complaints. Any physician who has a reasonable family, as I have, will give me his hearty recommendation of Castoria."

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher
The Kind You Have Always Bought
In Use For Over 30 Years.

Rather Rough.
Above the stairway there flickered a candle and then a deep voice called from the shadows:
"Katherine, Katherine. Who is that snoring under the wall this hour of the night?"
A long stillness and then:
"No one down here, father, dear. I guess it must be next door."
The candle vanished and then from the gloom of the parlor:
"George, you big goose, I told you never to call on me unless you had been shaved."

SICK FOR TEN YEARS.

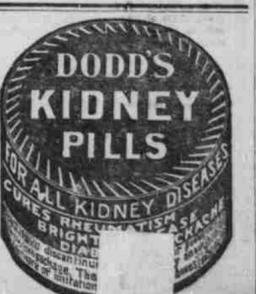

Constant Backache, Dropsy and Severe Bladder Trouble.

Fred W. Harris, of Chesnut St., Jefferson, Ohio, says: "For over ten years I suffered from kidney disease. The third year my feet and hands would swell, and I remain puffed up for days at a time. I seemed to have a constant backache. Finally I got so bad that I was laid up in bed with several doctors in attendance. I thought surely I would die. I changed medicine and began using Doan's Kidney Pills when I was still in bed. The relief I found was so great that I kept on until I had taken about ten boxes. The kidney secretions became natural and after years of misery I was cured. I have increased in weight, and show no symptoms of my former trouble." Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

His Scheme Worked.
It is related that a certain man was recently very sad because his wife had gone out of town on a visit, which she would not shorten in spite of his appeals to her to come home. He finally hit upon a plan to induce her to return. He sent her a copy of each of the local papers with one item clipped out, and when she wrote to find out what it was he had clipped out he refused to tell her.

The scheme worked admirably! In less than a week she was home to find out what it was that had been going on that her husband didn't want her to know about.—Hillsburg Press.

The Blime!
Lawson—What a fast fellow Jenkins is.
Dawson—Rash! I should say so! Why, Jenkins would even offer to be one of the judges at a baby show.—Somerville Journal.

Some musicians are able to borrow real money on their notes.

Mrs. Winstone's Soothing Syrup. For children teething, softens the gums, reduces inflammation, always cures wind colic. See a bottle.

And to mere man knows what it is to be a woman.

MAKE EVERY DAY COUNT.
no matter how bad the weather. You cannot afford to be without a TOWER'S WATERPROOF OILED SUIT OR SLICKER.
When you buy a TOWER'S WATERPROOF OILED SUIT OR SLICKER, you get the SIGN OF THE FISH.

YOU CANNOT CURE
all inflamed, ulcerated and catarrhal conditions of the mucous membrane such as nasal catarrh, uterine catarrh caused by feminine ills, sore throat, sore mouth or inflamed eyes by simply dosing the stomach.
But you surely can cure these stubborn affections by local treatment with Paxtine Toilet Antiseptic which destroys the disease germs, checks discharges, stops pain, and heals the inflammation and soreness.
Paxtine represents the most successful local treatment for females. It is ever prepared. Thousands of women testify to this fact. 50 cents at druggists.
