A TREE THAT IS WORSHIPED

Ficus Religiosa Held Sacred by Buddhists and Hindus.

In most of the countries of south-eastern Asia, the Indian Ficus religiosa the sacred and consecrated fig tree, or peepul tree, is found. It is held pre-eminently sacred by the Buddhists, and is revered also by the Hindus, the birth of Vishnu having occurred beneath its branches.

It is a handsome tree, growing frequently to a great height. It is an evergreen, which puts forth its flowers in April, and the bark yields freely upon incision an acid milk containing a considerable proportion of India rubber. The leaves are heart-shaped, long, pointed and vibrate in the air like those of the aspen.

A branch of one of these trees, having a notable history, was sent to a city in the interior of Ceylon, where it was planted, and became known by the name of the bo-tree. For 200 years it received the highest reverence, and is still the chief object of worship to the pilgrims who every year flock to the ruins of the city.

LIFE LINES.

Efficiency is a gift-edged security.

In working hours, think of nothing but your work. In leisure hours, forget it.

Don't think too much of your own methods. Watch other people's ways and learn from them.

Don't be afraid to stop late to make up arrears of work, even if you get no extra pay for it. Willingness is a huge asset.

Be careful. It's much better to see a girl doing her work brightly than plowing through it with a grumble and a scowl. And you'll do it better, too.

Keep your eyes open. Learn the job of the girl above you, so that when she's away you can do it for her. That's the best way to convince your employer of your ability.

Don't consider anybody's work beneath you. Your employer won't mind licking stamps, if necessary—neither should you. And if it isn't necessary you won't be asked to do it.

Make sure. If you are given instructions, make a note of them, if necessary; remember them if you can. But make sure you understand them perfectly. Get a telephone message repeated to you again and again if necessary, until you are certain you have it right.

CONTRARINESS OF LIFE.

Man's life is full of crosses and temptations. He comes into this world without his consent and goes out against his will, and his trip is exceedingly rocky.

The rule of contrariness is one of the unfortunate features of this trip.

When he is little the grown girls kiss him, and when he is grown the little girls kiss him.
