

NOTICE OF FORFEITURE

To Theodore Kembesos, Lizzie Empey, David C. Empey, E. C. D. Marriage, Lizzie Empey as administratrix of the estate of John Bogen, deceased, and the heirs at law of John Bowen, deceased.

You and each of you are hereby notified, that the undersigned has expended during the year 1914, one hundred (\$100) dollars in labor and improvements upon the Mid No. 2 Lode Mining Claim situated in the Atlanta Mining District, Lincoln County, State of Nevada, the original certificate of which is found of record in Book D-1 of Mining Notices at page 3, Lincoln County, Nevada records, in order to hold said claim under the provisions of section 2324 of the revised statutes of the United States and the amendment thereto approved January 22, 1880, concerning annual labor upon mining claims, being the amount required to hold said lode for the period ending on the 31st day of December 1914. If within ninety (90) days from the

personal service of this notice, or within (90) days after publication thereof, you fail or refuse to contribute your proportion of such expenditure as co-owners, which amounts to fifty (\$50.00) dollars, your interest in the claim will become the property of the subscriber, your co-owner, who has made the required expenditure by the terms of said section.

Beason, whose residence and postoffice address is Pioche, Nevada, has made application for a United States patent for the North Star, North Star No. 1, Talisman, Talisman No. 1, Little

ITALIANS FIERCELY ATTACK AUSTRIANS

ARE DRAWING NET AROUND AUSTRIAN STRONGHOLDS AFTER WEEKS OF FIGHTING.

Made Necessary to Continually Bring up Reinforcements That Could Have Been Used Against Montenegrins and Serbians.

London.—With the retreat of the greater part of the Serbian army across the Albanian frontier, and the announcement of the capture of Monastir by the Bulgarians, the slowness of the operations against Montenegro and in southern Serbia, owing to the wintry weather and the absence of any major operations on the western and eastern fronts, interest in the military side of the war is now transferred to the Austro-Italian frontier, where King Victor Emmanuel's troops are carrying on an energetic offensive against the Austrians.

The fighting on this front has been the most sustained and fiercest of the whole war. For weeks the Italians have been attacking the Austrian bridgeheads and mountain positions along the Isonzo river, and are slowly, but surely, drawing their nets around Toimino, Gorizia and Doberdo.

This, for the time being, is Italy's contribution to the Balkan operations of the allies, for it keeps a large force of Austrians busy and makes it necessary for them continually to bring up reinforcements which could be usefully employed against the Montenegrins and Serbians. The Serbians, unless followed into Albania, will in time probably reappear as a rejuvenated army, for it is said that 250,000 of them, including soldiers and civilians, have taken refuge there and that they have saved all their mountain batteries and a portion of their field guns. Also included in this number are all the youths who can fill the gaps when equipment reaches them from the Adriatic.

German papers state that Field Marshal von Mackensen's army, with Bulgarians and Turks, is to be directed against the Anglo-French forces in the south, but doubtless many of them are going down the Danube to meet the Russian menace. The public is expecting every day to hear of the movement of the Russian army, which the emperor recently reviewed in Pessarabia, but apparently the negotiations with Roumania for the use of the Danube have not been completed. A Budapest report goes so far as to say that Roumania has refused permission to the Russians to use the river through Roumanian territory, which would be the more convenient route for an attack on western Bulgaria.

POWDER PLANT BLOWN UP.

Thirty-one Workmen Killed as Result of Mysterious Explosion.

Wilmington, Del.—Thirty-one workmen were killed and seven fatally injured Tuesday in a terrific explosion of about four tons of black powder at the Upper Hagley yard of the Du Pont Powder company. It was the worst accident that has occurred in any of the company's plants in a quarter of a century.

The cause of the blast is not known. According to a statement issued by the company, the origin "will probably always remain a mystery." Nevertheless, a most severe investigation has been instituted by the officials of the company and every employee who was near the building that was blown to pieces will be put through a thorough examination, in the hope that some clue as to the cause may be learned.

NINETEEN DIE IN MINE.

Seventy-five Men at Work When Explosion Occurs.

Boomer, W. Va.—Nineteen men are known to have been killed by an explosion in mine No. 2 of the Boomer Coal & Coke company here Tuesday. Thirty miners were brought to the surface, and rescuers have hopes that others will be found alive.

Ten miners were rescued from a sub-entrance to the mine in a semi-conscious condition. When revived they said they had seen many men, apparently dead, a short distance from the point where the explosion occurred.

John Bertalle, one of the rescued miners, said that seventy-five men were working near the place where the explosion occurred. He was badly bruised by flying debris, but was able to make his way to a sub-entrance.

Wave of Prosperity.

New York.—Merchants here say Americans have more money to spend for Christmas this year than in any holiday season since 1906. The big stores are preparing for a record trade and wholesale houses are unable to fill orders in many lines.

Copper is Helping.

Phoenix, Ariz.—High prices for copper and increased production in the agricultural districts of Arizona have given merchants reason to anticipate the richest holiday season in the history of the state.

British Losses for November.

London.—British casualty lists published during November total 1,232 officers, 45,184 non-commissioned officers and men in all fields of war, bringing the total since the beginning of hostilities up to approximately 600,000.
