

AGENTLEMANBURGLAR

Arrested Single Handed by a Plucky Lady.

SHE SHOOK HIM BY THE COLLAR.

The Burglar, Being a Gentleman, Could Not Resist a Lady, So He Submitted to His Fair but Determined Captor—Miss Robertson's Story.

The clever manner in which Miss Willetta Robertson captured a burglar in the corridor of a San Francisco hotel and brought him to justice is just now the town talk of the Pacific coast metropolis. This is the story she tells of the exploit: "My mother, Mrs. Gaffney, had left her room to pay me a visit. My room is on the same floor, but in another part of the house. She met me in the hall, and together we returned to her room, from which she had not been absent for more than five minutes.

"She found the door of her room locked, and when she told me she had left it unlocked it flashed across my mind that there was a thief in the room. I spoke up and said, 'Come on back to my room, mamma,' and then added in a whisper: 'Keep still. There is a thief in the room.' I stamped off down the hall, dragging mamma with me, but when we got into the main hall I stopped to await developments. In a moment I saw a man peer over the transom of our bathroom door. He could not see us, and as I thought he would think the coast was clear and would try to leave the room I tipped back to the door and met him just as he was coming out.

"He tried to get past me, but I stood in front of him and asked him what he was doing in the room with the door locked. He was extremely polite and told me he had mistaken the room for that of a friend. Of course I knew that was ridiculous. He

MISS ROBERTSON.

kept walking down the hall, but I never left his side, because I was sure he was a thief, and I was not going to let him escape.

"When he reached the stairway, he attempted to go down, but I grabbed him by the lapel of his coat and told him I would have to detain him for a minute until I learned more of him. At the same moment I touched the electric button of the elevator with my other hand. When the elevator came up, I asked him to step in, which he did. I grabbed the door and pulled it shut quick and told the boy not to let the man out if he valued his life, because he was a thief.

"I ran down stairs and got two bellboys and brought them back with me. They took the man out of the elevator, and I told them to take him into the parlor and lock the door. When he heard that, he began to fight and threw the bellboys away from him. I saw he was going to get away, so I ran up and grabbed him and told him to behave himself.

"I don't know whether he is a coward or not, but when I grabbed him he let his arms fall and quit fighting. He could easily have struck me, but I guess he was so surprised because I was not afraid that he did not know just what to do. We locked him in the parlor and then sent for a policeman."

There was no one else in the hall when Miss Robertson conducted the burglar to the elevator, Mrs. Gaffney having gone into her room to see if anything had been stolen. She missed a watch, pin, purse and some knickknacks, and when the thief was released from the elevator he handed them over, with profuse apologies.

After the gentleman burglar had been locked in the parlor the young lady was so excited and so fearful that he would escape before the policeman arrived that she stood guard over him in the room and watched his every movement. She asked him how it was that he, who was apparently a gentleman, should in reality be a thief.

"I am very much humiliated to be found in such a position," he replied, "but circumstances over which I have no control drove me to it. Even a gentleman must live, and because I have been unable to procure employment I have been forced to steal. My only regret is that my presence here has caused you momentary inconvenience. I can only beg your pardon and hope that your evident kind heartedness will allow me another opportunity to face the world."

But the man's suavity had no effect on Miss Robertson. When the policeman arrived and prepared to take his prisoner to the city prison, he raised his manacled hands, lifted his hat and with the air of a millionaire about to take a drive in the park accompanied the officer to the patrol wagon.

The burglar was fashionably dressed, and when searched a fine set of skeleton keys and lock picks were found secreted in the band of his silk hat. Miss Robertson and Mrs. Gaffney appeared against him in court, and he was promptly convicted.

When Miss Robertson's aunt, Mrs. E.

W. Sackman, who lives in Seattle, heard of Willetta's exploit, she said: "My niece reminds me of the woman who always looked under the bed for a man and finally found one. It has been the one desire of her life to capture a burglar, and she has at last had her hobby gratified. I can well understand her doing it, for she lived here, and I know her nature and character fully. Nothing could ever frighten her. The slightest noise about the house would arouse her, and she would go tramping about in search of some imaginary burglar and not return until satisfied that everything was all right. It was a standing joke that her constant search would some day be rewarded, and, sure enough, it has been. She is as good, beautiful and talented as she is brave, and I feel quite proud of her."

THE STAMP OF STYLE.

Narrow frills of embroidery set in plain rows at the hem, also in designs simulating overskirts, are popular.

Bands of galloon or ribbon edged on either side with lace about a finger wide are the trimming seen on a house dress of striped silk.

Among new capes there are those that suggest sheds, so square and uncompromising are their edges as they project over the shoulders.

A natty and becoming hat has a narrow brim turned up all around the edge and bound with velvet. Birds with pointed wings and a cluster of velvet are used for the trimming.

A new model of a waist has draped sections very wide under the arms and crossing up over the back, growing narrower at the shoulders. This trimming suggests an ordinary surplus waist put on wrong side up.

A stylish cape has a square yoke with collar in sailor fashion, very broad at the shoulders and across the back and running to points in front. A band of plush about four inches wide is the trimming of this garment.

A cloth cape with a perfectly plain yoke extending to the shoulder points has the remainder of the material gathered in very full. Where the cape portion joins the yoke is a band of fur about three inches wide. The standing collar is edged with fur to match.

A new waist trimming is made of silk put on from either side, then shirred very full down the middle of the front. The effect is that of a huge puff in front of either shoulder and extending to the waist line. The back has a similar trimming, except that it is much narrower.—New York Ledger.

THE THEATER HAT.

The way to deal with the big hat is to take it off.—New York Recorder

The theater hat is rising to the dignity of a political issue.—Chicago Herald

The way to overcome the theater hat imposition is to elevate the stage.—New York World

At present four legislatures are considering bills against the big theater hat. Here's another argument for less frequent legislative sessions.—Boston Herald

The New York statesmen may legislate against the big theater hat, but the women will never agree as to the amount of felt, feathers and floss required to constitute an offense.—Washington Post

The Colorado legislature should be a good place to introduce a bill to prohibit the high theater hat. The three women who are members of that body take off their hats in the legislative hall.—Sioux City Journal

It is a notable fact that in three states of the Union, New York, New Jersey and Illinois, there are bills before the legislature to curtail the big theater hats. More power to the woman who clasps a tiny bunch of violets on her back hair and calls it a bonnet.—New York Sun

DO NOT—

Let the children go to bed with cold feet.

Look toward a bedroom door when passing. Always knock at any private room door.

Carry the whole world on your shoulders, far less the universe. Trust the Eternal.

Live for self alone. Aim to help the needy and deserving and study the happiness of friends.

Build up higher than your foundation will warrant. It's the tree with more branches than roots that is blown down.

Let the baby sleep with its mouth open. Place it on its side, smooth out its ear and the creases in the pillowcase, and sleep will be longer and sweeter.

Put a wee, helpless baby to bed between two giants, for if the poor little thing is not crushed to death the monsters will absorb its vitality and leave it pale and lifeless.—Good Housekeeping

GEMS FROM JEFFERSON.

A respectable minority is useful as sensors.

The whole body of the nation is the sovereign legislative, executive and judiciary power for itself.

I have sworn upon the altar of God eternal hostility against every form of tyranny over the mind of man.

It is better to keep the wolf out of the fold than to trust to drawing his teeth and claws after he has entered.

It is a fatal heresy to suppose either that our state governments are superior to the federal or the federal to the state.

It is not by the consolidation or concentration of powers, but by their distribution, that good government is effected.

The way to have good government and safe government is not to trust it all to one, but to divide it among the many, distributing to every one exactly the functions he is competent to.—Thomas Jefferson

No. 3535. Notice of Application for Patent

HELENA, Montana, March 4, 1895.

Notice is hereby given that in pursuance of Chapter Six of Title Thirty-Two of the revised statutes of the United States, Henry Elling, whose post office address is Virginia City, Madison county, Montana, has made application to the United States for patent to the following described mining claims and mill-sites, to-wit: the Apex lode claim, the Apix mill-site, the Easton lode claim, the Easton Fraction lode claim, the American lode claim, the Bonanza lode claim, the American and Bonanza mill sites, and the Easy Street lode claim, situated in the Brown's Gulch (unorganized) mining district, Madison county, Montana, containing 83.31 acres, which said claims and mill sites are fully described as to metes and bounds by the official plats herewith posted, and by the field notes of the surveys thereof, now filed in the office of the register of the district of lands subject to entry and sale at Helena, Montana, which field notes of said claims on the boundaries and extent of said claims on the surface, with magnetic variations 19 degrees 30 minutes east, as follows, to-wit: Survey No. 4512 A.—Apex lode.—Commencing at corner No. 1, which is the northeast corner of said claim, from which corner, the section corner common to sections 3, 4, 33, and 34, in townships 6 and 7 south, range 3 west, bears north 18 degrees 30 minutes east, 5.664.1 feet, thence running south 28 degrees 05 minutes west, 372 feet to corner No. 2, a granite stone 20x8x6 inches 13 inches deep, marked 2-4512 A.; thence north 59 degrees 05 minutes west, 1500 feet to corner No. 3, a granite stone 24x12x5 inches, 16 inches deep, marked 3-4512 A.; thence north 28 degrees 05 minutes east, 600 feet to corner No. 4, a granite stone 20x18x5 inches 18 inches deep, marked 4-4512 A.; thence south 59 degrees 05 minutes east, 1133 feet to corner No. 5, intersection of side lines of Ontario lode (un-surveyed), a granite stone 20x14x6 inches, 13 inches deep, marked 5-4512 A.; thence south 28 degrees 02 minutes east, along west side line of Ontario lode, (unsurveyed) 441.6 feet to corner No. 1, land place of beginning, containing an area of 19.68 acres; the presumed general course or direction of the said Apex vein, lode or mineral deposit, here being shown upon the plat posted herewith, as near as can be determined from the present developments, this claim being for 1500 feet, but thereof together with the surface ground shown upon the official plat posted herewith, said vein, lode and mining premises hereby sought to be patented being bounded as follows, to-wit: On the north by the Ontario (unsurveyed), on the east by the Easton, survey No. 4513 A.; said Ontario claim being owned by Ed. Trout and the heirs of John Trout, deceased, said claim being for 28 feet westerly from discovery shaft, and 1472 easterly from said discovery shaft, along said vein or lode, and said claim being designated as survey No. 4512 A. in the official plat posted herewith.

Also, survey No. 4513 A.—Easton Lode. Commencing at corner No. 1, a granite stone 24x10x5 inches, 16 inches deep, marked 1-4513 A., from whence the corner common to sections 3, 4, 33 and 34 in townships 6 and 7 south, range 3 west, bears north 10 degrees 50 minutes east, 5770 feet; thence south 44 degrees 32 minutes east, along south side line of survey No. 4516, 688.8 ft. to corner No. 2, a granite stone 20x16x5 inches, 13 inches deep, marked 2-4513 A.; thence south 28 degrees 05 minutes west, along the northwest end line of survey No. 4517, 371 feet to corner No. 3, a granite stone 20x14x6 inches, 13 inches deep, marked 3-4513 A.; thence north 58 degrees 19 minutes west, 656.7 feet to corner No. 4, a quartzite stone 24x12x6 inches, 16 ins. deep, marked 4-4513 A.; thence north 54 degrees 48 minutes west, 791 feet to corner No. 5, a granite stone 24x8x6 inches, 16 inches deep, marked 5-4513 A.; thence north 28 degrees 05 minutes east, along southeast end line of survey No. 4512 A, 535 feet to corner No. 6, a granite stone 22x14x6 inches, 15 inches deep, marked 6-4513 A.; thence south 54 degrees 38 minutes east, 791 feet to said corner No. 1, place of beginning, containing an area of 16.46 acres; the presumed general course or direction of the said Easton vein, lode or mineral deposit being shown upon the plat posted herewith, as near as can be determined from the present developments, this claim being for 1447.7 linear feet thereof together with the surface ground shown upon the official plat posted herewith, said vein, lode and mining premises hereby sought to be patented being designated as survey No. 4513 A. in the official plat posted herewith, and is bounded as follows, on the north by the Ontario, (unsurveyed) owned by Ed. Trout and the heirs of John Trout, by the Easy Street, survey No. 4516, and the Middle lode, Ed. Trout and estate of and heirs of John Trout claimants, on the east by the Easton fraction and on the south by the Bonanza, survey No. 4515 A.

Also, survey No. 4514 A.—American Lode.—Commencing at the northwest corner, a granite stone 20x7x5 inches, 15 inches deep, marked 1-4514 A., being corner No. 1, from whence the section corner common to sections 3, 4, 33, and 34 in townships 6 and 7 south, range 3 west, bears north 14 degrees 58 1-2 minutes east, 6174.2 feet, thence south 47 degrees 54 minutes east, along southwest boundary of survey No. 4515 A, 948.6 feet to corner No. 2, a granite stone 20x10x6 inches, 13 inches deep, marked 2-4514 A.; thence south 30 degrees 00 minutes west, 430 feet to corner No. 3, a granite stone 20x9x5 inches, 13 inches deep, marked 3-4514 A.; thence north 58 degrees 13 minutes west, 925 feet to corner No. 4, a quartzite stone 20x12x6 inches 13 inches deep, marked 4-4514 A.; thence north 30 degrees 00 minutes east, 600 feet to corner No. 1, place of beginning, containing an area of 10.97 acres, the presumed general course or direction of the said American vein, lode or mineral deposit being shown upon the plat posted herewith, as near as can be determined from the present developments, this claim being for 925 linear feet thereof together with surface ground shown upon the official plat posted herewith, said vein, lode and mining premises hereby sought to be patented being designated as survey No. 4514 A. in the official plat posted herewith, and is bounded as follows, on the north by the Bonanza claim, being survey No. 4515 A., on the southeast by the Bullion, claimants unknown, on the northwest by the Loan, claimants unknown.

Also, survey No. 4515 A.—Bonanza Lode.—Commencing at corner No. 1, a granite stone 20x7x5 inches, set firmly in the ground, marked 1-4515 A., from whence the corner to sections 3, 4, 33 and 34, townships 6 and 7 south, range 3 west, bears north 14 degrees 58 1-2 minutes east, 6174.2 feet running thence south 47 degrees 54 minutes east, along the north boundary of survey No. 4514 A, 948.6 feet to corner No. 2, a granite stone 20x10x6 inches set firmly in the ground, marked 2-4515 A.; thence south 48 degrees 51 minutes east, 47 feet to corner No. 3, a granite stone 20x12x7 inches, 13 inches deep, marked 3-4515 A.; thence north 28 degrees 05 minutes east, 167 feet

to corner No. 4, a granite stone 20x14x6 inches, set firmly in the ground, marked 4-4515 A.; thence north 58 degrees 19 minutes west, along southwest boundary of survey No. 4513 A, 656.7, to corner No. 5, a quartzite stone 24x12x6 inches set firmly in the ground, marked 5-4515 A.; thence north 54 degrees 48 minutes west, along the southwest boundary of survey No. 4513 A, 791 ft. to corner No. 6, a granite stone 24x8x6 inches set firmly in the ground, marked 6-4515 A.; thence south 28 degrees 05 minutes west, 136 feet to corner No. 7, a pine post 4 1-2 inches square, 4 feet long 2 feet deep, marked 7-4515 A.; thence south 61 degrees 13 min. east, 471.8 feet, to corner No. 8, a quartz stone 20x8x6 inches 13 inches deep, marked 8-4515 A.; thence north 30 degrees 00 minutes east 76 feet, to corner No. 1, place of beginning, embracing an area of 2.98 acres; the presumed general course or direction of said Bonanza lode, vein or mineral deposit being shown upon the plat posted herewith as near as can be determined from the present developments, this claim being for the length of vein and surface ground as shown upon the official plat posted herewith, said vein, lode and mining premises hereby sought to be patented being designated as survey No. 4515 A. in the official plat posted herewith, and is bounded as follows, to-wit: On the south by survey No. 4514 A., and the Loan and Bullion claims (unsurveyed), claimants unknown; on the north by survey No. 4513 A., and on the east by survey No. 4517.

Also, survey No. 4516.—Easy Street Lode.—Commencing at corner No. 1, a granite stone 24x10x5 ins. marked 1-4516 set firmly in the ground, from which the corner common to sections 3, 4, 33 and 34, townships 6 and 7 south, range 3 west, bears north 10 degrees 50 minutes east, 5770 ft.; thence north 54 degrees 48 minutes west, along the 6th course of survey 4513 A, 705 feet to corner No. 2, a pine post, 4 1-2 inches square 4 feet long 2 1-2 feet deep, marked 2-4516; thence north 7 degrees 38 minutes east, 676 inches, 13 inches deep, marked 3-4516; thence south 49 degrees 30 minutes east, 1046.9 ft. to corner No. 4, a granite stone 20x8x6 in. 13 inches deep, marked 4-4516; thence south 7 degrees 38 minutes west, 631.5 feet to corner No. 5, a quartzite stone 20x11x4 inches, 13 inches deep, marked 5-4516; thence north 44 degrees 32 minutes west, along north boundary of survey No. 4513 A, 322 feet to corner No. 1, place of beginning, containing an area of 12.73 acres, the presumed general course of said Easy Street Lode, vein or mineral deposit being shown upon the plat posted herewith as near as can be determined from the present developments; this claim being for the length of vein and surface ground as shown upon the official plat posted herewith, said vein, lode and mining claim hereby sought to be patented being designated as survey No. 4516 in the official plat posted herewith, and is bounded as follows, to-wit: on the north west by the Ontario (unsurveyed) on the southeast by Middle (unsurveyed), both claims belonging to Ed. Trout and the heirs of Jno. Trout, on the south by survey No. 4513, no known claims on the north.

Also, survey No. 4517.—Easton Fraction Lode. Commencing at corner No. 1, which is corner No. 2 of survey No. 4513 A., a granite stone, 20x16x5 inches, firmly set in the ground, marked 1-4517, from which the corner common to sections 3, 4, 33, and 34 in twps. 6 and 7 south, range 3 west bears north 5 degrees 35 1-2 minutes east, 6186.2 ft. thence south 53 degrees 23 minutes east, 65 feet to corner No. 2, a granite stone 20x10x3 inches, 13 inches deep, marked 2-4517; thence north 28 degrees 05 minutes west, along northwest end line of Spratt Lode, (unsurveyed), 538 feet to corner No. 3, a quartz stone 21x8x8 inches, 14 inches deep, marked 3-4517; thence north 53 degrees 23 minutes west, 65 feet to corner No. 4, which is also corner No. 3 of survey No. 4515 A., a granite stone 20x12x5 inches set firmly in the ground, marked 4-4517; thence north 28 degrees 05 minutes east, along south end line of survey No. 4515 A, 538 ft. to corner No. 1, place of beginning, containing 0.79 acres; the presumed general course of said Easton vein, lode or mineral deposit being shown upon the plat posted herewith as near as can be determined from the present developments; this claim being for the length of vein and surface ground as shown upon the official plat posted herewith; said vein and lode and mining premises hereby sought to be patented being designated as survey No. 4517 in the official plat posted herewith, and is bounded as follows, to-wit: on the northwest by survey No. 4513 A., on the south by the Bullion, claimants unknown, on the east by the Spratt, claimants unknown, on the north by the Middle, claimants Ed. Trout and the heirs of John Trout.

Also, survey No. 4512 B. Apix mill-site. Commencing at the northwest location corner, corner No. 1, a granite stone 20x13x8 inches, 13 inches deep, marked 1-4512 B., from whence the corner common to sections 3, 4, 33 and 34 in twps 6 and 7 south, range 3 west, bears north 38 degrees 55 minutes east, 2859.6 feet; thence south 58 degrees 05 minutes east, 587 feet to corner No. 2, a quartzite stone 21x12x5 inches, 14 inches deep, marked 2-4512 B.; thence south 14 degrees 45 minutes west, 382 feet to corner No. 3, a quartzite stone 20x12x3 inches, 13 inches deep, marked 3-4512 B.; thence north 55 degrees 05 minutes east, 587 feet to corner No. 4, a quartzite stone 20x12x5 inches, 13 inches deep, marked 4-4512 B.; thence north 14 degrees 45 minutes east, 382 feet to corner No. 1, place of beginning, containing an area of 4.92 acres; the extent of said Apix mill-site and the surface ground embraced therein being shown upon the official plat posted herewith, said mill-site claim hereby sought to be patented being non-mineral and designated on the official plat posted herewith as survey No. 4512 B. There are no adjoining claims.

Also, survey No. 4513 B. Easton mill-site: Commencing at the southwest location corner, which is also corner No. 3, of survey No. 4514 B., a quartzite stone 22x16x5 inches 13 inches deep, marked 1-4513 B., which is corner No. 1, from which the 1-4 section corner between sections 17 and 8, twp. 6 south range 3 west, bears north 792 feet, thence north 528 feet, to northwest corner, a granite stone 23x12x8 inches, 16 inches deep, marked 2-4513 B.; thence east, 600 feet to northeast corner, a granite stone 20x6x4 inches, 13 inches deep, marked 3-4513 B.; thence south, 132 feet to southeast corner, a granite stone 20x6x6 inches, 13 inches deep marked 4-4513 B.; thence south 59 degrees 02 minutes west, 769.7 feet to place of beginning, containing an area of 5 acres; the extent of said Easton mill-site and the surface ground embraced therein being shown upon the official plat posted upon said claim, said mill-site claim hereby sought to be patented being non-mineral land and designated on the official plat posted upon said claim as survey No. 4513 B., the adjoining claims are the American mill-site, survey 4514 B., on the south, and Mineral entry No. 259, German Bar Flume Co., applicants on the west.

Also, survey No. 4514 B. American Mill-site: Commencing at the southeast location corner, which is corner No. 1, a quartzite stone 25x12x7 inches, 17 inches deep, marked 1-4514 B., from which corner the 1-4 section

tion corner between sections 8 and 17, twp. 6 south, range 3 west, bears south 45 degrees 00 min. west, 933.4 ft. thence west 980 ft. to corner No. 2, a granite stone 20x8x8 ins. 13 ins deep, marked 2-4514 B.; thence north, 132 feet to northwest location corner, corner No. 3, a quartzite stone 22x16x5 inches, set firmly in the ground, marked 3-4514 B.; thence north 59 degrees 02 minutes east, 769.7 feet along the south boundary of survey 4513 B., to northeast corner, corner No. 4, a granite stone 20x6x6 in. set firmly in the ground, and marked 4-4514 B.; thence south 528 feet to place of beginning, corner No. 1, containing an area of 5 acres; the extent of said American mill-site and the surface ground embraced therein being shown upon the official plat herewith posted, upon said claim; said mill-site claim hereby sought to be patented being non-mineral land, and designated upon the official plat posted on said claim as survey No. 4514 B. the adjoining claims are the Easton mill-site on the north, and Mineral entry No. 259, German Bar Flume Co., Applicants, on the west and south.

Also, survey No. 4515 B. Bonanza Mill-site: Commencing at the southwest location corner, corner No. 1, a quartzite stone 20x12x5 inches, 13 inches deep, marked 1-4515 B., from whence the corner common to sections 3, 4, 33 and 34, twps 6 and 7 south range 3 west, bears north 46 degrees 05 minutes east, 2559.5 feet, thence south 47 degrees 25 minutes east, 500 feet to corner No. 2, southeast location corner a granite stone 20x6x6 inches, thirteen inches deep, marked 2-4515 B.; thence north 28 degrees 05 minutes east, 484 feet to northeast location corner, corner No. 3, a granite stone 20x8x3 inches 13 inches deep, marked 3-4515 B.; thence north 53 degrees 27 minutes west, 428 feet to corner No. 4, a granite stone 23x8x6 inches, 16 inches deep, marked 4-4515 B.; thence south 36 degrees 18 minutes west, 428.2 feet to place of beginning; containing an area of 4.78 acres, and the surface ground embraced therein being shown upon the official plat posted herewith on said claim; said mill-site claim hereby sought to be patented being non-mineral land and designated upon the official plat posted on said claim as survey No. 4515 B., there are no adjoining claims; all of which said claims and millsites heretofore described are of record in the office of the county clerk and ex-officio recorder of deeds of the County of Madison, State of Montana.

Any and all persons claiming adverse interests in any of the mining ground, veins, lodes, premises and mill sites or any portion thereof so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed in accordance with law, and the regulations thereunder, within the time prescribed by law with the register of the United States land office at Helena in the State of Montana, they will be barred in virtue of the provisions of said statute.

W. E. COX,

Register.
First publication March 9, 1895. 20-10

No. 3528. Application for a Patent.

U. S. LAND OFFICE AT HELENA, Montana, Feb. 11, 1895.

Notice is hereby given that Alexander McKay, whose postoffice address is Virginia City, Madison county, Montana, has for this day filed his application for a patent for 1376 linear feet of the Concentrator vein or lode with surface ground 522 to 547 feet in width, and 1487 linear feet of the Agitator vein or lode with surface ground 547 feet in width, the same being adjoining claims and situated in Ramshorn, unorganized, mining district, Madison county, Montana, and designated in the official field notes and plat on file in this office, as surveys Nos. 4465 and 4466, embracing a portion of Twps. 4 and 5 south of range 4 west of the principal meridian; said surveys Nos. 4465 and 4466 being described as follows, to-wit:

The Concentrator lode, survey No. 4465; Beginning at the southeast location corner, a granite stone 24x10x8 inches, set 16 inches deep, marked 1-4465, for corner No. 1, from which the northeast corner of section 2, in township 5 south range 4 west, bears north 75 degrees 41 minutes east 237.6 feet; thence from said corner No. 1 north 7 degrees 17 minutes east 1379.3 feet to corner No. 2, the northeast location corner; thence 57 degrees 31 minutes west, 532 feet to corner No. 3, the northwest location corner; thence south 57 degrees 31 minutes west 1577 feet to corner No. 4, the southwest location corner; thence south 57 degrees 31 minutes east 547 feet to corner No. 1, the place of beginning, embracing an area of 15.46 acres.

The Agitator lode, survey No. 4466. Beginning at the northeast location corner, which is also corner No. 1 of survey No. 4465 above described, and marked 1-4466, for corner No. 1 of this claim, and running thence south 24 degrees 30 minutes west 1487 feet to corner No. 2; thence north 57 degrees 31 minutes west 547 feet to corner No. 3; the southwest location corner; thence north 24 degrees 30 minutes east 1487 feet to corner No. 4, the northwest location corner, which is also corner No. 4 of said survey No. 4465; thence south 57 degrees 31 minutes east 547 feet to corner No. 1, the place of beginning, embracing an area of 18.49 acres, total area claimed in both surveys, 33.95 acres, embracing a portion of townships 4 and 5 south range 4 west, magnetic variation in all courses at 19 degrees east.

Notices of the location of said mining claims are recorded in the office of the recorder of said Madison county at pages 467 and 486, respectively, of book 28, of the recorder of said county.

The only adjoining and conflicting claim is survey No. 736, Placer, Lot No. 38, conflicting with said survey No. 4465, the Concentrator lode, the ground in conflict being claimed by this applicant.

Any and all persons claiming adversely any portion of said mining claims and surface ground, are required to file their adverse claims with the register of the United States land office at Helena, in the state of Montana; during the sixty days publication of this notice, or they will be barred by virtue of the provisions of the statutes.

W. E. COX,

Register.
