BOIES FOR SILVER

Iowa's Ex-Governor in Favor of Its Free and Unlimited Coinage.

THE GOLD BUGS ARE WOLFISH.

Not Willing to Join the Silverites for a Bimetallic Currency.

SIoux CITY, Ia., May 20.—An Alton, Ia., special to The Journal says: In a letter to the Alton Democrat, ex-Governor Boies comes out for the free coinage of silver at a 16 to 1 ratio without waiting for any international action. Mr Boies says:

"It is idle to expect the masses of the American people to wait for the cooperation of foreign nations before they settle the question. They have no faith in such a remedy. They have taken the matter into their own hands and they will settle it one way or another, so far as this country is concerned, in the next national election that is held.

Where to Place the Consequence.
"If the unrestricted coinage of silver follows and the result is all that the gold monometalists predict, the consequences, if evil, should not be charged to friends of free coinage of both metals. They did not seek the issue. All that they asked was an honest bimetallicism, with reasonable safeguards for maintaining the parity of the two. This has been denied them upon false grounds as I believe that no possible legislation could effect that end. I frankly admit that if the question is to be narrowed to the single issue of gold monometallicism on one side or

Unconditional Free Coinage of both metals at the old ratio on the other, I am in favor of free coinage because I believe it will at least be the beginning of a broadened financial system that will, if necessary, be so perfected in the near future as to give us an absolutely safe and sound currency, the foundation of which will be, legally at least, and, I believe, practically, the equal use of both gold and silver as the money of redemption."

FINANCIAL GLADIATORS MEET.

Professor Laughlin and William H. Harvey Debate the Silver Issue.

CHICAGO, May 20.—A stirring political encounter took place last night, hardly paralleled in the West since the famous struggle between Lincoln and Douglas just on the eve of the civil war. Last night's platform combatants were two giants of the opposing sides in the raging financial controversy—J. Lawrence Laughlin, professor of political economy in the University of Chicago, the favorite authority of President Cleveland, and William H. Harvey, author of "Coin's Financial School." The spacious rooms of the Illinois club on stately Ashland boulevard were crowded to almost suffocation when the president of the club, Dr. Homer M. Thomas, announced all in readiness for the dress suit gladiators. The proposition to be discussed was read as follows:

"Resolved, That the United States should at once enter upon the free coinage of silver at the ratio of 16 to 1, independently of the action of any other nation."

Mr. Harvey spoke for an hour in the affirmative and Professor Laughlin an hour and a half in the negative. Mr. Harvey then having 30 minutes for a rejoinder. Both men were liberally applauded.

FAVORS AN INDEPENDENT TICKET.

General Weaver Says Democrats and Populists Must Unite.

DENVER, May 20.—General J. B. Weaver was interviewed by the Associated Press upon the duty of the Populists in the coming presidential campaign. He said:

"The Populists will never go into the Democratic party, nor will any number of the Democrats go into the Populist party, no matter what action the conventions may take. There is but one sensible and patriotic thing to do. We must unite upon an independent ticket. The head of the ticket should be some man of Democratic antecedents like Sibley, who has left his party and declared war for the people. The vice president should be some present Republican, like J. G. Caldwell, who is for financial reform."

Beer Tax May Be Doubled.

WASHINGTON, May 20.—A gentleman very close the president says that unless the income tax be declared constitutional the president will, in his next message to congress, recommend the doubling of the beer tax. Should such recommendation be favorably acted upon, the treasury will receive additional revenue of about \$30,000,000.

THREE VILLAGES DESTROYED.

English Warship Inflicts Terrible Punishment Upon Solomon Islanders.

SAN FRANCISCO, May 20.—John Carter, an ex-seaman of H. M. S. Royalist, arrived in this city on the steamer Australia from Honolulu. Carter came to Hawaii from Sidney, where the Royalist is now stationed. England, according to the seaman, took very drastic measures in the punishment of the natives of the Solomon group of islands. The trouble and the subsequent bombardment were brought about by the murder of Donald Guy last April and the later murder of eight inebriated English tars who were at the island of Malayata to enjoy a good time.

The Royalist then proceeded to New Georgia and there learned that Guy had been surprised by the natives and shot down in cold blood. The sloop proceeded up the Soy river and there found the passage blocked. The natives had taken to the bush. The Royalist cleared for action and in ten minutes literally blew the village of Soy off the face of the earth. The land forces pursued the natives into the interior for several miles, but could not force them into open battle.

The Work of Slaughter.

The Royalist then steamed to Malayata island and anchored off the town of Altaal. The ship's guns were turned on the village and a quick fire opened. The cutters, armed with 7-pound rapid-firing guns, steamed close to the beach and poured shot into a little bunch of natives that were defending the chief's palace. A number were killed and wounded. One after another three villages were totally destroyed, the natives driven to the bush and the residence of one of the principal chiefs of the Solomon group blown to pieces with 6-inch shells. The Royalist then steamed around the island, looking for fresh villages to try its guns upon, and finally steamed to Wana Wana. There elaborate preparations were made for a sea and land attack, the natives having assembled in great numbers. Suddenly the Royalist received orders, through a Royalist steamer captain, to cease operations and return to New Zealand. The slaughter of the defenseless was thus averted.

MAKING RAPID PROGRESS.

Presbyterian General Assembly Discusses Control of Seminaries.

PITTSBURG, May 20.—The Presbyterian general assembly surpasses itself this year in bringing important business quickly to the front. In the interval between the appointing of the standing committees and the regular dates on which to make their reports it is usual to consider routine business, but it is unusual for a matter of such widespread interest as the control of the denominational seminaries to come to the fore within 24 hours of the delivery of the opening sermon. The questions at issue have not yet been decided, but the discussion has been begun, and it is to be continued without interruption till the end is reached. The report was read in the morning and in the interval three of four hours was given for its perusal and digestion. In the afternoon an hour and a half was given to debate, three speakers taking part in it. At the close an attempt was made to set an hour for taking the vote, but it was not adopted.

ONE FARE RATE.

Western Lines Take Action Regarding Coming Big Meetings.

CHICAGO, May 20.—The lines of the Western Lines Passenger association have declared a one-fare rate for the following meetings, the largest of the year: Epworth League, at Chattanooga; Christian Endeavor, at Boston; Knights Templar, Boston; Baptist Young People's Progressive union, Baltimore; G. A. R., at Louisville, and National Educational society, Denver.

Callom Not a Candidate.

SEATTLE, Wash., May 20.—United States Senator Callom of Illinois, in an interview, said that he was in no sense a candidate for the presidential nomination but admitted that he would accept it if it were offered him. He expressed himself as believing that the tariff question and not the money question would be the leading issue of the national election.

Mill Owners Will Sue.

KAUKAUNA, Wis., May 20.—A number of mills of this point will file claims against the government for damage arising from shutting off the water power. They claim that owing to the poor condition of the dam in Kaukauna about 35 per cent of the flow of the river leaks through the lower part of the dam instead of running over the crest.

AS VIEWED BY DUN

Advance in Wages of Iron Men the Best Sign of Returning Prosperity.

WHEAT CONTINUES TO GO UP.

Gain of Five Cents for the Week, Partly on Account of Frost.

NEW YORK, May 20.—R. G. Dun & Co.'s Weekly Review of Trade says:

The severe cold snap, with extensive frosts and in some states snow, has, fortunately, done little damage to the great crops, though much to fruit, but has considerably retarded retail trade. The best news of the week is the advance of 10 per cent in wages by the Carnegie works, followed by the Jones & Laughlin establishment, and evidently implying a similar advance by many other concerns. The Illinois Steel company is starting its furnaces without granting the demands of employees. No advance has been found practicable in the woolen mills, where conditions as to prices and foreign competition are very different.

Domestic Trade Enlarging.

With material and steady enlargement in domestic trade, there is still great want of employment in the interior, for money which comes hither, \$3,500,000 during the past week, and with the millions distributed by the syndicate on bond account, stimulates speculation. Accordingly wheat has risen 5 cents, although the reports of injury by frost does not appear, upon sitting, to concern any considerable proportion of the growing grain. Corn has advanced only half a cent, being apparently injured more than wheat, but the acreage gives promise of a yield of 2,000,000,000 bushels. Bessemer iron has risen to \$11.40 at Pittsburg, with gray forge to \$9.65. Finished products

Are in Larger Demand.

but as yet not large enough to cause any general advance in prices and proposals of combinations in merchants steel, structural iron, cast pipe, wire rods and cut nails, with the existing combination in steel rails, show that the market does not rise of itself. Woollen goods manufacturers are above parity with quotations at the seaboard and lower prices are looked for. Heaviest transactions continue on Australians. Failures during the past week have been 212 in the United States, against 219 last year, and 37 in Canada, against 24 last year.

RUSHING FOR LAND.

Great Preparations for the Opening of the Yankton Reservation.

MITCHELL, S. D., May 20.—The register and receiver of the local land office here have received instructions to accept filings on the Yankton reservation land Thursday, May 21, at 12 o'clock, noon. The fact that the outlook for a large crop in the Dakotas this fall and that the land opened to settlement embraces 168,000 acres of the choicest land in the state, together with the prospects of the Omaha extending their lines through the reservation, will cause a great rush for this valuable land. Already the reservation border is lined with people who have been waiting for President Cleveland to say the word. A large number of settlers have passed through here in covered wagons en route for the reservation.

THAT HILL DEAL.

No Large Transfer of Northern Pacific Bonds in London.

NEW YORK, May 20.—A special to The World from London, says: If James J. Hill of the Great Northern has brought a controlling interest in the Northern Pacific, as reported, the fact cannot be verified here. London bankers say no large transfer of Northern Pacific bonds by English bondholders has been noted. Mr. Hill cannot be found in London.

Coal Receipts Light.

DULUTH, May 20.—While ore and lumber are going out of Duluth and Superior at a rapid rate, it is several years since such a poor showing has been made in coal receipts, except last year, when the strike was on at the coal mines. During the past week only a dozen coal boats have arrived in both ports. Lumber shipments amount to 10,000,000 feet a week, and ore shipments to 30,000 tons.

Case Involves \$400,000.

CINCINNATI, May 20.—A consent

ROYAL Baking Powder.
Highest of all in leavening strength.—U. S. Government Report

entry was made before Judge Taft of the United States court in the case of the First National bank of New York against David Armstrong, receiver of the Fidelity National bank. The judgment was for the defendant with costs to be paid by the plaintiff. The case involved about \$400,000.

Big Demand for Wheat.

ST. LOUIS, May 20.—There has been for some time a steady demand for cash wheat by city and outside mills of this state, Illinois, Indiana, Kansas, Tennessee, Kentucky, Arkansas, Texas, Alabama and Georgia. Sellers are asking 71 cents loaded on cars for No. 3 red wheat and some sales have been made at that figure.

Fond of Matrimony.

LUVERNE, Minn., May 20.—J. B. Downs of Luverne, aged 76, and Mrs. Harriet McKean of Anoka, Minn., aged 75, who were recently married, have returned here to take up their residence. This is husband No. 3 for her and wife No. 4 for him.

Duke of Hamilton Dead.

LONDON, May 20.—The Duke of Hamilton and Brandon died at Algiers, aged 52 years. He was premier duke of Scotland, hereditary keeper of Holyrood palace, a deputy lieutenant for the counties of Lanark and Bute and a magistrate for Suffolk.

Chill on a Gold Basis.

WASHINGTON, May 20.—The text of Chili's currency convention bill, as passed by both houses of congress has been received here. It provides for specie payment from June 1, 1895, two weeks hence, and as both metals are equally valuable, it promises to have an important bearing on the parity of the metals.

Bimetallic Union.

SALT LAKE, May 20.—The silver convention provided for a permanent organization to be called the Bimetallic Union. The purpose of the organization is to spread the doctrine of bimetallicism at the ratio of 16 to 1, by the circulation of documents, holding meetings and by other appropriate means.

Committee Hostile to Silver.

JEFFERSON CITY, Mo., May 20.—Secretary Reveley of the Democratic state central committee gives it out that the committee has not taken any action in regard to calling a Democratic state silver convention, and the impression prevails that the committee is secretly hostile to the free coinage of silver.

Iowa Evangelical Synod.

DUQUOUE, Ia., May 20.—The annual session of the Northern district of the Evangelical synod of Iowa met here. The session will last several days. One hundred delegates are present, representing the synod, which includes Northern Iowa and Southern Minnesota, having a total of 350 ministers.

Mines Close Down.

NEGAUNEE, Mich., May 20.—The group of mines for the Buffalo Mining company, controlled by Corrigan, McKinney & Co. of Cleveland, closed down, throwing 250 men out of employment. It is said that work will be resumed shortly with about 80 men.

Melrose a Division Point.

MELROSE, Minn., May 20.—The Great Northern road has surveyors at work here laying out sidetracks and staking the foundations for a building for the new division point. This is the beginning of the removal of division headquarters from St. Cloud here.

Law Wallace Declines.

INDIANAPOLIS, May 20.—General Lew Wallace, who with General Fred Kneifer and Colonel G. V. Menzies, was appointed a regent of the state soldiers and sailors monument, has declined to accept the office.

Once Was Rich.

OSHKOSH, Wis., May 20.—Oscar D. Peck, a retired lumberman, well known throughout this state, is lying at the point of death here from heart trouble. Twenty years ago Mr. Peck was one of the wealthiest men in this section, but lost his money in unfortunate investments.

Requisition for Sampson.

PIERRE, S. D., May 20.—Requisition papers were issued for Joseph Sampson, the Sioux Falls acting mayor, who skipped with funds secured from fines. He is under arrest at Sun Dance, Wyo.

How's This!

We offer one hundred dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. Cheney & Co., props., Toledo, O.
We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm.
