

TO LAND MARINES

Massacre Investigation Commission in China Needs Protection.

ARE PRACTICALLY PRISONERS

Commander of the Cruiser Detroit Inquiring into the Matter.

LONDON, Aug. 26.—A special dispatch from Shanghai says that the members of the commission which recently left Foo Chow for Cheng Tu, in order to investigate the recent massacre of missionaries there, are virtually prisoners, and that Commander Newell of the United States cruiser Detroit has gone to Cheng Tu to consult with J. C. Hixson, United States consul at Foo Chow, who is the leading member of the commission, about the landing of marines for his protection, and for the protection of the other members of the commission.

The dispatch further adds that the Chinese officials are jubilant at the defeat of the efforts of the American and British consuls to obtain an open inquiry into the massacres. It is also said that the delay is giving the Chinese time to prepare a defense for the prisoners.

Officials Discredit the Story.

WASHINGTON, Aug. 26.—It is said here that Ku Cheng is meant wherever Cheng Tu is used in the London dispatch, as Cheng Tu is the scene of the June riots and is 1,400 miles from Foo Chow. Naval officials, though without information themselves, are inclined to discredit the information in the dispatch. The navy department thought that if Commander Newell had gone on any such mission the department would have been notified.

Butchered Chinese Converts.

LONDON, Aug. 26.—A special dispatch from Shanghai says that many Chinese converts were butchered when the American mission outside Foo Chow was attacked and the chapel and school wrecked by an infuriated mob on the morning of Aug. 22.

EUSTIS MAKES A MOVE.

Instructions From the State Department Partially Carried Out.

WASHINGTON, Aug. 26.—Officials of the state department are gratified to learn that Ambassador Eustis has made a move in the matter of ex-Congressman Waller, and has carried out a portion of the instructions which have been sent him. The department has felt that its efforts in this case have not been as ably seconded at Paris as they might have been, and Ambassador Eustis explains in his dispatch that the delay has been due to the absence of the minister of foreign affairs. The department believes that within a few days the French government will make some response to the request made for the papers in the case of Mr. Waller.

GOVERNMENT FORMED.

Cuban Insurgents Adopt a Constitution.

PHILADELPHIA, Aug. 26.—News has been received in this city that a complete government has been formed by the Cuban insurgents at Najasa by a conference of the delegates from all five of the provinces on the island. The conference was presided over by General Maceo, and other leaders present were Antonio Tullio, Carilo and Gomez. A constitution was adopted, which, because of its liberal provisions, was enthusiastically received by all the armies in the field to whom it was read.

The Latest Theory.

DENVER, Aug. 26.—The latest theory regarding the Gumry hotel disaster is that it was Mr. Gumry, instead of the engineer, who caused the explosion. It is claimed that Mr. Gumry, knowing that his engineer was drinking, may have gone down to see if the boiler had plenty of water in it, and finding none showed up in the water glass, he may have turned on the pump.

Mother Arnold Will Be Present.

COLUMBUS, O., Aug. 26.—Laura Jackson Arnold, aged 70 years, sister of Stonewall Jackson, and residing here, has left to attend the reunion at Buckhannon of the Fifth West Virginia union cavalry, of which she is the "mother," having been a union woman during the war.

An Ancient Custom Dying Out.

The Society For the Protection of Birds of England is rejecting that at last a reaction has come against the universal use of birds' feathers on hats and bonnets. When the London season opened in May, every woman wore a graceful spray of soft, fine plumes, with drooping or curly tips. These bird of paradise feathers were in quantities at every milliner's. Mixed in the same spray were delicate osprey tips, which had long been in fashion. During the season one warehouse of the many engaged in the traffic disposed of 60,000 dozens of these mixed sprays. They are now disappearing, but perhaps because it is announced that the supply of birds is almost exhausted.—New York Sun.

GREAT IS SURGERY.

Interesting Operation of Re-enforcing the Blood Recently Performed.

An interesting surgical operation, one which is new to Springfield, was performed about two weeks ago by Dr. W. A. Smith, one of the new members of the fraternity in this city. The operation was the infusion into an exhausted system of a saline solution to increase the supply of blood. The blood is saline, and the solution is transformed into blood rapidly and produces an effect which is not only stimulating, but permanent.

The patient in this case has been suffering for a long time with a tumor in the abdomen, which had sapped her vitality till her system could not stand the cutting which was necessary. It was found advisable to take this method of strengthening the system. The patient was put under the influence of an anesthetic, and the injection was made between the breast and the muscles of the chest. About a pint of the solution was injected, a fountain syringe being used. The breast absorbs the fluid quickly into the veins, and in this case within 13 hours all the solution had been taken up by the system. It has been quite successful, and the patient is so much stronger that it is hoped that the removal of the tumor can be attempted before a great while.—Springfield Republican.

Proposals for Building Bridges.

Bids will be received by the boards of commissioners of Madison and Jefferson counties, State of Montana, at a joint session of said boards, to be held at the residence of Mr. Edward Cardwell, in Jefferson county, on Saturday, September 21st, 1895, for building a bridge across the Jefferson river, at a point thereon, about one-half mile south of the "Jefferson Island Sliding" on the Butte branch of the N. P. R. R. Such proposed bridge to be a full iron or steel bridge, or a combination bridge in two spans of 120 feet each, (the entire bridge to be 240 feet in length as near as can now be determined) with 14 feet roadway, and be erected upon iron cylinders under piers; the center pier to be four feet in diameter and the end piers to be three feet in diameter.

All bids for building such bridge must be accompanied by the plans and specifications therefor, and must also be accompanied by a deposit of at least 10 per cent. of the amount of such bid, in cash, or by properly certified check, to guarantee the fulfillment of such bid, if accepted, such cash or check to be returned to the party depositing the same, immediately upon the rejection of the bid by which it was accompanied.

Sealed bids for building such bridge may be filed with the county clerk of Madison county, at his residence, at Jefferson Island, or at the proposed meeting place of said boards, not later than 10 o'clock a. m. on said 21st day of September, 1895; at which last named time and date, all bids will be opened by the said boards of commissioners in joint session, and the acceptance of any bid or the rejection of all bids then and there determined. The two boards, jointly, or either board separately, reserve the right to reject any and all bids, plans and specifications for the construction of such bridge.

Done at Virginia City, this 13th day of August, A. D. 1895, by order of the Board of Commissioners of Madison county, Montana, BARN LAY JONES, Clerk of said Board.
