

# CLARKE HAS HIS SAY.

## Governor of Arkansas Takes a Hand in the Prize Fight Arrangements.

### Officials Notified to Stop It and to Call for State Aid if Necessary.

### Warning Sent to Managers and Pugs That the Affair Cannot Occur.

LITTLE ROCK, Ark., Oct. 14.—Governor Clarke, who has been examining the laws touching the gubernatorial power to prevent prize fighting, has outlined his intentions in communications addressed to the officers at Hot Springs and the principals in the proposed fight. Upon the question of the proper mode of proceeding the governor has consulted with other lawyers and his pronouncement in favor of preventative measures is regarded as final. The governor will hold himself ready to co-operate with Judge Duffie of the Hot Springs district to prevent the fight should it appear that the local authorities fail to impress upon the fighters and their backers with sufficient force the propriety of declaring the fight off.

#### Backs Up Judge Duffie.

In his letter to Judge Duffie, Governor Clarke says:

"I beg to assure you that you shall have my prompt and cheerful co-operation in any effort you may make to suppress the proposed fight at Hot Springs. Any order that you may make in this connection shall not prove ineffective for want of power to enforce it. I say this with confidence, because I hold in the highest respect the fidelity and courage of Sheriff Hought. I feel sure his active assistance can be relied upon, but it is said that even Jupiter sometimes nods. If it shall, contrary to my expectations, become necessary to proceed without the valuable aid of the sheriff, I stand ready to supply all that may be necessary.

"I agree with you that preventative proceedings will in this instance meet the demands of law and justice."

#### Warns the Pugs.

In addition to notifying President Dan Stewart of the Florida Athletic club by mail of his determination to prevent the fight, Governor Clarke telegraphed to Corbett and Fitzsimmons as follows:

"I am advised by press dispatches that it is your purpose at an early day to engage in a prize fight in this state. The purpose of this is to inform you that such an act is in violation of our law and an affront to the sentiment of state pride entertained by our people. It will therefore not be possible for you to accomplish any such purpose, and any attempt upon your part to do so will subject you to penalties and to treatment that I am sure will be highly distasteful to you."

#### A Bid From Minnesota.

VIRGINIA, Minn., Oct. 14.—The Virginia Athletic club of this city has offered a purse of \$50,000 for the Corbett-Fitzsimmons fight, to take place in the city of Virginia, St. Louis county, Minn., at any time within the next six months. Thirty thousand dollars of the above has already been deposited as a guarantee of good faith in the County bank of Virginia.

#### Ready to Leave Texas.

SAN ANTONIO, Tex., Oct. 14.—Corbett and his party will leave here Monday night for Hot Springs. The arrangements for their departure have already been made. Brady, however, is not confident that the fight will be pulled off in Arkansas.

## TO PROTECT MISSIONS.

### An American Warship Sent to Turkish Waters.

WASHINGTON, Oct. 14.—By request of Minister Terrell for the protection of American missionaries in Turkey, and at the instance of the state department, the navy department has ordered the Marblehead to the Gulf of Iskenderoon (Gulf of Alexandretta). Minister Terrell also telegraphs that orders have been issued for all provinces to protect Americans.

It is not believed that there is imminent danger of an outbreak, but the warship has been ordered to Turkey rather as a precautionary measure.

#### Colored Murderer Hanged.

LIBERTY, Tex., Oct. 14.—Kit Robinson (colored) was hanged here before a large number of people for the murder in June, 1896, of John Johnson, an old white man who was a pumper for a railroad. Robinson confessed his crime. While endeavoring to shield Robinson from a posse last June his half brother and another negro was killed.

#### Synod of North Dakota.

FARGO, N. D., Oct. 14.—The 11th annual session of the North Dakota synod is in session in the Presbyterian church of this city. The meeting was called to

order by Retiring Moderator Crosswell of Rolla, after which Rev. J. P. Schell of Drayton was elected moderator. The session continues three days.

#### Death Was Accidental.

MINNEAPOLIS, Oct. 14.—An investigation into the death of the unknown man found dead in the Arlington hotel, this city, shows that it resulted from an accident, probably from a fall, which he sustained while drunk.

#### An Oratorical Association.

St. JOSEPH, Oct. 14.—Delegates from the normal schools of Missouri, Iowa, Kansas and Illinois met here and organized the Interstate Normal Oratorical association. Oratorical contests will be held annually.

#### HANDLING BOA CONSTRICTORS.

### The Trick by Which the Serpents Are Managed Without Danger.

Snake dealers in South America have a fine contempt for their squirming and venomous wares, though it is sometimes difficult to induce ship captains to carry them as freight. The snake dealers handle the boa constrictor with great deftness. This serpent bites, but his bite is not venomous, so that the chief danger to the handler is from the serpent's enormously powerful muscles. The dealers have learned that the boa, to be really dangerous, must have a fulcrum in the shape of something around which he may coil his tail.

The boa is, in fact, a lever in which the ordinary arrangement is power, weight, fulcrum. Knowing this, the dealers drop a soft hat over his head, that he may neither see nor bite, and then snatch him so suddenly from his resting place that he has no opportunity to brace himself by seizing a fixed object with his tail. After that the essential thing is to see that he is not brought within distance of any such object.

A snake dealer on a Brazilian steamer the other day was occupied in transferring his boas from one box to another. He opened the box an instant, dropped a hat over the head of one of the creatures, snatched it from its fellows, and rushing across the deck dropped it into the other box. The thing looked so easy that a deck hand, waiting until the snake owner's back was turned, essayed to repeat the act. He neglected to use the hat, and with a yell yanked a great snake from the box with its fangs fixed in his fingers. Not daring to let go, yet fearing to hold on, he began whirling the snake about his head, meanwhile dancing madly over the deck. The snake man managed to capture the reptile and box it in security. Then somebody expressed concern for the rash deck hand, to which the snake owner answered:

"What, him? He's all right. But think of my snake! It's worth 20 of that mug!"—New York Sun.

#### STRAIN ON THE EYES.

### Children at School Are Inclined to Have "the Academy Headache."

One of the common causes of pain above the brows is the overuse of the eyes and the strain of accommodation in constantly looking at near objects. In its transient form it may be familiar to some as the result of a visit to a picture gallery, but in more senses than one this may be known as "the academy headache," for it is temporarily developed in a morning spent at Burlington House it is even more readily excited and permanently established among the children at the board schools and the girls of the high schools. Seventy-two per cent of the children of today are said to be sufferers from defective eyesight, generally in the direction of difficulty in seeing near objects clearly. Headache is almost always present in the cases of the poor little creatures, whose bodies are starved while their minds are overfed in the scramble for educational grants.

The ocular headache is often co-existent with the anemic headache, especially in growing girls. Here we find frontal or supraorbital pain, due to eye strain, associated with the vertical pain felt all over the top of the head, which is characteristic of bloodlessness. Plenty of wholesome food, fresh air and out of door exercise will help to combat the anemia, while the practice of looking at distant objects, and, alas! the use of appropriate spectacles may relieve the headache of eyestrain, but reading, writing and sewing will permanently damage the sight, so that for the sake of education and in the struggle for life the coming race is growing up purblind. —Philadelphia Press.

#### Bound to Have a License.

A bowhiskered man who didn't look as prosperous as some of those behind him pushed himself to the front of the line in the city comptroller's office yesterday and stood at the license window. "Is this where they get wagon licenses?" he asked the clerk. "Yes, this is the place. Pay your money up stairs and bring the receipt down here," was the reply. "Lem me see. How much is a wagon license?" inquired the unprosperous man as he fingered his pocket. "It will cost you \$3." "No less on that?" "No, that's the price regulated by law." "How much for an express license?" "That will cost you \$1.25."

"Well, I can't afford it. I'll run my old wagon in the shed and turn my horses out to pasture. I ain't got enough money and can't borrow it."

"Well, I'm sorry"— "Say, how much is a dog license?" "One dollar." "Well, gimme one. That's all I can afford."—Indianapolis Journal.

#### The Ball Nozzle.

According to Chief Bonner, the ball nozzle which has excited so much interest throughout the country is destined to work a radical and highly beneficial change in the system of fighting fire. Instead of working at a distance with straight streams, firemen, by using the ball nozzle, can enter burning buildings and work at close range, thus not only doing more effective work, but averting to a considerable extent the serious damage to interior property, and in many cases this system will enable firemen to save the lives of inmates of burning buildings. The man who has given the world an appliance of such value is certainly entitled to the gratitude of his fellow men.—New York Tribune.

#### To Each His Part.

Mrs. Snaggs—What do you think of the inference that Mark Antony was an undertaker because he said his mission was to bury Caesar not to praise him? Mr. Snaggs—That is a very fair inference. The man who carved the tombstone would attend to the praising part.—Pittsburg Chronicle-Telegraph.

#### CARLISLE'S AXIOMS SPOILED.

### A Republican Newspaper Sees the Secretary and Goes Him One Better.

Mr. Carlisle in one of his speeches delivered himself of five so called axioms, which the gold press in the east is circulating as something profound and unanswerable. They are as follows:

1. There is not a free coinage country in the world today that is not on a silver basis.
2. There is not a gold standard country in the world today that does not use silver money along with gold.
3. There is not a silver standard country in the world today that uses any gold along with silver.
4. There is not a silver standard country in the world today that has more than one-third of the circulation per capita than the United States has.
5. There is not a silver standard country in the world today where the laboring man receives fair pay for his day's work.

We will offset those five with six others:

1. There is not one free coinage country in the world today that is not enjoying unexampled prosperity, the only drawback being a foreign debt contracted on the gold basis.
2. There is not a gold standard country in the world today the property of which has not shrunk from 95 to 60 per cent during the last 21 years; not one in which there are not unexampled depression, distress and sorrow.
3. There is not a silver standard country in the world today that has any need of gold money except to settle foreign balances, and there is not a gold standard country in all the world today that the bulk of all the gold is not locked up in the treasury or in the banks and the people are suffering from "sound money" asphyxia.
4. There is not a silver standard country in the world today where there are any idle deposits lying in the banks, all the money being in active circulation and drawing large interest, and the circulation per capita in the United States of real money is just about what it is in Mexico, nearly all the money of ultimate redemption being hid away in the vaults of the treasury and national banks.
5. There is not a silver standard country in the world today where the laboring man is not receiving full pay and more regular work than he ever received before. There is not a gold country in the world today where a vast proportion of the people are not idle and where wages are above the rates of 1849, except where they have been maintained by the stubborn persistence of the labor unions.
6. There is not a silver standard country in the world today where the people are not doing better than ever before. There is not a gold standard country where the people are not in more distress and suffering, more loss and more apprehension than ever before.—Salt Lake Tribune.

#### Goldite Argument.

The Harvey-Horr debate resolved itself into something of this sort toward the last:

Harvey—The unit of value is silver, see act 1793.

Horr—You are a liar!

Harvey—The volume of money in circulation controls the volume of prices.

Horr—You dod damned liar, you know better!

Harvey—The act of 1873 was surreptitiously passed and is in fact a crime.

Horr—You are a liar.

Echo from Sherman—Liar!

Harvey—Times will never improve while we remain on the gold basis.

Horr—You are a liar!

Echo from Botham—Liar!

Chorus of Goldbug Papers—Liar!

Liar! Liar!—Denver Road.

#### Notice of Taxes Due.

STATE of Montana, County of Madison, Office of the County Treasurer.

Notice is hereby given that the State and County taxes for the year 1895 are now due and payable at the office of the County Treasurer, at the Court-house in the City of Virginia, County of Madison, State of Montana. Said taxes will be delinquent on Monday, the second day of December, 1895, at six o'clock P. M. of said day, and unless paid prior thereto ten per cent will be added to the amount thereof; and the law requires that property upon which taxes are delinquent shall be immediately advertised for sale or seized and sold for the payment of said taxes and costs.

Dated this sixteenth day of October, 1895.

J. ALBRIGHT, Treasurer of Madison County

#### Register's Notice for Publication.

DEPARTMENT of the Interior, United States Land Office, Helena, Montana, October 4, 1895.

A report of the State, marked Exhibits A and B, having been filed in this office on the third day of October, 1895, by the commission appointed for this land district under an act of Congress approved February 26, 1887, entitled "An act to provide for the examination and classification of certain mineral lands in the States of Montana and Idaho," showing the classification of lands within the land grant limits (or the indemnity land grant limits) of the Northern Pacific Railroad Company, made by said commissioners from September 1st, 1895, to September 30, 1895, both dates inclusive, as follows:

LANDS CLASSIFIED AS NONMINERAL.

Notice is hereby given in compliance with the fifth section of said act that any person, corporation or company feeling aggrieved by said classification may, within sixty days after the date of the first publication hereof, file in this office a duly verified protest against the acceptance of said classification, which protest shall set forth in concise language the grounds of objection as to the particular (Government subdivision) of land in said protest described, whereupon an order for a hearing shall issue.

That portion of the report of the commissioners marked exhibit B is on file in this office and open to the examination of interested parties.

Notice is further given that by the terms of said act of February 26, 1887, "that as to the lands against the classification whereof no protest shall have been filed" "the classification when approved by the Secretary of the Interior, shall be considered final, except in case of fraud."

W. E. COX, Register.

[First publication Oct. 12, 1895.] 51-54

#### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rambling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Write One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
