RED CROSS WILL ACT

American Society to Undertake the Work of Relief in Armenia.

Hundreds of Thousands Destitute and Millions of Dollars Needed.

Official Accounts Show That Affairs Are Worse Than Reported.

WASHINGTON, Dec. 16.—The American Red Cross society has decided to accept the duty of distributing the relief funds for the Armenian sufferers and has issued the following statement: Owing to the unanimous and urgent appeals from the friends of humanity, representing nearly all of the people of this country, the American National Red Cross society has decided that it must accept the sacred trust of endeavoring to relieve starving Armenians in Asia Minor. According to conservative estimates there are 350,000 utterly destitute people in that country who will have to be assisted until the next harvest. Fully realizing the difficulties and dangers to be met the Red Cross will start for Turkey as soon as sufficient funds are placed at its disposal, or guaranteed, to insure success. Fund may be sent to Miss Clara Barton, president and treasurer of the American National Red Cross society, Washington.

Millions of Dollars Are Needed. The information reaching the society, through mission boards and other sources in Turkey, places the number of destitute between 350,000 and 500,000, mostly women and children. Such widespread want, Miss Barton says, can be met only by relief funds running into the millions. It is estimated that the cost of relief per capita will be much heavier than in the case of the Johnstown and Sea Island sufferers, owing to the inaccessibility of the sufferers. The Red Cross party, including Miss Barton, will leave immediately after being assured of a sufficient sum to carry forward the work. The start must be made at an early day, as it will take five weeks to get to the distressed district, and the demands of the suffering people are urgent.

Worse and Worse. Official Reports Show an Unparalleled State of Affairs. CONSTANTINOPLE, Dec. 16.—At a meeting of the ambassadors reports received from Armenia at the different embassies were compared and thoroughly discussed with the view of enabling the different representatives to compile full reports on the subject for the use of their governments. It is believed that if the result of this conference is published it will show an unparalleled state of affairs. The misery and distress in Armenia is said to be more severe than the most vivid reports have made out, and the number of people massacred is said to be greater than anybody here really believed.

Further Massacres Feared. Letters received here from Aleppo say that there is serious fear there of a massacre of the Christians unless the powers intervene promptly to prevent it. News was also received from Zeitoun that the Turkish troops from Marash are surrounding the Armenians, cutting off their lines of communication and preventing them from obtaining reinforcements, provisions and the supplies of arms and ammunition which are understood to have been forwarded to them from many parts of Turkey. When the town of Zeitoun is completely surrounded it is believed that the Armenians will quickly be starved into submission.
