

# WALL STREET EXCITED

General Feeling of Uneasiness on 'Change Much Resembled a Panic.

Depression of American Securities Abroad the Principal Cause.

Sales for the Day Reach an Amount Rarely Before Surpassed.

NEW YORK, Dec. 23.—It was a day of excitement on Wall street and matters for a time bore the resemblance of a panic. But this condition of affairs had not been unexpected, and the dealers had prepared themselves to some extent. Before the opening of business on the Stock Exchange it was announced that \$3,400,000 in gold would be sent out of the country, and later in the day the further export of \$600,000 was announced. This, together with the cable advices from London announcing extensive sales of American securities and the tenor of the war news from all quarters, was responsible for the general feeling of uneasiness that prevailed even early in the day. The spirit of the market was to sell, and in the big exchanges this was done to an extent

### Rarely Before Surpassed.

In the Stock Exchange the sales for the day were 775,761 shares. New York Central, St. Paul, Louisville and Nashville, Wabash, Missouri, Kansas and Texas preferred, Reading, Atchison, Illinois Central and Canada Pacific were the principal sufferers by reason of their international listing.

With the fall in prices the banks called in all their loans thus adding to the complications of the situation. Much money was loaned at very high interest to carry stocks and in many instances renewals would not be made under any condition whatever. Money was loaned on call late in the afternoon at as high as 80 per cent and most loans were marked up 15 per cent by the banks.

### A Number of Failures Result.

As a result of the decline in stocks the failure of the following firms was announced on the Stock Exchange during the day: Nichols, Frothingham & Co., Samuel S. Sands & Co., De Neufville & Co., L. A. Feldman and B. Fenton.

M. M. Packard & Co., dealers in spices and teas, made an assignment to Joseph Case. Tightness of money is given as the cause. The firm was one of the oldest known to the spice trade. It was said the assets would probably reach \$100,000, while the liabilities are thought to be below that figure.

### OF SHORT DURATION.

Chicago Bankers Don't Consider the Present Flurry Serious.

CHICAGO, Dec. 23.—Every banker in Chicago looks for the end of this flurry by 48 hours at latest.

"I have no doubt," said William T. Baker, president of the board of trade, "that the English premier has given the tip to draw gold from America. It is the only way England can fight this country single-handed, and our deplorable currency laws invite this mode of attack."

P. D. Armour is not worried by the New York panic. He calls it senseless to start with and declares that in his belief it will be of only short duration. He so cabled to London on inquiry from there.

### THE SECOND MESSAGE.

The London Times Says It's as Remarkable as the First.

LONDON, Dec. 23.—The Times says in an editorial: This second message is as remarkable as the first. Whatever happens in the future President Cleveland will always have the proud satisfaction of knowing that he twice astonished the world within a single week. With an air of the utmost innocence he takes note of the panic he himself has originated in precisely the tone he would appropriate to the discussion of a calamity due to causes beyond human control.

The Daily News says: President Cleveland has inflicted a heavier blow upon his own country than upon ours. He will find that no bond issues or withdrawal of notes is so effective as the assurances of peace. He must now be conscious of his mistake. If he is willing to repair it he will find in the British government and people every disposition to forget his hot words.

### CALLS IT VERY SERIOUS.

Lord Salisbury's Son Discusses the Situation.

LONDON, Dec. 23.—Lord Cranborne, the Marquis of Salisbury's eldest son, speaking at Rochester, dwelt on the necessity of maintaining the strength of the navy. It was disquieting, serious news, he said, that came from America. He did not admire the tactics of presidential elections in America, but if this was only a question of international

wirepulling, it mattered little to England. Whatever happened, he concluded, the people might be assured that the present advisers of the crown would worthily maintain England's great reputation.

Lord Salisbury, through his private secretary, said he would probably take early occasion to express his personal sentiments toward the United States in some public address from the platform or at a private dinner.
