

THE MATTER SETTLED

Understanding Reached With Great Britain on the Venezuelan Question.

Details Yet to Be Perfected, but Not of a Nature to Cause Trouble.

Expected That the President's Message Will Detail the Negotiations.

CHICAGO, Oct. 19.—The Times-Herald prints the following dispatch from its Washington correspondent under the caption, "Britain Has Yielded."

President Cleveland, in his next annual message to congress, will be able to state that a definite understanding has been reached with Great Britain for the amicable settlement of the long pending Venezuelan boundary dispute. After long and tedious negotiations a definite understanding has been reached on all the main questions and the controversy will be settled by reference to a peaceful arbitration. There are details yet to be perfected, but none of them is of such a nature as to in the least endanger the prospects for the final disposition of the case and the restoration of diplomatic relations between

Great Britain and Venezuela

during the term of President Cleveland. Information has been gained that when Sir Julian Pauncefote shall arrive in this country in a day or two he will come with such instructions as to leave no room for doubt that he and Secretary Olney will be able in a very short time formally to reach a definite agreement for the final settlement of the dispute.

The propositions to be presented by Sir Julian Pauncefote will embrace greater concessions than have ever heretofore been made by Great Britain. Although it is not definitely known what view the Venezuelan government will take of the matter, Secretary Olney is understood to be well satisfied that there will be no great difficulty in adjusting the matter to the entire satisfaction of all parties concerned and in a manner entirely honorable to Great Britain as well as the United States.

DON'T PLEASE THE ENGLISH

Sir Edward Clark's Speech Severely Commented On.

LONDON, Oct. 19.—A great sensation has been caused in the political world by the speech of Sir Edward Clark, in which he said, speaking of the Venezuela question, that the decision of the American boundary commission would be against England. Sir Edward's assertion is widely commented on in all political circles and in the press.

The Daily News (Liberal), in addition to an editorial, devotes two columns with a map to giving in extenso the tracts and the explanation of the mystery of the alleged "cooked" map of the Schomburgk line and asks: "What's the matter with Sir Edward Clark? His statements are astounding and they indicate an amazing ignorance of the English line book refuting the Venezuelan case."

The Daily News says it supposes that Sir Edward is infected with the dangerous disease of inverted jingoism. "The panic stricken talk of the whipping Lord Salisbury is likely to get from the new president is only calculated to reanimate the American jingoes and to make conciliation and compromise harder."

TO RECOGNIZE INSURGENTS

Said the President Will Soon Take Action Regarding Cuba.

CHICAGO, Oct. 19.—A special to The Times-Herald from Washington says: If Spain does not end the war in Cuba within three months the insurgents will receive from the United States, virtual recognition of their independence. It can be further stated on authority that the president does not expect that Spain will end the war with the tactics now employed during the present year, and that he is fully convinced that the grave duty will devolve upon him of taking a vigorous stand in this matter. A high official of the administration said that action by the president may be looked for by the first of the year. Long before that time the Venezuelan question will be disposed of and the administration will be left free to devise a plan for restoring peace to Cuba.

FAILED TO GET THEIR MAN.

Spanish Officials Attempt to Make an Arrest on Board Ship.

HAVANA, Oct. 19.—Another international incident occurred in the harbor here during the day. The police attempted to arrest on board the Ward line steamship Vigilancia a passenger who was on his way from New York to Mexico. The man's name was Angel Fernandez. He was born in Asturias, Spain, but claimed to be a Mexican citizen. Captain McIntosh of the Vigilancia refused to deliver the man up

and the police ordered the Vigilancia to be detained. Thereupon Captain McIntosh consulted with General Fitzhugh Lee, the United States consul general, and soon afterwards the Vigilancia was allowed to sail with Fernandez on board to Mexico.

Will End in Chicago.

CHICAGO, Oct. 19.—Two presidential candidates will invade Chicago the last week of the campaign. The gold Democrats have secured a promise from Senator Palmer that he will canvass Cook county and make a number of speeches. W. J. Bryan will also be here and is scheduled for 17 speeches in the three days he will spend in Chicago.
