WHITE SULPHUR SPRINGS.

THE proprietors of these Springt are prepared to receive and accommodate viaiters. This delightful varieting place is situated eight miles cast of Woodstock, between the Fort and Mansanutten Mountains. The new Building (one hundred feet in length.) commenced last season, has been completed, and is ready for the reception of BOARDERS; and a number of Cottages, or the use of Families, have been erected convenient to the boarding apartment.

These SPRINGS consist of White, Blue and Black Sulphus, Chalveratte, Chalveratte,

deed, the same of the Mountains, embracing the Page and Warren and Shenandosh Valleys, must be seen to be appreciated.

In addition to the Springs proper, there are a number of others in the vicinity, the principal of which are: 1. The celebrated Mountain Spring, 100 yards distant; 2. The celebrate Spring, as short distance from this; 3. Immediately above is a Chalybeate, sending forth a limple stream; 4. To the south from the Springs, about three quarters of a mile, gushing from the mountain side, is the Sweet Chalybeate Spring, The new Spring recently opened amid the beautiful group of willows that shade the Sulphur Springs, and which is believed to possess peculiar medicinal qualities, completes the list.

Visiters coming from the North or East, can enter the picturesque valley through the narrow passage formed by the proximity of he mountains, about tweive miles to the north east from he Springs. The rugged grandeur of this natural deflic, the rocks towering to the very clouds, strikes the traveller with awe and admiration.

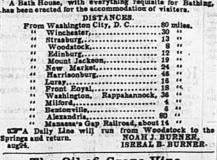

On arriving at the Forings, the invalid has at once withdrawn from the cares and perplexities, tolks and monotony of the busy world, and may recuperate his exhausted energies by quaring the pure waters that incessantly flow around him, and partaking of the rich visuals that are daily prepared for the nourishment of his frail body.

We will state, for the benefit of those who may not be aware of the fact, that we own a large farm attached to the Springs, when may protect.

LIVER COMPLAINT AND SALT RHEUM.

NEW YORK, July 27, 1849.

Mesers. A. B. & D. Sande,—Gentlemen:—Words can but feebly express my opinions, in conveying the pleasing latelligence that my wife is restored to periect health by the use of your invaluable Saraparila. She was afflicted with a severe cutaneous disease that covered the whole surface of the body, so that it would have been impossible to touch any part that was free from the humor; the head, face, and body were covered with scales like those of a fish; the hair fell out in large quantities, and wasking caused the most excruciating agonies, as it affected the joints more severely than any other part. She suffered also a long time from an affection of the liver, connected with general debility, and a proattration of the nervous system. Physicians, both is Europe and America, had exhausted the usual reincules, without effecting a cure, or scarcely affording relief; and the best medical skill was unavailing, until she happily over saraparills. The disease was pronounced salt rheum, but her whole system, internally and externally, was altogether deranged; but socomplete has been the cure, affer using the Saraaparilla for six weeks, and taking in all less than one dozen bottles, that she now enjoys better health than for years previous to taking the Saraaparilla.—My object in making this communication is, that all who have suffered as she has, may know where and to whom to apply for relief, (and that not in vain.) as a complete cure will be the result. My wife unites with me in heartfelt thanks; and believe me, gentlemen,

City and County of New York, as :—Ferrier Nater, being dmy sworn, doth depose and say; that the foregoing statement, to which he has subscribed his name, is true and accurate, to the best of his knowledge and belief.—Sworn and subscribed this 27th day of July, 1849, before me,

Extract from a letter received from a Physician in Md.

Cambridge, Md., Oct. 6th, 1850.

Messis. Sands, Gentlemen:—My little daughter was afficied for a long time with Sore Head and Eyes, and by using your Sarsaparilla, was perfectly cured, other medicines and Sarsaparillas having failed to relieve her. Having used it and tested its efficacy. I now confidently recommend it is preference to any other, as it seems to possessa properties not contained in any other preparation; and I find that purchasers after they have used it, invariably want the same article again, whenever they require a medicine for which this is recommended.

Respectfully yours,

J. Filint, M. D.

THE principal object of this Institution, is to afford young men an opportunity of obtaining a thorough and i timate knowledge of Pouble Entry Book Keeping, and its application to business operations generally. Applicants can enter College at any time and attend both day and evening. The course of instruction is such, as will enable the student to take charge of and conduct on scientific principles, any set of Double Entry Books on completion of the same.—PENMANSHIP—TO write a free and legible hand is a desirable accomplishment in the education of young gentlemen for every profession, and more particularly to those who are desirous of qualifying themselves for mercantile and business pursuits. This department is now conducted by P. R. Spencer, of Ohio, author of the Spencerian system of Penmanship, a gentleman well known throughout the country, as an accomplished penman, and also as one of the frost snocessful teachers of the age.

REAL FIRE PROOF SAFES. MORE PROOF OF THE SUPERIOR QUALITY OF MESSRS. BURKE & BARNES' CELEBRATED FIRE PROOF SAFES.

FIRE PROOF SAFES.

The character of these Safes, in St. Louis, was before so well established, that any further test or proof of the fact of their being superior to all others, would have been unnecessary; but in order to accommodate Mr. Hall, the patentee and maker of "Hall's Patent Concrete Safes," which has burnt up all other makes of any note in the United States, (Wilder's patent included,) we took up his challengy and the result is given below by the Committee who super-intended the burning of the Safes. We only regret that they were not left in the furnaces two hours longer.

The Safe which we tested is to be seen at our Store, and we invite the public to call and examine it as we feel confident that no one will ever doubt their fire proof qualities effer having seen the specimen which passed through the fiery ordeal on the 16th of June.

E. R. VIOLETT, & CO, Sole Agents for the Manufacturers, No. 13, Levee, and No. 26 Com. Street.

Sole Agents for the Manufacturers, No. 13, Levee, and No. 26 Com. Street.

The undersigned, a committee appointed by E. Hall, on behalf of Hall, Dodd & Co., of Cincinnati, and Mesara. R. R. Violett & Co., as agents of Mesara. Barks, Barnes & Co. of Pittsburg, to test the fire proof qualities of the safes made by their respective principals—report, that we have this day subjected a Safe of oach manufacture, of similar size, which had been in use two years, in overs to a fire made with dry oak wood, and Pittsburg stone-coal, for the space of five and a half hours, and during that time we believe the heat applied was far greater than thatin any ordinary confingration—that at the expiration of that time, on taking the safes from the furnece, and cooling them down, we found that the irou casting on both was in places entirely burnet of, but that the books were uniquired; and on opening, the safes we found books and papers entirely uniquired, except slightly by the water used in cooling off.—This we found to be the case with both safes, and the only perceptible difference in the appearance of the interior was that the varnish on the wood-work of Burke & Barnes' safe was entirely uniquired, while that on Hall, Dodd & Co.'s, a was blistered and blackened. In conclusion, we would remark, that from the result of this test, we have no he sitagition in recommending the safes of both parties to the confidence of the public.

Wild Cherry has long been known to possessimportant medicinal properties. This fact is familiar to every natron in our land, and Physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even consumption could be cured by that clone. In other hands, again, it was nearly valueless, owing rodoubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experience and long experiment.

Rush Creek township, Fairfield co. Veb. 25, 1852.

Dear Sir:—As I consider that my life has been greatly prolonged by my being cured of Consumption by the use of "Dr. Wistar's Balsam of Wild Cherry." I will state the symptoms of my case, that others similarly afflicted may be induced to try this invaluable remedy. I experienced great difficulty in breathing; had the hectic fever with violent in the properties of the companied by a very bad cough; was very restiess at nights, and had great night sweats, persuiting, I should say, at least two galloms a night, wetting the bed completely through. I had not been able to work for scars. But I was much emcated, and almost helpless when I commenced using Wistar's Balsam of Wild Cherry. I have used in all 13 bottles, and I am now free from all those complaints, for my health is good.

I am now 65 years old, and have not taken any of the Balsam since 1846, because my health is so good as not to my former symptoms, I should use Wistar's Balsam of Wild Cherry. I procured the medicine of Mesers. Fall & MicCracken, your agents in Lancaster, Ohlo.

READ THE CERTIFICATE

Tallapoosa Co., Ala., Jan. 2, 1862.
Dr. Guysott—Dear Sir.—I send this to certify to you that your Extract of Yellow Dock and Sarsaparills have performed one of the most wonderful cures on me that has ever been affected on man.
I have been affected for forty years with irruptions on I have been afficted for forty years with irruptions on my legs and feet; in 1849 I had one leg amputated above the knee. In about 9 months after my other leg broke out in large eating and running sores from my knee to my foot, and discharged agreat deal of offensive matter, and at the same time my left hand broke out in large running sores nearly 10 my elbow.

The misery that I have suffered for the last two years II.

cannot describe to you; I was in such agony that I never rested day or night. I was given up to die, and by the help of God I had made preparation for death, and had pointed out to my family the place where to bury my rehelp of God I had made preparation for death, and had pointed out to my family the place where to bury my remains.

In October last my son brought me one of your bottlewarpers; I read it, and found record of some wonderful cures performed by your "Extract of Yellow Dock and Sarcaparilla." I sent and got two bottles of it, and commenced taking it. In two weeks to my great astonishment, my sores all become easy, and I could sleep all night, a thing I had not done for two years. When I had taken six bottles, my sores had nearly all healed. My sores got well as if by enchantment. I have now used in all eight bottles of your "Extract of Yellow Dock and Sarsaparilla," and I now consider myself well. I am at a loss for terms to set forth the worth of this medicine, or to express my gratitude for what it has done for me. I must call it the Savior of man from misery while living upon earth.

I entreat all of the afflicted to try this medicine, for I believe it will cure any known disease in the world—Lay aside all prejudices and just try it, and proclaim its great worth to suffering mankind and entreat them to take it, for it will cure them.

My case is well enown in a large portion of South Carolina, Georgia and Alsabama, and if any should doubt the above cure, I invite them to call on me, and I will show them the scars. I can be found in Taliatona Co., Alabama one mile from Stoe's Ferry, BENEJAH HUGHES.

ble and dangerous diseases are speedily and perfectly cured by the use of this medicine.

Dadeville, Alabama, May 21, 1852.

Messrs. Scoville & Head:—This is to certify that about the first of February last, I was afflicted with three or four painful sores on and about the face, some of them as large as a quarter of a dollar; they assumed the appearance of Cancers, and I was fearful they would terminate in Cancers. About three weeks since I enmmenced taking "Doctor Guysott's Extract of Yellow Dock and Sarsaparilla," and found immediate relief from its use. I have not taken quite two bottles, and the sores on my face are all healed up; and those on my neck are nearly so; and I truly believe they will be entirely well in a few days.

I cheerfully recommend "Dr. Guysott's Extract of Yellow Dock and Sarsaparilla" to persons afflicted with any kind of eruptions or cannerous cores. My general health is much improved by the use of the medicine.

Respectfully, RICHARE B, BURKE.

Mechanics, Manufacturers and Inventors.

THE Elonyn Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agriculturel—the genius and master spirit of the nation.

It is unrivalied as a Journal of the Arts and Sciences, and maintains a hige character at home and abroad.

The Publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecensors. Among the subjects chiefly brought forward and discussed in its columns, are: Givit Engineering, Agriculture, Railroads, Bridges, Agricultural Implements, Manufactures of Metal, Fibrous and Textile substances, Macialrery for the purpose, Chemical Processes, Distilling, Coloring, &c., Steam and Gas Engines, Bollers and Furnaces, Nathematical, Philosophical and Optical Instruments, Cars, Carriages, Water-wheels, Wind and Grinding Mills Powers, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all the Patents, Reviews, Notices of New Inventions, American and Foroign. The work is in form for binding, contains several hundred Engardings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a periect Mechanical Engelopedis for future as well as for prizent reference.
