Sidney, (Maine,) April 15, 1850.

Messrs. A. B. & D. Sands:
Gentlemen—This is to certify that I have been afflicted more or less since my birth, with Scionna, which continued to increase uniti nast Pebruary. In January, my legs were so swollen I could not get on a boot or stocking, and I had several large sores on me all the time. In this situation I was about to give up in despair, when I was advised to try Sands' Sarsaparills. I had not much laith in it, but I sent to your agents in Augusta, Me, and procured a bootle, which did me so much good, that I sent and got another, and continued untit had taken five bottles. I am now perfectly well. If any person who may read this letter is afflicted with any disease of Serotula, I wound most sincerely recommend him to use Sands' Sarsaparilla. If any person wishes further information about my case, by calling upon me, I can convince of the healing power of this medicine.

These Reprints have now been in successful operation in this country for the little years, and their circulation is constantly on the increase notwithstanding the competition they encounter from American periodicals of a similar class and from numerous Eclectrics and Magazines made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interruption. terruption.

Although these works are distinguished by the political

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackneood, still under the masterly guidance of christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtonis" and "My New Novel," (both by Bulwer,) "My Penineular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messirs. Scott & Co., so that Subscribers to the Reprint of the Magazine may always rely on having the earliest reading of these fascinating tales.

ERUPTIVE DISEASES.

ERUPTIVE DISEASES.

I has now become a settled fact, acknowledged by the best Physicians of our city, that in the cure of Sci ofuta, Tetter, and many other diseases, Brentlinger's Fluid Extract of Sarsafrilla And Dandelion, is decidedly above all other preparations. It speaks for itself-whenever used; and although we have never taken the pains of having it published through the papers, or appointing agents for the sale of it, yet we are almost weekly receiving orders from Vermont, New York, Ohio, Kentucky and other states, by persons, who by some chance means have heard of its wonderful curative powers. The following is from a gentleman of Vermont a few days since, who used it for a very serious disease:—

Draf Doctor:

DEAR DOCTOR:

The two bottles of medicine 1 got from you when in Wheeling, have nearly cured me; please send me some more by Express.

Yours Respectfully.

Nome more by Express.

Yours Respectfully.

It is now prescribed by nearly all the Physicians of our city, not as a quack medicine, for we have made them acquainted with the component parts; and we now say to all such as we have not the opportunity of making it known to, that it is entirely free from all minerals, and is not in the least incompatible with any of the preparations of loding, Fowler's solution, or other properties.
