We should have discovered this much had we but read one or two chapters in it. But as we had not, and as we had received several sanctimonicus circulars asking us fender. to speak a "good word" for it, and as it bore a sanctimonious title, and was dedicated in a sanctimonious manner to Horace Greener (without his For the last 24 Hours, ending last night at 80' clock. consent, we hope,) we did not hesitate to do as we do with most books sent us-merely state that such a book, purporting to contain so and so, has been issued, and take our leisure to read it.

This "Hot Corn," without even the literary merit of a tolerably written, ephemeral novelette, is but a series of stories of the ram t.ead and bloody bone order, done up in the most tawdry and bungling manner, abounding in obscenety and disgusting details-a catch-penny concern designed to humbug the well meaning and benevolent, and relying for a rapid sale on the depraved tastes of the readers of obscene publications. We have never knowingly contributed to the circulation of such publications, and we desire publishers to know that we are not "philanthropist" enough to recommend a book to our readers which no moral, intelligent person acquainted with its contents, would admit into his family.

Tribute of Respect.

THE LAMBDA CHAPTER of the PSI UPSILOR PRATERNITY, have received with deep regret, the intelligence of the death of their brother, CHARLES W. Eoff. The circumstances attendant upon this sad dispensation, render it one of unusually painful interest. Entering College with the Sophomore class of 1852, and having thus been for less than two years a member of the institution, he had nevertheless endeared himself to his classimates, and especially to those more intimately connected with him in society bonds, by his talents, uniform gentlemanly bearing, generosity, and annability of character. Away from home, in the midst of strangers, he has thus been cut off in the prime of early manhood, leaving in his class and fraternity a vacancy which will long remain unfilled.

In this our common bereavements, we would not affection, and recognize in his untimely end a Lynchburg Fire, Life & Marine Insurance Co striking lesson that neither youth, talent or promse are exempt from the fell destroyer. MARTIN P. VINCENT,

ONLY RELIABLE REMEDY

SPITTING OF BLOOD. This frightful symptom of appr. aching consumption is speedify enecked and provented by the use of Ruchan's fungarian Baisam, which heals the affected membrane, and less fores those vital organs, the lungs, to a sound and lealthy condition.

REMEMBER THIS.

Spitting of blood always arises from a tendency to Tuberculous disease; and, if not cheated, at the outset, will sooner or later terminate in death.

sooner or later terminale in death.

PAIN IN THE SIDE.

PAIN IN THE SIDE.

This distressing symptom of consumption arises from inflammation of the Lungs, or the membrane called the Pecura, or from bronchial affection of the atty passages; in either case it is a very dangerous indication of disease.—
The cause of this symptom should be emoved at oncome and nothing can possibly effect that object so speedily and Hyshapaily the ungantan Balsam.

LIVER COMPLAINT.

In cases of Consumption the Liver is always more or less affected, and also the Spiece, Pleura, and small intestines. The effect of the Hungarian Balsam, in diseases of the Liver, unattended by consumption, is speedily cured by its use.

y its use. WINTER COUGH.

WINFER COUGH.

The harsh, dry, hacking, whiter cough, which afflicts OLD PEOPLE, and invalids in a low state of health, is most happily affected by the Bilsum. It removes all morthid musus, and other foul matter; improves the digestive organs, and imparts new life to the war and emiclated BRONCHITIS

BRONOHITIS

Bronchitls, difficulty of by eathing, harsh cough, a slime expectoration, with all other symptoms caused by an algorithm of the air (ubes leading from the throat to the lung are directly and specifically affected by this use of this admirable venicity. Be warned in time, ye afflicted, and emitoy this valuable femedy.

TUBERCLES ON THE LUNGS.

TUBERCLES ON THE LUNGS.

The Hurgarian Balsam is the only remedy which has the power to dissolve, remove and cure Tubercles on the lauga. Therefolde as this is generally exteemed, we have the most abundant and conclusive evidence to sustain the essertion that such is fits direct and immediate effect. In fact so confident is the American agent of his power to cure the worst form of this disease, that he boildy declares it will cure Tube culous disease, and confidently solicits a trial in the worst of cases. EXPECTORATION.

Free Expectoration is the most important object to be trained in all attempts to cure diseases of the Chest and attailed in all attempts to our empeace of the Constitutes.

The Hungarian Balsam is a Great Expectorant. It dissolves the morbid diseased matter in the air passages, changes it from a thick gluthous substance to a thin harmiess substance, to a thin find, and thrown it off with the greatest possible case and comfort to the patient. There is no better nedicine in the world, if its expectorant quality be considered.

SPASMODIO ASTHMA.

Simple or shamodic Asthma has no better remedy than

Simple or apasmodic Asthma has no better remedy than the Hungarian Balsam. This pointed and destructive affection, which resists almost everything else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease.

CONSUMPTION.

any other form of Pectoval disease.

CONSUMPTION.

Consumption has been very graphically described as "A Shrinking of One's Self!". The Hungarian Haisam, by fils cleaning, warming, softening at animating power, produces not shrinking, but expension!

Before its delightini influence, all chills, fevor, night sweats, blueness of the nails, a not, flushed skin, an anicertain strength, emaciation and decline—disappear like the production on the summariant of the glorious morthing sun! This is no delusion, but a demonstrative fact, and anstained by incontestible proof, from all parts of the country.

BE WISE TO-DAY.

Delay in any case of consumptive tendescy, is emphatically Death, under all ordinary treatment. The Hungarian Dialsam its a great ANTIDOTE, as well as a CHRATIVE. If you have any symptoms above described, be advised in time.

SANDY BUTTOM, Middle ex co. Va.?

August 20th, 1855.

Mesers. Mortimer of Noterony; Gent: You may think it strange that I have taken the aberty to write you this letter, but I do so under alreamstances that justify it. As you are the agents to: 'Hampton's Vegetable Theture,' I deem it expedition to address you this note hoping it may be a part of the honor able means of giving this medicline that notoriety which its merits decreve.

Being in the habit of vending medicines which relate to the patent, and regular system, I consider myself to some extent, a judge of the real merits of many of them. My experience teaches me that 'Hampton's Tincture' is a medicine of real merit and intrinsic value. When I say this, I do not say that I is an intuitible cure, in all cases, but I mean to say that 'ampton's Tincture' will according upon it in the later of the real of proper secretions sy the gastric judges, bad digestion, and, consequently bad deposit of animal matter from that source. I celleve that many diseases located in various par's of the it upon the 'no cure no pay' system,' and I have yet it have the first bother of the first objection about the pay. It is a geat play it cannot be more extensively chickened among the people.

I war and it in the following cases:—Gout, Rheamatism, inflammations which proceed from the stomach, Soies, Scrolula, hyspepsia, long standing cases of ague and lever; if rest stop the chill, and then give the Tincture—the difficulty in this case is not in stopping the ghill, but the return of it, this the Tincture will certainly do. In general defilication I wariant it, as I said belon,' I have precued a trial of it in this way, which otherwise I count not; the people have been humbugged by pasent medicines so long, that they are atraid of all. This is clearly a stomach medicine, it wo ke all its wonders a thore, and in all such cases it as a specific, it saything in the world is.

No language can convey an adequate idea of the immediate and almost mirroutous change which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, re vivitied and built up. The mental and physical symptoms of nervous disease varish together under its influence. Nor is the effect temporary; on the contary, the relief is permanent, for the cordial proper itse of the medicine reach the constitution is self, and restore it to is normal condition. A GREAT MEDICINE FOR FEMALES.
The unparalleled effects of this great restorative, in all
complaints iccident to tembles, mark a new era in the aunais of medicine. Thousands of stimulants have been invented—thousands of invigorants concocted—all purport
is to be specified in the various diseases and derange
ments to which the delicate formation of woman render
her liable. The result has heretofore been uniform. These
nostroms have indeed imparted a momentary vivacity to
the nervous system, a transient and deluxive vigor to the
muscles; but this flash of relief has been succeeded by a
depression and prostation greate; than before, and the
end has too often been utterly to parityze the eccuperative
power of the nerves and the vital orgadization, and finally
to destroy the enhappy patient. But in

MORSE'S INVIGORATING ELIXIR

is presented as a phenomena in the materia medica hithertounleard of—a stimula at without a reaction.

The herb which forms its man ingredient, has been admitted by all the great medical and pharmaceutical linstitutions of Europe to be in this respect are generia. Dr.

Morre, whose name is an undisputed authority in science,
discovered the production in Arabia, where his attention
was excited by the wonderfully invigorating effects it produced upon the natives. In fact the wonderful power of
endurance, the exhaustless visor exhibited by the Arab, of
both sexes, in there desert piggirmages, is attributable to
the use of this vitalizing herb.
