THE MARRIAGE STATE; Shall Happiness and Bealth, or Misery and MOST STARTLING CONSIDERATIONS!

Reflections for the Thoughtful.

Strange that countiess human beings exist and drag through life as do the beasts of the field, or the insects of the earth, evincing no more thought or reflection than though the noble faculties of mind were not vouchasied to them.

Many such are husbands and fathers, upon whom are dependent the health, the well-being, and the imppiness of a confiding and affectionate wife, with perhaps a family of children.

HOW OFTEN IT HAPPENS THAT THE WIFE LINGERS FROM YEAR TO YEAR In that pitiable condition as not even for one day to feel the happy and exhiberating influence incident to the enjoyment of health.

She may not be an invalid confined to her bed, or even to her room; as her pride, ambition and energy induce and nerve her to take personal charge of her household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to day, and always ailing.

Thus, day after day, and month after month transpire. Her health daily sinks, till finally even the hope of recovery no longer remains. And thus

THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and appa-rently inexplicably, becomes a feeble, sickly, de-bilitated wife, with frame emaciated, nerves un-strung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration.

strung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration.

Sometimes this deplorable change may and does arise from organic or constitutional causes. But eftener, by far oftener, to gross and inexcusable ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often Hereditary Complaints upon the Children "UNTO THE THIED AND FOURTH SENERATION,"
Transmitting CONSUMPTION, SCROFULA,
HYPOCHONDRIA, INSANITY, GOUT,
HING'S EVIL, and other diseases,

DREADFUL INHERITANCE

And must this continue? Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cows, our oxen, the nature and character of the soil we possess, the texture and quality of our goods and merchandise; but in all that concerns ourselves as buman beings, with human functions and passions, subject to great derangoment, involving our future peace and happiness—in all that concerns the health and welfare of the wife of our affections, and the mother of our children; in all that concerns the mental and physical well being of those children, we should be immersed in the darkest and most

BENIGHTED IGNORANCE,

AS CULPABLE AS INEXCUSABLE! AS CULPABLE AS INEXCUSABLE!

How long shall this ignorance prevail so productive of its bitter fruits? How long shall the wife and mother be ignorant of the nature, character and causes of the various womb and sexual complaints, embittering her days by suffering—suffering offen prolonged to years, eventuating in a complication of diseases utterly and hopelessly incurable? Shall we for ever close our eyes to the results of physiological science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpetuating them to our children.

LET EVERY WIFE AND HUSBAND PONDER No husband or wife need be ignorant of what concerns them most to know to secure their health und happiness. That knowledge is contained in a little work entitled THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION.

Letter addressed to care of Mr. Curtis Hulch. Arent at Barenna, Ohio — To Dr. Marchish:—I have been ten years troubled with Female Couplaints—Prolapsus uteri, and all the attending difficultes; at times rendering my life most uniesrable. I have had the attendance of some of the hest physicians, with but little success; the most they could do wast to relieve—a cure was out of the question. For five months before commencing with your medicine? I had not been able to perform any labor, could walk but a few steps at a time, and tearcely went out of doors—in short, I was completely prostrated, both in body and mind, and expected to drag out the rest or my days in suffering and misery. But, reading your advertisement, I was induced to try your invaluable medicine called Uterine Catholicon, as the last resort. It had not used it a week before! I'll like another woman. By the use of three bottles I was enabled to perform all the labor for six in the family with ease, and could walk any where in the neighborhood without injury. Nothing but a sense of my duty to you and to the afflicted, has induced me to state my case to the public. I can safely recommend the preparation to all those suffering like myself.

EKUPTIVE DISEASES.

I has now become a settled fact, acknowledged by the best of the public. The settled fact, the cure of Strofula.

Thas now become a settled fact, acknowledged by the best Physicians of our city, that in the cure of Scrofula, Tetler, and many other diseases, Herrithorm's Keula Extractor Saraparetha And Dambellow, is decidedly above all other preparations. It speaks for itself whenever used; and although we have never taken the pains of having it published through the papers, or appointing agents for the sale of it, yet we are almost weekly receiving orders from Vermont, New York, Ohio, Kentucky and other states, by persons, who by some chance means have heard of its wonderful curaity powers. The following is from a gentlemen of Vermont a few days since, who used it for a very serious diseaser—

very serious disease.

Dear Voctors

The two bottles of medicine I got from you whenin Wheeling, have nearly cured me; please send me some more by Express.

Yours Respectfully,

It is now prescribed by nearly all the Physicians of our city, not are quack medicine, for we have made them acquairted with the component parts; and we now say to all such as we have not the opportunity of making it known such as we have not the opportunity of making it known to, that it is entirely free from all minerals, and is not in the least incompatible with any of the preparations of lodine, Fowler's solution, or other properties.

It is based upon the broad principle that any remedy schick will relieve an external pain, will, If properly compounded, be equally successful in removing internal effections, a power which is beautifully developed in and peculiar to the MONTARELL LINIMENT.

ERADICATES THE DISEASE.

Some will laugh at the idea of any composition curing such a number of diseases; but if yo, but reflect that these diseases, though numerous in name, all arise 6 om similar causes, the proposition will seem less extravagant; but were it ten times more so the racra which stare us in the laca would force the candid to acknowledge its merits; for all who have used it themselves, or witnessed its neggio effects on others, untern declaring it just what its name (Nonparell) indicates, the best biniment known.

TO THOSE WHO THINK.

Have you never noticed the striking a milarity between many external and internal diseases having entirely different names? And has it never occurred to you that a remedy might be prepared which should be equally applicable to both? This remedy is now offered you in the 'ONPARELL LINIMARY, which does not insuit your understanding by claiming to have been found in some barraing mountaine of Mexico or raighty cares of the earth; but is simply the OFFERINAL OF SULENCE | Description of Sulence | In its effects a power almost incredible, reaching the most hidden sinews of mans or beast, — and yet being innoxious to the weakest linant, I its also by far the cheepest Liniment in the market, being put up in bottles twice as large os the majority, and one-fourth larger than the largest, bestides being more than four times asserted in junction of the poor, high or low, in the cheepest late in which the Nouparell Liniment is put up; and the vast expense of the materials used in it, makes it impossible for us to pay for the printing of the hundreds of certificates we might publish, hor do we deem it necessary, as the article wherever it it sade done who have

It necessary, as the article wherever it if used wil certify for litself.

We would however refer those afficied ones who have so often been gulled by forged certificates and big assertions to the following names, being but a low of the many persons whose character for cander and veracity needs no panetyric from us, and who having fully tested its virtues in the different diseases for which it is recommended, are prepared to speak of its merits as it deserves.

An Invaluance Medicine.—It is but soldom we find among the many remedies offered to the public for the cure of disease, one we can consent to commend, or whose virtues we are able to discover, and have always sediously av. ided giving uttenance to snything that night lead any one to sinpose that we placed any faith in their prefersions. But with reference to a remedy manu actured in this place, and which has become as familiar to the public as household words, we speak from knowledge of its intrinsic excellencies, its adaptation to many of the fills of ite, and the security with which it may be used. We speak of the Nonparelt Nerve and Hone Liniment, prepared by II. ii. Carr & Co., from a prescription furnished by Dr Watson Carr, iste of Morgantowia, and how of Wheeling, one of the most eminent Physicians in Virginia. This Liniment is based upon the broad principle that any remedy which will refleve external pain, will it properly compounded, be equally efficacious in removirg internal affections, a principle that has been successfully developed.—It is simply the offspring of Science, being mild and simple in its action, and yet revealing in its affects a power more incredible, reaching the most hidden sinews of man and beast—and yet being inmoxious to the weakest infant.—It is also by far the cheapest Liniment in the market, being put up in a tottles two case large as the majority, as done fourth larger than the largest, besides being more than four times as strong. We commend it to those in want of a safe and certain remedy.

THE TAPE WORM.

This is the most difficult worm to destroy of all that infest the human system; it grows to an almost indefinite inight, becoming so colled and fastened in the intestines and stomach, effecting the health so sailly as to cause of Vitus Dance, Fits, etc., that those afflicted seldom if ever suspect that it is a Tape Worm that is hastening them to an early grave. In order to destroy this Worm, a very energetic treatment must be pursued, it would therefore the proper to take 6 or 8 of my Liver Pills, so as to remove all obstructions, that the Worm Syrup may act direct myon the Worm, which must be taken in doses of two tables spoonfails three times a cay. These directions followed have never been known to fail in curing the most obdurate case of Tape Worm.

And you cannot be indifferent to this appeal. Humanity calls upon you to do your unty. It is only one out of the many thousands who has seen its wonderful effects.

Dr. J. N. Hobensack, —Siri—tratitude to you, the inventor of a highly variable medicine, prompts this humble festimory in its favor, as he ing a sair, gounter, yet, powerfully effectual remedy for worms. Having had much experience in knowing the effects of various preparations, my wite, who was well skilled in ministering to children in distress; pronounced it the best she had ever used, and would use no other while yours could be had. A daughter of ours became seriously diseased. Her symptoms were siarn age, but ken mother at once sough out a remedy for Worms. COMMERCIAL COLLEGE,

BALTIMORE, Mp.

O K. CHAMBERLIN would say to his friends and patrons thoughout the Weat, and to all young men desirous of learning block Kepping, that he has disposed of his interest in the Pittabuen Commercial College, and permanently located himself in Baltimore, and is now at the head of one of the most flourishing Institutions in the Union. The facilities here ofered for acquiring a complete Mercantile education are equal if not superior, to those of any similar College, in the West. Individuals wishing to obtain situations when qualified, will find it to their advantage to prepare thomseives at this establishment, as a large number of gentlemen (among whomser several from the West) have recently completed their cones of study, and obtained desirable situations as Book Keepers in this city. For particulars, terms, etc., write and have a circular forwarded by mail.

THE undersigned having purchased the lease and effects of that old established house, the FOUNTAIN HOTEL.

THE undersigned having purchased the lease and effects of that old established house, the FOUNTAIN HOTELLIGHT STREET, Balfimore, and having repaired and refurmissied at a heavy outlay, now offer to their friends and the traveling public an astablishment second to none in comfort and convenience.

The Ladies: Ordinary, and the suites of rooms attached, will be found to afford the comforts of home to families, while the situation of the house guarantees quiet repose to all the patrons.

It is to emost central situation for the man of business, being in the centre of business, affords as converient access to all the Hailroad Depots and Steamboat Landinga as any other hotel in the city.

It will be the desire and pleasure of the proprietor to promote the comfort of the guests of the house.

Solid Daguerreotypes.

This laiest discovery is the wonder of the age. The picture assumes all the roundness and solidity of life. It also appears life size, and in every point resembles the living being. Nature is perfectly mocked, even to an individual hair. Taken at WHITEHURST'S, over Campbell's Jewelry store, Baltimore street, in the city of Haltimore; also, in his Washington Gallery, and will soon be introduced in all of his gatieries, which may be found in all the principal cities in the Union.

Mr. Whitzenurs has the honor to announce that he has just received a 'etter from the President of the United States, informing him of the award of a Medal, Certificate, and acopy of the Juries reports at the World's Fair, London.
