A Mass meeting was held in Zanesville on Sat A Mass meeting list to consider the administration of the affairs of the Central Ohio Railroad. We of the analysis of have been requested to publish the proceedings of the meeting, and will comply with the request to morrow. The largeness of the meeting—its order ly proceedings and the high standing and respectability of the gentlemen composing it-will not permit us to do otherwise.

Tes examination at the Linsley Institute comnences to-day. The Halls have been decorated, and a happy time of it is anticipated by the young gentlemen in attendance.

"THE CAMPBELL'S ARE COMING."-These laugh tel provoking minstrels will give a series of en-ortainments in our city next week. Save your ter will have orowded houses, as they have wherever they go.

A FACT FOR THE BAKERS .- The bakers are apreently not aware that the price of flour has deged considerably within the last week or two. feasuring their intelligence by the size of their stres, they are very much behind in the news of JOHN BREWER, the second mate of the steamer

Fort Henry, got into difficulty with some Itishmen al Cincinnati, and was severely cut in three place, one of the cuts, in the flethy part of the thigh, bing eight inches long and two inches deep. THE WEATHER for several days past has been

unpleasantly cold, but as moving time is at hand, probably the amount of caloric unbottled within is will extend to the atmosphere at large, and by the beginning of the week at farthest, we may expect some moderation.

YESTERDAY was a brisk day at our wharf, the landing being crowded with regular and transient boots receiving and discharging freights. The steamer Pittsburgh left with us a considerable portion of her cargo, which is no uncommon thing for the Pittsburgh line boats to do. They appear to have other business at our port besides providing themselves with "butter and eggs for table use."

Captain George W. Norton, late of the Alvin Ad ams, sails to- day with the fleet flat Tiger, for the head waters of Salt River. His cargo, consisting of machinery and stores is all on board, and he starts with a free clearance for the roaring river.

Captain Norton, one of the most enterprising popular and humane steamboat commanders tha ever trod the deck of a steamer, has retired from steamboating, and taken an active interest and partnership in the extensive iron manufactory a the Nelson Furnace, near New Haven, under the style and firm of Norton, Hayden & Co. He is also connected with the Crooked Creek Furnace Company in Bullitt county, adjoining, and is whatever underaking he embarks we hope he wil prosper, and do well, as he is well deserving of fortune's favors .- Louisville Journal.

THE ORIGINAL BAKER PAMILY WILL VISIT OUR CITY and give one of their delightful entertainments at the Melodeon on Saturday evening. Many of our citizens had the pleasure of hearing them sing some time since, and speak in the h ghest terms of their pe formance, and from the encomiums of the press of the country, we are satisfied that they have improved their musical talent, and not permitted it to come down on a level with "common place." The editor of the Wvoming County Mirmr, in speaking of one of the Bakers, says: "But of George-what shall we say of him? Shall we of George—what shall we say of him? Shall we liken his lungs, and the musical strings of his larger, and the musical strings of his larger, and the musical strings of his larger, to a bass viol and organ, made by stringing cables across the month of the Mammoth Cave of Sentiackyl—and an earth course to blow the help Kentucky!-and an earthquake to blow the bellows and put the strings in motion ! We would advise him to form a partnership with Niagara, he sings basso and Ningara soprano, and if a thunderstorm should come along and put in the alto, all the better." Well, we are bound to hear that man

AN ACCOMPLISHED SERVANT .- It is stated that Judge Mason, our Minister to Frence, has employed a tall colored man, of the true Virginia type, who was taken to Paris fifteen years ago, by an American Minister, and who has remained in Errope ever since, in the employ of American Ministers, either at Paris, St. Petersburg, or in Germany. He speaks French, Russian, and German, and is a polite and well raised Virginia greant, united to a first-rate French dancing

IJSanta Anna, it is said, has sent an order to Messrs. Ames, the great cannon manufacturers o Springfield, Ma.s., for two hundred guns of from en to fifteen pound colibre each, and that the payment of the order, which of course, includes the supply of a vast amount of ammunition, musketly, revolvers, &c., is to be made contingent on the passage of the Gadsden treaty.

FA-HIONABLE AMUSEMENT. Washington, 29.—The city was thrown into great excitement this morni by the report of a duel between Messis. Cutting and Breckenridge which was increased by all sorts of exaggerated rumors, the most prominent of which was that Brecken-ridge was shot in the neck. From most reliable sources I gather information indicating that a mee ting did take place early this morning at B'adens-burg; that shots were exchanged is not denied but a friend of B.'s denies emphatically that the latte is wounded, or that any damage was done to ei ther party; more he will not say. All the circum stances corrobo.ate the rumor that fighting has ta-

ken place.
Cutting left the city yesterday afternoon in the half past three train, and Breckenridge followed at five o'colk. This led to the impression that a duel was to take place near Baltimore. Cutting left the train at Bladensburg but Breckenridge be-ing in the express train was carried to the junction and was obliged roreturn which he did in time to secure a meeting at the place designated. A medicine must have merit, and great merit, too, to stard the test of public opinion. No art of puffing can gairantize a worthless article, so as to keep it up as a good medicine, if it be not really so.

A good medicine will live, become popular, and extend its sales year after year, in spite of opposition. The people readily find out its virtues, and the fame of them passes from mouth to mouth with more rapidity than newspapers can apread it. Mesers Morrimer 4, Nowberg: Gent:—You may think it strainge that I have taken the fiberty to write you this letter, but I do so under aircumstances that justify it As you are the agents for 'Hampton's Vegetable Tincture,' I deem it expedition to address you this note hoping it may be a part of the honorable means of giving this medicine that notoriety which its merits de-erve.

Being in the habit of vending medicines which relate to the patent, and regular system, I consider myself to some extent, a judge of the real merits of many of them. My experience teaches me that 'Hampton's Tincture' is a medicine of real merit and intrinsic value. When I say this, I do not say that it is an infallible cure, in all cases, but mean to say that 'a' ampton's Tincture' will lavorably operate in all diseases originating from a want of proper secretions of the gastric luices, bad digestion, and, conse-

nean to say that it is an infolible cure, in all cases, but I mean to say that 'a mapton's Tincture' will avorably operate in all diaeases originating from a want of proper secretions of the gastric juices, bad digestion, and, consequently bad deposit of animal matter from that source. I believe that many diseases located in various par a of the system, such os inflammation, Ulcers, Sciotula, etc. etc., originally have their being in the stomach, from bad cood, had digestion, and consequently bad dispositions of the system, such os inflammation, Ulcers, Sciotula, etc. etc., originally have their being in the stomach, from bad cood, had digestion, and consequently bad dispositions of the circulation to Loose parts; and I will believe Hampton's Vegetable I incture will even reach these causes.

Having found out, myself, what it is, I recommend it to others in such cases as I have described, and I have done it upon the 'no care no pay' system,' and I have yet tchave the first bottle returned, or the hist objection about the pay. It is agreat pity it cannot be more extensively circulated among the jeople.

I warrant it in the foliowing cases:—Gout, Rheumatism, Inflammations which proceed from the stomach, Sores, Scrotula, Dyspepsia, long standing cases of ague and fever; first stop the chill, and then give the Tincture—the difficulty in this case is not instopping the chilt, but the return of it, this the Tincture will certainly do. In general debit itations I warrant it, as I said befor, I have pircured a trial of it in this way, which otherwise I could not; the people have been humbusged by pasent medicines so long, that they are afraid of all. This is clearly a stomach medicine, it works all its wonders there, and in all such cases I take a specific, if anything in the world is.

Having given the Tinsture a fair trial with myself, in my family and neighborhood, I think I am warranted in what I say about it, and which I do without any other in terest than the wish too see it in general circulation, and in every m

Cure of Coughs, Vertico, Rheumatism.—Cure of the venerable Dr Punan's son, of the city of Baltimore, a man well known, and whose testimony adds much to the triumph of Hampton's Vegetable Tincture.

Mesers. Mortimer & Mowbray—Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture.

Some time during last November I was faken with a very bad and serious cough. I was advised to take Col Liver (Oil, and did so, but getting no better, I was induced to try your Tincture—I got one bottle, and before I had taken tal, my cough left me. Permit me also to state, that for the last I oyears I have suffered very much from Rheumatian and Vertigo, confining me as times to my bed. I am fully convinced that I owe my present good health to the day of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper, and believe me.

MEDICAL.

Health restored, and life lengthened, by DR. MORSE'S

INVIGORATOR ELIXIR OR CORDIAL.

For centuries medical science has been rausacking the vegetable and mineral kingdom, in search of something that should restore the lost of decaying energies of the nervus and muscular systems, without the drawback of subsequent prostration, which all stimu anis, tonics, and narcolics had heretofore entailed. That something has been found. It is a vegetable production brought from the sterile deserts of Arabia the Stony, by the celebrated Prof. M. Morse, well known as a distinguished member of the leading scientific societies of the Old World, and equally distinguished as a physician, a chemist, and a traveler.—
The Juces of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results herefore unheard of, in this or any other country. At first the properties attributed to Prof. MORSE'S INVIGORATING ELIXIR OR CORDIAL were deemed fabulous. The public often decelved roold not believe the simple ane sublime truths amiounced by the discoverer.—
But facts, undeniable lacts, attested by witnesses of the highest class and character, are now trumbing over all doubts. INOREDULITY IS OVERTHROWN by a mass of testimony which is perfectly irresistable.

The ELIXIR remedies, in all cases, the deplorable evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that invisterious compound agency of matter and mind, necessary to the reproduction of human tige. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either vax or any age. Tre feeble girl, the alling wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depressio

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system, leading to nervous discases, and the forms of nervous discases, and the forms of nervous discase itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few however, may be enumerated, vizz-neuralgia, it doloreux, headache, incipient paralysis, hysteria, palpitation of the heart, spinat affections, nucutar dehility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain one place or position, weakness of the procreative organs, servail incompetency, melancholy, moromania, fluor abbus, sinking at the stomach, fenmle irregularities, a chremic tendency to miscaritage, emaciation, and all barreniess that does not proceed from organic causes 'cryond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases it is averred that

MORSE'S INVIGORATING ELIXIR

will replace weakness with streigth, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. CEP Lear in mind that all miladies, wherever they begin, fairly with the nervous system, and that the paralyzation of the nervers or motion and sensation is physical death. Bear in mind al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so, that for every kind of nervous disease the limit al-so.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immeditate and almost mirraculous change which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstraing and relaxed organization is at once braced, re vivified and built up. The mental and physical symptoms of nervous disease van ish together under its influence. Nor is the effect temporary; on the contary, the relief is permanent, for the co-dial properties of the medicine reach the constitution is self, and restore it to the nervinat condition. Well may the preparation be called the MEDICINAL WONDER of the mineteenth century. It is, as the first scientific man in the world would have admitted, that minacle of medicine herefoore supposed to have no existence, a STIMULANT THAT ENTAILS NO REACTION IN force; a new section of the control of the c

A GREAT MEDICINE FOR FEMALES.

The upparalleled effects of this great restorative, in all complaints incident to temples, mark a new era in-the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants concocted—all purporting to be specified in the various diseases and de-angements to which the delicate formation of woman render her liable. The result has heretotore been uniform. These mostrums have indeed imparted a momentary vivacity to nostrums have indeed imparted a monentary vivacity to the nervous system, a transient and decusive vigor to the muscles; but this, flash of relief has been succeeded by a depression and prostration greate; than before, and the end has too often been utterly to paralyze the recaperative power of the nerves and the vital organization, and finally to destroy the unhappy patient. But is MORSE'S INVIGORATING ELIXIR

MORSE'S INVIGORATING ELIXIR is presented as a phenomena in the materia medica hither to unheard of—a simulant without a reaction.

The herb which forms its main ingredient, has been admitted by all the great medical and pharmaceutical institutions of Europe to be in this respect suc generis. Br. Morse, whose name is an undapated authority in science, discovered the production in Arabia, where his attention was excited by the wonderfully invigorating effects it produced upon the natives. In fact the wonderful power of endurance, the exhaustless who re-whibited by the Arab, of both sexes, in their desert pligrimages, is attributable to the use of this vitalizing herb.

These are some of the sad and meiancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of musicaliar power, paipitation of the heart, dy-pepers, nervous irritability, sterngement of the digestive functions, general debility, symptoms of consumption, etc.

Alentally, the learful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evit forebodings, aversion to society, self distrust, love of solitude, timidity, etc. are some of the evils produced. All thus afflicted

PARENTS AND GUARDIANS
Are often misled with respect to the causes and sources o
diseases in their sons and wards. How often do they ascribe to other causes of wasting of the frame, ielacy, madneas, papit tion of the heart, indigestion, derangement of
the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a pernicious though alluring practice, destructive to
mind and body. NO MERCURY OR OPIUM-SOLEMN OATH.

NO MERCURY OR OPIUM—SOLEMN OATH.

Dr. Morse, having recently heard that some physicians, and several \(^1\) uggists hav asserted that his Cordial contained Mercury and Opium, has made the following affidavit.
