Frent year \$351,379,81-showing an increase of

ST CLAIRSVILLE, OHIO, May 8, 1854.

To the Editors of the Baltimore Patriot: In reading the Patriot a short time, since, I no-In reading the Patriot a short time, since, I noticed that it was stated, in connection with the fact that the Givernment had determined to have sax was steamers built, that no government vessels had ever been constructed in your city, and the writer, therefore urges the claim of Baltimore to build at least one of them. Now while I think the claim is a just one, and that the government may go further and fare werse, I must yet be allowed to correct an e.ror of fact contained in you ed theoriect an e-ror of fact contained in you columns. In the year of 1798 or '99, I myself saw the Constellation Frigate launched at Herris's Creek, and I remember she went off in elegant style, ploughing through the water like a mad Luffalo through the prairie, and driving many loads that were in the vicinity of its course to the oppo ite shore. She presented a splendid appearance when she was ready for sea, but very soon consinced the world that she was not built for or named. sameta done; as, in an engagement, a short time after, with the French man-of-war, L'Insurgent, ise "handled" herself (as Paddy would say) about as well as that same Paddy would handle a shile-The subject has waked up old remembrans, and I can appreciate the feeling that induces old soldier to fight his battles o'er again. temember the last time General Washington ased through Baltimore. I was but a boy at the me, but cannot forget his appearance. I pree there are but few now in your city who can y thus much of the olden time. But though my ory runs so far back, I cherish the hope that 21 may yet visit my native place-your good city of altimpre. I expect indeed to witness mighty dange—changes in men and women, in manners and customs; changes from gardens and farms to ilding lots occupied by stately edifices—chan-in every thing -- alas! all is change.

Our correspondent is correct as to the Constelion having been built at Baltimore-nor was the the only war-vessel built here for our own government The Java was also built in Balti more, during the war of 1812, It was not claimed, however, we belive, that that no government ed vessel had ever been built in Baltimore, but that no government-steamer had ever been thatucted here. We thank our worthy old friend forteminding "the powers that be" that the Constellation was built in Baltimore. That fact forms an additional argument for the establishment of a Nary Yatil at this place.—Editor Patriot.]

THE GRANDEST HOAX OF THE DAY. - OUT Haders will recollect the allusion we made the other day to the very grave announcement in the New York Tribune that a company of female Infantre were to parade in the city of New York on Tuesday and go through their military evolutions in the Park. The announcement turns out to be a complete hoax, one which fairly humbugged the prince

of Humbuggers, Barnum.

A crowd of people, men, women and children, numbering about 10,000, were at an early hour in the vicinity, anxious to see the "show," but after waiting several hours they began gradually to find out that they were still "green" enough to be de-Barnum, it appears, was among those who were

Barnam, it appears, was among those who were floaxed, and has published a card stating that he had no idea there was any trick about it until Tuesday evening. It appears that ou Friday last a man called upon his agents at the Masuem, and represented himself to be the agent of the trustees of a large female academy, and desired to begain for the admittance on Tnesday afternoon of a body of young ladies in military afternoon of a body of young ladies in military costume, called the F. iry Guard. He represented them to be pupils academy in Elizabeth, N. J., he said they would number 100, and would be accompanied by would number 199, and would be accompanied by a band of music. On account of the number he wished to obtain a small deduction from the regular price of tickets. A bargain was made. Two lours after, the man returned, and mentioned that of Odd Fellows of this city, is to have a the ladies proposed to present a banner to some juvenile society, and that a distinguished gentledemonstration on the 22d of this motto, juvenile society, and that a distinguished gentleession of the anniversary of its institution.
In man had contented to make the necessary address, it not objectionable to the manager of the Museum.
He was informed that no exception could be taken to such a proceeding, when he departed. The

seum for Tuesday afternion.

Subsequently the fellow waited on Horace Greeley, and engaged him to deliver the address. He also went to the Astor House, and engaged dinner for 96 ladies, all to be in uniform, and accompa-nied by Lafayette Band of Harrisburg, Pa. After this, he disappeared, but no one suspected a hoax until the "distinguished visitors" failed to make

This was tather a cruel joke, but is a together ne of the best satir-s yet perpetrated on Greely and his hobby of "Woman's Rights."

The Express thus discourses on the matter: THE FAIRY CUARD, AN UNFAIR THING .- We suppur citizens, women and children being in majori-y—were yesterday drawn from their homes by a recent paragraph in a morning paper to the effect that two companies of female loncers, mounted and uniformed, would visit this city yesterday.— Crowds assembled to greet them, and-went back to their homes disappointed, as reflecting people

Many of our contemporaties make mercy over the practical joke, and have no pity for those who were so egregicusly cheated. Suppose we look on the otherside. We do not think these hoaxes by the newspapers, or through the newspapers, as the case may be, are quite respectful to the community or creditable to journalism. For this reason. ty or creditable to journalism. For this reason.—
Many persons read the newspapers who are accustoned to regard their contents as a matter of fact.
They rely, as they should be entitled to do, upon a statement as trutt. ful which they see there made in apparent good faith. There are mechanics, their wives and families, and even persons of a more wealthy class, who have no such acquaintance with the artificial, trick-playing world as ance with the artificial, trick-playing world as would lead them to suspect a heav in an apparent. would lead them to suspect a hoax in an apparent y bone fide newspaper paragraph. It does no day, in the broiting sun and amid clouds of dust, waiting the appearance of what had an existence only in the brains of a practical joker. We can relish a good joke as well as any one, but we do no elieve it is right to take advantage of the igno rance, or even of the morbid curiosity of ten sand people to rob each other of the day's ti

There is another point which deprives the trick of its mirth provoking character. Confidence in feminine delicacy and propriety must have sunk to a low ebb, when so many thousand of people could so readily believe that "some of the best educated and most estimable of (American) young anied, and the failure to hear of her at the ladies" would appear is soldiers, "officered by extinguishes nearly the last hope of her ladies, including captains on horseback," perform military evolutions in the Park, &c., &c. view of the matter is worth grave thought, and it is relevant to inquire how far the speeches and proceedings at certain women's conventions have tended to this deterioration of the public sentiments respecting female propriety.—New York

The Louisville Journal states that the local steampoat inspectors of that port have investigated the cause of the explosion of the steamer Reindeer. and have made a lengthy report thereon. They ascribe it to neglect of the second engineer, Fred Ludwig, and have revoked his license. The evidence adduced show him to have been heretoft re thousands since the completion the Road to a very careful officer, but in this instance he did not exercise usual caution. The cause of the ex-Wash branch plosion, they state, was that the boat was out of trim, having a much larger quantity of fuel on one side than on the other, and thus the water ran from one side of the boilers to the other. They also ensure her other officers for not clearing the timber-holes. They wind up their report with reading a homily to steamboat officers generally for their carelessness. Ludwig is besides subject to indictment.

A New organization, which promises completely 'o overshadow the "Know Nothings," has rehas in the freightage of coal, and a decrease o cently been effected in New York. The new orbarry 20,000 barrels of flour, as compared with sier is called the "Have Nathings." The passbe report of the preceding month. 2685 tons of word which gains admittance for the initiated is miltransported from Fairmont is pure bituminous "Airy Red?" to which the reply must be, after an

British residents.

Paskiwitch is making formidable preparation. for an attack on Oalistria.

CONGRESSIONAL.

CONGRESSIONAL.

Washington, Friday, May 11.

House.—This afternoom Mr Dean raised a point of order that as twelve o'clock was named in the first rule as the time for the meeting of the House and as that hour had arrived, the cournal should be read. The Speaker overruled the point on the ground that there had been no adjournment, and this was a continuation of Legislative day commenced yesterday, and he had no anthority to adjourn the House. The Chaplain came in as usual to perform his duty, if necessary. Mr Hanks quoted an order of the House adopted on the first day and an order of the House adopted on the first day and an order of the House adopted on the first day and an order of the House adopted on the first day and an order of the House adopted on the first day and an order of the House adopted on the first day an order of the House adopted on the first day and the House adopted on the first day and the House adopted on the first day an order of the House adopted on the first day the first day and the House adopted on the first day and the House adopted on the first day and the House adopted on the first day the House adopted on the first day and the House adopted on the first day and the House adopted on the first day and the House adopted on the first day the House adopted on the first day the House adopted to the country trade, all of which we offer at Pastern Prices, adding only the difference of the House and forth the House and forth the House and forth the House and the House a of the session, that 12 o'clock shall be fixed as the hour to which the House shall stand adjourn-ed each day, till otherwise ordered, therefore the House stands adjourned mainly by its own order, and because the Legislative day still continued there could not be a meeting to-day without an all unment. Mr Banksappenled, and wanted to make a brief explanation to show that there was precedent for his point of order, but numerous objections were made. jections were made. Same parliamentary struggle continued up to 5 o'clock this evening. Nothing doing but calling yeas and mays on various mo-

tions to kill time.

Mr Dean.—We have been here for fifteen consecutive hours and made no progress. I now appeal to the House, to both sides, to accept the proposition made this morning to allow the debate to continue till Thursday next, and to postpone the special order for the ratiroad bill for one weekthis will give an opportunity for a full discussion, and is alike fair for both sides.

The motion was objected to by Mr. Tweed and Mr. Richardson, the leader of the Nebraskaites stated that he was advised to say that the propo-stion made in the morning to postpone the special order on account of the Nebraska bill, would meet with no opposition from the friends of that mea-

Mr. Campbell, leader of the Opposition, said h had invariably been refused the same privilege, and he must now object to the gentleman's propo

ar Hughes asked consent to make a remark, but many objections were interposed. Mr Hughes said he thought that inasmuch as the gentleman from all, had made a proposition on one side, the privilege of responding should be allowed to the other. Mr Richardson merely said he would accept the proposition coming from the other side. Mr Hughes merely wished to say something, but was lost in loud cries of order. Motion to adjourn negatived. Mr Hughes again asked leave to make a statement which would not consume over two a statement which would not c usume over two two minutes—loud cries of "hear him! hear him!" Mr Walsh said he did not wish to hear any propo-

sition at all.

Mr. Walsh--I repeat my objection for the genlemen's special benefit. Daylight sprived the scene already described has been repeated—mem-bers nearly fagged out, some with their heads tied up. The morning newspapers came to the relief of the honorable body, and occasionally baskets of refreshments were brought in to individual mem-

yeas, 66 nays, a close shave at six o'clock.
Mr. Wright, of Pa., wished to make a proposition but Mr. Washburn objected.
Mr. Wright.—You don't know what you are ob about. Washburn withdrew his objection but it was Mr. Washourn withdrew his objection but it was renewed by Mr. Cullen. Mr. Wright said, we offer you this olive branch,

and you will not take it.

Mr. Cummins proposed to postpone the Pacific R. R. bill one week from next Thursday, allowing

Mr. Campbell objected.
Mr. Dean hoped the opponents of the bill would accept of the proposition. It is fair—and the man who does not acce<sub>t</sub> t it is liable to a charge of being a factionist.

NEBRASKA EXCITEMENT. NEW YORK, May 12.—A call is out for a public meeting, to be held in the park, of the citizens opposed to the violation of the Missouri compromise signed by Moses H. Grinnell, Alfred Bell, Wm. C. Bryant, Walter B. Jones, George Newbold, Judge John L. Mason, Geo. Griswold, Samuel B. Ruggles, defendants defendants of T. Sweeney & Son, defendants of T. Sweeney & Sweeney Bryant, Walter B. Jones, George Newbold, Judge John L. Mason, Geo. Griswold, Samuel B. Ruggles, and many other prominent citizens. The object of the meeting is stated to be to consider the prop-John L. Mason, Geo. Griswold, Samuel B. Ruggles, and many other prominent citizens. The object of the meeting is stated to be to consider the proper steps to be taken at the present momentous crisis, and to demand of all the members of Congress who adhere to faith pledged in the Missouri compromise, and to protect from invasion the rights of the people, and to resort, if necessary to the most decisive and even extreme measures to prevent the preparation of the act of perfidy fraught with fearful, perhaps irreparable disaster to the peace, harmony, and stability of the Union.

Special Notice.

or in liples to the purpose are possible, with the least possible on as possible, as long as possible, until the least possible quantity of lee.

The r roprietogehas long devoted his attention to this particular branch of domestic economy, and passing from one improvement to another, has at length arrived as hear perfection as it is possible to reach. A proof of this is fourd in the very general use of these Coolers in all garts of the country. A simple statement of facts, in regard to these Coolers, will satisfy every one of their superiority.

ONLY ARTICLE OF THE KIND EVER PATENTED.

They are fernished with two distinct non-conducting chambers, by means of which, with two pounds of Ice to the gallon, water is kep-, (at a temperature of 40° above zero, or only 8° from the freezing point,) all day. Thus, at a cost of some four cents per day, a family of ordinary size can be constantly supplied with wa'er as cold as ice itself, larger numbers in the same troportion. This has been found by beful experiment to be a sa wing of at least sevents five per cent. over Earthern Jars formerly used for this purpose.

Again, these coolers neven sweat; in this way, saving much unnecessary waste and trouble.

Being manufactured in the most workmanlike style, and hand somely finished in every respect, they rasks a very beautiful ornament for the Dining Room, Hotel, or Steambost. ONLY ARTICLE OF THE KIND EVER

Steambost.

An important improvement has lately been added to the Cooler, viz: A small Pan (capable of holding from six to eight pounds of butler,) is inserted directly under the cover. This quantity of butler can be kept perfectly hard all day, without additional ice—a very important addition to the economy and comfort of lamilies.

MEDICAL.

Pure Vegetable Extract.

DR. MORSE'S INVIGORATING CORDIAL

A PHENOMENON IN MEDICINE.

Henth restored and life lengthened by Invigorators and life lengthened by Invigorators and life lengthened by Invigorators and science has been ramacking the vegetable and mineral kingdom, in search of something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration, which all stimu ants, tonics, and narcotics had heretolore entailed. That something has been found. It is a vegetable production brought from the sterile deserts of Arabis the Stony, by the celebrated Prof. M. Morze, well known as a distinguished member of the leading reietific hoscieties or the Old World, and equally distinguished as a physicam, a chemist, and a traveler.—The juices of this herb, conjecuit sied at a dombhied with other vegetable medicinal extracts, are now producing results here tofore mineard of, in this c. any other country. At first the properties attributed to Prof. 200858/S IN-VIGORATING ELIMIN ON COMPILAL were deemed fabulous. The public often decleved could not believe the simple are sublime truths amounted by the discoverer.—But facts, undeniable lacts, attended by witnesses of the highest class and character, are now trimmbing over all doubts. INGREDILLITY IS OVER CHROWY, by a nass of testimony which its per fect, it resistable.

The Edixin "entedies, in all cases, the deployable evils arising from a minuse or abuse of the various long ans which make up the wonderf. In actine called man. It restores to first lying, every delicate function connected with that mysterious compensed agency of institer any mind, necessary to the "eproduction of human life. To "soom of fee-ble mindy the proposition of human life. To "soom of fee-ble mindy, or from the wealoness, the deployment of all the natural appetites, as well as the highest mental attributes. Its beneficial effects are not confined to either sex or any age. The feeble girl, the alling wife, the littless, enervated youth, the over worn man of business, the victim of net move the disorder itself, but
REBUILD THE BROKEN CONSTITUTION.
The derangements of the system, leading to nervous discase, and the forms of nervous discase laself, are so memerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few however, may be enumerated, viz-penralgia, its doloreux, headache, incipient paralysis, hysteria, pripitation of the heat, spinal affections, nur-cular heblity, tremors, flatuience, a pricking sensation in the flesh, numberess torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the proceeding of the position of the parallel of the parallel of the parallel of the parallel of the proceeding out of a free indulgence of the passions, and all barreness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases it is averred that

MORSE S. INVIGORATING ELIXIR

will replace yeakness with strength, incapacity with em-

MURSE'S INVIGURATING ELIXIR
will replace yeakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and
this not only without hazard of reaction, but with a happy effect on the general organization. C3-near in mind
that ait maiadies wherever they begin, finish with the neryous system, and that the paralyzation of the nerves of
motion and sensation is physical death. Bear in mind also, that for every kind of nervous disease the Kindr Cor
dial is the only rel able preparation known.

CURE OF NERVOUS DISEASES.

MEDICINAL WONDER

of the nineteenth century. It; as the first scientific man in the world would have admitted, that unbacle of medicine he retolore supposed to have no cristence, a STIMULANT THAT ENTAILS NO HEACTION Its force is never expended, as is the case with opinin, al-conolic preparations, and all other excitants. The effect o these brief, and it may well be said of him who takes them "I be last state of that man is worse than the firs." But the EUXI is an exhiberant without a single traction per in its operation, per petual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to bursh, sleeplessness, dislike of society, incapacity for sludy or LOSS OF MEMORY.

LOSS OF MEMORY,
Contusion, giddiness, rush of blood to the head, me ancho
ty, mental debitity, hysteria, wretchediness, thoughts of
self-dest uction, lear of insanity, hypochhodriasis, ayapepsia, general prostration, irritability, nervousiess, inapolity to sieep, diseases incident to females, decay of the
propogating functions, hysteria, monomania, vague terrors, pajulation of the heart, impotency, constipation, etc.
etc. from whatever cause arising, it is, if there is any reliarce to be placed on human teatimony, absolutely infallible
A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative, in all
complaints incident to females, mark a new era in the anness of medicine. Thousands of stimulants have been invented—thousands of invigorants conceted—all purport
ing to be specified in the various diseases and de, angements to which the delicate formation of woman render
her liable. The result has heretofore been uniform. These
nostroms have indeed imparted a momentary vivacity to
the nervous system, a transient and delusive vigor to the
muscles; but this, hash of relief has been succeeded by a
depression and prostration greater than before, and the
end has too often been utterly to paralyze the recuperative
power of the nerves and the vital organization, and finally
to destroy the unisappy petient. But in
MORSE'S INVIGORATING ELIXIR
is presented as a phenomens in the materia medica hitherto unlearly of—a stimulant without a reaction.

is presented as a phenomena in the materia medica hitherto unheard of—a stimulant without a reaction.

The herb which forms its man ingredient, has been admitted by all the great medical and pharmaceutical institutions of Europe to be in this respect an ignorerie. By
Morse, whose name is an undisputed authority in science
discovered the production in Arabia, where his actuation
was excited by the wonderfully invigorating effects it protions of the production in Arabia, where his actuation
was excited by the wonderfully invigorating effects it prowas excited by the wonderfully invigorating effects it produced upon the natives. In fact the wonderful power of endurance, the exhaustless vi-or exhibited by the Arab, of both sexes, in their desert pligrimages, is attributable to the use of this vitalizing herb.

An appeal is made to

EVERY WOMAN OF SENSE,

who suffers from weakness, derangement, nervousness, temors, pains in the back, or any other disorder, whether peculiar to bor sex, or common to both sexas—to give the invigorating Coudial a trial.

MARRIED PERSONS

MARRIED PERSONS
or others will find this Cordial, after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the harpy parents of healthy offering, who would not have been so, but for this extraor dinary preparation. And it is equally potent for the many diseases for which it is recommanded. Thousands of young men have been restored by using it, and not a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION

PERSONS OF PALE COMPLEXION or consumptive habits are restored by the use of a bottle or two to bloom and vigor, and changing the akin from a pale yellow, sickly cotor, to a beautini-florid complexion. TO THE MISGUIDED.

These are some of the sad and metancholy effects produced by early habits of youth, vier weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dysepssa, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, etc.

At entally, the tearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, etc. are some of the evils produced. All thus amiceed

BEFORE CONTEMPLATING MARRIAGE

BEFORE CONTEMPLATING MARRIAGE should reflect that a sound mind and body are the most necessary requisites to promote comulaid happiness; indeed, without these, the journey through life becomes weary pigginage, the prospect hourly darkens the view; the mind becomes shadowed with despair, and filled with the melaucholy reflection that the happin a of another becomes blighted with your own.

PARENTS AND GUARDIANS

PARENTS AND GUARDIANS
Are often misled with respect to the causes and sources a
diseases in their sons and wards. How often do they ascribe to other causes of wasting of the frame, idlocy, madness, palpit, tion of the heart, indigestion, derangement of
the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indiging in a pernicious though alluring practice, destructive to
mud and body. NO MERCURY OR OPIUM-SOLEMN OATH NO MERCURY OR OPIUM—SOLEMN OATH.

Dr. Morse, having recently heard that some physicians, and several druggists hav assisted that a some physicians, and several druggists hav assisted that his Cordial costained Mercury and Opium, has made the following affidavir. Whether those physicians and druggists apposed it contained Mercury or Opium, from the singular energy with which it acts upon particular diseases, or from the great power in relieving pain, or out of envy he knows m.t. State of New York, city and county of New York, ss.

On the 26th day or June, A. D. 1846, personally appeared before me, Andrew H. Mickle, Mayor of the city of New York, Metcalf Morse, who by me being duly sworn, shoth depose and say, that there as no corronye sublimate or other mercurial preparation used in compounding and manulacturing, or is contained in the medicine known by the mame of Dr. Morse's Invigorating Elixir Cordial, and that it does not contain a particle of Opium.

Sworn before me, this 26th day of June, 1846.

A. H. MICKLE, Mayor
