Liniment.

This Liniment is a valuable auxiliary in the treatment of
some of the mostformidable diseases with which it is our
lot to contend; for instance, infammation of the langs and
souceir. By a thorough and continued application of this
Liniment over the region of the affected organ, these otherwise formidable diseases are at once disarmed of more
than half their terrors, particularly among children, and
thousands of mothers, were they allowed to speak, would
with all the elequence of feeling and affection, hear their
united testimony to the fact that it had snatched/their children from the very jaws of death, and restored them to
their former health and beauty. Again, it will be found as
owerful auxiliary in removing what is generally known
as an Aguo Gake, or an enlargement of the spleen, in all
cases where an external application is of service, this linment will be found useful.

TAKE PARTICULAR NOTICE.

There is an evil tont sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but given rise to a series of protracted, institutes, and devantating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous systems shattered, fee's strange and unaccountable feelings, and vague fear's in the mind.

The unfortunate thus afficted becomes feeble, is unable to labor with accustomed vigor, or to apply his mid to study; his step is tardy and weak, he is dult, irresoute, and engages in his sport with less energy than usual. If he emancipates himself before the practice has done its worst end enter matrimony, his marriage is unfruit ful, and his sense tells him that this is caused by his early follies. These are considerations which should are ken the attention of those aimitarly situated.

An INVALUABLE MEDICINE.—It is but seldom we find among the many remedies affered to the public for the cure of disease, one we can consent to commend, or whose virtues we are able to discover, and have always seduously avoided giving utterance to anything that might lead any one to suppose that we placed any faith in their pretensions. But with reference to a remedy manu actured in this place, and which has become as familiar to the public as household words, we speak from knowledge of its intrinsic excellencies, its adaptation to many of the ills of it, and the security with which it may be used. We steak of the Nonpareil Nerve and Bone Liniment, prepared by H. II. Carr & Co., from a prescription furnished by Dr Watson Carr, late of Morgantown, and now of Wheeling, one of the moat eminent Physicians in Virginia. This Liniment is hased upon the broad principle that any remedy which will relieve external pain, will if properly compounded, be equally efficacious in temoving internal affections, a principle that has been successfully developed.—It is stumply the offspring of Science, being mild and simple in its action, and yet revealing in its effects a power more incredible, reaching the most hidden sinews of man and beast—and yet being innoxious to the weakest infant.—It is also by lar the cheapest Liniment in the market, being put up in bottles twice as large as the majority, and one fourth larger than the largest, besides being more than four times as strong. The author of this work, unlike the majority of those who advertise to cure the diseases of which ittreats is a graduate of one of the best colleges in the United States. It sifurds me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner; in whose honor and integrity they may place the greatest confidence.

Jos. S. Longshork, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the author of the "Medical Manual." Numerous cases of Disease of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some cases where the patient has been considered beyond needical aid. In the treatment of Seminal weaknesses, or disarrangement of the functions promul weaknesses, or disarrangement of the functions promai weaknesses, or disarrangement of the functions produced by self abuse, or excess of venery, I do not know his superior in the profession. I, have been acquainted with the author some thirty years, and deem It no more than justice to him, as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves.

"This is, without exception, the most comprehensive

one in whose professional skill and integrity they may badely confide themselves.

ALFRED WOODWARD, M. D.

This is, without exception, the most comprehensive and intelligible work published, on the class of diseases of which if treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, car object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and 'with too little breath to puff, and 'too little presumption to impose,' he has offered to the world at the merely nominal price of \$2 \text{cents}\$ the fruits of some twenty years most successful practice '-Heraid. 'No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their clarge. '-People's Advacate.

A Preshyterian clergyman in Ohio, in writing of 'Hup ter's Medical Manual,' says: 'Thousands upon thousa's of our youth, by evilexample and the influence of the passions, have been led into the habit of self-pollution with out realizing the sin and fearful consequences upon themselves and their posterity. The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or the cure. Any thing that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion fo Jesus Christ, on the present and coming generations. Interpresance, (or the use of intoxicating drinks,) though it has slain thous-sands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, believe me, your co-worker in the good workyou are so actively engaged in.'

Knox,) so long and favorably known in the trading public—assuming the style of McClallens and Knox.

They would respectfully inform their old customers (who have so long and liberally sustained them) and all other dealers in Boots and Shoes, that their Fall Stock will be arriving from the 10th to the last of September.

Having been selected with the greatest care and bought for cash, they flatter themselves that in their Fall Stock of Boots and Shoes they can held out inducements in quality and prices superior to any eyer offered in the market. To Country Merchants on their way east, they would be pleased to exhibit their stock, and post them in prices, fearlessly challenging a comparison with the markets of Patlimona and challenging a comparison with the markets of Baltimore a hiladelphia. MEDICINAL.

Dr Hall's Celebrated Pulmonic Elixir

ice speaking; and all affections of the organs of respiration.

Warranted the pleasantest and best medicine for diseases of the lungs ever sold in America.

In presenting this medicine to the public we have the
salisfaction to know that we not only present them with
an invaluable antitate for the class of diseases it professes to cure, but one which is perfectly harmless in its effects upon the constitution, an can be administered without any fear of mineral poisons, for it contains none.—
The fact, that a large portion of the suffering, and death
throughout t.e. country, is caused by disease of the organs
of respiration, consequent upon exposure and cold, has induced us to put it within the reach of every individual
who may need a renealy that has proven itself so invaluable.

who may access a tenery time, man pro-able.

This medicine is the result of a long experience, and study of those diseases of the image which are so frequent in our changeable climate; and we claim it to be in advance of all medicines ever before discovered for those peculiar compidities, an improvement upon all, and consequently superior to all others.

We shall make no extravagant assertions of its efficacy in contradictions as like the wandars of too many nostrums,

We shall make no extravagant assertions of its efficacy in curing diseases. like the venders of too many nostrums, who deceive all who trust them, nor shall we hold out any inducements which experience does not justify.

If patients will persevere in the use of this medicine, and use it as directed, they will be cured in every instance that it is not beyond the power of medicine. There are numerous persons now enjoying the blessings, of health and renewed life, as it were, who otherwise would have long since been in their grave, but for the timely and persevering use of this invaluable remedy. It is not pretended that it is infailible in every stage of consumption, but we know it to be better adapted to the various diseases of the respiralory organs than any other Medicine ever offered to the public. All we ask is a trial, and in every instance, it used freely eccording to the directions, and if perfect satisfaction is not given, the money will be returned.
