MEDICAL

CONSUMPTION SUCCESSFULLY TREA-TED BY INHALATION MEDICATED VAPORS.

BY JOHNSON STEWART ROSE, M. D.,
Follow of the Royal College of Physicians, and for year
Sentor Physicians the London Royal Infrasary
for Diseases of the Lunge.
The this age of progress, medical science has contribute
ther full share to the general welfare, and that white
sames respicalent, the brightest jewel in her diludem, is be
least and restest effe. animes respiculent, the brigances po-last and greatest cift, MEDICATED VAPOR INHALATION, MEDICATED VAPOR INHALATION,

last and greatest sift,

MEDICATED VAPOR INHALATION,
in the treatment of Consumption and kindred affections.—
The most abund notions, narrow-minded prejudices, contemptible growrance, and unblushing quantery, have lone existed in the treatment of Consumption. Men of skill and reputation as physicians, have prescribed manseous compounds to be taken into the stomach; to cure discases of the lungs, while the brazen-faced quack held up his nostrum as the only star of hope for the consumptive—if only enough of it were swallowed. The stomach, where no discase exists, being the receptacle of all this, is soon rendered unfit to perform its functions, and the health thus materially injured. All must see the aisurdity, the pestitive injury of such a course; the discase is in the lungs, not in the stomach; then why, in the name of common sense, do you not apply medicine directly to the lungs? The advantage of Inhalation in Consumption and Throat Discases is, that medicines in the form of Vapor are applied directly to the iungs, where the discase exists, the stomach is thus left perfectly free to all in restoring health, by administering to it healthy, life-giving food.—There is no case so hopeless that Inhalation will not reach. The means, too, are brought within the reach of all, the manner of administering the Vapors being so simple, that the invalid is never required to leave home, where the hand of friendship and affection tends so much to aid the physician's effort.

The Inhaling method is soothing, safe, and speedy, and of friendship and arceston teasers.

The Inhaling method is soothing, safe, and speedy, and consists in the administration of medicines it such a manner that they are conveyed into the lungs in the form of vapor, and produce their action at the seat of the disease. Its practical success is destined to revolutionize the opinions of the medical world, and establish the entire curability of Con-

umption.

I appeal to the common sense of all afflicted with lung discases, to embrace at once the advantages of Inhalation, and so longer apply medicine to the unof-ending stomach. I claim for Inhalation a place amongst the preclous gifts that sature and art hast given us, that "our days may be long in beland" and as the only. ARK OF REFUGE FOR THE CONSUMPTIVE.

f Consumption.
One word for myself, in answer to those claiming to hav
stroineed the practice and to the tribe of imitators, who
it is brazen impudence, claim it as their own. I both word
favor of Inhalation and practice it is years! The appation then used, with the profession. in favor of Inhalation and practised it 18 years. The apparatus then used, with the medical agents employed, achieved only a partial success; I therefore did not claim for if then the mirsculous powers which a long practice has since enabled me to give it. Proof of this may be found in my work published in 1840.

Applicants will please to state if they have ever bled from the Lungs, if they have lost any flesh, have a cough, night sweats and fever turns, what and how much they expectorate, what the condition of their stomachs and bowels. The necessary medicines, apparatus, &c., will be forwarded to any part.

RECOMMENDATIONS BY PHYSICIANS. We, the undersigned practitioners in medicine, cheerfully and heartily recommend Dr. Rose's method of treating diseases of the Lungs and Throat, as the best and most effects all eyer introduced into medical practice. Our conviction are based upon having several of our own patients, confirmed consumptives, restored to viporous health after a fer months' treatment by Dr. Rose. In the above named diseases, the application of Medicated Vapors, inhaled direct ly into the Lungs, may be justic considered a great boon to suffering humanity, rendering Consumption a perfectly curable disease.

Dr. Rose deserves well of the profession for his unwearied labors in bringing the Inhaling method to such a degree operfection.

CERTIFICATE. Dr. Hastatt:—Sir: Having analysed a bottle of your Wormwood Cordial, and tested its various qualities, I take great pleasure in giving my testimony in its favor, as the articles composing it, being entirely vegetable, are perfectly safe, and such as any unprejudiced Physician would not he itate to prescribe to his patients. I have administered it in my wife, whose health for some time past has been exceeding if freely, and it has strengthened and invigorated her greatly. I therefore recommend it with perfect confidence to the public in all cases of Dyspepsia, Debility, and all other diseases for which it is recommended.

GREAT VICTORY OVER ALL LINIMENTS!! J. B. Vondersmith's

CHANG FHU, CHINESE LINIMENT

THIS superior preparation is presented to the American public with the greatest confidence in its efficient curative qualities excel any other known Liniment. Its action is certain, safe and uniform, failing in no case where an external application is appropriate. All who have tried it regard it as infallible in the following diseases: Rheumatism, Sprains, Bruises, Swelical Linius, Weak Joints. White Swelling, Pains in the Back; Hips, Sidest, he Breast, Face, or any other part of the body. It is an excellent renedy in Bruises. Scalds, Cuts, &c., The usefulness of this inestimable chemical compound is by no means confied to the human species, but is efficacious whenever applied to the disease? Of the favorite domestic animal the horse. Among the many diseases and accidents occurring to the horse, for which it is the most certain cure, may be named the following Cuts, Bruises, Sprains, in the Shoulders, Chang, Scratches, Cracked Heels, Sweeney, Spine, Pator Joints, etc. For further particulars see direction on bottles.

on bottles.

TAKE NOTICE.

Many and just objections are made to all the ordinary Linimerals of the day on account of their offensive smell, and the unsightly stains often left upon the skin. A wonderful fact which has been verified to the astonishment of the meet product objective and the delight of fastilious patients is that in addition to its surprising curative effects, it is the most healthful cosmetic and agreeable perfume. To any part of the skin for which it may be applied it imports a rosy and natural glow which lasts for many hours, and leaves the velvety softness of healthy skin, material of the erected and chapped appearance which is a common result of aimost all other acticles used for that purpose. Hence, every lady's toliet is supplied with it who knows its excellent qualities in this respect. To realize its agreeable odor you need but open on bottle and try for yearself.

DEAR SIR:—I have been afflicted for three years with Eheumatism in my back, and for the last six mouths not able to get out of my bed without help, and your agent in our city insisted on my trying one bottle of Chang Fou Liniment and try what offset it would have; and one bottle has released me so much that I was able to get out of my bed without difficulty. It has been a blessing to me: just try for yourself and you will be well pleased.
