FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effec-tive purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues THERE has long existed a public denianal has the tive purpative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been autempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is aerimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor, and Loss of Appetite, Listlessness, Irritability, Bilions Headache, Bilious Pever, Fever and Ague, Pan in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gont, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the system for th

This remedy has won for itself such notoriety from its enries of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affection of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colins, Coughs, Hoarseness, &c., and for Childbarn, it is the pleasantest and safest medicine that can be obtained. an be obtained.

As it has long been in constant use throughout this

section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by ine article is sold by —

prices. They would state that they are now selling many kinds of Fine Dress Goods at from 25 to 40 per cent. less than six weeks since.

Their stock would be found to be the largest and most desirable in the city, having cost them \$50,000, and occupying their entire store-house, which is nearly \$60 feet deep and three stories high.

Particular attention is invited to their superb stock of Ladies' Dress Goods, embracing \$10,000 worth of Rich Dress Siks, Satins, Robes, Velvets, etc., \$6,000 worth of Prench Merinos, Cashmeres, Delaines, &c., in every variety of style and quality, French Printed, Striped, Ombre Shaded; Robes, Dadais Robe a Quille, etc., etc., \$2,000 worth of Shawis, Cloaks, Mantillas and Scarfs, embracing some of the richest Chenelle, Brocha and Stella and Scarfs, imported.

Their stock of RICH FURS is very desirable and very low. Their stock of Domestics—especially Woolens—to wit: Oassimeres, Tweeds, Casinets, Blankets and Fiannels, has never been equalled in quality or chraphess.

They have a large stock of CARPETINE, RUGS, RICH CURTAIN GJODS, etc., to which they have devoted an entire room, and these, with their entire stock of goods, will be found to be excelled by no house in the West; in quality and price.

Particular attention is invited to their stock of BONNETS AND MILLINERY GOODS, which have never been equalled in point of beauty, elegance and cheapness. They solicit the attention of Cash Buyers, and believe that this is the time to buy Goods—cheap with Cash.

embracing the BEST SELECTION of choice goods they have
ever offered to the Public.

To their former variety they have added a large stock of
Carpeting and Rugs of the latest designs and best makes,
and also a beautiful line of choice Furs, suitable for the
Winter Trade,—to both of which, as well as to their stock
generally, they invite the attention of the Trade.

Having been in the Exatern citles a short time previous to
the late heavy rise in all kinds of Cotton Fabrics, and buying largely with the Cash, (as they have done for many years
rust) as well as directly from the lunporters, and Manufacturers in some instances; they are able to offer inducements

FARIS' IMPROVED GRAIN DRILL

THE SUBSCHIBER respectfully invites the attention the farmers of this and adjoining counties to the Stock of Drills, adapted to the sowing of ALL KINDS OF GRAIN, manufactured the present season, under the supervision of the advertiser, and now on hand at the Agricultural Works of W. M. Griffith & Co., (late B. Hoyle,) Martin's Ferry, Bel-

W. M. Griffith & Co., (late B. Hoyle,) Martin's Ferry, Belmont county, Ohio.

It is not necessary to advance any argument in favor of Drilling over broadcast sowing, as every farmer is alive to the fact that, besides lessening materially the labor of sowing, all experiments have demonstrated that a given amount of seed, planted with a drill, will yield 20 per cent. more grain than an equal quantity sown broadcast.

The fact that this drill is an article of home production, manufactured under the personal supervision of the inventor, and embracing all the improvements suggested by several years of actual experiment in the field in this vicinity, together with the general satisfaction which it has cinity, together with the general satisfaction which it has given wherever introduced, is deemed a sufficient recommendation to the confideration of persons desirous of a Drill combining the requisites of cheapness, efficiency and durability.
