-WHEELING, VA:-THURSDAY MORNING, MAY 27, 1858.

THE REPORTS ON THE SALE OF FORT SNELLING -Hon Jno. B. Floyd .- We received, by yesterday's mails, from Hon. Sherrard Clemens, a copy of the minority report drawn up by Messrs. Faulkner and Burnet, on the subject of the alleged fraudulent sale of Fort Snelling .-Fort Snelling, as probably most of our readers know, is a government fortress near St. Paul, in the State of Minnesota, and has been used as n supply depot in our difficulties with the North Western Indians. Inasmuch as but few demands have of late been made upon it on account of its remoteness from the scenes of hos-Secretary of War, Hon. Jno. B. Floyd, as with- among the trans-fixed specimens of "glorious in the subjects of rightful bargain and sale by him. He, therefore, acted upon this real or supposed belief of his, and some months ago sold the fort, stock, lock and barrel, for some ninety odd thousand dollars, when its real value was but little, if any, short of half a milproper publicity been given that the sale was this question-that is, both the majority and the day. These votes will be cast by people minority reports, some degree of attention, and we must say that the more we read and consider on all the circumstances attending the inception and consummation of that sale, the more thoroughly are we impressed with the corruption of Hon. Jno. B. Floyd, the Secretary of War. This is a serious imputation to make and who is reported to exercise so potent an influence in the Executive Councils. But still we must say that, take all the circumstances of the case, together with Gov. Floyd's known character, and the stigma of suspicion that attaches to this transaction cannot be they have learned town tricks, the case will be easily explained. At least it has not been so far as we have yet seen. His two minority friends are not thought to have done it, so far as motives of policy or expediency. Have not so we can learn, either in the mind of Congress or of the public at large. It is a matter of so grave a character as to have seriously enlisted | their vote, regardless of who wins or loses. the investigations of the House of Representatives-and we do hope that the matter will not be allowed to drop. Gov. Floyd stands now as a dark spot upon the administration's reputation for common honesty-honesty, not in political discipline, for we believe that some allow that a man may be morally honest yet politically dishonest, but he stands forth to the gaze of by a bribe. Certainly he cannot think to put off the public as he sought to do the opinion of the Commander in Chief. If he ignores what Gen. Scott may think, as he professes to do, he cannot so disregard the impressions of the public.

Sometime last sammer, when public opinion was no little excited about this same matter, Gen. Thomas, who had been sent out by Gen. Scott, on official business, reported, as incident to his mission, upon the sale of Fort Snelling. This report was made by Gen. Thomas to Gen. Scott, and by Gen. Scott transmitted to the War Department. It strongly condemned the sale as a set off to Gen. Scott's endorsement, the

"This report is sufficiently clear in its statement of facts connected with Indian tribes .-The dissertation about Fort Snelling, its sale, and the importance of it for a military depot, is a gratuitous intermeddling in a matter already disposed of by competent authority.

Whatever may be the opinion of a 'military man' as to keeping up a military post in the heart of a settled country to hold Indians in subjection who roam through the forests many days' journey away from it, a man of common apprehension would conclude that the proper place for forts and troops was amongst the Indians to be held in subjection. When the United States army are set to 'cutting and stacking,' it is possible a still more eligible point may lected for the purpose near to the Indian settlements, where the troops would need those

When this department is required to report to 'subordinates' under what circumstances the post at Fort Snelling was sold, or any other act was done, the duty shall be performed; but, until then, a 'military man' will probably understand that a superior in authority is not to be called on for an explanation of any order.'

What is to be thought of the petulant tone of these comments of the Secretary. He seems to have been in a rage that the keen sagneity of the gallant Scott should have detected "something rotten in Denmark" in that sale. But we hope that Mr. Secretary Floyd will be taught that he cannot bluff off investigation or comment from the people. It wears the face now of a high handed fraud, and as such it demands a most searching serntiny.

The majority of the Committe appointed by Congress to report upon the subject, express their opinion as follows:

Resolved, 1. That the sale of the military post of Fort Snelling, and so much of the reservation attached to it as was necessary for military purposes, made on the 6th day of June. 1857, under the authority of the Secretary of War, the same being then and now retained under the authority of the department, because necessary to military purposes, was without authority of law.

2. The said sale was made by the Secretary of War notwithstanding his knowledge of the official opinions of his predecessor, the Hon. Jefferson Davis, and of other officers in superior military command to the contrary, without consulting with, without the advice, and without the knowledge of any officer in the service of any rank, leaving the question of the retention of that post to the discretion of the commissioners appointed to make the sale, and that this action on the part of the Secre-

tary of War, was a grave official fault. 3. That with a knowledge of the great value of the Fort Snelling post reservation, and the importance of great caution and judgment proved destructive to the grain crops.

in making the sale, the Secretary of War appointed as agents for the purpose, unqualified, nexperienced and incompetent men.

4. That provision for, and management of the sale, were so negligently, carelessly and injudiciously made, as to induce a successful combination against the Government, exclude all competition, and bring loss to the Government. That John C. Mather, agent of the Department of War for the examination and sale of the Fort Ripley reservation, after having already joined a combination for the purchase of the Fort Snelling reservation, acted, in making such purchase, in violation of his official duty, and igninst the known policy of the Government; and that, as to him and Richard Schell, represented by him as agent, and Steele and Graham, who were complicated in the sale with him, with a full knowledge of this official character, the sale of the Fort Snelling reservation was at the time, and is now void.

----THE SHERIFFALTY ONCE MORE, AND FOR THE LAST TIME. - The agony has come at last. The sun of Waterloo, or Austerlitz, or some other terrible rout, has risen upon the prospects of not less than four candidates for the hangmanship of this bailiwick. Ere the sun goes down, the long disputed Sheriffalty will be among the tile demonstrations, it has been adjudged by our fixed facts, and several of the contestants Between this and dinner-time, there will be a shaking among the dry bones concerning that floating vote which will be held as a reserve corps. There will be nothing like a heavy forenoon vote, to strengthen the knees and the prospects of each candidate. A vote lion. It is shown that the fort could have before dinner will "do good like a medicine," brought at least four hundred thousand, had any and will be of infinitely greater service than two votes after dinner. But still, for all, hundreds about to be made. We have given both sides of of votes will be held back, until the middle o. who are choosing between the least of the evils -prople who have a decided preference for some one candidate, yet will forego that preference, if they see a better chance to make a centre shot-a home thrust against some candidate who is especially obnoxious to them. Among five candidates, the vote of this county will be upon a man who occupies so high a position, badly cut up at the starting out, until the people get an idea how the thing is running, if the tide commences setting in in favor of one man, he will be, in all likelihood, singled out in a few hours, as the man upon whom his party should rally. The candidates to-day for the Sheriffalty are: the public as guilty of malfeasance-as polluted Hubbard, (Whig.) Dorsey (American,) Irwin, (Whig,) Cotts, (Independent Democrat,) Bedillion, (Nominee Democrat.)

The Clerkship of the Circuit Court is the next biggest bone of contention. There have been announced in our columns, the following candidates, viz: Loring, (Liberal Democrat,) Swearingen, (Old Line Whig.) Bonham, (ditto.) Chapline, (ditto,) Dr. Chapline, (the last named,) we see by the Argus, has withdrawn. The candidates, therefore, are now Loring, Swearingen and Bonham.

For the County Court, Mr. Juo. MaColloch,

Processes in Russia .-- A letter from St. Petersburgh to the London Literary Guzette says that literary activity now prevails in Russia of which the like was never seen before. A great many foreign contemporary authors of renown have just been translated, and amongst then: are Macaulay, Grote, and Prescott. Numerous works of native authors are announced. An H-Instrated St. Petersburgh News has been established. Theatrical, literary, scientific military, maratime, and economical journals have been started; periodicals containing original tales and translations are numerous; even mild imi. tations of Panch are not wanting. And what of the new journals are allowed to be sold in the streets as newspapers are in London.

Stemarine Telegraph to Cuba.—It is reported that the Atlantic Telegraph Company have made application to the Secretary of the Navy for the use of another Government ship te assist in laying the Atlantic Cable. A Havana paper publishes the order of the Captain-General, authorizing the Submarine Electric Telegraph Company to lay a submarine cable to Key West, and thence by telegraph through Florida, to unite with the telegraph leading to all parts of the United States.

-91019 Re-Establishen.-Mrs. Swisshelm's paper, the Visitor, at St. Cloud, Minnesota, which some of her enemies destroyed by violence, some weeks since, is again published. Her friends assisted in re-establishing her printing office, and the people of St. Cloud have pledged themselves to support her. We congratulate the fearless editress on her triumph, and hope, when another attempt is made to interfere with the freedom of the press, by a lawless mob, they will be dealt with in a summary manner.

Hall Stony-Heavy Loss.—A violent bailstorm visited the vicinity of Fredericksburg, Va., last week. The wheat and oats crop on some farms were entirely destroyed. The mill dain of John L. Marye was washed away. Its erection cost \$1,500. The Recorder estimates the damage done by hail in the neighborhood of Fredericksburg at from \$75,000 to \$100,000.
