Night before but, some dozen or more ragamuffin looking young fellows, with their faces painted black, made their appearance in the streets. They were disguised as negroes, with wigs resembling black wool stretched over their heads. Some were dressed in female apparel, and others were grotesquely attired in breeches, toothpick coats and shocking bad hats. When drinking thirstily of whisky, and, like Oliver Twist, eternally "asking for more." This party they would divide off, form a cotillion, and indulge in a regular breakdown. After playing about as "drunk as the articles of war would consistently permit," the thing broke up in a terrific row at the McLure House corner. A little fellow encased in calico, voluminously hooped, fancied that somebody struck him, whereupon he drew a long knife, put on a pair of brass knucklers, and made at one of his lar ger negro companions. After making two or three desperate cuts, the little fellow was mastered by superior strength, thrown down and disarmed. It was an exciting scene, and was vastly enjoyed by a large crowd which had collected about the corner. As we intimated yesterday morning, there is a fair chance for some analytical chemist to immortalize himself and do the city a service by ascertaining the parts and ingredients of which our modern whisky is composed. It is playing some strange

A Dark Time.-Umbrellas and tarpaulin coats greeted us yesterday upon every turn and glistened in the universal gloom. The air was raw, damp, and chilly, as productive of colds chilblains. The cold rain splashed against the windows as if mad at being barred out, and a stiff, wintry wind sustained it bravely. The night was one of Egyptian darkness, foggy and humid. The gas lamps cast but a dim ilght, and pedestrians went groping through the more obscure parts of the town, with their hand lights, moving about like so many Jack o Lanterns. Magnifiecent opportunities were presented to the perambulating public to pitch into any of the hundred man-traps along the streets, and many adventurous persons availed themselves of the same with most happy results.-We saw an old gentleman, whose form tended to obesity, sort o' squirming or struggling out of a red mud cellar, to which he had just paid a short and unceremonious visit, during the performance of a most remarkable acrobation feat. He looked like the hind quarters of bad

4.0.0 Runaway Negroes .- Ten negroes, three wo men, two children and 5 men, ran away from Pruntytown on Sunday night about eleven o'clock, taking with them seven horses. Their horses were discovered near the residence of Thos. B. Fetty, about six miles south of Mor gantown, on the Fairmont Pike, on Monday morning about five o'clock. Three of them be longed to Zed. Shields, three to Cornelius Runnells, three to Col. E. J. Armstrong, and one to Jas. W. Baston .- Morgantown Star. We lears from a gentleman just arrived from

the scene, that the negroes were overtaken in Fayette county, Pa., where a desperate fight took place, and the owners and others pursuing were beaten back. Cel. Armstrong, of the pnrsuing party, was attacked by one of the negroes with a corn cleaver, and would have been killed to serve a family Tat the late Fair are members and entitled to the prior the interference of one of his own servants, who stepped in to protect his master.-Another of the party pursuing was fiercely attacked and badly injured, while the negroes made their escape. The fight took place on what is known as the Bachelor Farm. Day before yesterday a party of about twenty-five persons, from Morgantown, started in pursuit of the negroes, but nothing additional had been heard at last accounts from either the pursuing or pursued.

A Dog Funcier in Trouble .- A man from Ohio, named James Macrone, was passing down Main street, yesterday, leading a villianous look ing bull dog. Seeing a good proportioned specimen of the canine race chained in the warehouse of the Messrs. Reed, near the stone bridge, Macrone impudently thrust his Idog upon the other, to see which could whip. A disturbance ensued when Macrone was ordered to avaunt and quit the place with his savage cur. Instead of complying with this request Macrone stood proclaiming his dogs fighting capacity in a very profane manner. He was arrested, taken be fore Ald. McCourtney and fined two dolars and

Anniversary .- We have received a circular stating that the citizens of Western Pennsylvania are making arrangements to appropriately celebrate the 25th inst. at Pittsburgh-the con- Its actinental anniversary of the capture of Fort Duquesne, or in other words, the overthrow of the French and the establishment of Anglo-Saxon dominion in the Valley of the Ohio. A grand procession of the citizens of Western Pennsylvania is proposed in which prominence will be given to the Municipal, County, State and National officers who may honor the event by their presence. Edward Everett has been invited to deliver his address on "Washington" on the

The River.-The river was coming up still at the | b rate of about one inch every twenty-four hours, the channel showing a depth last night of three feet five inches. Despatches from Pittsburgh announce a slight improvement in the river with good prospects. The rains of yesterday and night before last must keep up the swell.

Curing Hams.-The following useful receipt which we find credited to the Scientific American, we publish for the benefit of our city as well as country readers:-"As the time is at hand for preparing these useful stores of rich and savory food, a few words will not be out of place in regard to them. The legs of hogs short in the hock, are the best for hains, and should be chosen in preference to bulky hogs. They may be salted by immersion in a clean pickle, containing a little sugar and saltpetre dissolved, or they may be salted by rubbing ground solar evaporated salt over them, turning them every we first got a glimpse of them they were in a Main street barroom, and although some of those rigged in calico were quite young, they were all meat. It requires about a month to salt hams by the wet process, and three weeks by the dry system. At the end of this period, they should Twist, eternally "asking for more." This party of self made Africans were accompanied by a fellow who played the violin, and occasionally the kind of material used for smoking them so as to secure a sweet flavor. Whatever kind is used for this purpose one condition should never be overlooked; it should be perfectly dry, or the thing out pretty effectually, and getting else it will be liable to impart a bitter taste to the meat. Dry corn cobs, and some dry sweet hay are superior to any other agents that we have seen employed for smoking beef and hams. Mutton hams may be prepared in the same manner as those of pork, and they are exceedingly palatable when the meat is good and care exercised to smoke them slowly.'

> Attempt to Commit Suicide .- Joseph B. Sapp, confined in the Morgantown jail, for the murder of his wife, attempted to cut his throat with a case knife, a few days since. He succeeded in making a ghastly wound in his neck, which was sewed up and dressed without material injury to the desperate man.

The Agent for Prof. Wood's Hair Restorative in New Haven, received the following letter in regard to the Restorative, a few weeks since:

Deer River (Conn., July 28, 1855.

Mr. Leavenworth—Sir: I have been troubled with dandraff or sourf on my head for more than a year, my hair began to come out, sourf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure. I called at your store on the list of April last, and purchased one bottle to try it, and found to my satisfaction it was the thing; it removed the scurf and new hair began to grow; it is now two or three i ches in length cohere it acts all off. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the beaver of this. I don't know as any of the kind is used in this place, you may have a market for many bottles after it is known here.

Coal Oil and Coal Oil Lamps. Coal Oil and Coal Oil Lamps.

We have just received a beautiful article of Coal Oil, better than any ever before sold in this city.

The disagreeable odor which is connected with the Carbon and Coal Oils offered by others, has in a great degree been removed from this Oil, making it pleasanter to handle and giving a more brilliant light without the smoke which attends the Coal Oils now in use.

We have on hand, of our own manufacture, the largest and best assortment of Lamps of every description for burning the different kinds of oils.

Our Coal Oil Lamp Oap is so constructed that by the expansion of the chimney from heat it will not break by being gramped in the cap, which is the case with other crps.

Coal Oil is the best Oil ever used, giving far more light at a less cost, and being non-explosive. All in want of Light, cail at the Queensware Store of

Out of Purgatory.

Henry Davis, Mound street, St. Louis, who says he was "suffering the pangs of purgatory" with Neuralgia, for months, was cured by three or four applications of the Arctic Liniment.

months, was cured by three or four applications of the ArcticLiniment.

Plty the Little Children.

A little daughter of Mrs. Lee, residing on Lake sirect Chicago, was scaled all over by the upsetting of a kettle of boiling water. The Arctic Liniment was applied according to the directions, and the fire was instantly extracted, and in a few days the little sufferer was well.

Reserved to Renmy.

Mrs. George K. Tyler, Canal street, N. O., had long suffered from a painful and disfiguring eraption on the face, and by the use of one bottle of the Liniment wascured, and restored to her original beauty.

A Horrible Tumor.

Eugene Mallory, Natchez, was three years the victim of a horrible tumor on the neck, which resisted all remedies until he tried the arctic Liniment. Three bottles cured him in a few weeks.

Wonderful Cure!

Mrs. Bedford, Mobile, was confined to her couch for three years with numb palsy, and after being in despair from the failure of all other remedies, was cured by the Arctic Limiment, in a little over a month.

An Explosion.

Mangus, Trans., Nov. 25th, 1857.

I hereby certify, that having been badly bruised and scalleds by the explosion of a Steam Boiler, a friend induced me to try Bragg's Arctic Liniment. The shart was instantly extra ted from the scalds, and in a very short time, all the pain was gone from the bruises. In two weeks I was well, and able to resume my business.

The strind See!

Webstra Ciry, lowa, Nov. 9th, 1857.

Dr. A. G. Brago.—Deat Sir: For more than three fears I had been addred with inflamed eyes, in an aggravated degree, and tried various Physicians, and several mostrums, to no effect; I was induced by Dr. Baum to try the Arctic Liniment, and in two months was neerly well. My little daughter was afflicted in the same manner for the same time, and curing a portion of the time was entirely blind in one eye. I applied your valuable Liniment, and her eyes are now perfectly sound. Thus have I, with one two-bitt-bottle, cured my daughter's eyes and my own, besides ouring the rheumatism in my back. I would not be without yourinvaluable remedy in my house. Yourstruly,

Wrester City, Iowa, Nov. 9th, 1857.

I hereby certify that I am well acquainted with William Russell, and with the astonishing cures he mentions, and know his statement to be strictly true.

J. J. WADSWORTH, P. M., Webster City.

This invaluable Liniment is also equally effications in curing the diseases of animals, as witness the following certificate: Mesers. J. &A. Arnot, and Lynch, Arnot & Clo., keep the two largest livery stablesin the West, and are generally known throughout the United States.

St. Louis, Dec. 28d, 1857.

We, theundersigned, having used Dr Bragg's Arctic Liniment for a number of months, cheerfully testify to its superior efficacy in curing the diseases of horses; so well are we satisfied of the Arctic being the best Liniment made, that we would use no other. We keep and have kept for a number of years, extensive livery stables in this city, and consequently our experience about horses and their diseases is great, and we unhesitatingly say, that the Arctic Liniment is the only one we have eyer found always effective. We cordially recommend it to allilivery stable keepers and others having the care of horses.

highly beneficial, and in others effected a decided cure.
This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated
Holland Professor, Boeriave. Because of its great success
in most of the European States, its introduction into the
United States was intended more expecially for these of our
fatheriand scattered here and there over the face of this
mighty country. Meeting with great success among then,
I now offer it to the American public, knowing that it ruly
wonderful medicinal virtues must be acknowledged.
It is particularly recommended to those persons whose
constitutions may have been impaired by the continuous
use of ardent spirits, or other forms of dissipation. Goreally instantaneous is effect, it finds its way directly to the
