Ten Cents a Week.—The *Intelligencer* is furnished to subscribers in any part of the city or neighborhood at ten cents a week.

Junius Brutus Booth Again.—He Resists an Officer and finds plenty of Sympathy.—Junius Brutus Booth, the newspaper venter, about whom we have had something to say heretofore, is becoming famous. Last night he was passing near the corner of Monroe and Water streets, under a pretty heavy load of whisky and newspapers, when the solicitation of several persons, he laid down his bundle and proceeded to enact a pantomime, which consisted in turning a somersault over a small pile of New York light literature. Officer Hawley came along and requested Brutus to go away and keep quiet. Brutus made some impertinent reply, when the officer undertook to take him before Ald. Duly. As usual, Brutus resisted most vigorously, and was divested, in the struggle, of nearly all his well worn clothing. A dray was brought into requisition, upon which the refractory subject was placed, but he struggled and kicked and yelled so desperately as the vehicle started, that it was feared he would get his legs entangled in the wheels with serious results. He was, therefore, removed from the chariot, and the officer called upon several parties to assist him. Brutus having enlisted the popular sympathy in his favor by his extraordinary eloquence, but one person came to the rescue of the officer, and another ground and lofty tumbling scene took place, at the conclusion of which the indefatigable newspaper man was only a few feet nearer the halls of justice, and quite naked in many places.

By this time probably a hundred persons had surrounded Brutus, and the hero, as he lay upon his back in the midst of his wrecked harness, hat and hair, was a picture to look at. At last a gentleman for whom the prostrate hero entertained a liking, came up, and they all walked off towards Ald. Duly's, followed by the crowd. Some of the witnesses testified that Brutus had done nothing for which he deserved to be punished, and that seemed to be the general opinion. Officer Hawley, testified, however, that the man's conduct was disorderly and had a tendency to collect a crowd and perhaps cause a serious disturbance. A rather savage passage at arms took place between the officer and one of the witnesses. Indeed, there was a great deal of feeling manifested among the crowd during the struggle with the prisoner, and for a time it was feared that the seemingly trifling matter would end in a serious row. The magistrate after hearing the evidence, announced his intention simply to read Brutus a lecture and let him go; so the crowd dispersed.

The question of this man's right to cry his papers in the manner he does, excited a great deal of discussion last night, and ill feeling. He certainly has a clear right to offer his papers for sale in the usual way, but whether he has a right to turn somersaults over them in the street, we were not sufficiently acquainted with the city ordinances, to give an opinion.

We submit the matter to the distinguished consideration of the astute commentator of the *Ohio State Journal*, who will doubtless be delighted to favor the public with a learned annotation on the subject.

The Steamboats.—There is about three and a half feet water in the channel of the river here, and falling. Most of the steamers are hunting favorable places to lay up, partly on account of low water, and partly owing to the exceedingly low rates of freight and duties generally. "The Ford" came up from below, discharged a pretty good cargo, and then laid up. The R. B. Hamilton arrived from below, with a pretty good trip, and after taking in a moderate load, left last evening for Cincinnati. The Courier is undergoing some repairs, but will be all right by the time her valuable services are in demand.

The contractors for taking out the wrecks of the steamers recently burned at Pittsburgh, are getting along finely. The wreck of the James Wood, which was the heaviest and prays the worst of the lot, has been raised bodily. Two sets of jack screws were put in place and chains passed under the bottom. Thus the whole was brought above water, the dirt showed out, and now the wreck is ready to be taken out. The J. H. Conn will not trouble much, as she lies nearly all out of water. The Cremora will give the greatest amount of labor, as she is sunk in deep water, and not a vestige of her to be seen. The ten boats are to be taken out at an average cost each of \$120.

Not Promoted Yet.—We stated in a late number of the *Intelligencer*, that John Sutcliffe and Robert Warrax, arrested, in Steubenville on the 5th inst., on charge of vending and manufacturing counterfeit coin, were in jail at Cleveland, and that the probability was, as the U. S. Court was then and there in session, that the accused would have an immediate trial, and at all probability, be serving the State, within a week from date of arrest. The Steubenville Herald says that on taking the prisoners to Cleveland, the Court had adjourned—and, it was found moreover, that the Cleveland Jail was pre-occupied. The U. S. Marshall having the privilege of "juggling" the prisoners anywhere within the District, they were taken to Ravenna, where they are, at present confined. They will remain there, until the next term of the U. S. Court, which convenes, in October, at which time they will be favored with a hearing.

Fourth Street J. E. Church.—We visited on yesterday, the Fourth St. M. E. Church, which is now and has been for some time undergoing a thorough course of repairs, both inside and out, and found the work rapidly approaching a state of completion. The walls and ceiling have been newly frescoed and the design and decoration are beautiful and elaborate.

The Camp Meeting at Moundsville has been very well attended ever since its commencement, and the several ministers are well satisfied with the progress made in the good cause. They have quite a large number of ministers in attendance, so as to favor the people with four sermons a day, and it is consoling to know that the labor has not been fruitless. Night before last it rained pretty hard, notwithstanding which, the seats were filled with people to hear a most admirable and impressive sermon from Rev. James E. Wilson, formerly of the 4th street M. E. Church. It was the intention, we understand, to break up the encampment this morning, unless there should still be many people on the ground. In that event it was thought not unlikely the meeting would be continued until Saturday.

Suspected Counterfeiter.—A fellow named Patrick McCabe, and an intimate associate, were recently detected with counterfeit money in their possession. On Friday evening officer Scroggins found McCabe at a tavern on Water street, and arrested him. He was taken before Ald. Duly and searched, but as nothing was found upon his person to confirm the suspicions against him, he was of course discharged. Patrick's partner is not to be found.

Winding Up.—The renewed bustle and animation in the streets seem to indicate that the dull season is winding up. There seems to be more doing about the larger houses and the employees are having their hands full. About the beginning of September our liveliest season will commence. Most of our dry goods men and others have started, or are preparing to start east, to purchase goods for the fall trade.

Taken to Pittsburgh.—The men, Potter and McKinsey, who were arrested night before last upon the authority of a telegraphic despatch from Pittsburgh, were taken to that city yesterday, by officers Ray and Hamilton, who came here for that purpose. They are charged with an assault with intent to kill an officer.

The Weekly *Intelligencer* will be out to-day, and can be had at the counting room for five cents a copy. Send a number to your absent friend.

BUSINESS NOTICES.

Important Cures.—The numerous cures which have been effected by Dr. Baake during his sojourn in Baltimore, have never been surpassed, and each day adds new testimony to his skill and triumphs. Every form of disease, no matter how complicated, is perfectly eradicated from the system, and all diseases of the Eye and Ear, likewise Cancers, Tumors, Wens, Fistula, Polypus of the nose, and all kinds of diseases are permanently cured, without the use of the knife or needle. His Consultation Rooms are at 74 Lexington Street, where all can see the evidences of the cures he has effected. All those who require his skillful advice and treatment are requested to be punctual, as the Doctor's hours are from 9 A. M. to 4 P. M. Dr. Baake will be in Wheeling on Sunday, Monday and Tuesday, 28th, 29th and 30th of August, at the Sprigg House, where he can be consulted by the citizens of Wheeling and its vicinity, on all diseases. d&w

A Word in Season.—Such men as Rev. Wm. Armstrong, Rev. Wesley Kenney, James E. Wharton, George Mendel, Jacob Amick, S. D. Woodrow, and scores of others equally well known, have given their emphatic verdict in favor of Brentlinger's Compound Fluid Extract of Dandelion and Sarsaparilla, as a Blood Purifier. It is not a quick Preparation—but is continually prescribed by Physicians—to whom the "formula" is made known without hesitation.

It will cure Scrofula, Pimples, Sores, Sore Eyes, Skin Diseases, Scald Head, Blisters, Mercurial Diseases, and all kinds of humors, more safely and speedily than can be accomplished by any of the so-called "Blood Searchers," or humbug "discoveries." Price \$1 per bottle. General Agents.

T. H. LOGAN & CO., Wholesale Druggists, Wheeling, Va.

For sale also at Bethany, Moundsville, Belair, St. Clairsville, Wellsburg, and by dealers generally.

GROVER & BAKER'S CELEBRATED FAMILY SEWING MACHINES, Broadway, New York.

A NEW STYLE—Prices from \$50 to \$125, hemmers \$5 extra.

This machine sews from two spools, as purchased from the store, requiring no re-winding of thread; it feeds, gathers, and stitches in a superior style, finishing each seam by its own operation, without recourse to the hand-needle, as is required by other machines. It will do better and cheaper sewing than a sewing machine of any make for one cent an hour. SEND FOR A CIRCULAR.

J. D. SCOTT, Agent, 157, Main Street, Wheeling.

Cleveland Medical College. THE NEXT ANNUAL COURSE OF LECTURES will begin on Wednesday, the second day of November, A. D. 1899, when the following courses of study will be given: The Ticket Fee, with that of Matriculation, is sixty-five dollars.
