BY LAURA ELMER. How my window is aglow—
What a splend'rs streaming through! Waves as from a golden sea, Kissing moonbeams fall on me-Heeding weither lattice bars, Nor the winking, peeping stars, Gentle moonbeams press their way, Leaving me in tremulous play; On my head, my robe, my feet, Lavish, radiant, silent, sweet, Brow and eye, and lip and cheek, Kissing moonbeams softly seek. Moon, thou art a royal friend, From a sapphire throne to bend— Sweet to-night, O gentle queen, Towards me loving thou dost lean-Quick thy thought with mine doth blend, Just like sympathizing friend-Watch I lonely-lone, so lone, Thou dost frown not, though I moan; No-I've seen thee pale and sad, When some lurking anguish had Gained the mastery in my breast, Surging with a deep unrest.
When a joy might chance to leap,
Stirring fountains broad and deep, In my soul that loves to love, Thou too swell'st with joy above-Meet'st my gaze, and e'en a tear, I have known thee drop me here. louching is thy sympathy With my mood, whate'er it be. O beneath thy calm, bright face, Tender dreamings fill the place; Fair ideals hover nigh-Wings and spirit minstrelsy.

Jelly Glasses! WE have just made a new article for putting up Jellies.

The shape is tapering with an indented rim around the top for tying the paper. It is just the very article, and we wish all who intend putting up Jellies to call and see it. Fruit Jars! Fruit Jars!

We have also every kind of Fruit Jars!

We have also every kind of Fruit Jar,—Flint Glass, Green Glass and the celebrated "EARTHENWARE" JARS. The material of which these Jars are made being a vitreous stone body, and the glaze Pure Flint Glass, they are warranted not to absorb or taste the contents of the Jar. A letter just received from the manufacturer, alluding to the assertion that they were poisonous, says that "It is as riditivalous as it is absurd." We can refer to hundreds in this city and vicinity who have used them for the last three years with perfect satisfaction. Fly Traps! Mosquito Traps!

We have the Agency for Gilbert's Patent Fly and Mosquito Trop, a very useful and desirable article at this season of the year. Warranted to kill all the files in a neighborhood without creating any dirtor annoyance. They are also as destructive to mosquitoes. All who wish to enjoy a comportable sleep, undisturbed, come and buy.

We have also just received Children's Toilet Setts—something new and nice; White China, White Stone, Lustre Band and Decorated Spittons. Also, a fine assectment of Russian Comported Spittons.

NO HUMBUG! But a Fruit Jar that is a Fruit Jar T. SWEENEY & SON have just finished and now ready for market a new and improved PRUIT JAR, with Glass Stopper, of their own manufacture. which is beyond doubt the ne plus ultra in the Fruit Jar line. It is made of Fint Glass, and so tempered as to stand, without the least dancer of breaking eith. danger of breaking, either from expansion by heat or con-traction by cold, and is free from the many objections of the 12n Jars, which are easily corroded, and to the Earthen Yellow Wars, the dangerous Yellow Ware, the dangerous glazing of which is frequently decomposed by the acids of Fruits. All they ask is an examination before purchasing elsewhere. je21

HOMES, FOR-ALLTHE AMERICAN EMIGRANT AID AND HOMESTEAD
COMPANY, having its headquarters in the City of New
York, has been organised for the sole and definite purpose
to the country of the country of the country York, has been organised for the sole and definite purpose of collecting information from all parts of the country wherein desirable lands may be had at low prices, and commending those lands to the attention and favor of all who may be induced to purchase or improve them. It has been sillently perfecting its arrangements and correspondence for more than a year past; until it is now ready to der to settlers a range for selection embracing more than One Million Acres of cheap wild lands, with some improved farms, mainly in the States of Virginia, Pennsylvania, Tennessee and Missouri; and it will soon extend its operations into other States.

Missouri; and it will soon extend its operations into our States.

To immigrants from Europe, to the energetic young men of our compactly settled States and sections, to the hives of mechanics and laborers who throng our cities and live in constant and reasonable dread that panic or pestilence, war, revulsion, or some alteration in the channels of trade, may, at any moment, denrive them of employment and their families of bread, we say, resolve row, while you may, to seek a home where such perils are unknown.

We mean to sell lands, as well as negotiate for purchasers with those who have large tracts for sale, in every part of We mean to sell lands, as well as negotiate for purchasers with those who have large tracts for sale, in every part of the Union; but our attention is more specially directed to the neighboring States—Virginia, Kentucky, Tennessee, and Missouri. Vinoista especially profiers at this time remarkable indocements to immigrants. Her climate is temperate and genial—the Peach, the Apple, the Pear, the Grape, alike thirty in it—it is far better and more desirably Timbered than almost any new State; its navigable rivers and innumerable, available streams, water-power, and profusion of the most valuable minerals—Ocal, Iron, Salt, Copper, &c.—are unsurpassed; the State has expended large sums in constructing Canals and Railroads across its entire breadth, which place almost every county within a few hours' ride either of its scaports or of the great liniand cities of Onninnati, Pittsburgh, Wheeling, Louisville, &c.; yet fertile, inviting land, whether improved or new, is far cheaper this day in the Mother of States, than it is in Minnesota or Oregon. No where else on earth can lands filled with accessible Coal or Iron Ore, covered with choice Timber, and excellent alike for Grain and Grass, Fruit and Roots, be obtained so cheaply as in Old, Virginia; while to men of considerable means we can sell good farms almost within sight of Washington Olty for less than the fair cost of the improvements.

The TABLE LANDS of EAST TENNESSEE present some The TABLE LANDS of EAST TENNESSEE present some

of Washington Oity for less than the fair cost of the improvements.

The TABLE LANDS of EAST TENNESSEE present some of the most inviting fields for industry and enterprise on this Continent. The climate is salubrious and healthful. Its soil is adapted to all Agricultural pursuits. Its unimproved Lands ase covered with useful Timber, or present natural openings, and Meadows producing nutritious Grass. The farmet can have his products on shipboard in 30 hours and can buy his Groceries, Dry Goods, etc., at home, as cheap as any one in New England. Yet, we can sell him good Lands, with perfect titles, at from one to three dollars per acre.

A word as to the single objection which has kept these lands so long uncultivated, and which now keeps them in market at a bare fraction of the ir intrinsic value—that of Slavery. This Oampany has only to deal with any institution as a subsisting fact, over whose existence or character it has no control. But we say in all confidence to intending settlers, Slavery in Virginia need not and should not serve longer as a hindrance to settlement on your part. That grand discovery of our age, Concerned Lands, willers, including farmers, mechanies, millers, &c., take counsel together and resolve to seek new and more cligible homes in company. Let them, clubbing their means, send two of their humber to look at such lands as we are prepared to sell them. Let these delegates, after a sufficient scrutiny, buy from five to twenty thousand acres in a body, embracing all the good points they require, then let them survey the whole into farms and lots of convenient size, and put these up at auction to the highest bidder, whether a member of the company of not. Each member will of course be entitled to a return in land or money of the sum previously contributed by him to the company's funds, and to his preportion of any profit realized from the transaction. Thus, the Company will form a sort of spontaneous township, with its roads, bridges, stores, schools, church, &c., substantially after the N

exemplify the law we here indicate. Thus, before a steady and copious indiux of Pree-Labor immigration, Slavery quietly and gradually disappears, without convulsion or heart-burning, and the settlers will find their property quadrupled by the single act of settlement.

Young men of the Free States! a glorious career onens before you. We profler you cheap land, ample timber, a mild and healthful climate, absolute immunity from even the dread of savage incursion and depredation, adaptation to all the grains, grasses and fruits of the temperate zore, with ready access to ample and remunerative markets at all seasons. This, day, more than half the arable land in Virginia has never been turned by a plow, while much of the zooa lands once generously productive, is now but measerity so. Good treatment will readily and cheaply restore them to their pristine fertility. No stronger inducements to industry, no nobler theatre for exertion, so proferred anywhere on earth.

Call and see our maps, descriptions, surveys, etc., or write Oan and see our maps, descriptions, surveys, etc., or write to us (enclosing postage stamps, of course), and your inquiries shall be answered as far as practicable.

SPECIFIC HOMGEOPATRIC REMEDIES Stand confessedly at the head of remedial means for the use of the people. They are allike removed from the poisonous, dangerous and repulsive doses of quackery, or old school practice, the inconvemence of water-cure, or the intricate and perplexing obscurities of the usual Homeopathic books and medicines. Consisting of simple specifics for the various diseases to which they are related; put up in the form of simple sugar pellets; and prepared of ingredients neither dangerous or disgusting, they form at one the ready source of the parent or nurse, and are the comfort of the complaining or invalid.

They possess these positive advantages, which were never before combined in any popular remedies. They are manuates: no injury can arise from their use. They are manuates: no injury can arise from their use. They are manuates: no injury can arise from their use. They are manuates: no injury can arise from their use. They are manuates: no injury can arise from their use. They are manuates: you always know what to take, and how to take it. They are experienced in the moment's warning, without hesitation or delay. They are approximately in thousands of case disease is arrested at once, and the mite cures at the moment what the pound could not afterwards have relieved.

In Acore Discassing such as Fevers, Inflammations, Diarrheas, Lysentery, Group, Rheumatism, and such eruptive diseases as Scarlet Feyer, Measels and Erysipelas—the advantage of giving the proper remedles promptly is obvious, and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened and rendered less dangerous. Even should a physician afterwards have to be called, he will take the case at decided advantage from the previous treatment.

Coronar and Couns, which are of such frequent occurrence, and which so often isy the foundation of deceased lungs, bronchitis and consumption, may all be at once cured by the Fever and Cough Pills.

In Cursonic Diseases, such as Dyspepsia, Weak Stomach, Constitution, Liver Complaint, Piles, Female, Debility and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum, and other old cruptions, the case has specifies whose proper application will afford a cure in aimost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles, or Catarrh, Headache or Female Weakness, has more than pald for the case ten times over.

THINGS TO REMEMBER.

PLEASE REMEMBER.—That these Specifics are entirely harmless in all instances and in all cases. Babies may use them, children may use them, the agest, infirm or invalid may use them without danger, and with benefit.

PLEASE REMEMBER.—That thousands of the most gifted and intelligent minds in this country and Europe have long since given in their adherence to Homopopathy, and employ it exclusively in all cases of diseases for themselves and families. REMEMBER .- That not only in long standing

PLEASE REMEMBER—That not only in long standing, old complaints, but in recent and violent diseases of the most dangerous character, Hommopathy has proved its superiority to any other system in repeated trials.

PLEASE REMEMBER—That Hommopathy is sustained, not from its theories and doctrines, but from its daily and hourly success in ouring the sick and arresting disease.

PLEASE REMEMBER—That, it is the little ills that lead to great ones, and it is little aliments that, neglected lead to grave and serious diseases.

PLEASE REMEMBER—That you may have it in your nower nromatly and pleasantly to arrest such complaints at

e beginning, and thus prevent grave diseases.
PLEASE REMEMBER.—That this system saves you th truggling forcing and deception used to get other: ines taken by children, always opurious—often dange PREASE REMEMBER.—That the evil results of uggles generally more than overbalance all the good that

may be done by the medicines thus given.
PLEASE REMEMBER.—That Humphreys' system of Honeoyathic Specifics divests the private practice of the sysam of all perplexity and intricacy, so that every body

may use them.

PEEASE REMEMBER.—That the cure of abingle chronic aliment, such as Piles; Cararrh. Headache, or Salt Rheum, will more than ten times pay the cost of a case.

PLEASE REMEMBER.—That two or four dollars invested in a case of Specific Remedles; will return many times its value to you every year in freedom from anxiety, prevention of disease, and absolute relief.

CASES AND CURES.

A young lady of 26 had been troubled with indigestion for several months, so as to render great care necessary in the selection of her food. After eating, the stomach became acid, food rising in her mouth with waler, an I an unpleasant, heavy, load-like sensation in her stomach, continuing for some hours, frequent headaches, bowels constinated and a depressed mental cendition. See commenced taking the Dyspepsia Pills, one morning and night, and in less than a week aimost every symptom of her disease had vanished, and she felt like a new being.

A gentleman somewhat advanced in years, strong, robust constitution, had lately been a good deal affected with indigestion, weak stomach, coated tongue, had taste in the mouth and attended, with a peculiar v-rigo and whirling in the head, so much so as to render his riding in a carriage, or even mounting an eminence, quite dangerous. After trying several things inefectually, he fell upon the Dyspepsia Pills, which afforded prompt relief. A pill every night and morning and the several datastic all this vertice, and other

COUGHS AND COLDS. A gentleman, a public lecturer, took a severe cold the tter part of last month, while traveling and lecturing in orthern Pennsylvania, though addressing public audiences very evening: yet in two days, by the aid of the Specific, was entirely recovered, and enabled to pursue his calling without inconvenience. No public speaker should be lithout them.

A married lady of 40 had taken a violent cold, which set tied on her lungs, causing severe cough, pain in the side and considerable fever and howeveress. Such colds were usually ly very lasting and troublesome; but by taking the Specific Cough Pils, four times per day; in three days she was enrell. ung man of 22 had a cough and hoarseness for fifteen

A young man of 23 had a cough and honraeness for fifteen months. During cold weather his voice was lost so as only speak in whispers, pain induged on coughing, cold dry or raising only a trifle in the morning, quite feeble and emaciated. Had taken several medicines with but little or no benefit. He commenced with the Cough Pills—one pill three times per day—and soon found himself improving, his cough milder and softer, hoarseness passed off, strength and appetite improved, and in a few weeks was entirely well having taken no other medicine. PILES.

A clergyman of the Baptist Ohurch, well known in Illinois writing to us, says: "Thave been for some time seriously affilicted with bleeding piles; and have regarded my case as a severe one—at one time indeed, hopeless; but I have used your medicine (Pile Specific), and am cured. I have no doubt you are laying the world under great and lasting obligation." oligation." Ochi, Delaware county, New-York, had been a marty to the piles for twenty years. Sometimes from excessive hemorrhage, pain and suffering, he was reduced to the verge of the grave. For years he had drauged out a miserable existence, a confirmed invalid, disqualified for any business, and life almost a burden. It is needless to add that he had tried all sorts of remedles, from all sorts of dectors, to little purpose. He consulted me two years ago, and I recommended our Pile Specific, with, occasionally, a Dyspepsia Pill—Prom this he began to improve, and since has never had a serious turn of piles. From the first month up to a year past he had occassionally symptoms of his old complaint; but a few doses of the Pile Pills would disperse it all, and for more than a year past he has been entirely well of the piles. No family should be without these invaluacle curatives.—
They are the only remedies perfectly adapted for domestic and private use. With them the parent is armed and prepared against the first approach of disease, and can meet it at the threshold and keen it at bay. A trifle of medicine rightly directed in the first bours of desease perfectly cures that which by delay can only be relieved by long and tedious bours of suffering if ratal. With these at hand, you are not obliged to await the comming of that often distant, as well as expencive luxdry, a doctor, nor to be drugged or isolsoned, or blistered, or bled, but may yourself administer the simple specific, and restore the raddy current of life again to health and joy. There cannot only no injury arise in any case from their use, but the general influence upon the questitution, beyond all question, is most beneficial. No family should be without these invaluacle curatives.
