His subject at the Congregational church Thursday evening, Nov. 21, under the auspices of the Ladies' Aid Society will be "Lop-Sided Folks." The shingle mill across the river has been running for the past week. There is quite a demand for shingles at the present time in this locality. In fact, there has been a shortage here most of the year. The mill could probably be kept running a good share of the time if the owners could only obtain the necessary bolts. As it is the boats and barges on the river are kept so busy hauling lumber and poles that they do not have time to supply the demand for bolts, although there are thousands of cords of the finest stock going to waste down the river every year.
