NEWS FROM THE NATIONAL CAPITAL

What Our Lawmakers Are Doing and Other Interesting Events.

Washington.—An extra session of Congress looms very large and probable. Unless President Taft and the friends of the Canadian reciprocity agreement are able to bring more than ordinary pressure to bear on the Senate and avert the expenditure of time by the opponents of the agreement—or its friends—it is difficult to see how the Senate can reach a vote before adjournment.
Ahead of the Canadian agreement for consideration, in addition to ten general appropriation bills, are measures affecting these subjects: Popular election of Senators; Senator Lorimer case; permanent tariff board; general age pensions; Congressional apportionment, and fortification of Panama canal.
Measures Can't Be Sidetracked.
Not one of these can be sidetracked without a contest. Each is supported by a group of determined Senators. In some of the measures will be left unpassed or the Canadian agreement will die.
As the House passed the McCall bill by a decisive vote and practically all of the Democrats voted for it, the President believes a Democratic House would pass the bill without delay. It is also said the President believes the Senate, as it will be constituted after March 4, would pass the bill.
The power of the President is great and President Taft is exercising that power in a way that ultimately will win. He may not secure the ratification of the agreement at this session, but he will in the end. When the end will come nobody seems to know.
Uniform Tariff Proposed.
Senator Jones, of Washington, presented an amendment to the Canadian reciprocity bill in the form of a substitute which would provide for the levying of such tariffs as are demanded by the necessary expenditures of the government. While he introduced it "by request," Jones indicated he would favor the proposition because, if adopted, it would take the tariff out of politics.
Under the plan suggested, the Secretary of the Treasury, at the close of the present fiscal year, shall make an estimate of the amount of revenue "that should be raised from customs duties for the following fiscal year in order to meet the expenditure for that year and any deficiency of the previous year."
One Man Stands Off Majority.
With only 11 legislative days remaining, the House of Representatives was held at a standstill for an entire day by a filibuster planned and conducted by Representative Mann of Illinois. The filibuster was largely a one-man affair and one of the most remarkable in the history of the House. It was private calendar day under the rules, and the business in order was the consideration of the omnibus war claims bill, which already had been passed by the Senate. The bill largely affects Southern claimants, and the Democrats, with the assistance of many Republicans, were endeavoring to pass it.
At times the majority in favor of the bill was as high as 140, but Representative Mann was opposed to the bill and by dilatory tactics succeeded in preventing action.
National Capital Brevities.
A four billion dollar Congress sounds pretty big even for the United States, but that's what's coming, if a halt is not called, is the opinion of Representative Tawney of Minnesota.
Senator Lorimer gave notice that he would address the Senate on the questions involved in the charges of bribery in connection with his election.
With a membership of 433 in the House of Representatives practically assured for the 63d Congress, the necessity for seating, within a reasonable area, that number of members will enforce a total rebuilding of the House wing of the capitol.
Taking the country, as a whole, it is probable that the population is slightly over stated by the census bureau, declares Director of the Census Bureau Durand, in his annual report.
The bill authorizing the Secretary of the Interior to sell water from irrigating projects to private concerns again passed the House when the conference report was adopted containing Senate amendments. The bill gives the Secretary permission to sell surplus waters from government irrigation projects when the demands of the projects have been fully satisfied.

CHINA FEARS JAPS

They Are Closely Allied With Russia in Encroachments.

Pekin.—The Chinese government displays the keenest anxiety over Russia's threatened military demonstration in Ill Province, but nevertheless it may not comply with the demands set forth in the note from St. Petersburg until a show of force takes some of the sting out of its humiliation. It is believed in Peking that, even should China acquiesce, Russian would not accept her promise, but would insure its fulfillment by occupying certain points in Chinese Turkestan.
In the matter of this encroachment greater fear is felt regarding the attitude of the Japanese in Manchuria, who are asserted to be in close association with the Russians, but up to the present no action has been taken by Japan which could be construed as definitely aggressive.
Roosevelt Not In It.
Cincinnati, O.—Howard Chandler Christy, the artist, has just finished a sketch of the battle of San Juan Mill which will be used in an encyclopedia as illustrative of the movements of the different regiments which took part in that battle. He left out the figure of Theodore Roosevelt, saying Roosevelt does not belong in this picture because he was not in the real battle of San Juan Hill.
SALEM IN MOURNING
Former Governor's Death Grives the Solons and Jurists.
Salem, Ore.—Nearly all the business houses in Salem displayed some emblem of respect to the memory of ex-Governor Lord, who was universally loved and respected here as the result of his long public service.
The body of the late ex-Governor arrived here Saturday, and the funeral took place Sunday afternoon. A House joint resolution of condolence was passed by the legislature.
Johnny Kling is the latest one who is anxious to try his skill in a match with Alfred De Oro, the present holder of the world's pool title. The famous catcher of the Chicago Nationals claims he is in better shape than ever and would surely defeat the great Cuban if given the opportunity. Since the close of the baseball season he has been practicing every day and has made some remarkably big runs. Kling held the pool title last year for a few months, but lost it to Tommy Hues ton. This fall he was elected president of the National Billiard league.
American Jockeys to Breed Horses.
Milton Henry, the American jockey, has returned to New York after seven years spent on the French turf in the employ of Baron Rothschild and M. Ed Briand.
Henry has accumulated a fortune in stock operations on the Paris bourse through his racing connections with the Rothschilds, and he returns to America for a short vacation period preliminary to starting a big racing establishment in France. He expects to form a partnership with Nash Turner, another American jockey, who has developed into a trainer and owner.
The pair will visit Kentucky and Tennessee together for the purpose of purchasing a number of brood mares and stallions, which they expect to get at exceptionally low prices, owing to the unsettled condition of racing in the United States. Preference will be given to horses of French and English ancestry.
Turner has a large estate near Chantilly, where the two former American jockeys intend to establish a breeding farm and will train their own horses for the French tracks.
The Olympic Aquatic Program.
Evidently there will be no mistake about the aquatic program at the Stockholm Olympic games, for the events have already been selected. A real novelty this time will be the inclusion of a 100 meter swim for women, and it is possible before the date of the games that there may be a couple of additional games for the fair sex. It is understood that the British Olympic association will ask that 300 meter and 400 meter team races also be added. The program as it now stands is 100, 400 and 1,500 meters, 800 meter team race, 200 and 400 meter breast stroke, 100 meter back stroke, water polo, high diving and fancy diving. There will be a women's diving contest, the height to be from six to ten meters.
Mahmout Challenges the World.
Yusif Mahmout, the Bulgarian wrestler, through his managers, has claimed the heavyweight catch-as-catch-can wrestling championship of the world following the positive statement of Frank Gotch that he had retired from the mat for good and never would wrestle again in public. Champion Gotch, silent upon the report that he once had designated Henry Orde-man as the recipient of his world's championship honors, declared that Mahmout was one of the greatest living wrestlers.
How to Lead Yale Next Season.
Arthur Howe of South Orange, N. J., has been elected to captain the Yale eleven next season. Howe was the logical choice for the captaincy, and his selection has been generally forecasted. He is a brother of Henry Howe, who captained the Yale crew two years ago. He failed to make his class eleven in his freshman year as quarterback, but has been the variety quarterback the past two seasons.
