

Weekly Intelligencer. OFFICIAL COUNTY PAPER.

KEEP UP THE FIGHT.

Gen. Sherman positively declines to be a candidate for the presidency. Senator Ransom has been renominated by the North Carolina legislature.

When the civil service reform bill was under discussion in the senate Senator Vest expressed himself as not satisfied with those clauses prohibiting the assessment of employees of the government for political purposes by officers thereof, and he was right.

holds the office. Tom, Dick or Harry if they are out will cry loudly for "rotation," no doubt, but what the people want is good, honest service, and that there shall be just as little of a political machine as possible.

The general merit of the governor's message is somewhat marred by the passage devoted to the consideration of the very weak agitation which exists in the state in favor of calling a new constitutional convention.

Marsh Polk, treasurer of Tennessee, is a defaulter in a very large sum, estimated as high as \$400,000. He ran away, but was caught at San Antonio, Texas.

Senator Vest's amendment would have cured this. It was as follows: "That the solicitation of money, property, or other thing of value by any executive officer, clerk, or employee of the United States, or the giving by any such officer, clerk, or employee of such money, or property, or other thing of value for political purposes or to advance the political interests of any person or party is hereby prohibited; any person offending against any of these prohibitions to be guilty of a misdemeanor punishable, on conviction, by a fine not exceeding \$500, and by dismissal from office."

Judge Wm. B. Napton, late of the state supreme court, died at his home, in Saline county, last Tuesday. Judge Napton was born in New Jersey, and studied law at the University of Virginia. He came to this state in 1832, and located at Fayette, Howard county, where he founded the Boonville Advocate, which became a popular paper. In 1834 he was elected secretary of the senate, and afterwards succeeded Robt. W. Wells as attorney general when Mr. Wells was made U. S. district judge.

Post-Dispatch, Jan. 9.—Yesterday being St. Jackson's day Ben Butler kindly put in a word for the Saint and for his master. Nothing new about Ben. There are the patriotic reckoned to be liberal.

It is certain that the present plan of raising immense campaign funds, practically out of the U. S. treasury, but primarily from the employes of the government, is an evil. All admit this. It is little less certain that this evil will not be radically remedied by the new law. The courts have already passed upon the merits of the bill, and the result is not quite so definite and clear. If the purpose sought to be accomplished is a good one and constitutional, why should not an effective means be enforced to be held valid? If the government can say, "You shall not serve me unless you are twenty-one years of age, a citizen of the United States, and competent to answer certain questions," why may it not make it a condition precedent to employment that the servant shall agree not to contribute a dollar, directly or indirectly, to any political cause?

There is much hard work to be done in the direction of eliminating the federal offices from partisanship. The fight is not yet begun. What has been done so far is well, but those who love their country better than office will do well to see that the movement continues to be advanced and not a retrograde one.

Cincinnati Commercial, rep.—"What is the prospect for the party? It is that the German republicans have been alienated so that they will not return to their places in the grand army."

The board of railroad commissioners reorganized at Jefferson City, Wednesday, Maj. J. M. Sevier was made president, being the oldest on the commission. Col. H. H. Gregg was re-elected clerk of the board.

Post-Dispatch, Jan. 9.—"A month after the election of a democratic president, and three months before his inauguration, it will not be possible to find any republicans in the departments. The conversion is already progressing beautifully."

Jefferson City State Journal, rep.—"It is said that the new representative in congress from the old second district of this state franks the documents he carries with him with the name of 'Hon. Doctor McLean.'" It is a big advertising boom for the old man.

The object sought is to take out of party politics the subordinate public services; to make it no longer a tool for politicians; to make merit the test in it rather than favoritism; to prevent in corruption and extravagance by reason of its constitution as a political machine or engine. The people want these things done; then why not do them effectually?

Hon. Nat. M. Gwynne, of Kansas City, a former member of the legislature, a lawyer, and a patriotic gentleman, who lost an arm as a gallant Union soldier, died a few days ago at his home, in the city of St. Louis. He was a general assembly who was also a member of the thirtieth, met in Jefferson City, and passed resolutions of respect for his memory and condolence with his family.

The case of the state vs. Jas. M. Green was closed and given to the jury Thursday night at 9 o'clock. Speeches were made for the prosecution by Messrs. Wallace and Blackwell, and for the defense by Messrs. Yeager, Peck and Graves. Mr. Peake's speech is spoken of, not only as mastery in argument but as a fine piece of oratory. All the speeches were good. The jury still had the case, unable to agree, when we went to press last night.

Editor Switzer, of the Columbia Statesman, has for some weeks been looking Editor Merwin, in the St. Louis Journal of Education, in a controversy regarding Dr. Laws, president of the state University. Editor Merwin may not have found it out, despite the inclemency of the weather, but the fact is, that there is not a piece of epigram as big as his little tail left on his entire body, nor to speak of great patches of the true skin which have come away in the relentless grip of our autumn friend at the Athens of Missouri. The Colonel will have Berg after him if he does not desist.

New York World.—"To the amazement of this people from Maine to California, the Ways and Means Committee of the House recently recommended the passage of a bill reported for the admission into the United States of certain books free of duty. When it is known that the books in question are books for the use of the blind, in the manufacture of which there is so little money to be made that New England has left it to Louisville, Ky., the amazement will rapidly subside and the twinkle of intelligence will scintillate from eye to eye through fifty millions of citizens. The Kentuckian who heard of this New England in any branch of philanthropic commerce with money to be made got remarkably early in the morning."

posed to increase the duty on cotton ties to 25 per cent, an additional tax of \$60,000 a year on the south. Mr. Beck, continuing, said the tariff commission had reported in favor of many changes from ad valorem, to specific duty, the alleged object being to guard against under valuation; but the real object was a quite different one; everybody knew the progressive improvements of machinery and other influences were constantly tending to make prices lower, and under the system of ad valorem duties, the importer and consumer would get the benefit of this; but by imposing specific duty, as was now proposed, the price would remain unchanged, no matter how prices might fall. Mr. Beck said he had been deceived for a time by the report of the tariff commission (not schedule), for it was very plainly written. Indeed, the report itself was good, but the action recommended by the commission was abominable.

A dispatch from Washington City announces that the president has decided not to interfere in the case of Dick Liddie, now in jail at Huntsville, Alabama, charged with robbing a U. S. postmaster at Muscle Shoals, Ala., in 1881. The application for the pardon of Liddie was made by Governor Crittenden, of Missouri. The high officials of this state, including the United States Attorney and Chief of Police of Kansas City, on the ground that the pardon would aid materially in the conviction of Frank James at Independence. The president's action is based on a report from the Attorney-General, who made an adverse report on the pardon, on the ground that nothing was to be gained by such action as Liddie is as much deserving of punishment as James.

A dispatch from the Kansas City Times, from Marshall, Mo., dated Jan. 10, was as follows: "The funeral services of Judge William B. Napton took place at the old family home,stead, fourteen miles southeast of this place, this afternoon at 1 30 o'clock. The funeral services were conducted by Rev. J. C. Maple of this city. The pall-bearers were composed entirely of members of the Marshall bar, Sam Boy, P. J. West, W. H. Lester, Chas. M. Hawley, Thos. K. Skinker and J. B. Breatbitt. The funeral was attended by a large concourse of relatives and friends of the family. His remains were interred in the family burying ground on the old homestead.

Social Dispatch.—"Mr. Pendleton's bill, though it is not the whole measure that many would wish, is a good beginning. It will accomplish some good, will show that civil service reform has made a commencement in this country, and will pave the way for a more complete system. The situation, there are said to be 100,000 federal officeholders in the country, and the Pendleton law only affects, it is said, about 10,000 of them, so there is still very much to do in order to separate from politics those offices which should have no connection therewith.

Globe-Democrat.—"By throwing out the vote of one county on a technically, the Virginia returning board has found itself able to give the certificate of election to congress from the First district to work a republican instead of a democrat. This makes the delegation six republicans to four democrats. Mr. Mayo's prospect of holding the seat, however, is not worth much."
