### About Forbidden Societies.

In answer to a request for practical  
directions for pastors and confessors,  
indicating those societies that are for-  
bidden by the Church, but not con-  
demned by name, Father Lambert, in  
the Freeman's Journal, says:

"The confusion concerning these  
non-name societies arises from the  
difficulty of discerning which of them  
are and which of them are not  
'secret' in the Church's sense of that  
term in her decrees of condemnation.

"The prudent pastor or confessor  
should make a careful study of Titu-  
lus viii., Caput iii., of the Third  
Plenary Council of Baltimore, and  
follow strictly the injunctions there  
laid down. But as good, zealous pas-  
tors and confessors may sometimes  
differ in their application of the prin-  
ciple given in that chapter, to particu-  
lar cases, the surest way to attain to  
the desired uniformity is to consult  
the Ordinary of the diocese in all  
cases of non-named societies.

"This same Caput iii., in paragraph  
255, lays down a rule to govern the  
action of the Ordinary when a case is  
brought to him for judgment. It is as  
follows:

"To forestall, moreover, a variety  
and confusion of discipline, which is a  
source of scandal to the faithful and  
an injury to ecclesiastical authority  
when the spectacle of the same society  
condemned in one diocese and toler-  
ated and encouraged in another is  
presented to them, we are unwilling  
that any society be proclaimed by  
name until the Bishop refers the mat-  
ter to a commission which we now  
appoint for the judging of such  
cases, and which shall be composed  
of all the Archbishops of the United  
States. If they are in disagreement,  
the matter shall be carried to the  
Holy See for a sure decision, and thus  
a uniform discipline will be safeguard-  
ed in the American Church."

"This, it seems to us, prevents the  
pastor or confessor from making his  
own private judgment the ultimate  
rule for the penitent, or from impos-  
ing his judgment definitely as a con-  
dition sine qua non of absolution.  
What he may and should exact, how-  
ever, is the assured disposition on the  
part of the penitent to comply with  
the decision of the Church authorities  
when made known to him"—Ex.

Kodol Dyspepsia Cure is not a  
mere stimulant to tired nature. It  
restores the stomach complete and ab-  
solute rest by digesting the food you  
eat. You don't have to diet but you  
can enjoy all the good food you want.  
Kodol Dyspepsia Cure instantly re-  
lieves that distressed feeling after  
eating, giving you life and vigor. R.

THE COMMISSIONERS in the S. M.  
and M. R. & B. T. case met last  
Saturday, but adjourned to meet  
again next Friday, when it is  
hoped a final decision will be  
reached. We understand that the  
commissioners agreed on a grade  
crossing over Crowley's switch,  
but one of them wanted more  
time to consider the main line  
crossing, and an adjournment was  
taken until Friday. Since the  
commissioners have put the S.  
M. over the Crowley switch at  
grade, and in accordance with its  
maps and profile, filed in the  
office of the Clerk of the County  
Court of this county, they ought  
not to hesitate to let it cross the  
main line at grade, for the follow-  
ing reason: The weight of the  
testimony of the railroad commis-  
sioners, civil engineers and others  
testifying in behalf of the M. R. &  
B. T. regarded the Crowley switch  
crossing more dangerous than the  
main line crossing, because the  
crossing at the Crowley  
switch is at the foot of a three  
per cent. grade, while the grade  
at the main line crossing is only  
1.8 per cent.—Farmington Times.

NOTICE—I will leave my pres-  
ent stand the City Restaurant,

ginia Reform School. I find it the  
most effective, and absolutely harm-

month; or, I will pay \$25 reward for  
information which will lead to the  
arrest and conviction of said parties.

rage was never perpetrated by fiends  
in human shape.

dents are brought to justice.

## Children's Fertilizer.

That's a good name for  
Scott's Emulsion. Children  
are like young plants. Some  
will grow in ordinary soil.  
Others need fertilizers.

The nature of some children  
prevents them from thriving  
on ordinary food. Such chil-  
dren grow right if treated right.

All they need is a little fer-  
tilizer—a little extra richness.  
Scott's Emulsion is the right  
treatment.

Fertilizers make things grow.  
That's just what Scott's Emul-  
sion does. It makes children  
grow in flesh, grow in strength,  
grow rich blood, grow in mind,  
grow happy. That's what we  
make it for.
