Leonard Reed, a former section hand, was found dead on the railroad track near Schauf's Mill, in St. Mary last Sunday morning by the crew of the north-bound early morning Frisco passenger. The annual outing of the local Knights of Pythias was held at Rival's Park last Sunday. Members of the lodge, their families and their friends participated in the days festivities. Although a shower fell just about the time the picnicers had settled down to their noon-day meal, very few were disturbed by the sprinkling and the enjoyment continued unalloyed. Throughout the day various feats were indulged in, and unique prizes awarded the winners, much to the amusement of the contestants and onlookers. A 75-yard dash for boys under 14 years was won by Dewey Grieshaber and Win. Hahn, and one of like distance for boys over 14 was won by Francis Ernst. The 75-yard dash for girls under 12 years was won by Agnes Godfrey, and over 12, by Phyllis Abernathy. The potato race in which married women only were admitted, was won by Mrs. Anton Vogt. A 50-yard race by the fat men was won by Vince Valroy, who carried his avoirdupois very easily to the end of the 50. Jos. King, Supt. of Public Schools, was winner in the lean men's 50-yard run. It is said that Joe wiggled through the atmosphere like 5 inches of greased lightning. Expressing it in gentle "voah" we must say the "compulent" lady's race was won by Mrs. F. S. Brockett, and "sleender" ladies will henceforth have to acknowledge Mrs. Anton Vogt "fleet o' foot" champion.

Those of our citizens who happened to be awake or were awakened by the storm of last Tuesday morning were given a real thriller in the line of electrical works. The storm was just far enough away to eliminate the fear which, to most people, usually knocks the enjoyment out of such electrical displays staged on nature's big roof. Neither was there any wind to disturb the onlooker, who may have been taking widow or roof observations, without the least fear of being tickled under the chin by a dislodged chimney or booted from the year by an up-torn telephone pole. It was just a cool, calm sensible storm with a heavy downpour of rain which hit here about 2 a. m. The electrical display was most beautiful and those who failed to witness it would do well to change their habits and devote less time to sleeping.

\* We have been handed a copy of a circular issued from the Superintendents office of the Frisco at Chaffee, concerning the organization of a Freight Claim Preventive Committee on the River and Cape Division of the Frisco. The circular was handed to us by W. J. Pankley, agent at the Frisco depot in this city for publication but because of lack of space we are unable to do so. The object of the Committee is to devise ways and means to prevent claims and to bring about a decrease in freight claim payments. This can be done if the employees who have to do with the handling of freight will lend their close cooperation. Every employee of the division should feel that he is a member of the committee. The first meeting will be held at Chaffee, on Oct. 5, and all employees of duty are requested to attend.
